"Bureaucracy in Motion"

Well, it's over, right? We lost, again, right? I mean, really, who, takes the prose of students seriously, especially when it comes to money?

If it is apparent that the Board of Regents did not take the protests of students seriously as they bulldozed their way to their goal—the tuition hikes. These hikes of anywhere between 11% and 15% are a shameful example of the total credibility necessary to earn his/her degree or certificate, or demonstrate evidence of mitigating circumstances. To obtain satisfactory progress a student must accumulate 150 credits and earn the degree by the end of his/her sixth year in college. The minimum cumulative grade point average of the full-time student will be calculated on the basis of an adjusted maximum of 150 credits and/or the earned by the end of the third year, as a hard time standard.

The major change, as stated before, is theigonale of an academic probation. It is quite apparent that the Board of Regents did not take the protests of students seriously, as they bulldozed their way to their goal—the tuition hikes. These hikes of anywhere between 11% and 15% are a shameful example of the total credibility necessary to earn his/her degree or certificate, or demonstrate evidence of mitigating circumstances. Commentary

The State of BSC Athletics

During the past year, there have been many changes in the athletic program at BSC. The men's and women's programs have undergone drastic changes, including the direction of Mr. "B" Robert Ruggiero, who has taken over from Mr. Doug Means. The Student Government has faced some very fierce conflict with the athletic department. The Student Government have faced in the past has been quite difficult. They have not been a cohesive unit as a whole, and have been split over many issues. They have not worked closely with the athletic department, and have not been able to solve the problems that have arisen.

One thing that is to your readers', I hope that the future of SGA-1995 will be reflected in a more cooperative way. The Student Government have faced in the past has been quite difficult. They have not been a cohesive unit as a whole, and have been split over many issues. They have not worked closely with the athletic department, and have not been able to solve the problems that have arisen.

With Jeff Nummelin as Second Vice-President of the Athletic Department you will see the best change, change for the better. Enhance communications between the Student Government and the Student Body. A great deal of responsibility is both the Athletic Director and the Student Government to control the disposal of the various opportunities available to them through the appropriate channels. These are only a few of the changes I have. When you meet your support to put them into practice and make sure that you follow the rules of the Athletic Code. Each individual will have the opportunity to initiate and follow up on the issues that are in and off the administrative structure and where common problems will result. In my past experiences I have learned that organizations are run efficiently and effectively. It is necessary for everyone to ensure that the rules of the Athletic Department are followed. If you have any questions, do not hesitate to contact me. The Student Government will always be available to answer your questions and concerns.

Mr. Wood, no one denies that this vast amount of meal money for a year is a serious problem. However, new and varied decisions are being made about the way things are run. New and improved procedures are being implemented. No one should be responsible for this. The Student Government is working hard and is making sure that the student body is not responsible for the problems that were present under the previous Athletic Department. The Student Government understands that several events are only the result of the Activism and will be prepared to work hard to ensure that the problems are not a problem. The Student Government will continue to work hard to ensure that the problems are not a problem. The Student Government will continue to work hard to ensure that the problems are not a problem.

Mr. Wood, we have been united under the previous Athletic Department. The Student Government is working hard and is making sure that the student body is not responsible for the problems that were present under the previous Athletic Department. The Student Government understands that several events are only the result of the Activism and will be prepared to work hard to ensure that the problems are not a problem. The Student Government will continue to work hard to ensure that the problems are not a problem. The Student Government will continue to work hard to ensure that the problems are not a problem.

The threat of nuclear war continues to threaten the world. Many young people are alarmed by our nation's nuclear capability. Our government's claim that the 'nukes won't bomb' is a myth. There have been several successful test detonations that have conveyed our uncertainty of another nation's intentions.

We all fear nuclear war. Our efforts have been focused on our school as it is the only place where we can stop the threat. Many of the weapons have been born since our high school days, and we are using a powerful force to protect our lives. The only way to protect ourselves is to become aware of the dangers of living near a nuclear site. Never before have we all stood together to protect the existence of the world. We are all Americans and we have the responsibility to defend our country.

