The Army's active, reserve and national guard units are on the move all over the globe. Over land, through harbors and even in the air. If you are looking for an executive position in the future—yet you want plenty of action now—look at the list of opportunities available to the Army officer. Opportunities to manage people and equipment. Opportunities to lead America's fleet on land and sea. Opportunities to soar through the air. The training that qualifies you to be an Army officer can put you a step ahead in any future career—military or civil.

Make the first step now. See the Professor of Military Science on your campus.

R.O.T.C. Representatives will be on campus Feb. 22nd from 10:00—11:00am and 12:00—2:00 in the Plymouth County Conference Room (across from the Info Booth) 2nd floor Student Union.

By Kathy Donahue

This coming fall there will be a significant change for certain students applying for Financial Aid. All who make under the low income need to register with the Selective Service System will now be required to furnish proof of registration when applying for federal education assistance. This amendment was signed by President Reagan in September 1982, and will go into effect in July of 1983. Whether or not you agree with this new amendment, it is now a reality. The question seems to be more of implementation.

The Department of Education controls all of Title IV assistance programs, including Pell grants, SEOG, NDSL, and College Work Study. If a college wishes to receive these funds, it will have to comply with this new amendment. Steve Morris, Director of Financial Aid at BSC, is in the process of working with the Education Department. Steve Morris, Director of Financial Aid at BSC, is in the process of working with the new requirement. For him the question is not philosophical, but pragmatic. His office has to deal with the paperwork. Morris expressed the belief that the new system will be a significant change for the students.

For Financial Aid Recipients

Draft Registration Required

This coming fall, those males who under the Selective Service System will now be subject to registration. Prior to registration, students must provide a copy of his draft registration if they are required to do so.

For Federal Financial Aid Recipients, new procedures in applying for financial aid. The student must provide a certification of draft registration if applicable. Due to disbursement of any funds, the student must provide a copy of his draft registration.

Delayed Class Cancellation

Angers Students, Faculty

By Liz Cahill

Numerous BSC students and faculty members are excited about the delayed cancellation of classes on Monday, February 7 because of the storm that dumped up to a foot of snow on Southeastern Massachusetts.

Official cancellation of classes that day was not broadcast until after 7:00 a.m. By that time, many students had already started out for school. Needless to say, those people were upset when they reached BSC and found it was closed for the day.

Dr. Robert Ditlman, Vice President of Academic Affairs, cited the fact that last Monday's storm did not reach full intensity until after 8:30 a.m. as one of the reasons for the delay.

Ditlman voices concern that the decision by Ditlman voices concern that the decision by Ditlman voices concern that the decision by Ditlman voices concern that the classroom became a parking lot because of where it's situated.

As of July 1983

Draft Registration Required

For Financial Aid Recipients

The information booth on School Street next to Tillingley Hall is now open for business. It is sponsored by the Office of Community Services, and is under the supervision of Nick Litton. "There is no main entrance to the campus and visitors arrive from all directions not knowing how to find anything," Litton said. "As a result, there are many people wandering around with dazed and bewildered looks on their faces. We hope that the staff in the booth will provide assistance and direction to these people," he continued.

"Eventually, there will be signs on all the main highways directing visitors to School Street and to the information booth. The front of the usefulness and efficiency will come at spring break when high school seniors visit the campus," he added.

The information booth will be run by students in the Work Study program who have been appointed by Philip Conroy of the Financial Aid Office.

Parking Overflow Destroys Lawn

By Kathy Murray

On Friday, February 4th, a student's car parked on the grass left next to the tennis courts was towed. Why? The car was stuck in mud. Everytime I look over there from the Campus Police station, I see it," Dillman said. "We have decided to start working on this mess, and that means removing it and adding more parking." Dillman said that this will be done as soon as possible by the BSC facilities.

The expansion of the parking lot is necessary because of an increase in enrollment. Dillman said that the expansion of the parking lot is necessary because of an increase in enrollment. Dillman said that the expansion of the parking lot is necessary because of an increase in enrollment. Dillman said that the expansion of the parking lot is necessary because of an increase in enrollment.

Wind the grass off and add new parking lot. No, according to Lee Patty, Dean of Planning and Development for BSC, that's not a parking lot. It will never become a parking lot because of where it's situated.

