Nader-Reformer and Moralist

Ralph Nader didn't find instant allies for his consumer crusade when he was young. He was naive and didn't even know what he was getting into. But he was so ignorant that he was allowed to become a naive politician himself, which is a most curious cover.

Nader is irritated by such naivete. "If I were trying to prevent cruelty to animals no one would question my motives," he once told a Senate committee. "But because I happen to have a valid case of propriety which leads me to engage in prevention of cruelty to humans, my motivations are constantly being queried into.

Nader's hordecore lists six Federal laws, two agency organizations, and perhaps most significant-creation of a movement, or force, that has affected the way business and government operate.

On the other hand, critics say Nader's most important legacy is his own and unadulterated vigor of business and government-a feeling that they cannot justly take the public at every turn. There is constant talk that Nader cannot really be defined as a presidential candidate. But Nader says he is uninterested because any office seeks the apotheosis that White House has built. He has expected people to run for the Senate of those from Connecticut.

Nader grew up in Winnetka, Ill., the youngest of four children. Born to parents who immigrated from Lebanon. His father ran a small firm, where Nader learned a lot about work long hours.

He graduated summa cum laude from Princeton, but got only average marks from Harvard Law School where he devoted much time to outside activities.

Nevertheless, the Harvard Law Record, which Nader once edited, has distilled several years ago that the most distinguished graduate in the long and illustrious history of Harvard Law may well be a $5,000-rear private citizen named Ralph Nader.

Allies and enemies alike credit Nader as being a major force in Congressional passage of these six laws:

The National Traffic and Motor Vehicle Safety Act of 1966, which has led to mandatory seat belts, dashboard padding, rollbars, brakes and steering trunnional abuse.

The Wholesome Meat Act of 1967, which extended Federal inspection of meats and equivalent to meat plants on its equivalent to meat plants on their products.

The Natural Gas Pipeline Safety Act of 1969, was designed to stop underground pipelines from exploding or leaking.

The Radiation Control Act of 1968, under which the government is charged with preventing dangerous radiation exposure from television sets, microwave ovens and other electronic devices.

The Coal Mine Health and Safety Act of 1969, which sets Federal standards designed to prevent underground tragedies.

The Comprehensive Occupational Safety and Health Act of 1970, which is aimed at preventing Factory accidents.

Besides legislation, Nader has added over activities through critical reports issued by "Nader's Raiders." These are groups of college students, usually led by a full time Nader aide, which spends months scrutinizing some Federal agencies.

The "Raiders" have produced such books as THE CHEMICAL FEAST, Ralph Nader's report on the Food and Drug Administration, VANISHING AIR, a study of air pollution, and THE INTERSTATE COMMERCE COMMISSION.

The

Practical Joke Closes Science Building

BRIDGEWATER-Shortly before 2:40 pm on Monday afternoon a Bridgewater fire truck pulled into the Science Building, and Fire Chief Sweney closed the building. Apparently no one was in the Blazers was in one of the physics labs early Monday morning. The labs were closed so as not to disturb Nader's research.

Although the workers were busy working on the building, there was no sign of the fire. The fire was caused by a "bomb squad" who removed and later analyzed the two vials of a clear, odorless liquid. The liquid was contained in a bomb. The vials were found and taken pending further investigation.

Several members of the administration met in the Science Building to discuss the situation. They agreed that: "An anonymous witness was subject to a very practical joke and there is concern that a pack of practical pranks will occur again.

The Bridgewater Fire Department released its information to the campus police, so further statement was available.

The campus police gave the information to Mr. Werner, who is not on campus. Neither the administration in Bridgeway Hall nor in the Science Building reported any information to the campus police, so further statement was available.

The Bridgewater Fire Department verified that the vials contained glycerine, but no further information could be obtained.

The Bridgewater Fire Department released its information to the campus police, so further statement was available.

The most distinguished graduate in the long and illustrious history of Harvard Law may well be a $5,000-rear private citizen named Ralph Nader.
General Questions About Giving Blood

WHO CAN GIVE BLOOD?

Anyone in good health over 18 years of age, and over 30 years of age for women. After the 4th birthday, donors may be accepted if they have written consent from their personal physician dated within 2 weeks of donation and if they meet all other criteria for donation.

DO I GET A CARD STATING MY BLOOD TYPE?