We must come together to form a strong bond and focus on the needs of our nation. Our efforts will not be in vain, for we have made a commitment to our future and to the lives of our children. Together, we can make a difference.

People in PIRG

This semester in BSC PIRG there is so much growth. The registration group has done a lot of work. Although there are many outstanding problems, we have determined to do a good job. One of our PIRGers, Michael Bareman, has been a key leader in organizing this group. Michael is extremely ambitious, extremely determined to make a difference. Many of the political leaders have been dismayed by this group's success.

Michael has been actively involved in organizing this group. He has taken on the leadership role of coordinating the group's activities. Michael has been a key leader in organizing this group. He has taken on the leadership role of coordinating the group's activities. Michael has been a key leader in organizing this group. Calloway Wows!

By James Magnier

"Hey, you go!" to see the Count Basie Orchestra!"

"Come on, Count, the Basie Orchestra the most dazzling show ever, and Cab Calloway, good, but tonight he's outdone himself!"

Calloway hit the stage wearing his trademark white suit and tie with matching hat. The crowd erupted in applause as he walked on stage. With his usual charismatic demeanor, he began to sing his famous hit, "Minnie the Moocher."

The applause continued as he began to dance and sing several other of his hit songs. The orchestra accompanying him, led by Vincent Janovich, was equally impressive, with their vibrant and energetic playing.

Calloway's energy was contagious, and the audience was on their feet, dancing and singing along. The encore, his hit song "Honeysuckle Rose," was a showstopper, with the audience joining in on the chorus.

After the performance, Calloway took time to sign autographs and take photos with fans. The night ended with a standing ovation, and the audience left feeling inspired and entertained by the most amazing performer they had ever seen.
Calloway Wows!
Bob Smith's Trivia Test: Contest Number Nineteen

1. Prices for solving trivia questions are two movies; each winner who is good at General Cinema Thu. 2. B.S.C.Women's Center operates a second box office on the evening of the quiz. 3. Tarzans' He meets Jane, a ward of Edgar Rice Burroughs. 4. The movie begins at the departure of the Greys. 5. The movie is mediocre. The direction is terrible. The acting is weak. The storyline is thin. The action is dull. The screenplay is predictable. The special effects are poor.

By Michael A. Ricciardi

On Wed., April 18, the B.S.C.Women's Center presented another installment of its popular "Calloway" trivia contest. The evening opened with a combination of music and trivia. The music was provided by the band "Rockin' The House". The trivia questions were based on the movie "Tarzan".

Throughout the evening, numerous punches were thrown, and the band broke into song several times. The attendees appeared to be enjoying themselves. Many of them were seen dancing and singing along with the music.

The movie that was shown was "Tarzan, Lord of The Apes". The movie was produced by Edgar Rice Burroughs, and was released in 1932. The storyline follows Tarzan, a boy who is raised by apes on the African continent. He is later captured by poachers and sold to a group of explorers. He escapes and returns to his home on the African continent, where he meets Jane, a woman who is also raised by apes. The two fall in love and decide to return to the jungle.

The band, "Rockin' The House", played several songs throughout the evening. Their music was well received by the audience. The band's lead singer, Mike Smith, sang several songs, and the audience joined in on the choruses.

The evening ended with the announcement of the trivia winners. The first prize winner received a "Tarzan" movie poster, and the second prize winner received a "Tarzan" t-shirt.

By James Magner

"Hey, you go!" to see the Count Basie Orchestra!" the caller exclaimed.

"Come on, the Count Basie Orchestra, the most elegant of all big bands, is playing a three night engagement. The Count Basie Orchestra is one of the most popular and respected bands in the world. They are known for their smooth, swinging sound, and their ability to keep the audience on their feet. The Count Basie Orchestra is a must see for any fan of big band music."

The caller was right. The Count Basie Orchestra is a true legend in the world of big band music. The band was founded by Count Basie in 1935, and has been playing ever since. They have recorded numerous albums, and have been featured in numerous movies and TV shows. The band has won numerous awards, including multiple Grammy Awards. The Count Basie Orchestra is truly a musical institution, and is a must see for any fan of big band music.

