Leadership Conference: Speakers

by Dave Wilson

Miss Basila Neilan was still trying to catch her breath when interviewed by this reporter several minutes after she had led a large group of students attending the Leadership Conference, in, as she put it, "one of the most enthusiastic responses I have ever received!"

She was referring to her call to the students of the United States to end their contempt for apathy by joining her on the stage of the Hennessy Room and telling them that that was answered by students going onto the stage as applause thundered through the hall.

Miss Neilan, who has visited over 250 colleges and an even greater number of high schools in the nineteen years she has been lecturing, conducts her lecture in a carefully planned manner that is aimed at arouse her audiences out of whatever shabby daydreams they may be reposing in. She moves back and forth across the stage and dramatizes her points while her voice ranges from 'a quiet, almost whisper' to a strong voice. She has never made it very near to impossible for her student audience to pay attention to what she is saying.

She has a great deal of first hand experience with campus violence. As last year she lost her office for six days during the trouble at Brandeis, and he expressed his "pardon" that in less than a month he will be leaving the American college scene to accept a private position in Washington. "I'm not really happy," Mr. Kane said when questioned about his remarks, "just relieved. I've agonized over this pressure on campuses today, and it affects everyone." It was brought to his attention that Brandeis has been very quiet so far this year, and he laughed and said, "It's quiet only because the year just started, and that's the only reason." He refused to speculate on the future in this regard.

Ms. Neilan and Mr. Kane prepared this address for this conference. It is interesting, relevant lectures that set the tone for the day's activities.

INeDIA CELEBRATES GANDHI CENTENNIAL

by Clark Kent

BRIDGEWATER- The vast millions of India began a year long celebration this week to mark the birth of 100 years ago, and Gandhian principles were destined to change the course of history - Mahatma Gandhi. On October 2 2, 1950, Gandhi was born, and when he died 70 years later, in 1948, he had successfully led his countrymen in a revolt that broke the bonds of England's hold on his native land.

Mrs. Christina Roedan, Assistant Professor of Modern Languages at BSC, visited India this past summer and lived in Gandhi's home city, Ahmadavad. Her husband, who is a Professor of Political Science at Stonehill College, was invited to lecture at an Indian college, and Mrs. Roedan made the journey with him and set up a language program at Xavier College in Ahmadavad.

She was subsequently invited to lecture at Xavier, and she chose as her topic the discussion Bridgewater, American History, and Henry David Thoreau. She selected Thoreau specifically because that famous writer of Walden Pond fame was the author of a document that was to have a great effect on Gandhi, and many other revolutionaries. Civil Disobedience. It is rather ironic, because while Gandhi was influenced by Thoreau, Martin Luther King was to be influenced by Gandhi, and the effect came full cycle. Gandhi, like King, was a firm believer and avocat of non-violence. Both realized that political ends could be achieved without bloodshed.

Gandhi first rallied his people by promoting a boycott of British textile goods, which started a "spinning the home cloth" movement, whose aim was to influence every Indian to make his own clothing and not to purchase British fabrics. By inspiring acts of nationalism, and undermining deprecation and hunger strikes, Gandhi was able to see his dream of a free India realized.

Mrs. Roedan was greatly impressed by her visit to India, calling it "the most exciting country I've ever seen." She remarked that it was too bad that Americans are never exposed to the beauties and culture of the country, and hear very little of the important and inspiring stories that are taking to improve the conditions of India which although a country as old as man, a relatively new country politically.

During her journey through India Mrs. Roedan visited the family of another faculty member here, Mr. Thomas. Mrs. Roedan was asked if she could sum her experiences up in one word. "Fascinating!" she replied enthusiastically.

BSC VIETNAM MORATORIUM

BRIDGEWATER - On October 15th, 1969, over 400 American colleges and universities will observe one day moratorium to protest the present administration's handling of the Vietnam War. The plans are underway for Bridgewater State College to participate in the nationwide "Vietnam Moratorium Committee," whose chairman is this newspaper's Editor-in-Chief. Mr. Maguire, has been formed to coordinate the day's activities.