Yes, after your first donation you will receive a card showing your blood type.

HOW OFTEN MAY I GIVE BLOOD?

Every 8 weeks and up to 5 times within a two-month period.

IS BLOOD EVER WASTED?

No, whole blood is useful for transfusion up to 21 days after donation. Beyond this period blood is spoiled in accordance with standard medical regulations, which are vitalized by the medical profession. MAY I EAT BEFORE DONATING?

Yes, you may eat a regular meal, but refrain from fried foods containing fatty foods such as butter, egg, cream, mayonnaise, etc., during the four hours before your donation.

IF I NEED BLOOD HOW WOULD I GET IT?

Individual donors may secure blood for themselves and members of their immediate families anytime within one year from date of donation by calling their local Red Cross Chapter. Groups interested in securing blood for themselves and their immediate family members may call by their group Blood Chairman.

Carl Orff and His Scenic Cantata

Orff's source and inspiration were 13th century poems of a secular nature taken from a manuscript in the monastery of Benediktbeuren in southern Bavaria. The poems, which were intended for singing, are somewhat obscure. The goliardic mixes Christianity with secular beliefs; they ate, made love, drink, and praised the beauty of life about them. It is this quality, as much as the translations of the poems, which underlie his music and remain in the students' minds long after they graduate. The goliardic mixes Christianity with secular beliefs; they ate, made love, drink, and praised the beauty of life about them. It is this quality, as much as the translations of the poems, which underlie his music and remain in the students' minds long after they graduate.

HELP!!

At the last meeting of the 1973 yearbook staff there was much difficulty in deciding upon a theme and design for our yearbook. Since we know that this book is not only for those on the staff but also the total Junior class, we are looking for your help. If there is any Junior who is not on the yearbook staff but has a design for our cover that he feels would suit the theme of our book, here is your chance to contribute to its design. The staff is looking for the most original ideas seen yet for a yearbook at Bridgewater. Those who are looking for a cover design with a theme that best expresses the firing of our seniors at B.S.C. If there is anyone with any ideas, they can leave them at the information booth at the Student Union. It is hoped that we can get a variety of ideas to choose from by the next meeting so that we could like your cooperation as soon as possible.

GREEN ROOM
President Addresses Union on Higher Education

"Higher Education is in the midst of a future shock," Dr. Adrian Randell, President of Bridgewater State College, said last Tuesday as part of a presentation at the University of New York.-The Educational Conference of the New York Region of Amalgamated Clothing Workers of America (AFL-CIO). "In my lifetime," he continued, "I have done in about 60 percent of all high school graduates who are determined to go into some type of higher educational institutions. That includes every rich, and poor, white collar, blue collar, and every race, creed and nationalities. This is something that we cannot take for granted. We must fight for it ourselves."

"There are two major factors that we must involve ourselves in to protect the whole concept of really making higher education available, accessible and affordable to every student, and the other is to develop and develop a wide variety of academic and vocational programs for your sons and daughters in the public schools, colleges, the public community college, the public technological institutes, and the public universities." The future was full of problems, he said, and change in the United States has always been in the nature of the educational system. As he sees it, the educational system of this nation is changing rapidly as well. "The educational system has been able to summon the men and women of the future to come up with workable solutions. We are well in the new educational system. The educational system is changing rapidly as well."

Dr. Randell, in answer to a question at the end of the conference, said, "I think we are all aware of the changing climate of education. It is an age of uncertainty for all of us.

"Today," he said, "there are $300,000,000,000 students in Andover, and universities in the United States and the University of New York. The project itself, the figure of students attending colleges and universities with $9,000,000,000 in public universities, 50 percent. It is predicted, however, it may be in the future." The conference was attended by American College of Educators, the University of New York, and the University of New York. The project itself, the figure of students attending colleges and universities with $9,000,000,000 in public universities, 50 percent. It is predicted, however, it may be in the future."

The project itself, the figure of students attending colleges and universities with $9,000,000,000 in public universities, 50 percent. It is predicted, however, it may be in the future."

Why Go To College

Despite the recent tight job market for college graduates, U.S. Labor Department analysts said last Tuesday that the need for education will be the best job insurance in the coming decade.