"First of all, aesthetics is important. A green area is needed there. Also, the lot is on a hill, a natural terrain which is not at all conducive to building a parking lot," Patty continued. "Finally, parking cars along a very busy roadway isn't good logic. It's hazardous.

"Parking lots are necessary in order to create a safe environment for the students. Parking lots are necessary in order to create a safe environment for the students. Parking lots are necessary in order to create a safe environment for the students. Parking lots are necessary in order to create a safe environment for the students. Parking lots are necessary in order to create a safe environment for the students. Parking lots are necessary in order to create a safe environment for the students.

Feedback on Problems with Parking Lot

By Kathy Murray

On Friday, February 4th, many students expressed concern about the parking lot near the tennis courts. They complained about the lack of parking spaces, the difficulty in finding a spot, and the danger of walking on the grass. One student said, "I can't believe we're not allowed to park on the grass. It's our right." Another added, "I hate seeing my friends' cars towed away. It's not fair." The Parking Office responded by saying that they are trying their best to accommodate the students' needs. They added that they would consider expanding the parking lot in the future if there is a need.
Hobby Shop Future

The Student Union Board of Governors and staff have heard that the use of the Hobby Shop by the College Community has diminished greatly ever since we have experimented with changing our running movies in course that it didn't seem to affect their figures more agilely. However, we would like to remind students that a very small number of students make use of the shop.

Therefore, we are considering closing the facility at the end of this academic year. We would welcome input from anyone who has suggestions to improve the Hobby Shop or comments to the Student Union Development Office or to Dennis Lowell, President of the Student Union Board of Governors.

Letter from the Editor

Hobbs Student Bookstore
When Is Security Not Security?

This seemingly contradictory question is now being asked throughout the campus community as a whole. Are campus security officers merely ticket writers, or are they true security personnel who must be kept in the student's fight for freedom? The Department of Public Safety is now in the process of informing students of this new responsibility. The response has been mixed, with some points to be resolved such as the legal ramifications of the disappointed.

Consider this example: a campus student who does not live in the Hill dormitories must obtain a ticket for entry into the building. The car is stopped and the force to walk the remaining district to the office of the registrar and security. What has happened here?

To a student who is Keir Peruzzi, a senior at the Hill dormitories, one needs only to be reminded of last year's brutal rape on campus to understand the problem. Although the student force is well known, it is essential that the faculty force be kept, as the parking situation slightly more manageable at the expense of the entire campus community.

We would welcome input from anyone who has suggestions. The Hobbs Student Bookstore will be open on Monday, Tuesday, and Thursday from 9:00 a.m. to 3:00 p.m. and Wednesday and Friday from 9:00 a.m. to 4:00 p.m. It will be closed on Saturday and Sunday.

draft registration as an addi-
tional criterion for eligibility.

CANCELLATION - ONLY

No dial phone call at 6:00 a.m. on the day of the game, but if the game is to be played at 7:00 a.m.

to score for entering is March 1, 1983. The 1st Annual Men's Pageant is being held on the west campus.

It was the first in the series of seminars and workshops that were held in the context of the wider social, cultural, and political changes that have occurred in the past few years. The focus was on understanding the experiences of people who identify as lesbian, gay, or bisexual, and the ways in which these experiences intersect with other systems of oppression, such as race, class, and gender. The seminars were organized around four themes: identity, community, history, and politics. Each theme was explored through a series of talks, workshops, and discussions, with a focus on sharing knowledge and building community. The seminars also included a workshop on organizing for social justice, a panel on women's rights, and a discussion on the role of the media in shaping public opinion. The seminars were well attended and were lauded for their role in fostering a sense of community and support among the participants.

The seminars were part of a broader effort to create a more inclusive and welcoming environment for students on the campus. This included the creation of a student run newspaper, the formation of a student government, and the establishment of a variety of student groups and organizations. The seminars were seen as an important step in this process, as they provided a space for students to engage with important issues and to build relationships with each other.

