Halloween All Year Round
With the Warrens

The Warrens came to ISC Tuesday for an all-day lecture series including slides and tape recordings. They have been investigating hauntings and witchcraft for over twenty years and have written books on the subject. They have a reputation for having found evidence of ghosts in a number of haunted places.

They have a theory that vampires exist on heat energy, as do ghosts and other supernatural beings. A vampire could be a person who trained in magical arts and was buried in a coffin that retained some of its heat. Warren also noted that one sign of a vampire was fresh blood in a supposedly dead corpse.

Warren said, "I believe in reincarnation. We have to know the lessons of life: humility, charity, tolerance and love. It's easy to see it in the Warrens' case. The body is returned to the earth, the spirit is returned to the universe."

The Warrens are known for their work in investigating hauntings and witchcraft. They have written books on the subject, and have a reputation for finding evidence of ghosts in haunted places.

Psychic Photography

Psychic photography is a gift, Warren said, and Ms. Whittaker of Monroe, Conn. has it. One day she stopped outside a church and snapped a picture of the person standing next to her. The picture was transparent and the person was unrecognizable as a living person. This is an example of a phenomenon known as "apparitions." It is believed that these are the spirits of deceased persons who have not yet crossed over into the afterlife.

The COMMENT

Dear Friend,

Over twelve hundred radical high school and college students from across the nation will converge on Cleveland, Ohio November 23-28th to discuss a strategy for young people in 1973. The Young Socialist Alliance invites you or a representative of your group to attend this, the Third Young Socialist National Convention held at Woodhall. Attendees will be hundreds of students representing many other representatives from the following categories.

- Activists to discuss and vote on a strategy for the student movement and the participation of students in the different campaigns.
- Of special importance will be the beginning of a university administration attacks on student government, fees, reduced funding of school newspapers, and the coming of some political organizations from their campuses for their own counter-Cultural view.
- Workshops will be held on issues of public interest to college students (abortion law, black and Puerto Rican students, antisepastry after the Vietnam War, the role of student governments, and others).
- This convention will be the national meeting at which students will discuss and vote on the strategy for the movement for the U.S. that hopes to use as well as many other representatives for their newspaper and political, free student newspapers at their universities.
- All sessions of the convention, workshops, and panels will be held in the Student Union building. In addition, there will be open sessions and press briefings.

The reason the Fee Committee has long been a battle between the administration and control of student fees, or student control of student fees. The defeat of this Little Snack Bar is a mighty victory over the Woodhall attack.

Our thanks to the BSC senior, Mike Merkow, for the information.

For more information, please contact the play's producer. The play is running at Stonehill College's Performing Arts Center from November 15th to 17th. Tickets are available online or at the box office.