"The purpose of the Committee," said Mr. Maguire, "is to organize all of the various campus groups, and in the future of national Vietnem Peace Action Days. These days, according to Mr. Maguire, with peaceful, bipartisan, educational activities intended to cause the Bridgewater College Community and other surrounding communities to pause in the course of their normal business and consider the role of the United States involvement in the Vietnam War and to help those individuals to organize their own activities."

Mr. Maguire emphasized that the BSC Vietnam Moratorium is not advocating, nor will take part in, a strike at this College. The purpose of the committee is to "be tentatively planned include teach-ins, seminars, vigils, and an evening candlelight parade. The faculty will be asked to devote their classes to the discussion of the Vietnam War, on the 15th and will be invited to take part in the other activities on campus.

Last week, The Comment was granted an exclusive interview with Mr. Jerome Grossman, who is the President of the Massachusetts Peace Action Committee. Mr. Grossman, who is also President of the Massachusetts Peace Action Committee, (Continued on Page 3)
VIETNAM MORATORIUM

The Vietnam Moratorium on October 15 will mark a nation-wide public expression of the desire to stop the war. For one day educational institutions across the country will be galvanized into a solidarity of action. It's a chance for all those against the war to speak out and be heard in the strength of a national movement.

The Moratorium is a day for Americans to stop and talk to each other about the war. If the war in Vietnam had ended swiftly I doubt that it would be condemned. But the war has dragged on for nearly ten years and even the most patient Americans are losing faith. The latest reports estimate 38,000 Americans and countless thousands who have died as our "enemies." While President Nixon is determining his Asian policy, 10,000 Americans alone have been killed.

This Camp at Bridgewater will join those across the country in a movement for peace. Right now there is a committee of students working to set up a program for the Vietnam Moratorium on October 15th.

Everyone knows someone who has been killed in this war. Everyone who participates in the Moratorium will help to prevent someone else being killed by adding to the strength of this movement which must be listened to and not go unnoticed.

If you are against men being killed in this war, and nothing being done to end this madness, then I urge you to support the program of October 15th and help end the war.

Letters to the Editor

Letters are welcome, and should be no longer than 50 words typewritten, double spaced. All letters must include the author's name, class and address.

GENERATION GAP?

By S.D. Bennett

In the dormitory government workshop of the Leadership Conference on October 27th, a very enlightening this dear sweet workshop was held. I was very young, the president of the B.S.G. I learned all I could.

"You have something rare here."

"These are some of the compliments that were awarded the student government leaders guest speaker, a muscular, come-on-strong female social worker. When her speech was over and the walls began to restate, there was a question and answer period and then I took the liberty of enlightening this dear sweet the war and the students who are against it. A very good program was held. We learn how the government is formed in stages: small, limited, informal. The government is formed by the students. I understand me I possess, I stood erect and related the arsenal we know and love.

Thank you for letting me air my view.

Sincerely,

Joanne Kilmain Carran

Class of 1969

ANSWER TO HO

By S.D. Bennett

Any of the Long Haired Fuzzy Face and Mind Degenerate Pinko Commie Peace Lovers answer me, my love, Liking Freakouts. Okay guys, I've written a new article on this subject, Poor Ho's demise as I have whiskers in my mustache. (Which same mustache, which was McMillin's, or was 17%).

I've always thought that the critics waited until an artist (that title in this case being both academic and completely unquestionable) had died in a lonely garret filled with his paintings and dirty laundry. Mike's letter forces me to consider two conclusions: this one is not lonely enough, nor my formica laundry dirty enough to merit attention. 2. Mike is aware of a certain biological factor concerning my metabolism that I, not yet having finished my course in Health, was blissfully unaware of at this point.

In conclusion, so should I come across people who claim that I had died in the course of my will, I shall immediately write to you concerning my inability to continue to fill my present position.