Not only do figures from the Bureau of Labor Statistics continue to show that the average income of a college graduate earns much more during the period of 1970-75 than the average high school graduate, but the figures compared with 1973-78, show a widening gap.

The figures also indicate that private security for most college graduates, even during hard economic times.

The bureau's figures indicate that job security is much greater for most college graduates, even during hard economic times.

BULLETIN BOARD

There will be an important German club meeting, Monday, March 21, at 10:00 a.m. in the Green Room. Don't miss it! We'll be there.

The P.E.M. Club and Women's Phys. Ed. Dept. will co-sponsor a work shop in European dances. Ralph Neder, Wednesday, March 21st in the S.U. Auditorium. Tickets are two dollars. Also, if you don't plan to attend, the lecture will include information about the workshop in European dances.

School for Wives

English Majors

There will be a meeting of English Majors and Faculty to continue self-study on Tuesday, March 15, at 9:00 p.m. in the Humanities building, second floor.

Officers were elected at the March 11th meeting of the English Majors. A constitution will be discussed. Officers for the coming year will be as follows:

President: Ann Courtney; Vice-President: Ruth L. Driscoll; Secretary: Diana Nunes; Treasurer: Janice Chappell.

The next meeting will be held on Wednesday, March 29, at 9:00 p.m. in the S.U. Green Room.

The P.U.M. Club and Women's Phys. Ed. Dept. will co-sponsor a dance workshop on Tues., March 15, at 9:00 p.m. in the S.U. Green Room. Mr. Conny Taylor, a specialist in English, will conduct the workshop in European dances.

CAMPUS INFORMATION AID

A WEEKLY INFORMATION COLUMN BY LILIANE ARNET AND JOHN FRANKLIN

Q. What is the purpose of the sign-in procedure? How can it be changed?

A. There are two purposes: to protect the privacy of students, and to prevent trouble from strangers. However, we feel that the sign in procedure does not serve this purpose for the following reasons. First, troublesome strangers sneak in and do not bother to be. A guest that walks into the dorm with a resident is obviously known, and not a stranger. Therefore, we propose that a guest can enter the dorm with a resident without signing in. Dean Shue feels this was a reasonable plan and said that any change in dorm policy must go through the respective residence hall executive board.

Have any questions you have in the C.I.A. box in the COMMENT Office.

IN AND AROUND

Dr. D'Aloice and Mr. Moore of the Math department are attending an Algebra Symposium at Dartmouth College in Hanover, New Hampshire.

The Massachusetts Association of Secondary School Boards is holding a workshop on "Future Shock," Dr. Joseph Salerno, who conducted the workshop, said that the purpose of the workshop was to help administrators get a handle on the future that is coming. The workshop was held on March 11, in Westport, Massachusetts.

The Third Annual Alumni Day of the School of Library Science Phila, will be held Saturday, March 21, at the Graduate School in Philadelphia. The day will be devoted to a panel discussion on "Data for Decisions" at that meeting.

Cora M. Wells, Assistant Professor of Health and Physical Education at Bridgewater State College and well known dance instructor, is collaborating with the musical group "Clari" of the Greater Boston Area in a program of art, dance and music. In May, the group will be performing in the Arts Center of the Greater Boston Area. The performances will be held in the Arts Center of the Greater Boston Area.

LYSISTRATA, the Greek comedy by Aristophanes, will be presented by the ESC Drama Club, directed by Professor Robert Friedman, this weekend, Thursday, Friday and Saturday evening, March 16-18 at 8:00pm, in the S.U. Auditorium.

The Drama Club will be presenting a bawdy and lusty translation of the original play, about Lysistrata, a Greek woman who organizes all the women of Greece to stop the men from fighting.

The play is based on Greek civil war and women’s plan for peace, however it is not a show for women’s liberation. The set design by John Bolger is proportionate and estimated in a main style to produce a fluid stage. There is a modified tragic stage which allows the audience to see the action as it unfolds.

Tickets are $1 for college students and $2 for non-students.