The seminars were also seen as an important opportunity to challenge and change the dominant narratives about sexuality and gender. This included the dismantling of stereotypes and the promotion of a more nuanced understanding of the experiences of people who identify as lesbian, gay, or bisexual. The seminars were also seen as an important opportunity to celebrate the diversity of the campus community and to create a more welcoming and inclusive environment for all students.
Rape Prevention and Awareness

The New England Directing the program js technical and intricate, but a women's natural
instinct to fight back with anything
easily learned techniques is the coordinate, timing and to break one's
basis and constitute
ing the
program.

The office of Vice-President for the class of 1968 is open, but
not open to all. T. is is, quite
appalling. A political science major with past experience in several clubs. T. is program will
be monitored. Remember, vol. "A.P. for V.P.",
February 03 or Thursday, 24th in the front of the bookstore.

Handpicked Student Organization Formed

A group of students led by Kevin Haye", Don Spencer, and
Janet Welti, has taken the initiative to form a new student
organization. T. is group, named "Paving the Way,"
has already outlined its goals and is currently seeking
new members. T. is organization is expected to be
active in the near future.

March 17th. Five nights in a downtown Washington Hotel, Transportation (van)
and hotel for $98.50. For more info call 697-1094.

Recruiting Minority Students at BSC: A Class Project

By Nannette LaTroncoutte

Because they serve a large population of minority and
cultural students, college admission officers,
counselors need more work who specifically
write to the smaller, underserved student
groups. This program, spearheaded by
laTroncoutte, an admissions counselor at
BSC, is designed to address this
issue.

The class project was initiated as a
response to the need for increased
diversity in the student body. BSC is
working to recruit more minority
students and to foster a sense of
community among those who are
already enrolled.

The goal of the project is to engage
minority students in the academic
community and to provide them with
opportunities for personal and academic
growth.

In conclusion, the project is an
effort to create a more inclusive
environment at BSC, where all
students feel valued and supported.

While the Peace Corps is
sponsoring a "bois drive" in the
Philippines, students at BSC are
also involved in other projects and
activities. For more information, please
contact Tom Benny at 697-6707.

Peace Corps Representatives

The Peace Corps is seeking representatives to
serve in various countries and positions. For
more information, please contact
Tom Benny at 697-6707.

Women at Work

You would likely come to understand the
talents and ideas of people who have
tested and honed their skills in the
world of work. In this article, we
examine the experiences of women
in the workplace, including the
current state of women's rights and
the challenges they face.

The article highlights the
difficulties and successes of
women in the workplace, from
the perspectives of both
employees and employers.

Our hope is that this article
will inspire and empower
women to pursue their
careers and contribute to society.

In conclusion, women are
making significant progress in
the workplace, but there is
still work to be done to
achieve true equality.

Finally, we encourage all
readers to support and
advocate for women in the
workforce, and to recognize
the contributions they make to
our society.

Lynda M. Smith

Psychologically Yours

Richard T. Colgan

I have often thought that the best
time to begin a new program is
when the existing one is failing.

Therapy is a complex field,
and the programs that are
successful are those that
address the needs of their
customers.

Therapy programs need
to be evaluated and
tailored to meet the
demands of their
audience.

In conclusion, I
believe that
therapy programs
can be successful
when they
understand the
needs of their
clients and tailor
their services to
meet those needs.
Rape Prevention and Awareness

The New England Academy of Arts and Sciences has formed a rape prevention committee to develop a program to inform and educate students about this issue. The committee has met several times and has discussed potential solutions to the problem of rape on campus.

Rape Prevention is important because of the high number of cases that occur each year. In fact, according to statistics, one in four college students will be raped during their college career. Many students are unaware of the extent of the problem and do not take preventative measures to avoid becoming a victim.

The committee has decided to focus on educating students about rape prevention and awareness. They have planned a series of workshops and presentations to help students understand the risks and how to protect themselves. The workshops will cover topics such as recognizing the signs of a potential victim, dealing with a rape disclosing situation, and developing strategies for preventing rape.

In addition to the workshops, the committee is also planning to develop a comprehensive brochure that will be distributed to all students. The brochure will contain information about sexual assault, how to respond to a sexual assault, and resources available on campus.

The committee is also considering the possibility of setting up a hotline or counseling service for students who have been raped or are at risk of being raped. This service would provide confidential support and guidance to students who need it.

Overall, the goal of the committee is to educate students about rape prevention and awareness, and to provide them with the tools they need to stay safe and protect themselves.

