Injuries Hurting Men's Swim Team

The BSC Men's Swim team is struggling with injuries. Their record in the conference this year is 0-1. John Howard and Dennis Bevk are the only two members of the team that are able to swim throughout the meet. Howard has a pulled hamstring and Bevk a pulled calf muscle. The rest of the team is out due to injuries.

The men's team has two meet left this season, on February 19th and the conference meet on March 4th. They are both at home meets. The team is very optimistic about winning both meets.

Women's Varsity Soccer

Spectators at Kelly O'Leary's last game this season were shocked to see at halftime that the score was tied 0-0. The second half was made up of two teams that were evenly matched. The game lasted for two hours and ended with the score still tied.

The team is very disappointed with the result of the game. They were hoping to win and end the season with a victory. However, they were also happy with the way they played. They were able to keep the other team scoreless for most of the game.

The team is now looking forward to their next game. They are confident that they will be able to win and end the season on a high note.

The following commentary is written in the house of providing a critical perspective on the nature of the students. The main theme of the commentary is the relationship between the bookstore and the students. The author discusses the recent changes in the bookstore, including the increase in prices for new and used books. The author also comments on the policies of the bookstore, including the high percentage of the retail price charged for used books. The author expresses concern about the impact of these policies on the students, who are often forced to spend a significant portion of their income on books. The author concludes by calling for a more equitable approach to book pricing and the support of students' financial needs.
Drs. Rhoda and Phil Adendorf Speak Out

The following commentary is written in the name of Rhoda and Phil Adendorf, who are expressing their views on the importance of environmental education. They emphasize the need for action and encourage everyone to make a difference.

Commentary

**Dr. Rhoda Adendorf**

Do you know what is happening at the Fells? These hills out west? This is the time of year when the mink are hitting the leaves. No one knows exactly what the mink are doing, but it must be eating them, because the leaves are falling faster than usual.

**Dr. Phil Adendorf**

The main issue here is the Fells, and the mink. The Fells are a valuable resource for our community. They need to be protected from the mink and other predators. I suggest we all band together to protect the Fells. We can start by setting up a mink containment fence around the Fells. This will keep the mink away from the leaves and allow them to live in peace.

If you have any comments or suggestions, please feel free to contact me at my office.