Select one of the answers below.

T.J.

a) Garcia, b) Garliclove, c) Garlickin, d) Garlicaud. Those two, none of these.

Now, after reading this, if you have a student government, please take a look at the scene at BSC, drop me a line, I'd like to know. (That is if you're not apathetic, c/e paper.)

Love,

Steve

P.S. You faculty members, the ploys, great mentors who are moulding minds. What the hell are you doing for apathy? Spreading it? How many kids have you contacted with a copy of that copyspace end with Kepler's laws? Most of you are socially castrated. Go outside one day and pretend that you are trying to go to a football game.

Oh yea, prof maybe you've got a hang-up or want to sound off huh? Write me, also if it is your apathy!

WHERE A WALKOUT?

WHERE A WALKOUT?
The CIA AMENDS THE YAP GAP

Hark! I, Jean Tom, am typing again defying common sense, better judgment and a fair warning from a Cablegram to that effect from Jean Tom and his pookas. Crepidula and Abzeidoodle, defy things even more. We better judgment, common sense, free advice and the laws of nature. Henceforth enter the C.I.A. (Campus Intrigue Area) will henceforth forth put forth solutions to develop. Thus I will declare a Yap Gap as a participial paralysis of the college community and make statements at his last final press conference, which he now probably wishes he never made.

The one thing he said that has caused backers of the Moratorium to take heart was that he was "unable to be influenced in any manner" by this observance. This remark, which rings of contempt for the voice of the American people, has given the Moratorium its biggest boost so far. If you are sensitive to the War that American boys are dying every day, and that means either a supporter or non-supporter, you should plan to participate in some way in the October 15th observance. If you are willing to work on any of the committees and meetings which are being organized for this Moratorium, please come to the Committee meeting in Horace Mann Auditorium and sign your name for a specific activity. You have a responsibility for a free America to express your opinion, and you will have an excellent opportunity on October 15th, 1969.

The walk-out should be seen as a highpowered fire house capable of extinguishing any number of hotheads.

Now, I, Jean Tom, will brief you on a few things that you really should not have to worry about.

1. tripping over the railroad tracks, well Crepidula is saddened
2. the fact that you can not find a place to play cards in Oop Hall.
3. the fact the Penn Central engines are not equipped with cachetters.
4. the no deposit-no return plan you discovered in your flat.
5. the law you break every time you cross over the tracks beyond the parking lot.

Hark! I, Jean Tom, will brief you on a few things that you probably wish you could forget.

3. the doing portion to you. The doing portion to you. The doing portion to you. The doing portion to you.

If

"I understand that there has been and continues to be opposition to the war in Vietnam on the campus. As such this kind of activity is contrary to Section 14. It. Howevcr, under no circumstances will I be affected adversely by it.

MASS ENVELOPE Company and a close friend of Senator Eugene McCarthy, said that the current movement is, "proving so far we can't keep up with it. I'm really amazed." Mr. Grossman first thought of promoting some type of action last week, when it became apparent to him that President Nixon had me concrete plan to end the war. Crepidula are simply an expression of the people's discontent." Mr. Grossman, assumed, "like Sen. McCarthy was in the primaries. If people flock to our movement and we have been doing, it is not because we represent any ideal - no, it is rather the fact that we are perceived and we are their vehicle to express their discontent."

Highpowered fire house capable of extinguishing any number of hotheads.

..."I have been asked in this situation to consider a some-thing intelligent intelligibly? Well, just keep doing things that he had long age dismissed as too difficult, uninteresting or too time consuming.

A Gnostics ANONYMOUS will meet each Thursday at 3 p.m. starting Oct. 9th in the same location. The topic for the first meeting will be "God Talk."

Most students and faculty see no relevance between what they are doing on campus, and the activities of the parishes from which they have come. Students arriving on campus expect religious groups to be dull, hypocritical, concerned with pious prattle. We need a new spirit of freedom and daring.