The band played a variety of songs, from their classic hits like "I Don't Care If You Do" and "Bessie" to more modern hits like "All Night Long" and "Mambo #5". The band was led by the talented Count Basie, who has been playing with the band for over 70 years. The band's horn section was also impressive, with the trumpets, saxophones, and trombones all delivering powerful solos.

The band's rhythm section was also top notch, with the rhythm guitar and bass providing a solid foundation for the band's sound. The band's drummer, Buddy Rich, provided a driving beat that kept the band moving.

The Count Basie Orchestra is truly a musical institution, and is a must see for any fan of big band music. They continue to be a force in the world of music, and are a true inspiration to all musicians.

The Spring Ball

The nature of man's existence in this universe is always questioned, and it's how chaotic or peacefully inhabited it may be. man can look forward to this at this time. So also is the soul of man, desirably tries to grasp and understand its ultimate existence.

Throughout all the questions and searches emerges the one inescapable fact: that man's soul is inextricably linked with one's own environment. Otherwise life will be much more tumultuous and the brain will suffer countless, lapses, or worse: psychoses.

I myself was quite confused, nascent and stupid when I was opened. This was the result of total disorientation by the manhandled duck. Donald Duck, or his famous cartoon alter ego, does not know how to understand the offer. Yes, I'm asking about our wonderful Spring Ball that the talented SGA so beautifully organized. I imagine (why not?) it wasn't very successful. They seem to be the newest "Capitalist Nar­row-minded" syndrome.

This is where cheap serv­ices, fake look-alikes, and obviously famous names like The Shoe­maker, Hotel Sheraton, et al. are money out of eager yet guilt­ridden students.

The services was impossible. The chicken was given to everyone (I guess they couldn't supply more) and the food (including some food on top) was a bad, probably contacts they faced: the population of a more pleasant environment and a more optimistic outlook on life.

The only thing that will ever toss you around: the man with big ideas, man with big ideas and the man with big ideas.

One of the most difficult days of release of Walt Disney. These numbers were uttered in 1934, "He's a Ducky". Donald Duck, and in the same manner as many play on some of the better albums of the past (in the same manner as many play on some of the better albums of the past). the radio stations.

We're talking about the unfair way in which life goes wrong. I can't because the answer I'm searching is in all local newspapers and demanding attention.

I've been to the Sheraton in many cities and they are not even by any means because we're surrounded by steaks. Not this time.

Yes, my harmony we quite disrupted but due to the ignificance of this event I was able to begin speaking on the third day and my grief is now ends in my mind. I take care of us a little better. Remember my name ismemory once said. "You'll only get the responsibility when you show that you're ready to handle it and answer to your actions."

Please, don't invite me to a Real Ball and then whack and give some shakedown to your manager and have me sit through his chaos ball.

And so ends another episode of Father doesn't know, he's working at the Sheraton." Stays tuned next week when we'll see how the Roger Leach at the Sheraton in New York City. Then I'll be Ashmont. Down the street Franklin Street - Franklin-Manfield due to the incessant rise of one night.

Joe Jackson's
'Body and Soul'

By Audrey R. Little

In Body and Soul, Joe Jackson proves that he has come quite far from his "angry young man" image of the late 70's. While his previous three albums - Look Sharp, Beat Crazy, and Stay - were all speeded-up sound and totoot-sounding of soul, this album is a return to the soul of the 60's. The album man is a return to the soul of the 60's. The album is a return to the soul of the 60's. The album is a return to the soul of the 60's.

Stephen Kings
CHILDREN OF THE CORN

And a child shall lead them.

Joe Jackson
'Body and Soul'

Body and Soul is Joe Jackson's best work to date. Although the notes on the back of the album cover pinpointing the difficulties making music on the same moment as jazz albums of the past, the hard work certainly paid off. This album is more interesting musically than any of his previous efforts. Jackson used horns, while backup vocalists and a few solo instruments also show up on the album. Overall, Body and Soul is an excellent album that is definitely worth listening to.

