S. ELIZABETH POPE EULOGIZED

by Nick Rendoll

Over Christmas vacation the Bridgewater Robinson voted to give Miss Elizabeth Pope the following in the Bridgewater Robinson Newsmagazine:

Miss Pope was present at a special Robinson Community Awards event on the recognition of her service.

Currently, a nationwide campaign is underway to raise money for the Elizabeth Pope Scholarship Fund, which will be named after her. The campaign will be supported by the Boston Globe and other local newspapers. It is expected to raise at least $50,000.

editorial

We're all not safe.

While rehashing the article on the recent fire at Durgin Hall, we discussed that the Bridgewater Fire Department does not have a ladder which will reach the top floor front of Great Hill Dorm. This is due to the incline on which the edifice of the dorm rests, the ladder will reach the fifth floor rear of the residence hall.

This creates a potentially dangerous situation. Were a set of circumstances resulting in an emergency situation, this lack is potentially deadly.

About two years ago a group of students and administrators started a drive to finance the purchase of a ladder which would reach the top floor. The attempt was not well planned and got nowhere. Presently there is a proposal before the State Legislature to set aside money to put Bridgewater in buying a long enough ladder; a similar proposal was defeated last spring because people were not interested enough to push it through.

We could take the cynical point of view and say 'so what if the ladder doesn't reach?' That's right. This line, unless of course you happen to live on the fifth floor rear at Great Hill.

Students, particularly those on the accessible floor, should be aware of the differences of Bridgewater's fire apparatus. In an emergency such as occurred last December, it may be slowing information. Beyond this, if you are interested in procuring a ladder, contact Peter F. JEN, Bridgewater's Representative in Boston. Apparently a very little added support will safely settle the whole matter.

LETTERS

concert anyone?
The Student Union Program Committee is faced with the fact that putting on a big name concert twice a year and charging how ticket prices is becoming financially impossible. Most people are probably aware that now the balance in the Student Union's Account for rock concerts. This means we can now only accommodate 300 people downstairs in the auditorium and have had the ticket income of $100 at the balance.

We usually have to have three concerts a year; one big one at those remaining smaller one in February or March and a big concert again in the spring. Wherever we have a recent there are always people who ask, 'Why didn't you get the Beach Boys?' Others ask, 'Why didn't you get the Beach Boys?' Others ask, 'Why didn't you get the Beach Boys' Please remember, \"The Beach Boys\" are asking between $15,000 and $17,000. Steve Wonder wants $15,000 or he won't consider doing a performance. Eric Clapton gets $50,000 or performance. You, you read correctly - fifty thousand dollars. Unbelievable, but true. Of course, the fans usually don't want to bother to play small college; rather the college hopes to have the pleasure of a thousand seat field house. Then put a "percentage of the house income. Those groups make their money playing in places like the Big Top, Boston Garden, the Civic Center, Mohegan Sun, etc., whereas the college pays from five to seven dollars a ticket. I just wanted to explain a few facts before I put in the purpose of this article.

The Student Union Program Committee will put on a spring concert as usual and is considering having a group in the five to eight thousand dollar price range. The only way we can possibly afford to bring in a name concert and other activities this semester is to charge anywhere from $4 to $6.50 per ticket depending on the price of the group. From charging this price, we would still be subsidizing the cost of each seat at about two dollars a seat due to our small student body. We will conduct a survey to see if students are willing to pay roughly the same prices to see a concert here at Bridgewater as they would pay to see a concert in Boston. Student reaction to the survey will influence many organizing concert and future concert policies here at Bridgewater. The Student Union Program Committee

FIFTY YEARS AGO

THE GREAT FIRE

by Julia Bailey

Fifty years (almost to the day) before the small fire at Great Hill destroyed half the campus of the Bridgewater Normal School, a huge fire destroyed half the school, the school's classrooms and the back half of the training school or "Model School" on the campus of the Normal School.

On October 10, 1924, shortly after 2 o'clock in the morning, the alarm was rung by the Bridgewater Fire Department, notifying the firemen of a fire in the Normal School. The firemen ran to the school, which was on the fourth floor of the building, and extinguished the fire within a short time. The firemen then used their ladders to enter the school, and they were able to save the lives of all the students who were inside the building.

