$500,000 to be spent “in conjunction with…”

by Yvonne Proost

Perhaps many are asking themselves “What’s the whole issue behind the curtain?” First of all, the state has given a large amount of money to the college for the construction of a new library. However, the college has decided to use this money to add new parking areas into the Infirmary. Traffic Control Committee since it became the Dean of Men which was seven years ago. I was appointed by President Randolph. The Committee is composed of the Dean of the College, and students elected by the Student Body. I serve as a chairman for the Student Body. I have been Chairman of the Traffic Control Committee since I became the Dean of Men.

Interview conducted by Tricia Vanderspuy & Philip Hackett.

An informal conversation in which the corrdial and friendly Dean of Men of Broadwater College expresses the amount of freedom with a proportionate acceptance of responsibility.

David Deep (over 35 and slender). About 19 years ago students at the Univ. of California at Berkeley were all saying their peers were not as bright anymore over it. That was about 10 years ago. Today, none of these same people are meeting at Ferris. From our conversation with David Deep, we concluded that he was candid. We did not hesitate in taking the Feas of Men and doing straight forward questions, and he did not hesitate answering them kindly and frankly.

Earlier last year, Tricia visited the Dean requesting a brief interview at his convenience. He promptly suggested the following: Tuesday, Feb. 27th, at 1:00 pm. During our interview, we suggested gathering facts and support for now that have been pertinent the campus and during the conversations of senior parking areas. In a longer conversation, David Deep was useful about this issue and others as the following interview.

We recommend that this will be the beginning of a series of interviews with officials of different members of the College Community.

Philip: There have been rumors, but some of the students on the campus seem concerned that senior parking facilities are in danger of being converted into faculty parking areas. Have you, David Deep, been previously made aware of such issues?

Deep: Yes, I have.

Tricia: Could you help to clarify the matter?

Deep (Rud): Yes, certainly.

In the traffic and parking policies handbook for the academic year 1972-23, Article II, Section B, Number 6, it read, “I do not think…”. “I think there are some students who are parking in the Faculty parking lots. We have heard from the Traffic Control Committee since it became the Dean of Men.

SGA Conducts Evaluation of all Professors

In the next couple weeks, the Student Government Association will be conducting an evaluation of all professors at Broadwater. Every student here will be receiving in the mail a 5-page evaluation form. Each student will envelope addressed to SGA. To make the evaluation easier, students are required to mail the envelope addressed to SGA. In addition, the Dean of Men will make office space in the Humanities building available. There are future plans for a new humanities building in the language, philosophy, and other departments, but it will take many years before the library is completed. Meanwhile the growth of our library and educational center will be the result of more space for art and music. The library will be a commuter’s center which will be used in conjunction with the old library.

Yesterday, whatever change students can plan will affect the students. We will try to improve the library to make it as clean and free from noise as possible.
Letters to the Editor

Town Elections

The opening election in the Town of Bridgewater was last week, and this important and interesting aspect of our public life, the election of city officials, is once again upon us. The official organization of the Bridgewater Republican City Committee is now in full swing, and it is important that we support the candidates who have our best interests at heart.

Candidate Willie

Robert Wallace, see of Mrs. Natalie Wallace and the late Dr. Louis Wallace, is an old hand in Bridgewater. He resides at 15 North County Road, Bridgewater, with his wife, Mary, and their six children. He attended Bridgewater Academy, the University of Hartford, and graduated from Franklin University in Washington, D.C. He has been employed by钯scal in Bridgewater for 10 years. He is one of the original and present members of the Board of Directors of UNICO, Inc. and the Town Hall Neighborhood Association, which deals with youth and community problems.

Robert Wallace has stated that, "The Board of Selectmen is the executive branch of town government, and as such should be responsible for providing direction to the community and assisting the local affairs. As a concerned citizen, I feel that this is best served by being a member of the town's majority." His campaign slogan is, "Don't vote for merely a name, vote for the man." His issue of concern is the need to provide better direction and leadership for our town.

Candidate Camps

Have we been a town in which town government and community have been many years past to the needs of the citizens and our civic responsibility? The United States Partnership business has given me the opportunity to be a part of this change. I have been employed by the Partnership for 10 years. As a citizen, I must do more as a member of this town and try to make a difference in the lives of our citizens. I believe that it is my duty as a member of this town to work for the betterment of our community.

Editor's Note: submitted by Carol Pomone

Mr. Wallace's Rally! Wallace recently opened the granting of an all new home for the family of Ronald Adams, who was disabled in a car accident, at the Bridgeville School at the Community School on Thursday, February 11, 1973.