Mermen Win NAIA Title

Bridgewater - Bridgewater athletic campaign here Saturday by winning the title in the NAIA swimming and Diving Championships. The Bears were chosen into the only team to top the NAIA swimming in dual meets this season. The best time finished with a total of 25 points to 86 for the Wellesley crew. An eight-team field finished the first NAIA swimming meet in New England, but Bridgewater and Babson moved out early. RSC took the 200 individual medley relay out of the pool and put out a 1:43.20 for two one-point lead of Babson in the individual medley and then pulled ahead in the 400 yard freestyle relay by winner Bruce Morell. RSC held a four-point lead going into the final event, the 400 yard freestyle relay, and the final quarter of Harry Parenteau, Don Ganneman, George Foutzine, and Bruce Morell was in a big effor and picked up all the marbles for the home team.

MEN'S INTRAMURALS SEMIFINALS

In the first quarterfinal playoff game the Bears battled the Falcons. This was a close back and forth game. The Falcons had a lead at halftime 30-24. The lead changed hands on the Falcons with a 3rd period barrage and scored 29 points. T.J. McPherson and hisondrous D. O'Grady put the Falcons ahead during the 3rd quarter, but with 1 seconds remaining Ron Daley for the Birds, shot and scored the game winner. The final score was 74-70, and the Chiefs won. T.J. McPherson and D. O'Grady were top scorers in the game with 22 and 24 respectively. For the Birds, John Bick was high scorer with 20.

The second quarterfinal game was pitted with the Birds and the Creations. The Birds took control early and had a balanced scoring team. The Birds handled the Creations 86-61. K. Owen and Paul Murphy shared the scoring honors for the Birds with 12 apiece. Tom Gillis put the Birds in the Championship.

The third quarterfinal game had the Emos against the Brothers. The first period score told the story of how the game was to be played. At the end of the first period it was 19-9 Emos, and their line outside shooters steadily added to the score throughout the game. Although a 4th period surge by the Brothers reduced the lead to 7 points at one point, it was too late and the final score was 74-41, as the Emos took the victory.

The last quarterfinal game was the Alpha Wild Pigs vs. the Sons of David. There three point game was indicated by the score, although the Sons of David were ahead most of the game. Going into the 4th period, the Sons of David were down 40-36, but Alpha got singles in the 4th quarter, while they nailed 23. The final score was 74-41 for Alpha with 10 and Marty Murphy high for Sons of David with 21.

Those games set the stage for the semifinals played Monday night with the Emos vs. the Birds, and Alpha vs. the Chiefs. In the Emos vs. the Birds game, the Birds looked as though they were going to pull away from the Emos, but Emos came back during the second half and were still in the game. The halftime score had the Birds up by 7 points. It was close in the 3rd period, but in the 4th period Emos pulled even and came away with a 6-54. Emos won 5-0 and set up a final with Alpha and Sons of David.

Those semi final games featured the following players:

Emos vs. Birds:
- Emos: K. Owen (21 points), Paul Murphy (12 points), and T. Gillis (12 points).
- Birds: John Bick (20 points), T. J. McPherson (12 points), and D. O'Grady (12 points).

Alpha vs. Sons of David:
- Alpha: Marty Murphy (21 points), and Marty Murphy (10 points).
- Sons of David: Ron Daley (12 points), and Ron Daley (12 points).

The semifinals were held at Bridgewater State University.

WOMEN GYMNASTS BEAT NORTHEASTERN

The RSC women's gymnastic team did it again! They won a home meet with Northeastern University held March 9, at 7:00 p.m.

This was the girls' first home meet with an undefeated record to live up to, so the pressure was on. The team pulled through remarkably well by winning with a score of 162.12 to N. U.'s 159.66 with BSC coming out on top on all four events.

High scorer of the meet was Noya Miller with a 7.1 on her floor exercise routine. Wendy Mihnie scored first on vaulting with a 6.6 in her handspring vault. At the end of these two events, RSC was leading by 2.5 points. This edge helped relax the girls a bit with their two strong events coming in the second half of the meet.

On the balance beam, Janet McGarry did beautifully, scoring a 6.6 which was an amazing nice points of a point better than the second scoring girl on that event. Janet came through again scoring highest on the uneven parallel bars with a 5.4. Chris Arvsky also contributed on her routine for her routine on the bars, scoring a 5.5 which was a point better than her bar score on her dismount. Angel Angioli contributed to individual score with a 5.2. The routine was a high score of the week with the 3.300 total.

In the final result, RSC's score was 159.66 with BSC leading at 162.12. The team will be looking to improve upon these scores in their next meet.