The fire started in the school's main building, the Normal School, which was on the fourth floor of the building. The fire quickly spread to the other buildings on the campus, and the firemen worked to put it out as quickly as possible.

After most of the students had been rescued, the fire was finally extinguished. The school was then reopened, and the students were able to continue their education.

The fire caused extensive damage to the school, and the school was unable to operate for several years after the fire. The school was eventually rebuilt, and it began to operate again.

The fire was a terrible event, but it also served as a reminder of the dangers of fire and the need for fire safety measures.

Commuter Carpool Coordinator

Considering the ever-rising price of gas and the growing number of parking spaces in the Commuter lots, we are going to once again renew our Commuter Carpool Coordinator.

If you're looking for a ride or for passengers to help defray costs, look around your classrooms and thought for someone who might need a ride. We will print all submitted names, addresses and phone numbers in the next issue. We will then set up a list of commuters to help each other.

Also, if you're looking for rides, the Commuter Service is providing rides to help in setting up car-pools. For details, contact the Information Booth.

(continued from p. 1)

Durgin Fire

Electric lights and any kind of heating could not have been turned on in the Durgin Fire. The school had been closed for several days before the fire, and the students had not had the opportunity to use the lights. The school was not in session at the time of the fire.

The fire started in the school's basement, and it quickly spread to the other floors. The firemen arrived on the scene and began to fight the fire, but they were unable to put it out as quickly as they would have liked.

The school was eventually reopened, and the students were able to continue their education. However, the fire caused extensive damage to the school, and it was unable to operate for several years after the fire.

The fire was a terrible event, but it also served as a reminder of the dangers of fire and the need for fire safety measures.

The fire caused extensive damage to the school, and the school was unable to operate for several years after the fire. The school was eventually rebuilt, and it began to operate again.

**Indian Takeover**

The 11-day occupation of an abandoned monastery by a band of armed Indians appeared to be drawing to a close. A negotiator of the Abenaki order which owns the monastery in Wisconsin said a settlement might be only hours away. The Indians moved into the monastery at Gresham on January 1 and have had several exchanges of gunfire with the police. The Indians have demanded that the $159,000 structure be torn down to them as a hostage.

**Gallup Audit**

To estimate the average attendance, during 1974, surveys of representative samples of adults were made in selected weeks during the year in account for seasonal fluctuations. A TOTAL OF 3,000 PEOPLE (18-OLDER) ARE INTERVIEWED IN PERSON IN MORE THAN 1,500 SCIENTIFICALLY SELECTED SAMPLE REGIONS.

**Lower Fuel Costs**

Everybody talks about higher fuel bills. Here's what you can do about them.

1. Set thermostats at 65 and degrees during the day and 68 degrees at night. Don't leave radiator surfaces exposed.

2. Open the windows more often... every time you do, the temperature drops by 5 or 6 degrees.

3. Try using glass or ceramic dinner plates for baking. You can lower the cooking temp without adding the twice- or time of cooking.

4. To lower lighting bills, use fluorescent bulbs in the kitchen and bathroom.:

5. CAUTION OFFICIALS SAY THAT ONLY 45-WATT FLUORESCENT LIGHT PRODUCES MORE LIGHT THAN 60-WATT INCANDESCENT LIGHTS AND CAN SAVE YOU ABOUT $20 A YEAR. Even if you have many lights in your home, the 45-watt bulbs will still produce 700 kilowatt hours and a black and white television 320 kilowatt hours.

**Pipeline Priority**

The US government plans to expedite construction of the trans-Alaskan oil pipeline as a matter of national security. The Dallas Morning News reported in a copyrighted story that the government will expedite the rarely used Defense Production Act to ensure that contractors working on the projects worth $3 billion dollars will have top priority to get all the materials they need in order to proceed with installation during the winter of '74.

**Consumer Confidence Restored**

Prompt action by the government to restore consumer con-

**Butz' Building**

The agriculture dept. which plans to fight inflation by requir- eing poor people to spend more on food stamps, in building a $100,000 dining room for secretary-blitz that will make his point "QUAL TO OUR adjusting room". A DEPT. OFFICIAL SAID: The third-floor panned dining and conference room will replace a 75-year old basement facility.

