Students and their parents in Bridgewater's history in this program. Mr. Harrington has a major role in the program. Brockton alone is using about 40 of the approximately 300 BSC students in ED 210. Currently, on a more local level, BSC is also cooperating with Bridgewater-Raynham Regional High School, as part of the off-campus segment of ED 210. The Bridgewater-Raynham Miss Betty Torrey, a guidance counselor at Brockton High School, assisted the BSC students with high school students on an individual tutoring basis. The off-campus program at Bridgewater-Raynham is unique in that it is carried on largely in this one-to-one basis.

In order to give the off-campus student participation in the program, future students must be able to take courses that expose them to the many school systems now involved. The off-campus program was viewed as mutually beneficial to both the school systems and the students. The program provides the schools with an additional level of academic help as well as the BSC student with practical experience.

BSC students completing the ED 210 course at last semester's end were given the opportunity to evaluate the program. Members of BSC's Secondary Education Department asked for student evaluations of the total ED 210 course. Student reaction was overwhelmingly in favor of the new program. Students evaluated the course as well carried out and representative of its objectives.

The effect on many students was to make them eager to begin student teaching. A very few students decided not to continue in their teaching field. In both cases, the actual educational experience was valuable.

The off-campus segment of ED 210 is invaluable in its success in allowing BSC students to take the initiative in their own educational experience. BSC opens the door for its students by offering letters of introduction to school systems in behalf of BSC students. The individual student, however, remains responsible himself for locating and performing his educational responsibilities. They be in tutoring, creative, or in some other activity.

The Secondary Education Department feels it is encouraging and developing a professional attitude in its BSC students as a result of the increased responsibility it is giving them.
GUEST OPINION

STATISM AND SURVIVAL

by Jim DeWitt

Many of today's political, social, and economic problems stem from overpopulation and the consequent scramble for the limited resources of the earth. This crisis results from man's natural urges to procreate and consume at the expense of other creatures of the earth. In ages past, when the struggle for survival was more difficult, these natural drives were related to a relatively greater value to the species than they are today. Now that medical and technology have reduced death rates drastically, the well-being of all populations is being endangered by the same forces which once meant survival.

As populations have grown ecologically throughout the nation, the issue of overpopulation has become more acute. The government has passed several laws and regulations to control the growth of the population, but these measures are not always effective.

The program of population and resources will need to increase in the foreseeable future, and likewise the movement towards a more homo sapiens will need to gain momentum. This is due primarily to the basic economic realities of production, distribution, and consumption. In short, economic survival will be small, fewer demands will be made on the freedoms of the individuals. Mass societies, such as those of the twentieth century, the freedoms of individuals will be comprised to an even greater extent for the good of the whole order.

The larger society which has grown in wealth, technology, and population over the past century has come to be seen as increasingly valid. The movement of politicians, the voluntary adherence of the rights of the early years of the republic toward today's executive order, military occupation and the protection of the nation against a con- tinuing conflict in government tend to be seen as desirable by the simple fact that the increasing number of people has concentrated in government, regardless of the nature of the classical, liberal, conservative or other liberal traditions. How many of them realize that this is a product of the population pressures.

The National Teacher Examinations will be administered on April 8, at Bridgewater State College as a test center for these examinations will be eligible to take the test. In addition, the designation of information describing registration procedures and examination forms as well as sample test questions may be obtained from Association Headquarters.

The examination, which is prepared and administered by the Educational Testing Service, Princeton, New Jersey, are limited to assessment of those teachers and teacher candidates that are valid and reliably measured by well constructed multiple choice and pencil tests.

The decision of the University of London, England, which has been enfranchised voters registration at 6.7%. I am running for freshman delegate to SGA and would like to make you familiar with what I believe and advocate.

I am primarily in favor of use of discretion in the spending of SGA funds, a student book exchange, the advertisements of Students' Rights and Freedoms Statement, and the setting of student interests to the search for Academic Dean.

I would also like to investigate the possibilities of student participation in the evaluation and reappraisal of non-tenured faculty members, and in the informing of incoming freshmen of what books can be bought second-hand from upperclassmen.

At any rate, I hope you will vote on February 23, and if I am elected delegate I will execute to the best of my ability.

Sincerely
Melisse Bennett

Great Hill

[Letter to the Editor]

I'd like to play in the mud and I'd like to tell you why I'm running for freshman delegate.