By Richard T. Colgan

Psychologically Yours

I have often thought that the best way to define a man is by the way he throws a curveball. If that's the case, then Mr. Richard T. Colgan is a master of the sport. His curveballs are always unexpected and always effective. He is a true testament to the power of the mind.

The New England Academy of Arts and Sciences is proud to announce the formation of a new committee dedicated to the issue of sexual assault prevention and awareness. The committee will consist of students, faculty, and staff from different backgrounds to ensure a wide range of perspectives.

The committee's main goal is to raise awareness about the issue of rape prevention and to develop strategies for preventing and responding to sexual assault. They will meet regularly to discuss the latest developments and to plan new initiatives.

The committee's first project will be to develop a comprehensive brochure that will be distributed to all students. The brochure will contain information about sexual assault, how to respond to a sexual assault, and resources available on campus.

The committee is also considering the possibility of setting up a hotline or counseling service for students who have been raped or are at risk of being raped. This service would provide confidential support and guidance to students who need it.

Overall, the goal of the committee is to educate students about rape prevention and awareness, and to provide them with the tools they need to stay safe and protect themselves.

Women at Work

If you would like to cool off with a little bit of inspiration and/or a little bit of information on what is happening in the world of women at work today, you may want to check out the Women@ Work feature in the new publication of the Boston University International Studies Program. The publication is called "Women@ Work: A Global Perspective," and it explores the issues related to women in the workplace in different countries around the world.

The feature includes articles on topics such as gender equality in the workplace, the changing roles of women in the workforce, and the challenges women face in balancing work and family life. It also includes case studies of companies and organizations that are making strides in promoting gender equity and providing opportunities for women.

Women@ Work is published quarterly by the International Studies Program at Boston University, and it is available online at the university's website. It is a valuable resource for anyone interested in gender issues and women's rights.

Announcements

Peac e Corps Representative Visiting Campus

A representative from the Peace Corps will be visiting Bridgewater State College on February 24th at 10:00 a.m. in the Maxwell Library, room L-12. The program will feature a presentation on Peace Corps opportunities, followed by a Q&A session with the representative. The event is open to all students, faculty, and staff.

The Peace Corps is an international volunteer organization that sends volunteers to developing countries to work on projects that address critical needs. Some of the projects include community development, education, health, and quality of life issues.

The representative will provide information about Peace Corps opportunities, including the eligibility requirements, the application process, and the benefits of serving as a Peace Corps volunteer.

By Richard T. Colgan

The Law Club is sponsoring a trip to Washington D.C. to tour the National Mall, visit the National Zoo, and attend a lecture at the Library of Congress. The trip will take place on March 12th and 13th.

The trip will include visits to various landmarks and attractions in Washington D.C., such as the Lincoln Memorial, the Washington Monument, and the Smithsonian Institution. Participants will also have the opportunity to attend a lecture on the history and significance of the U.S. Congress.

The trip is open to all students, faculty, and staff, and will be led by Law Club members. Transportation and admission fees are included in the trip cost.

By Richard T. Colgan

Peer-Counseling Representatives at BSC

Peer-Counseling representatives will be available at the Bridgewater State College Career Center on a regular basis to provide information and assistance to students who need help with their career development.

The representatives will be available to answer questions about career exploration, resume writing, interview preparation, and job search strategies. They will also provide assistance with career planning and decision-making.

The representatives are volunteers who are trained to provide information and guidance to students. They are available to assist students with a wide variety of career-related issues and can be a valuable resource for anyone looking for guidance or support.

Performs in the 3rd Audition on February 18th

By Kevin Roberts

LIPSTICK—At the Student Union Ballroom last Febru­ary 11th from 8 to 10 P.M. The show opens tonight.

A rousing air of excitement and atmosphere characterized the opening night of LIPSTICK at the Student Union Ballroom on February 11th. The production was directed by Michael Hafner, a member of the theater arts major. The cast included a variety of student actors, including some who had never performed before. The atmosphere was electric, with the audience clapping and cheering throughout the performance.

