President John A. Volpe is scheduled to speak at Commencement Exercises June 6. At this ceremony, the gymnasium will be formally dedicated to former Bridgewater State College President Rondileau, and the Science Building will be dedicated to former Bridgewater State College pres- ident and scientist, Dr. Daniel Webster. The Student Union Building will be held "symbolically" according to President Rondileau, because there is too much new work on campus to do it actually during commencement. Other dedications have been in- vited to commencement.

Next Facades Mark Campus

Architects have promised, according to President Rondileau, that the new dorms on Great Hill will be ready for occupancy by November 1, 1967. If all goes well, the new dorms will be dedicated to former Bridge- water State College President Rondileau, and the Science Building will be dedicated to former Bridg- water State College professor of Geology Teachers, New England Geology Teachers, New England

Soggy Students Bid

It started to drizzle, but that didn't dampen the spirits of either the auctioneer Mr. Robert Runcey, or the student bidders who gathered in front of the library Wednesday afternoon.

"Sold to that girl for two cents," yelled the auctioneer, and she be- gan to pack her stuff together as the drizzle of rain changed to a deluge. The auctioneer, who was eliminated from the building plans, was forced to speak at Commencement Exercises, June 5, Also at this ceremony, the gymnasium will be dedicated to former Bridgewater State College President Rondileau, and the Science Building will be dedicated to former Bridgewater State College president and scientist, Dr. Daniel Webster. Samuelson, N. Y. - DSM College will sweep away all so-called "ideology" requirements for general education, and substitute a comprehensive program for all the courses a student takes.

Gone with the traditional distributive system of prerequisites, the new academic calendar will have the student required to take two years of English, two years of mathematics, and one year each of social science, American history, science, and laboratory science.

Like most colleges, University of New Hampshire has required its students to take certain courses each academic year to complete a general education in the liberal arts. Several seniors, for example, have been asked to retake courses because they did not take them in their senior year.

The new University program of "comprehensive education" will require all students to take courses in social science and history each academic year, and three courses in each of the sciences: English, mathematics, science, and laboratory science.

President Harold C. Martin feels that the survey courses in each of these subjects are of interest to the student and should be offered. He also believes that the liberal arts should be taught in the form of a "general education in the liberal arts."

The first year of the new program will consist of courses in English, mathematics, science, and laboratory science. The second year will have courses in social science, history, and foreign language.

The student will be required to take two years of English and two years of mathematics, and one year each of social science, American history, science, and laboratory science.

The student will be required to take two years of English, two years of mathematics, and one year each of social science, American history, science, and laboratory science.

The student will be required to take two years of English, two years of mathematics, and one year each of social science, American history, science, and laboratory science.

The student will be required to take two years of English, two years of mathematics, and one year each of social science, American history, science, and laboratory science.

SPEAKING OF SPORTS

BSC Suffers Two Early Losses In Track

The BSC track team is off to a slow start this year. Although the squad is well organized, under Manager Carl Vaughan and Coach Swenson, lack of depth has hurt Bridgewater's runners and field man as usual.

BSC lost two track meets so far this season. One to Nichols College and the second to a powerful Fitchburg State College squad.

Capt. Mike O'Connor, top point getter for the Bears, garnered two first places for BSC at the Nichols meet. O'Connor's victories came in the 100 yd. dash and the broad jump.

Paul Fairbanks and distance man Bob Burwood have added points to the Bridgewater score in the field events and distance runs respectively. Burwood, a senior, has run both cross country and track, turning in fine performances, during his four years at BSC. Also placing for the Bears are Dan Smith and Ken Kirwan.

Field ace Joe Roper, star Tactics for the Bears football squad, competed in events against Fitchburg and was the only winner for BSC. Roper took the shot put with a fine toss.