Town Department

The Department of Public Works has been receiving much criticism from the Bridgewater residents. They feel that the department is not providing a satisfactory level of service.

Town Department last became the subject of public discussion in 1971 when a statement was made by the town manager that the department was not functioning properly. The department has been under the direction of the interim superintendent since that time.

The department has been responsible for the maintenance of the town's roadways, streets, and sidewalks, as well as the operation of the town's waste disposal system.

On Basketball

On the playing of their game of basketball the people of Bridgewater have come up with an interesting idea. They have divided the town into four sections, and each section has a basketball team comprised of the best players in that area. The teams play against each other in a series of games, and the winner is determined by the number of points scored.

Community and Town

Our community and town government have been many years past to the needs of the citizens and our civic responsibility. The United States Partnership business has given me the opportunity to be a part of this change. I have been employed by the Partnership for 10 years. As a citizen, I must do more as a member of this town and try to make a difference in the lives of our citizens. Women's Gymnastics Takes Two

Providence College beats BSC

Providence College forged ahead of Rider College with six seconds remaining in the game and held on to win 136-126. Dixie was ahead of the way, but could never lead by more than eight points in the scorer's line of five-pointers. Setone's score was won with a 6.95 on her floor exercise routine. Wendy Milne was high scorer for the event with 5.8 for her layout straddle vault. On the balance beam, Debbie (Domin) scored highest for BSC with a 5.7 and Kathy Oteri scored highest for the event on the uneven parallel bars with a 5.6.

The Meet held Feb. 21 was the last for the BSC's 1973 season. The team finished the season with a 3-7 record. The BSC women's gymnastics team has participated in the American Women's Cup, the Eastern Conference, and the New England Women's Cup. They have also competed against other teams, including the University of Vermont, the University of Massachusetts, and the University of Connecticut. The team has been successful in their matches, with a record of 3 wins and 7 losses.

Worcester Makes for Bears Worst!

In years to come when people remembered this game, fans would recall not just Joe Wise's 23 points in the second half, but also the 20 field goals the Bears made in the final period. Wise's performance was a testament to his skill and determination.

Since 1964, many new members have joined the Bridgewater State College. Among the new members, the Martin T. Rizzo Scholarship Committee, created in 1964, has been instrumental in honoring the memory of Martin T. Rizzo, a former student at the college.

The committee established a scholarship in his memory. The committee, composed of students, faculty, and administration, is responsible for the assignment of existing funds as well as responsibility for the naming of the recipient. The scholarship was established in the amount of $500, awarded annually to a male student to be used for his tuition. According to the guidelines set forth by the committee, the recipient must not only be a resident of the college, but also be of outstanding character. The guidelines stress the importance of a student's academic performance and his dedication to community service.

On the afternoon of March 3, 1964, the Bears made a historic comeback against the Bridgewater State Bears. The Bears started off on the right foot but ended up on the wrong side of the scoreboard, losing by three points. Rick Foley commence the comeback by scoring the Bears final goal of the night, to tie the game up 8-8. The Bears would go on to win the game 10-4, setting the stage for their upcoming games.

Worcester Makes for Bears Worst! by Bob Winans

Worcester Makes for Bears Worst! by Bob Winans

In years to come when people remembered this game, fans would recall not just Joe Wise's 23 points in the second half, but also the 20 field goals the Bears made in the final period. Wise's performance was a testament to his skill and determination.

Since 1964, many new members have joined the Bridgewater State College. Among the new members, the Martin T. Rizzo Scholarship Committee, created in 1964, has been instrumental in honoring the memory of Martin T. Rizzo, a former student at the college.

The committee established a scholarship in his memory. The committee, composed of students, faculty, and administration, is responsible for the assignment of existing funds as well as responsibility for the naming of the recipient. The scholarship was established in the amount of $500, awarded annually to a male student to be used for his tuition. According to the guidelines set forth by the committee, the recipient must not only be a resident of the college, but also be of outstanding character. The guidelines stress the importance of a student's academic performance and his dedication to community service.

On the afternoon of March 3, 1964, the Bears made a historic comeback against the Bridgewater State Bears. The Bears started off on the right foot but ended up on the wrong side of the scoreboard, losing by three points. Rick Foley commence the comeback by scoring the Bears final goal of the night, to tie the game up 8-8. The Bears would go on to win the game 10-4, setting the stage for their upcoming games.