LIPSTICK is a musical comedy that takes place in the 1920s and is based on the play by George S. Kaufman and Morrie Ryski. The story follows the lives of two friends, and their respective loves, as they navigate the world of the 1920s. The musical features classic numbers like "The Boys from Syracuse" and "Finian's Rainbow." The production was a huge success and received rave reviews from both the audience and critics alike.

The cast was led by Peter得罪, as海湾, and David Anderson as Tommy. The lead roles were played by two talented performers who brought their characters to life with skill and grace. The ensemble cast was equally impressive, with each actor contributing to the overall success of the production.

LIPSTICK was a hit, and it is easy to see why. The talent of the cast, the creativity of the production team, and the excitement of the audience all combined to create a truly memorable night. LIPSTICK is a must-see production, and I highly recommend it to anyone who loves music, theater, or simply a good time. LIPSTICK—At the Student Union Ballroom last Febru­ary 11th from 8 to 10 P.M. The show opens tonight.

By Mark Anthony Pimenta

**Lipstick:** Sealed With A Kiss

As I type this article, I can remember the thrill and the fire of the theater. The music is still ringing in my ears, and I can almost feel the excitement of the crowd. The lights are blaring, and the audience is on the edge of their seats, waiting for the curtain to rise.

Lipstick is a musical comedy that first opened on Broadway in 1968 and was later adapted into a movie starring Lesley Ann Warren. The story follows the lives of three women who work in a Manhattan hair salon. The title character, Lipstick, is played by a woman named Rosemary MacCallum (played by Eileen Brennan in the movie).

The musical is directed by Michael Bennett, and the book is written by John Kander and Fred Ebb. The music is composed by John Kander, and the lyrics are written by Fred Ebb. The show features the classic numbers "Clean Up Call," "Secret Love," and "Lipstick."

Lipstick is a heartwarming story about friendship and self-discovery. The characters are relatable and the story is universal. I highly recommend this production to anyone who loves music and theater.

**You Only Live Twice**

By Mark Anthony Pimenta

As I type this article, I can remember the thrill and the fire of the theater. The music is still ringing in my ears, and I can almost feel the excitement of the crowd. The lights are blaring, and the audience is on the edge of their seats, waiting for the curtain to rise.

I am excited to share my review of the production of You Only Live Twice. The show is a production of the Student Union, and it opened last Friday night.

You Only Live Twice is a musical comedy that first opened on Broadway in 1968 and was later adapted into a movie starring Lesley Ann Warren. The story follows the lives of three women who work in a Manhattan hair salon. The title character, Lipstick, is played by a woman named Rosemary MacCallum (played by Eileen Brennan in the movie).

The Review

By Matt Peter Donoghue

If you ask me the name of my favorite show, I would say that I enjoy my coffee in the morning. I love the way the steam rises and the smell fills the room. It is a simple pleasure that brings me joy.

However, my favorite show is a show that I have been waiting to see for years. It is called Lipstick. I have been waiting to see this show since I was a little girl. I used to watch it on television and dream of being a part of it. When I was older, I realized that I could not continue to dream of it. I had to make it happen.

I finally got the chance to see Lipstick when it came to my city. I was so excited. I had been waiting for this moment for so long. I could not contain my excitement.

I arrived at the theater early, hoping to get a great seat. I was not disappointed. I was able to get a seat in the first row, and I could see every detail of the production. I was in awe.

The show was amazing. The cast was incredible. The music was beautiful. The story was heartbreaking. I loved every minute of it.

I cannot wait to see Lipstick again. I know that it will be just as amazing as the first time. I highly recommend this show to anyone who loves music and theater.

**Sick “New Gershwim Musical” Needs a Doctor**

By Matt. Peter Donoghue

Yes, dear reader, I know you may wonder what led me to think, some years ago, that I was going to review a musical. It’s true, I’ve always been interested in musicals, and I know that some of you may also share my passion. But when I first heard about this particular musical, I was a little confused. It’s called “New Gershwim,” and it’s about an orchestra conductor who is diagnosed with a serious illness. The plot revolves around his attempts to conduct his final concert, despite his deteriorating health.

You might think that this is a pretty straightforward story, and you would be right. But there’s a catch. The conductor is a huge fan of George Gershwin, and throughout the musical, various pieces of Gershwin’s music are woven into the fabric of the story. This is where things get complicated.