The student, concerned for self-knowledge and discovery of what it means to be a man or a woman wants freedom, adventure, this is a worthwhile adventure, and needs be challenged to respond to what is best in him. Also, those in this group will have doubts about his religious beliefs, and will be provided with material about the Christian faith on the level of his growing secular scholarship to enable him to make his decisions in the freedom of knowledge. Opportunities provide opportunities for religious growth.

Questions about other religious ethos, the existence of evil, and the need for a purpose for life will crowd his mind and be the better for having opportunities to discuss them fully.

CREATIVE BROODING, will meet Thursday at 4 p.m. Oct. 9th at the Christian Fellowship Center.

Speculation always carries within it a high degree of risk. You can win big. You can lose big.

There is no in-between. And there is no knowing of the results until you take the plunge. It is useless to talk about the chances. There is only one way to know -- and this is to "jump in."

If you honestly submit your life to scrutiny for a few weeks, there is a good chance that you are going to get involved in some corrective steps that may turn out to be quite costly. And the others in the group have the right to expect you to carry out what you claim you are going to do.

In turn, you will probably get involved in helping the others in their group in their struggles and adjustments more than you have dared to get involved before. And all this implies a certain sense of good faith on you part. The whole success of the group depends upon this fact that everyone is willing to hold up his end of the rope.

Are you a gambling person? Then you can join at your own risk.

BIBLE STUDY. This involves an in-depth study of the sermon on the Mount led by one of the local pastors, Reverend William Webb of the Baptist Church, Students interested in sitting up for this group should contact Rev. Webb, 697-2983. Students are invited to come to the first meeting and see if this is "their thing." A decision not come to continue may be made after the first meeting, according to the group's decision. The groups are open to students Christian-Non-Christian-New-Old etc. The groups are sponsored by Christian Fellowship and led by Reverend Richard Hughes and selected faculty members.
THE POORLY ATTENDED SCA LEADERSHIP CONFERENCE RATED SUCCESS BY THOSE FEW WHO GOT INVOLVED

A good luncheon

C.F. Newman visits Lakeville Hospital

For the past two years, the Christian Fellowship and Newman Club have sponsored visits to Lakeville Hospital every Thursday night. The young children and teenagers at the hospital always look forward to our visits. They love to have people to talk to, play cards and other games with, and just have a good time.

It's really fun for us, and it cheers up the patients immensely. So why not join us in a very worthwhile and rewarding project? We're sure you'll enjoy it and you'll be doing a great favor to children in need.

The bus leaves from Woodward and Great Hill every Thursday night at 6:30 and will return by 8:30. ALL ARE WELCOME—SO SEE YOU THURSDAY!!

GEOLOGY LECTURE SERIES

Geology Lecture Series Conant Science Building page 4

Oct. 28: Anthony Mariano Research Geologist Kennecott Copper Co. will lecture on “Carbomites and the Search for Precious Metals”

Dec. 3: Professor Marion Wright Professor of Geography, Rhode Island College will lecture on “South America, Cultural Contracts”

Dave Cappella fields a question about Social Activities

Mr. Rose’s Films

by Dana Pierce

We lack imagination. One way to increase our imagination is for us to watch films that make us think. Thus Mr. Rose has asked his four sections of Freshmen English to watch some films he has ordered.

The first of these films, “The Masque of Red Death,” was viewed in the Science Lecture Hall September 23rd. There was a good showing and if the enthusiasm keeps up at the coming films we’ll run out of seats. All are invited and urged to attend but don’t be surprised if they run out of room. If the demand is really great there will be two showings of the films so that all may watch.

Originally, Mr. Rose wanted to have some fifteen films for this year. Unfortunately the State Government and Federal Government changed their invoice systems and the resulting delay has made it possible to get only five or so of the desired films. The films we will see are: “Macbeth,” “The Seventh Seal,” “The Big,” “Gold Rush,” and possibly two others, (“Black Orchids” and “Occurrences at Owl Creek Bridge”). These movies last about one and a half hours.