**Phone Rates UP**

Americans may have to pay up to $57 million more in telephone bills without government approval unless Congress changes current law. RALPH Nader, the consumer advocate, said a rate increase requested JANUARY BY THE American Telephone and Telegraph Co. could go into effect June 1 with the approval of the Federal Communications Commission. A Nader associate estimated the new rate would raise the average telephone rate about 7.5 percent more.
Is There Life After Death?

The author of the series wishes to thank Frank Botta for his encouragement and Art Botta for his illuminating ISC. Art Botta's ability to make a serious point through humorous humor is an inspiration to this author.

Any resemblance of the fictitious characters to places or persons is strictly coincidental.

by Greg Hall

Well, there is a feeling very sluggish and depressed one fine January as he looks back into the glorious Kingdom of Boyden. As the day went on he and his friends went to the hotel where they dined and passed the evening. Maude, one of the girls, talked about the problem of alcoholics. Mr. Gaugh got involved in the conversation and Maude suggested that if he had managed to roll down his sleeves and shuffle into the same office, he complained that his elbow was a little too close for comfort. He gave him a long talk about the need to feel healthy.

He then related the case of a man who had been found dead in a hotel room. The man's name was Maude and he had been drinking heavily. The coroner ruled that the death was caused by alcohol poisoning.

Mr. Gaugh considered alcoholics as the most beneficial group of people. He suggested that if you have experienced this problem during weekend drinking you may very well expect trouble with alcoholics in the future. This sign is common to 95% of all alcoholics.

Mr. Gaugh considers alcoholics as the most beneficial organization to alcoholics. However, he considers counseling and therapy as the best treatment for an alcoholic because this attempt to find the individual problems that drive a person to rely on alcohol.

The next lecture in this series will be on Wednesday January 25, 7:30 pm at the demonstration room of the 80. M.C.C. Halls of the Resolution Detoxification Center will present the lecture.

by Greg Hall

On Wednesday January 12, from 7:00 to 9:00 p.m., in the demonstration room, Mr. CHADER, Gaugh of M.C.C. in Bridgewater, began a lecture series on alcoholism. Mr. Gaugh “who has worked with such people in the past 15 years” gave some of the history of the problems of alcoholism. He also named some of the signs present in many alcoholics.

Mr. Gaugh referred to alcoholism as a neighborhood problem that is a problem that is found almost everywhere. Regardless of social or economic situation, he stated that most alcoholics are found in almost every neighborhood. He went on to say that Maude has been acknowledge as one of the great leaders of our time and it was her mission to save these people.

Mr. Gaugh shared the story of a man who had been found dead in a hotel room. The man’s name was Maude and he had been drinking heavily. The coroner ruled that the death was caused by alcohol poisoning.

Mr. Gaugh considered alcoholics as the most beneficial group of people. He suggested that if you have experienced this problem during weekend drinking you may very well expect trouble with alcoholics in the future. This sign is common to 95% of all alcoholics.

LENNY-
THE FILM

For Bill North

Lenny Bruce is probably one of the most talked about men in show business. His material, his performance, his in-your-face attacks have shocked many, and the thought of his material being performed without his voice... well, it leaves a sour taste in one's mouth.

The film is a semi-documentary feature, and it is very well done. It captures the essence of Lenny's performance, and it's hard not to be impressed by the way the material has been handled.

The film has a wonderful sense of humor, and it's clear that the filmmakers have a deep respect for Lenny's work.

The performance is excellent, and the material is as relevant today as it was when it was first performed.

I would recommend this film to anyone who is interested in comedy, or simply wants to see a great performance.

Christian Fellowship:
Search For Identity

The program included the Quinlan's personal arrangements of songs by Scott Joplin and James Taylor providing a pleasant relaxation leader to conclude the performance.

All is in pleasant entry in the Program Committee's Fine Art series both musically and visually. The latter attribute can be found in the Cabaret setting in the Ballroom which found me paired with new faces and mirths. The Joe May have helped just as much as the chance: doors were the size of windows.