The Freshman class is an important part of Bridgewater and I am sure that there are many people who are willing and know that they are. I am one of those people. I've been a leader as follows: I am a SGA Student Council member, President of the SGA, Captain of the Drum Team, to name a few.

Secondly, I feel Treasurer is a much better position for me to hold than Secretary. I have no money it will never have any power; you need a capable person to do the job. My Treasurer beore and know the job and if I can add any, 2 3. I've never been successful in making my points and I have worked and I can do that very much better.

Secondly, I feel Treasurer is a much better position for me to hold than Secretary. I have no money it will never have any power; you need a capable person to do the job. My Treasurer beore and know the job and if I can add any, 2 3. I've never been successful in making my points and I have worked and I can do that very much better.

Sincerely
Regula

To the Governor:

Again, this week I would like to mention the possibility of the up-coming election. This could be a more important thing than you would think. It is a chance for you to choose the four people who will run our government.

The Governor is a very important part of our government and they will be your choice.

I feel that you should vote and vote wisely.

Sincerely
Regula

AN APPEAL TO B.S.C. DORMITORY STUDENTS

The purpose of this letter is to appeal to the dormitory students of the Bridgewater Republican Town Party. We have held town meetings to obtain official signatures for our promises to each dormitory house student is quite necessary. We have been bothered to register to date. You should register if you dare. I will be happy to pay the State and Federal governments as they do not want to lose any of the votes. You should register if you are of the age.

I feel that you should vote and vote wisely.

Sincerely
Regula

AN APPEAL TO THE SGA

The SGA is a very important part of our government and they will be your choice.

I feel that you should vote and vote wisely.

Sincerely
Regula

I think that we need to investigate the possibilities of student participation in the evaluation and reappraisal of non-tenured faculty members, and in the informing of incoming freshmen of what books can be bought second-hand from upperclassmen.

I would also like to investigate the possibilities of student participation in the evaluation and reappraisal of non-tenured faculty members, and in the informing of incoming freshmen of what books can be bought second-hand from upperclassmen.

I would also like to investigate the possibilities of student participation in the evaluation and reappraisal of non-tenured faculty members, and in the informing of incoming freshmen of what books can be bought second-hand from upperclassmen.

VIOLENCE AND SELF-RAMPANT

Between The French Connection, Dirty Harry and Clockwork Orange, the violence quotient seems to be going out of control.

Various critics have defended these films against the charges of unnecessary violence. Clockwork Orange, we're told, is really an analysis of violence within a serious ethical framework, so it's ok. French Connection is "realistic": most cops, especially nervy, are guys, so let's not worry about it. Dirty Harry and Straw Dogs, on the other hand, the violence can be excused as the regrettable, though understandable, efforts of a character to get even.

Maybe, perhaps, the most violent film of all, is another author film, Straw Dogs, made by the Wild bunch, and Hide the High Country. Here, a case can be made quite easily for the author's artistic purgative, as the thematic underpinning of the film seems to be that rightwing militia are uncommitted American in flight from his country and his political responsibilities. In the end, he is forced to make a physical action, and in terms of the film's theme I have to agree that in finally making the decision to kill, on the basis of his art, Miss., to 9:15, a film.

OPENING: Jack Bush. 20 paintings, $1. Tues. evenings 5 to 9 Free.

Between The French Connection, Dirty Harry and Clockwork Orange, is sligt uglies and more frightening than a mere abstract evil of the liberal demimonde. What I get from Straw Dogs is that - if something is happening you, the proper method of action is to kick the shit out of it, cut it down - not for reasons of logic, or even political necessity, but just cause it'll make you feel good and everyone will think you've a real heavy dude, a "real" man.

In all the film's mentioned above, the central characters are mindlessly violent men. Even though they can be termed embody, this still begs the question, for as central character, we can't help identifying with them and in a moral sense individually. Alex, in Clockwork Orange, is a homicidal psychopath, and although Richard is obviously not advocating random violence, the structure of the film is carefully calculated to make Alex's violence seem positive, correct, and even good. In Connection and Harry, milky aide, we are once again made to identify with brutality and sadism - and, in terms of the film's moral structures approve of them. At first glance, Straw Dogs would seem to be the best thing in the lot, making a case for the necessity of violence under circumstances, we must agree, seem to call for it. Yet, the underlying, simplistic idea that violence must be set aside with the very real cry of the original con-