Mr. Rose thanks the Audio-Visual department for “extraordinary help and cooperation.”

Besides the movies, poetry readings will also be held to stimulate imagination. All of these activities are free.

Wine and Hot Dogs under the Willow Trees

by Dalleen Capeilly

Eugene O’Neill’s THE ICE MAN COMETH opened Thursday at the Charles Playhouse in Boston. The selectie realistic set depicted the drab interior of a third-rate bar containing twelve drunks kept alive by improbable “Pipe-dreams.”

The main action resides in the “reformed” Theodore “Hickey” Hickman a salesman, enthuasistically peddling his pseudo-salvation to his former fellows in failure. Mutual rationalization breeds self-satisfaction. Mirth, tears, but for tomorrow is made in drab dreams.

A man without dreams is a man with no tomorrow. No tomorrow . Conclusio Through the outstanding characterization by such actors as: Sherman Lloyd as Jimmy Pol SOME Barrooms as Harry Hope Victor Arnold as Rocky Piggly Richard Kneeland as Hickey Frank Rottbach as Willie O’bain the 4 hr presentation was pleasingly endured.

**Relations Club Meets**

Undoubtedly the least known and busy campus is the International Relations Club. Is it because the members are still students of political science? or that sharing their unique thing with the rest of the campus? Well, the members have made up their minds! As of NOW membership is open to the entire student body.

Just as the IRC? Not only is it great to get together with international students, but the people to discuss current events but the IRC is also a club of ACTION. Last year eight members of the IRC attended the Model United Nations Conference at the State University of New York at Buffalo for four days. During their stay in New York the delegates attended The Model UN sessions at the hotel, visited the United Nations, attended numerous social functions and toured New York City.

So what if you're not too familiar with current problems of today or parliamentary procedure? One can always start. (Write to the dean Mr. Donald Kray the club will surely be successful again this year.)

What happens if ' things happening around you? First meeting of the year is October 8th at JPM in the Pope Hall (upstairs). First order of the day will be the upcoming New England Model United Nations sponsored by Brown University, Bryant College and Providence College in Providence in November. Hope you can make it!

**BRIDGEWATER**... The season's opened, the first blood has been spilled and Bridgewater is on its way. The game with Bates in Maine was an interesting one, and I would not form an opinion from the above I asked the Boarmen. Surprisingly the best playing was exhibited by the newcomers to the team rather than the veterans. Waters showed a lot of promise at the end of the game, however these two performed well.

Waters showed a lot of ability in scrambling out of difficult situations. He was doing a lot of passing and hitting his target for the end zone, but on the long ones he hung the ball up too high. Hickey seemed good for short bullet passes, getting rid of the ball very quickly.

Steve Vail playing at H.B. and defense pulled in two interceptions near the goal line to hold Bates from making those T.D.'s. He looks quick and should develop into a good back.

The backs couldn't seem to make it around the corner on the sweeps. Sullivan was hounded because he had to wait for the ball on a couple pitch-outs. He looked good on a couple pass plays, pulling in the yardage, and the opening T.

McGrath was playing heads up defense, cracking quite a few heads. Offensively the Bears have to do a lot of work on their pass blocking. Too many people were seeing in, not giving the Q.B. time to do what he does best. It's not that the guys aren't tough enough, they just have to develop their own technique of cracking heads, backing off and cracking again. Several of them didn't know when to pull down after the initial contact.

If things develop smoothly, the handling of things for the remainder of their future contests, providing they do not get down because of this first loss.

The men's Phys. Ed. classes got new tennis rackets! Everyone will want to use them in their future matches. The women will see new rackets, the hockey teams may be able to use them in their future matches. The women will see new rackets, the hockey teams may be able to use them in their future matches.
The Student Union has been in planning for nine years, and shall finally open next fall. The building of the Student Union has been under the control of the Building Bureau of Construction. The Contractor is Park Construction Co., and the architect is Guresian Co.