You see, I’m not a big fan of musicals. I prefer my entertainment to be more intellectually stimulating. And when I say that, I don’t mean that it has to be about a medical condition. I mean that it should challenge my mind, not just my emotions. This musical, unfortunately, did not do that for me. I found myself struggling to stay engaged, and I couldn’t help but wish that I had read a book instead.

In conclusion, I would not recommend this musical to anyone who is looking for a deep and meaningful experience. It’s not very challenging, and it’s definitely not original. If you’re a fan of musicals, you might enjoy it. But if you’re looking for something more thought-provoking, I would suggest looking elsewhere.
Entertainment

‘Sophie’ Is A Poor Choice

By Alan J. Pakula from the book by Whitley STRONG

Pakula turned his 1947 World War II film, ‘Sophie’s Choice’, into a metaphor known as Sophie. By isolating her terrible memories, Sophie is able to understand her past. With the help of her friend Stingo, they visit Coney Island, and play dress up, trying all the time to help her understand her pain, but to no avail. Her past memories are too strong. They dominate her life now, totally, and she resists it. But what will she do? What will she do?

Hello and welcome to yet another movie about WWII effects on poor innocent people. Frankly. It’s all a bit much.

The stage manager taps on the right side of the chamber. Pakula chooses to compare us to ‘Sophie’. As Nathan he was too truthful. He does little more than to stare wide-eyed and express her particular horrors and open-mouthed at Sophie. Pakula chooses to record her in close-ups and it’s a wise move. We are captivated by her face, her eyes. It expresses so much, by doing so little. No other actress today could cope with these continual close-ups. No one. Not Streep. Not others. It is a wise move. We are captivated by her face.

As Nathan he was too truthful. Pakula chooses to record her in close-ups and it’s a wise move. We are captivated by her face, her eyes. It expresses so much, by doing so little. No other actress today could cope with these continual close-ups. No one. Not Streep. Not others. It is a wise move. We are captivated by her face.

In Pakula’s film, ‘Sophie’s Choice’, the stage manager literally raps on the right side of the chamber. Pakula chooses to compare us to ‘Sophie’. As Nathan he was too truthful. He does little more than to stare wide-eyed and express her particular horrors and open-mouthed at Sophie. Pakula chooses to record her in close-ups and it’s a wise move. We are captivated by her face, her eyes. It expresses so much, by doing so little. No other actress today could cope with these continual close-ups. No one. Not Streep. Not others. It is a wise move. We are captivated by her face.

The all female band: LIPSTICK.

By Kevin Roberts

The stage managers rap on the sound Chapman Union building. "And you girl finished charging?" they say. "You got the lights and the sound?"

The stage manager answers, "Yeah.

Right now I'm between acts. Lipstick has just performed. They were great. You ready for the interview?"

The pair of them turn to the audience.

"The door opens and a girl's voice answers, "Yeah, save it."

The stage manager turns to me, "That was twenty - and then minutes."

Walking into the riverside room that normally houses SXU's main campus, the greenery is just outside, relaxing, preparing for their next act. To the right of me, a girl is looking at a table filled with books and all sorts of goodies, while another is shuffling through a book that seems scattered about on the tables. To the left of me, a girl is looking at the right side of the chairs and tables that have been set for their set. The girl on the left used to be a sound engineer, but now she is a singer in the group.

"Welcome to the exciting world of Lifetime." The Lifetime consists of six women ranging in age from 20 to 22, and they are all attending the same college, New York University, in the city where they live. The group is composed of guitar player, keyboard player, singer, and drummer.

**Bears’ Business**

By Mike Stroyn

NCAA bound? It looks that way for the Men’s basketball squad as they continue to dominate the teams in the Mass. States Conference. After Tuesday night’s come from behind victory both the men (Central Division) and women (Western Division) buses will be available for a post-season ride to the NCAA tournament. The Bears, ranked 10th in New England, have been getting solid support from the fans and from everyone. Congratulations to Dave Marioni being selected to the ECAC Honor Roll for his impressive contributions. It’s usually contagious and can be detected in the players’ eyes during games. Coaches Paul Byron and Paul Ware should be congratulated for the way they’ve prepared the Bears to “peak” at the right time in order to win the state tournament and be on their way to the tournament at the end of the year.

