N.Y. Board of Education Seeks Teachers

With the cooperation of colleges in the Boston area, several public schools will again seek prospective teachers. Most of the vacancies are in the public schools of New York. The New York Board of Examiners will hold examinations for the various levels of education. Applications must be filed not later than Friday, October 4. Successful applicants may expect appointment for the academic year beginning in September, 1966.

The Senate Ways and Means is not going to pass the last minute bill for all state colleges unless it is balanced; this means the Summer sessions will be canceled with all of the resulting expenses of the State. Governor Volpe has been sending special messages to the college each month with $10,000,000 annual increase. Fiscal Year 1966 begins July 1, yet the budget for the next two years remains unbalanced. Governor Volpe has said that this aid will not be available next year if the colleges do not cut their costs. The state will not pay all of the costs of higher education.

Editorial

College-- A Means To An End?

As great emphasis is put on the importance of holding, net earning a college degree, larger numbers of students pour into institutions of higher learning, increasing their knowledge, but do not necessarily to increase their knowledge, but for higher learning, not necessarily to increase their knowledge, but for four years than get up at six o'clock every morning for six months. He could have married little Miss Cannot Wait, but decided college was the so involved in issues of major importance, such as which pair of pants mark him one of the "in" crowd. College is just a continuation of high school to Joe. As top man on campus he boasts gentlemanly C's. a blonde 3 Film: "Playboy of the Western World"

EXCHANGE

NEW TEACHER TRAINING PROGRAM

Dickinson College has introduced a new teacher-training program called "Education Seminars," which will enable students to spend only one semester in methodological training, in the senior year, and 2 3/4 years in the junior year. Students in the junior year receive closer supervision in practice teaching, while the majority of them complete the program over a 4-year period. The emphasis is upon subject matter rather than methodology. At one time, a student might as well have been a horse, a cow, a pig, or a dog, without a future. Now, a student is something altogether different, capable of understanding and appreciating the beauty and utility of education. The focus is on the psychology and education department at the university. There are many advantages, including the ability to receive closer supervision in practical teaching, much more time to prepare academically for the role of high school teacher.

CURTAIN UP

JOSEPH M. LENTINI

Possibly the most neglected aspect of the theatre is in terms of attendance figures, which often amount to a blank slate. The audience is the reason a play is a success. For the past few years, attendance figures have not been compiled, despite the fact that thousands of dollars have been spent on star performers, beautiful sets and extensive promotional activity. Producers, directors, and authors all seem to agree that merely producing a production on the stage is not going to generate reaction from the audience. In truth, most members of the audience do not know how to be an audience when they are not attending a play. No criteria has ever really been established, except in some few nationally known critics, as to what constitutes good theatre. Once these critics have spoken, the majority of the audience will say that they have seen the show, that it was good, and those who haven't seen the show will say that it was bad, or not according to the reviews.

This review falls far short in the stature of the theatre's offerings for the past year, but we do have something in common with Sichism -- an opinion as to what constitutes good theatre, and an assurance of keeping our mouth shut. The next time you are a member of the audience, keep these things in mind:

The mechanics of what goes on stage - the actor knows their lines and delivering them. Do their movements and facial expressions move with the lines so that you feel what the character feels? Does the actor say the lines so that you feel what you are seeing and hearing, or is it natural, emotional? Do your responses answer "yes" to these questions, then you are giving a positive aesthetic response.

Do the play itself - is the plot believable? Does the play itself have meaning? If you leave the theatre, do you feel you have learned something? What is the play to you, then, too, you have been a success as an audience.

The point of all this is that as members of an audience, we must be able to learn something from the play. We must be able to learn from the play. If you leave the theatre and say it was a flop. Of course there are the incomparable situations in which the actor's or actress' character is not able to understand what is going on. If the audience is able to get the message that is being told to you, then, too, you have been a success as an audience.

The point of all this is that is as members of an audience, we must be able to learn something from the play. We must be able to learn from the play. If you leave the theatre and say it was a flop. Of course there are the incomparable situations in which the actor's or actress' character is not able to understand what is going on. Bears drop opener

by KEVIN FARRELL

Last year the football team lost by 36 points to Frostburg, Maryland. An improvement - this season they lost by 33 points and even scored twice that number.

In the first quarter, the score remained locked, 20 to 20. It was a scoreless battle, keeping the pigskin in the middle of the field.

Second quarter: Benny dropped that fumble on the one yard line and dashed to the goal. Touchdown! The Bears went into halftime leading, 26 to 8. The second half was a blowout. The Bears outscored the Bobcats, 49 to 6.

It was a huge win for the Bears, but their own offense was unable to click during the game. The Bobcats defense was too good.

But their own offense was unable to click during the game. The Bobcats defense was too good.

On the cross-country level -- there is yet about who will win the championship. Ben Bong, 8 a.m. - Noon.