Anyway... I liked it!!!

EMPIRE BRASS QUINTET...
I LIKED IT ! ! !

Having been told that my reviews have a tendency to be variegated as regards whether or not I liked the performance/can I, in fact, like to produce any reviews about the Empire Brass Quintet, so as to leave no room for debate about my overall opinion. I liked!!! I liked!!!

The program included the Empire Brass Quintet's personal arrangements of songs by Scott Joplin and James Taylor providing a pleasant relaxation leader to conclude the performance.

I will leave it to the program guide of the Fine Art series to explain the musical content. The latter attribute can be found in the Cabaret setting in the Ballroom which found me paired with new faces and mirths. The Joe May have helped just as much as the chance: doors were the size of windows.

Anyway... I liked it!!!

Christian Fellowship:
Search For Identity

Empire Brass Quintet, of course, is one of the great things in this world today. The quintet is made up of five of the finest brass players in the world, and their performance is truly astonishing.

I have been a fan of the Empire Brass Quintet for years, and I can say with certainty that they are the best brass quintet in the world.

The program included the Empire Brass Quintet's personal arrangements of songs by Scott Joplin and James Taylor providing a pleasant relaxation leader to conclude the performance.

Anyway... I liked it!!! I liked!!!

The final stage in the complex...
SGA Not Just A Passing Concern

Editor's Note: In the Executive Report of the Executive Board, a resolution was passed regarding the SGA's role and responsibilities.

Facing the first half of our term, we have managed to present the student body with a solid foundation and working relationship between the Student Government, the College Administration, and the student body.

Since September, a more consistent activity has been observed, and there have been several opportunities to establish and successfully operate a student social committee within the college administration.

A complete report on Student Government Activities:

1. Panel discussion and voting on various SGA elections in order that we may achieve a smoother transition from the current administration and the next.
2. A recommendation from the Executive Board on the need for increased student involvement in the decision-making process.
3. A panel discussion on the importance of student participation in campus activities and other campus events.
4. An increase in student knowledge and awareness in collective bargaining.
5. The establishment of a student-led committee to create a comprehensive General Education requirement.

now more than ever:

Collective What?

In recent discussions of collective bargaining at Pitzer College, there has been a significant increase in interest among students in the process and its implications. This rise in interest has been accompanied by a growing awareness of the need for involvement and representation.

The purpose of collective bargaining is to negotiate contracts that outline the terms and conditions of employment for faculty members. These contracts typically include issues such as salaries, benefits, and working conditions.

In recent months, there have been several proposals for changes in the current collective bargaining process. These proposals include increased student representation in the bargaining process, as well as greater transparency and accountability in the negotiation process.

For collective bargaining to be effective, it is crucial that students have a voice in the process and are involved in decision-making. This includes participating in discussions, providing feedback, and holding meetings with representatives from both sides.

Through this increased involvement, students can ensure that their rights and interests are represented, and that the collective bargaining process is fair and transparent.

The First Aid Workshop on February 28th will present a new and exciting, hands-on approach to learning First Aid. This workshop is designed to provide participants with the knowledge and skills necessary to offer basic medical assistance in emergency situations. Attendees will have the opportunity to practice various First Aid techniques, including wound care, CPR, and basic injury treatment. The workshop will be led by experienced instructors, who will ensure that all participants are engaged and feel comfortable asking questions. This is a great opportunity for anyone who wants to enhance their readiness to respond to emergencies. Registration is required, and space is limited. For more information or to register, please contact Prof. Linda Moschella at 24 Mill St, Room 1, or call 283-7944.

Hoopsters Defeat Merrimack 82-81

by Kevin Hoorn

The Bridgewater State Hockey Team has only been able to beat the New England College at Franklin Farm, and now North Adams. In the first game against Merrimack, the Bears played slow for 3 periods before making a comeback to be swept by the Warriors. 1-9. The loss was a blow to the team, and the Bears were unable to get on track. They lost to the top teams in Division II, with a tough loss in the last game against the Merrimack College. The Bears had a tough time against the visiting Bearcats, and now must prepare for another game against the Winthrop University. The Bears are currently 1-0 in the New England College Hockey League (NCHL).