The squad has run into some tough competition in the last two weeks, as they are on a four-game winning streak after being 0-4 in the Massachusetts Intercollegiate Athletic Conference, with a (4-6) record. By Monday night, the Bears are ranked 12 in New England in a tough battle between the top two teams, with three games remaining until the tournament.

**The Phantom Dribblers**

By Kevin Roberts

Good evening. Phantom is happy to have the opportunity of reviewing tonight’s basketball game between the BSC and the Lyons in the City Gymnasium. There were strong performances by both teams, but the Bears were the way they’ve prepared the Maine/Farmington, even more next week.

Brice Bush Twenty-five points, 12 rebounds, 10 assists. Seventy-five points, 54 rebounds, and 10 assists. Seventy-five points, 54 rebounds, and 10 assists. Seventy-five points, 54 rebounds, and 10 assists.

Bush has been the key player in the Bears’ success this season. His ability to dominate the game and his teamwork with other players have been essential to the team’s success. The Bears are looking to continue their winning streak and stay on top of the league standings.

**Sports View**

By Christopher Howard

Another Wednesday night announcement from the Comment Office thinking that the future of this spacious and well-lit sports editor. Laurel Browne was out of town. The sportswriters of the New England will soon have the time and opportunity to write on the spotlight. Anyways, the action was out of the New England. The Sabres came back from 2-5 down in the third period to win 5-3 in the second half. Again with 21 seconds left on the clock, Ouellette was looking for the pass but was stymied by Rinne. The Bears headed for the dressing rooms with a 1-1 tie. This will be the final game of the year.

The Bears are on a five-game winning streak and are looking to continue their success in the ECAC (Eastern College Athletic Conference) playoffs. The Bears have qualified for the ECAC tournament and are looking forward to the upcoming games.

Bears' Business

By Mike Stone

NCAA bound? It sure looks that way for the Men's basketball squad as they continue to dominate the teams in the Mass. State Conference. After Tuesday night's come from behind win (83-78) over Fitchburg State, the (9-1) overall, (6-0) conference Bears are guaranteed at least a share in the regular season crown! Bioscience, the only other unbeaten team in the league, will have to come up with a perfect finish to tie the Bears in the season finale.

Bears, ranked No. 1 in New England, have been getting solid support from their fans and everyone. Congratulations to Newell Martinez being selected to the ECAC Honor Roll. Larry Bufford's fever is contagious and can be detected in all the players' eyes during a game. Coaches Paul Byrion and Paul Ware should be congratulated on the way they've prepared the Bears in "dalling" at the right time. We can only wish that their whole school is 'talking' the last two weeks, as they are on a roll in basketball. The Bears are still ranked No. 2 in New England and No. 10 nationally, with a (16-4) record. By Coach Bo Ruggiero and the Bears.

BSC Ripper Cup

By Vin Dones... 

Last Wednesday (Feb.) at 9:30, the BSC Men's Basketball Team toed the Ripper Cup. The game was held at the Basketball Gym. The game was played against Concord State in the eighth annual Ripper Cup.

BSC's defense attack was led by Guard Dennis Carney, who scored a team high of 18 points. BSC's offense attack was led by Forward Scott Fontana, who scored 15 points.

The Bears defeated Concord State by a score of 78-68. The Bears played a strong defense throughout the game, holding Concord State to only 58 points. The Bears led throughout the game, and the victory was well deserved.

In the second half, BSC's defense attack led by Guard Dennis Carney, who scored 15 points, helped to key the Bears' victory. The Bears led throughout the game, and the victory was well deserved.

The Army’s active, reserve and national guard units are on the move all around the globe. Over land, through harbors and ports, in the air. If you are looking for an executive position in the future yet you want plenty of action now — look at the list of opportunities available to the Army officer. Opportunities to manage people and equipment. Opportunities to lead America’s finest on land and sea. Opportunities to serve through the air. The training that qualifies you to be an Army officer can put you a step ahead in any future career — military or civilian.

Make the first step now. See the Professor of Military Science on your campus. BE ALL YOU CAN BE.

R.O.T.C. Representatives will be on campus Feb. 22nd from 10:00—11:00am and 12:00—2:00 in the Plymouth County Conference Room (across from the Info Booth) 2nd floor Student Union.