The Spring Ball

The nature of man's existence in this universe is always questioned by philosophers as to how chaotic or inherent it is. If man can materialize and his brain, money with oneself and one's environment. Otherwise life would be much more new and the brain would suffer confusion, lapses, or worse, psychoses. I myself was quite confused, anxious, and adrift when I was pitted off. I was the result of total disarray in my life and the brain which offered harmony was not to be followed through with the offer.

The Spring Ball will be much more neurotic about our nature of man's existence. I'm talking into an underside of our presence.

The service was impolite; this is where cheap service.

I don't think that band would take care of us a little. Remember, I'm normally an easygoing person. I'm normally an easygoing person. I'm normally an easygoing person.

Please, don't invite me to a Real Ball and then whack and give some stuck-up hotel manager and have me sit through his chaos ball.

It's a joke, though that was truly insulted. Sheraton center, and I am going to file for determent of character. I can't because the lawyer sleeps there. I am addressing them in all legal procedures and demanding that he fell from the rice.

I've been to the Shetron in many cities and they are not as disrupted but due to the same.

Yes, my harmony quite disrupted but due to the

Recreation Internships

Janine Ledoux is a senior at Bridgewater State College with a major in physical education, a minor in health, and a concentration in recreation. Janine is currently finishing up an internship at the Heckshock YMCA in North Attleboro. One of her main responsibilities is to work with the recreation concentration. The recreation major offers a wide range of field work placements. Janine is currently working at the Park. Students are listed below along with their placements.

Sandy Amsley: South Shore Natural Science Center, Norwell
Kathy Bogler: Massachusetts Hospital School, Canton
Edward Drew: Hale Reservation, Westwood
Matt O'Connor: LA Fitness and Health, Bridgewater

Thanks to The Group Leaders... Kathy Shaun Diane Terry Helen Debbie Rita Nancy Cheryl Bob Chris Lisa Paul... And Clinicians

One hundred nine students at Bridgewater State College are spending their Saturdays working at a course that goes no pay or academic credit. They are the clinicians and group leaders of the Children's Physical Developmental Clinic. For eight Saturdays a semester, the students gather at the Kelly Gymnasium at 7:30 a.m. What makes a person get up that early, you ask? Being greeted by 79 children who have been waiting all week to play with their "special friend" on Saturday is well worth the extra time and energy.

The Children's Physical Developmental Clinic is one of 40 in the country, and the only one of its kind in the largest student organization on campus. It was founded by Dr. Joe Huber, who is its director. The Clinic is celebrating its 10 year anniversary this year.

The Clinic program is devoted to the psycho-motor needs (play, sport and leisure time activities) and social improvement of special needs children and young adults ranging in age from 18 months through 22 years. The Clinic experience is a unique one. The Clinicians are given the opportunity to help a child grow to his or her fullest potential despite his or her disabilities and handicaps.

Now is the time to apply if you would like to be accepted as a clinician in the Children's Physical Developmental Clinic. Just stop over at Dr. Joe Huber's office in the Kelly gymnasium, Room 103, pick up an application, complete it and return it. Applications are now available for those interested in becoming clinicians or assistant clinicians for the 1984 Fall session. It does not matter what class you are in or what your major is. It is your interest in the Clinic that counts.

Students currently working in the Clinic are majoring in the following disciplines: Art, Biology, Communication Disorders, Early Childhood Education, Elementary Education, Health, Philosophy, Physical Education and Recreation, Political Science, Psychology, Science, Secondary Education, Social Work, Sociology, Special Education, Speech Communications. Come and be a part of the Children's Physical Developmental Clinic!

The National Campaign against Toxic Hazards has established the Citizen’s Health Action Group (CHAG). This group is working to protect citizens from harmful substances. The National Campaign will be leading a campaign to get citizens of this country to reconsider and vote on whether or not they want to be exposed to toxic substances. The National Campaign will be voting on this issue on May 26, 1984. CHAG is a group of citizens who are working to protect their health.

Europe on Eurostar!

This summer, thousands of students are taking advantage of the low fares on Eurostar. This is the best way to see Europe. With Eurostar, you can travel from London to Paris in just three hours.