The final cost of the Student Union will be about $6,000,000. There will be no mortgage on our building when it is completed.

The building should be finished by July, 1970 and opened in September, 1970, with a dedication date to be set.

By the end of this month, the entire building should be under cover of the roof, and work on the interior will begin. Mrs. Nancy Clark is the Interior Designer the Committee has recommended and we await an ok from the State, so she can get to work. We also hope that the Director will be chosen and to work by second semester.

The offices of the Student Union shall be assigned each year by use and application to Campus organizations.

The Union should be a gathering place for all people on BSC Campus. It should become the center of all Campus activities and happenings. This will be your Student Union.

If you have any legitimate ideas for your Student Union please see one of the members of the Student-Faculty Committee.

BATE'S DOWNS BEARS

36-15 IN OPENER

Bridgewater...Starting off well, Bridgewater picked up the first touchdown in the opening minutes.

Taking the ball on their 33 the Bears began moving with Federico picking up a quick seven. He got a first-down and after a short series of plays the ball was on the five-yard line. Waters tried running several up the middle but found a solid wall. A 25-yard pass in the flats to George Sullivan brought in the 6. LeFavor kicked the extra point.

Bates had the ball for most of the time. They scored shortly after on a play from Andrek off tackle, with LeChance making the extra point.

Kephie took in the kickoff and brought it up to the 25. The Bears could not get the ball moving. A pass to Matheson was nullified because of a penalty.

Waters got dinged up for lossess because of poor pass protection.

Bates took the punt and began moving. Fitzgerald gained 13 yards on a flanker from Boyko. They were moving the ball right into the end zone when Vail picked off a Boyko aerial returning it to Bates' 33. Bates intercepted and then set up for a 55-yard scoring pass, making it 1-7.

After a frustrating attempt to get the moving, the Bears gave up the ball to Bates. Boyko scrambled for a 35-yard gain. Slacking up first downs, Boyko countered off tackle for a touchdown and with the extra it was 1-7.

Bates took over again and moved the ball to the Bridgewater 40, where Vail intercepted the ball bringing it to the 34. Waters hit Sullivan for a 25-yard gain. Bridgewater picked up a 15-yard penalty for holding making it 3rd and 16. A pass into the flats to Federico was overthrown and the Bears had a punt.

Logan scored on a draw play for Bates from 15 yards out, and then walked in for the extra making it 29-7.

Rothb took the kickoff back to the 39. Then he picked off a first down. Fanning caught a Boyko aerial to bring the ball to the 10-yard line. A quick pass to Roath was good for the T.D., and likewise on the extras, making it 1-7.

An on side kickoff attempt almost worked; however, Bates held the ball.

Bridgewater got one more chance at the ball, but couldn't move it.

Bates moved in for one more T.D. making the final score 36-15 in favor of Bates.

PRESS BOX

MODERN DANCE CLUB

Bridgewater...The Modern Dance Club is off to a good start this year. They are working under the direction of Mrs. Coral Wolfe, a former member of the Mettle Dance School in Tucson, Arizona. She is a member of the Wiggan School in West Berlin, Germany. She taught dance in Portland, Oregon, Oklahoma, Arkansas, Washington, Indiana; and is now a part-time member of the faculty at Bridgewater State College. The Modern Dance Club is open to beginners, intermediate and experienced women. The club is meeting on Monday nights from 6:30 to 7:30.

They put on their first show of the year on Nov. 13 & 14. Take advantage of this wonderful opportunity to improve your modern dance techniques.

GOLF TOURNAMENT

Bridgewater...The Women's Recreation Association is sponsoring a Ten Pin Bowling team for all the women on campus. Dr. Sharon Tiff is the faculty advisor for this club with Bonnie Roberts as a student organizer. There will be a general meeting of all interested women on Tuesday, Oct. 7, in room 121 (in the gym) at 5:00. The team will compete in inter-collegiate competition throughout Southern Massachusetts.