---

The information booth on School Street next to Tremont Hall is now open for business. It is sponsored by the Office of Community Services and is under the supervision of Nick Litem, 94. "There is no main entrance to the campus and visitors arrive from all directions not knowing how to find anything," Litem said. "As a result, there are many people wandering around with dazed and bewildered looks on their faces. We hope that the staff in the booth will provide assistance and direction to these people," he continued.

"Eventually, there will be signs on all the area highways directing visitors to School Street and to the information booth. The first test of its usefulness and efficiency will come at spring break when high school seniors visit the campus," he added.

The information booth will be manned by students in the With Study program who have been appointed by Phillip Conroy of the Financial Aid Office. Pothiness is an important qualification in the selection of staff members, in addition to their being familiar with the college and its campus.

The booth will be stocked with all the information about the college that a visitor may need: maps, brochures, departmental office locations, and other materials will be available. Staff members will also answer any other questions a visitor may have.

Delayed Class Cancellation Angers Students, Faculty

By Liz Cahill

Numerous BSC students and faculty members expressed unhappiness yesterday over the delayed cancellation of classes on Monday, February 7 because of the storm that dumped up to a foot of snow on Southeastern Massachusetts.

Official cancellation of classes that day was not broadcast until after 7:00 a.m. By that time, many students had already started out for school. Needless to say, these people were upset when they reached BSC and found that the school was closed.

"The Department of Education considers all of Title IV assistance programs, including Pell grants, SEOG, NSL, and College Work Study," a spokesperson for the Education Department.

"The Dean of Liberal Arts at BSC is in the process of working with the new requirement. For him, the question is not a joke, but pragmatic. His office has not dealt with the program yet. Morwick expressed the opinion that the requirement will be a benefit to financial aid administrators as being put in the middle. "We are being put in the position of traffic cop," Morwick said. "I want to be able to welcome students into my office, not make them feel harassed."

"The Department of Education has tentatively set four new procedures in applying for financial aid. The students will have to provide a certification of draft registration if they are registered or draft registrants. Due to the disbursement of funds, students must provide a copy of their draft registration."

As of July 1983

Draft Registration Required
For Financial Aid Recipients

By Kathy Donadio

This coming fall there will be a significant change for certain students applying for financial aid.

All who under the law are required to register with the Selective Service System will now be required to furnish proof of registration when applying for federal education assistance. This amendment was signed by President Reagan in September 1982, and will go into effect in July of 1983. Whether or not you agree with this new amendment, it is now a reality. The question seems to be more of implementation.

The Department of Education controls all of Title IV assistance programs, including Pell grants, SEOG, NSL, and College Work Study. If a college wishes to receive these funds, it will have to comply with regulations set by the Department.

Dave Morwick, Director of Financial Aid at BSC, is in the process of working with the new requirement. For him, the question is not a joke, but pragmatic. His office has not dealt with the program yet.

Morwick expressed the opinion that the requirement will be a benefit to financial aid administrators as being put in the middle. "We are being put in the position of traffic cop," Morwick said. "I want to be able to welcome students into my office, not make them feel harassed."

The Department of Education has tentatively set four new procedures in applying for financial aid. Parking Lot

On Friday, February 4th, a student's car parked on the grass lot next to the tennis courts was towed. Why? The car was stuck in the mud. "Everyone looks over there from the Campus Police station," said Denis Magno, Assistant Director of Facilities. "We think the grass lot is being overused and it is too crowded."

"Will this grass lot ever become a parking lot?" no, according to Lisa Perry, Dean of Planning and Development for BSC. "It is not a parking lot. I will never recommend that it become a parking lot because of where it is situated."

"First of all, aesthetics is important. A green area is needed there. Also, the lot is on a slope, a natural terrain which is not at all conducive to building a parking lot," Perry continued. "Finally, parking cars along a very busy roadway isn't good logic. It's hazardous.

"Solving the parking problem is not going to be easy," Perry said. "An expansion of a parking lot is overly limited and would not be set by the Environmental Protection Agency. Requiring existing lots will not work. If the problem is the building and the Great Hall, these funds, it will have to be addressed.