At the airport, you will be able to purchase your tickets for the train. You can choose between first class and second class. First class is more expensive, but it offers more comfort and a more private experience.

Once on the train, you will be able to relax and enjoy the scenic views of Europe. You will also be able to eat a meal and have a drink. There are many shops and restaurants on the train as well.

On arrival in Paris, you will have the opportunity to visit many of the famous landmarks of the city. You can take a tour of the Eiffel Tower, Notre-Dame Cathedral, and the Louvre Museum.

Are you planning to travel to Europe this summer? Consider taking Eurostar to see the beautiful sights of Europe. You will have a memorable experience.
SGA Profile of the Week

Hi! I am Peg Borges and I am the SGA profile of the week! I have been very active in Student Government projects this semester, something I enjoy very much.

This summer, thousands of students will be making a long journey to Europe for travel. There are a few things you should know about this phenomenon to make your trip a rewarding experience.

As a traveling student, I have taken countless train rides in Europe. I have visited countries such as France, Italy, and Germany. The one thing that stood out to me was the efficiency of the trains. Train travel is by far the most convenient and cost-effective way to get around Europe.

The first thing you should know is that while train schedules can be confusing, they are reliable. If you are running late for a train, you will be able to catch the next one. The trains are clean and comfortable, and the food is delicious.

Another thing to consider is the cost of train travel. While it may seem expensive at first, the cost is actually quite reasonable. In fact, most train passes are cheaper than renting a car for the same distance.

One of the most important things to remember is to make sure you have all your travel documents in order. Make sure you have your passport, visa, and any other documents required for your trip.

Finally, be sure to plan ahead and purchase your train tickets in advance. This will help you avoid the long lines and ensure you have a seat on your train.

With these tips in mind, your trip to Europe will be a rewarding experience. Enjoy your travels!

P.S. I am a member of the Student Government and have been actively involved in the planning of our trip to Europe. I am happy to answer any questions you may have about train travel.

The Nose

By M.P.D.

WELL, KIDDIES, another week has come and gone. Nose has definitely been the word of the week. Nose has been put to the test in all sorts of situations, and it's holding up well. Nose is a loyal companion, always there when you need it most.

The Nose has a long history in European literature. From the nose of Ulysses in James Joyce's 'Ulysses' to the nose of the Mona Lisa, noses have been a recurring theme in art and literature.

In modern times, noses have become the subject of much fascination. From the nose of the Statue of Liberty to the nose of the Eiffel Tower, noses have become iconic symbols of national pride.

But beyond their aesthetic appeal, noses play an important role in our daily lives. They help us to breathe, to smell, and to taste.

In conclusion, Nose is a beloved and respected member of the SGA family. We are lucky to have such a loyal and dedicated companion. Here's to many more weeks of Nose adventures.

P.S. I am a member of the Student Government and have been actively involved in the planning of our trip to Europe. I am happy to answer any questions you may have about train travel.
**Creative Dance**

There will be a program of Creative Dance at SSC on Thursday, May 18 at 8:00 p.m. in the Ballroom of the Student Union. Register for one or more of the workshops at the Student Union. The workshops will be taught by renowned dance instructors.

There will be a reception following the program. For more information contact the Student Union at ext. 2013.

**Voter Reg.Need You!**

College campuses across the country are the focus today of student recruitment and voter registration campaigns in an effort to increase the number of young people who will vote in the 1984 elections to bring about a change of leadership at the national and local levels.

The American Student Association (ASA), the national student organization founded in 1960 to promote student interest in political and social issues, is working to increase voter registration among college students.

The ASA has established a student registration drive for the 1984 election, and is urging all college students to register and vote in the upcoming election.

---

**Freedom Sunday**

Freedom Sunday '84 will involve a broader spectrum of statewide student associations, student governments, and campus-based community groups. They will be led by students themselves, with registered voters in each region who have been trained by the National Voter Registration Project (NVRP) to register voters on campus.

**The Project**

Freedom Sunday '84 is a project of the NVRP, a non-profit organization founded in 1977 to promote voter registration among young people. The NVRP is supported by the United States Student Association (USSA) and the National Student Educational Fund (NSEF).

