Gail Gosgrove, Club President Announces Plans; R. Nelson To Direct Production
ENTIRE CAST TO BE MEN
E. A. A. Dance Under Chairmanship of William Nolan To Take Place On Saturday Evening

The Men's Club, under the leadership of Gail Gosgrove, will feature a gala weekend February fifth and sixth. The play, "A Most Curious Affair," will be given Friday night, and Saturday night; Bridgewater will dance at the N. A. C. formal.

It has become an annual event that each year a play shall be given with an entire cast of men, and it is anticipated that this year's talent will again be equal. The current student director is Ralph Nelson. The leading man is Edward Skahill, in the role of George Howell, with Raymond Burnett as his wife. Their sister, Daphne, will be portrayed by the versatile Joan Burns, and Ralph Nelson, while Thomas Warren will assume the part of the Poet, and the Dunn will not, despite provoking laughter as the dumb but funny maid. Recently there has been much talk about putting bridgegivers on a real college faculty. This concern is growing among the students. Naturally we all want our courses to be taught by the people who are best able to lead us to new horizons. We should like to be considered ma­terial enough to make our own decisions and have the freedom to choose. We should like to be treated with a little personal freedom too. Neither aspect of the real world of importance than the others. Therefore, let us have equal improvement to both.

BOOK REVIEW

The Desert Fathers
by Helen Waddell

It is impossible to read even a para­graph of Helen Waddell's "The Desert Fathers" without realizing that the writers have come upon a vein of consummate wisdom. It is a collection of the lives of some of the hermits of the desert. The writers have translated the Latin with the high moral philosophy of Holy Writ. Those pages from the desert, long with suffering and meditation behind them, speak with the language of what is to render Miss Waddell the praise which is so deservedly hers, in giving us such a consummate work.

The volume, is, of course, a trans­lation, the result of sixteen years of diligent work. It has taken from the Vita Patrum, a vast collection of the lives and writings of the Desert Fathers, edited by Roewey and published in Antwerp in 1616. It con­tains, in addition to fragments of the Vita Patrum and the Verba Seniorem, parts of other closely related works. Except in two cases the originals were written in Greek and translated into the Latin. In the introduction and annotations Miss Waddell's translation from the Latin: the text is so made, for the sake of the unconscious mind. Just as the Freu­dians find a key to the perplexities of the state of mind is the answer. The state of mind is the answer.

The contrast is between them and the impassioned prose of St. Jerome's translation of the Latin: the state of mind is the answer. The state of mind is the answer. The state of mind is the answer. The state of mind is the answer.

Bridgewater people are so friendly! Although people are nervous and not very good at the art of interviewing, they do so perfectly. The cutest things happen, like they want to see my face in good shape. They talk a lot about the department and the geography department. At Central Junior High School in Quincy, I met a fellow student about my same age. We walked to the main building and talked for hours. We then went to the library and read for several hours. We laughed a lot and had a great time. Later that day, I walked by the main building again and saw my friend again. We talked for another hour and then went to the coffee shop nearby. We had a great time there and decided to meet again the next day.

On the second day, we went to the science building and talked with the professor. He gave us a tour of the lab and showed us some experiments. We were both very impressed and thought it was a great experience. After that, we went to the library again and read for a few hours. We then went to the campus bookstore and bought some books for our class. We had a great time there and decided to meet again the next day.

On the third day, we went to the art building and talked with the art professor. He showed us some of his paintings and explained how they were made. We were both very impressed and thought it was a great experience. After that, we went to the athletic center and watched a basketball game. We had a great time there and decided to meet again the next day.

On the fourth day, we went to the music building and talked with the music professor. He showed us some of his compositions and explained how they were made. We were both very impressed and thought it was a great experience. After that, we went to the computer science building and talked with the computer science professor. He explained some of the concepts and showed us some programs. We had a great time there and decided to meet again the next day.

On the fifth day, we went to the business building and talked with the business professor. He explained some of the concepts and showed us some programs. We had a great time there and decided to meet again the next day. On the sixth day, we went to the science building and talked with the science professor. He explained some of the concepts and showed us some experiments. We had a great time there and decided to meet again the next day.

On the seventh day, we went to the art building and talked with the art professor. He showed us some of his paintings and explained how they were made. We had a great time there and decided to meet again the next day.

Overall, I had a great time at Bridgewater College. The people were so friendly and the classes were really interesting. I would definitely recommend it to anyone.

At the end of the week, we all went to the farewell party and had a great time. We said goodbye and promised to keep in touch. I was sad to leave, but I knew it was time to move on to the next chapter of my life.

Joseph P. Smith, a junior at Bridgewater College, said, "I had a great time at Bridgewater College. The people were so friendly and the classes were really interesting. I would definitely recommend it to anyone."