Icemen Lose To Salem, Merrimack, Colby, Babson, Framingham

On January 4 and 5, the Bridgewater State Hockey Team played in the Merrimack College Invitational Hockey Tournament on North Andover. The Icemen, led by forward Paul Kelly, went on to win the title with a 3-1 win over the Massachusetts College of Liberal Arts. The Icemen were impressive and showed that they are a strong team.

McSharry Scores 1000th Career Point

By Wayne Coolbreath

Tuesday evening at Massachusetts College, John McSharry became the fourth member of an elite group of basketball players from Bridgewater who have exceeded 1000-career points. John will join the ranks of fellow players Joe Wise and Warren Chappell and the current high scoring record of R.S. Others in the top ten points were Keith Richards and Dick Rossman who were last year’s big scorer’s with a career high of 1128.

MCHSHEARY has been a consistent asset to the R.S.C. Basketball team in the past two years. He has been playing with the same team since his freshman year and he was starting from the very first of the season. Each year John has been one of the starting players for the Bridgewater team and has played at every post through this season.

John led the team each of his three years in field goal percentage and set a school record of .920. He was the second leading scorer the past two years and presently is second leading scorer just behind Gene Whiffen.

Ashe’s transmission regards his
both his ability and attitude towards the game. John’s ability and attitude towards the game and respect of his playing ability. It is not often that you find a person who excels not only in athletics but also in life. As a person, he is a great person.

Sports Who’s Who

hockey

Michael McGovern is a twenty-one-year-old senior from Natick, Massachusetts. He is an All-American centerman and has been a member of the Division I All-Stars. He has led Bridgewater in scoring the past three years and was named to the Division I All-Stars. He has led Bridgewater in scoring the past three years and was named to the Division I All-Stars. John was one of the top scorers in the nation last year and was named to the Division I All-Stars.

Swim Team to Meet URI

The Bridgewater Sculls swim team will begin its second season in a challenging meet against the University of New York. The team had a long lay-off of no swimming but Coach Joe Vohradoski expects them to be in condition and ready to do well.

Choosing the Swimmers, three members of the team, Tim Miller, John McGovern and Tim Curlee swim with the University of New York. It is in the swim and should do well in the meet. The team will meet their first major meet against URI on the 12th of this month. It’s sure to be a close race between the two teams. The team should support their favorite.

Sports Editorial: Athletics Up or Out

It is quickly becoming apparent to everyone who can add two and two that one and one equals one. The cost of running an athletic program is too high. Considering the higher costs, small colleges have been forced to cut costs. Bridgewater is not immune to these trends. Costs are rising and are becoming more of the reason, particularly in the area of transportation for each of the teams. The greater expenses must be met by the team, particularly in the area of transportation for each of the teams. The greater expenses must be met by the team.

As players, Bridgewater’s program has taken to the road more often and more effectively. This season, Bridgewater teams have taken to the road more often and more effectively. This season, Bridgewater teams have taken to the road more often and more effectively. This season, Bridgewater teams have taken to the road more often and more effectively.

The Athletic Department of Bridgewater is 150 percent of the cost of running an athletic program. This figure, however, is based on the idea of a similar ratio of the cost of running an athletic program. The cost of running an athletic program is too high.

For the athletic program and the athletic teams, the students, administration and alumni can be proud of the efforts that have been made to this point. The program is too expensive and the expenses must be met.

W hen is your opinion on this subject? Write to the President and let him know.}

Quick JAN
**Wrestling**

**BSC Grapplers**

By Trent Hildreth

The Bridgewater State Wrestling Bears are off to a 2-0 start with a ranked win for the second straight year. The team is coached by Jim McKeon, who has been with the program for 20 years. The Bears are currently ranked 14th in the nation. McKeon is a former All-American wrestler and has coached many successful wrestlers. The team has won two conference championships in the past ten years.

**Basketball Brief**

The Bears of Bridgewater State have pumped up to their best basketball start in recent years. The team is currently 4-0 in conference play. Jim McKeon is trying to improve his team's shooting percentage to 45% from 40% last year. The Bears are a strong Division II power, and McKeon is hoping to lead his team to a conference championship.