W.R.A. CAMPING TRIP

Bridgewater...The Women's Recreation Association is jointly sponsoring a camping trip to Camp Union, Greenfield, N.H., on Oct. 18th & 19th with the Women's Recreation Association at Salem State College. The women will leave Friday night and return Sunday night. The weekend will be spent enjoying such outdoor activities as canoeing, boating and hiking.

The cost for this weekend will be $16. Only 15 girls will be able to take part in this trip. Sign up now! The deadline for registering yourself to this great opportunity is Oct. 10th. Sign up on the W.R.A. Bulletin Board in the Ad Building.

POOL HOURS

The pool will be open on Mondays from 6:00 to 6:45 for women only and from 6:45 to 7:45 for both men and women. Mins hours will be from 7:45 to 8:30. This schedule will be in effect on Tuesday and Thursday nights also.

name, Kathy Corrigan, she excelled in side horse vaulting and on the uneven parallel bars.

For the past two years Mrs. Ekas has been conducting gymnastic classes for boys and girls of all ages in group sessions. The present enrollment of her studio is 500 instructors and she is assisted by 30 instructors.

The club will meet on Mondays from 4-5. All people interested can meet with Mrs. Ekas on Mondays. If the group wishes to meet in addition to this one session per week, more meetings will be held.

The Bears open at home vs. Frostburg.
The Student Cooperative Association will debate and most likely vote on the proposed Student Judiciary Constitution today. The COMMENT asked SCA president J. Robert Mancini if he anticipated any difficulty in passage:

"As a whole, I believe that most of the Council members are in favor of some type of Student Judiciary. Unfortunately, however I am not completely confident that the proposed Judiciary Constitution will pass in tact. There may be some disagreement over methods of appointment of justices although I have received the support of the Board and administration."

Most opposition however, arises out of lack of understanding of legal procedure in general. This proposed judiciary is set up by a court of law and guarantees the defense maximum due process of the law.

I hope the council will keep this in mind and therefore attempt to alter it with petty disagreements over procedure."

In addition to the Judiciary, the Council will vote on an endorsement of the Vietnam Moratorium, as well as a recommendation to put students on the Board of Directors of the bookstore.

The 6-7-99 Finance Committee will also be elected from the council.

The meeting will be held at 4:15 p.m. in the seminar room on the second floor of the Ad Building.

SCA MEETINGS ARE OPEN TO ALL STUDENTS.

Roots and Wings

Roots and Wings is: (check one) A. Horticultural branch of the U.S. Air Force b. Creatures from Albanian mythology c. A Chinese dish d. The reconciliation of opposites according to the Hindu philosophy of ying and yang e. None and all of these.

If you chose e as your answer, you deserve an extra point in your cultural cumulative. Roots and Wings is Bridgewater's own literary magazine. After a summary respite it again arises in an inspired fury of feathers to awaken sleeping geniuses and near-geniuses: poets, artists, short story writers, playwrights, critics and curios.

Freedom is the theme of its song for unlike a newspaper there are neither assigned articles nor any specific style desired. Submissions are open to all the important little things, like the many drops which make up a rainstorm.

A banner done in reds, yellows, hot pinks, hot oranges and metallic gold, speaks of sun, heat and daytime. The sun is a source of life, the artist reminds us, and without it nothing could grow. The warm, wooly texture of the banner is another reminder of sun-glow.

The basic motif of the next banner is life, symbolized by a seed pod or womb from which a stylized tree grows. The scene from which it springs is done in rich browns and greens to show experience, its memory, or its perpetuity.

The blue-green banner sorrow. It is an uncomfortable reminder of sun-glow. The basic motif of the next banner is sun heat, and daytime. The summit of experience, its memory, or its perpetuity, is always spoken of as happily covered with a candy coating,