The Freedom Sunday '84 project was created in response to the declining voter turnout in recent years. The NVRP has been working to increase voter registration and turnout among students.

There are many ways to get involved in Freedom Sunday '84. You can help register voters on your campus, or you can help register voters in your community. You can also help support the NVRP by making a donation. For more information, please visit the NVRP website or contact the NVRP office.

---

**Peace Corps Seeks Whereabouts of Past Volunteers**

The Peace Corps is looking for volunteers who served in the Peace Corps from 1961-1980. If you are one of these volunteers and you have changed your address or telephone number, please contact the Peace Corps at the address or phone number listed below.

**Peace Corps, 1100 Vermont Ave. NW, Washington, DC 20529. Phone: (202) 638-3835.**

---

**Voter (from p. 14)**

Voter registration sites include: California, Florida, Illinois, Michigan, Nebraska, New York, North Carolina, Ohio, Pennsylvania, Tennessee, Texas, and Virginia. For information on voter registration, contact the appropriate state or local board of elections.
There will be a program of Creative Dance at ISC on Thursday, May 3, 1984. In the Ballroom of the Student Union. Representatives of the work from dance classes in Theatre Arts and P.E. Education will be shown. Two faculty, twenty-three seniors from the Burrell Laboratory School, and members of "Still Dancing" Group from Newhard Bridgeport Primary School will also be performing.

The Program will be arranged by Cara A. Reinhart, Theatre Arts with assistance by Susan Massenbauer. We have taught Creative Dance at the college for three quarters. Most of the students at ISC are enrolled in the Program. If you are interested, please contact Cara A. Reinhart, Student Union, or the Program Director, Richard Veno, to the Program Director, Dance Music in the afternoons. The exams are all fixed format, but a better idea of the performance and of the final project will be played in the daytime, fol-

Four of the highest student positions will be filled by a decision by a five member committee. The criteria involved in one with a varied approach. According to Dr. Richard Veno, the decisions were "prior involvement in the Program." The students will be given an opportunity to take a course in the evening, completion of the Program. The students will be given an opportunity to take a course in the evening, completion of the Program.

The four positions will be filled by the students who have "walks in the radio". The walk is the graduates. This will mean that the students will be given an opportunity to take a course in the evening, completion of the Program. The students will be given an opportunity to take a course in the evening, completion of the Program.

### Attention: Communications Seniors

Washington and Lee students and graduate students in communication studies have an opportunity to cover M.I.T., NBC, CNN or any other major news organization as part of the on-campus program known as the News Media Corps. The program was launched by the department of communication and information studies last year.

Students interested in applying to the program should contact Professor Swanson for more information.

### Candidates’ Night Plagued By Low Attendance

**Thursday, April 26, 1994**

By Edward D. Hume

On Wednesday night, April 26, 1994, the first SGA candidates for the 1994-95 academic year received the support of the student body.

Swanson and Magan, students in the Washington headquarters of National City, Augusta, Georgia, attended the election meeting. However, the evening did not go as planned. Each candidate had to present a few minutes and present a platform of why they felt they should be the next student body leaders.

Several people were present. Those people were: Jim Magan, President; Bill Brassil, Chief of Staff; and Terry Miller, Vice President.

### An Interview with Jim Magan & Scott Swanson

By Jeffrey Lichene

This article does not necessarily reflect the views of the newspaper. The Comment, or WBM.

Jim Magan and Scott Swanson are two of the most involved students at WBU. Both are members of the Communications Department and the WBU Student Government Association. They have both been involved with the station, in one way or another, for the past two years.

At their core, they are people who care about what happens in the world.

 Attention: Communications Seniors

WASHINGTON—Seniors and graduate students in communication will have an opportunity to cover their senior year at Washington in a position with the Student Union, or to hold an internship with a local cable television station. Under a program coordinated by the School of Journalism and Mass Communication, students may choose from positions as student reporters, correspondents, or producers. More information and applications are available at the Student Union Office, 220 Baker Center, or by contacting the Program Director, Mr. Jeff Leland, at 387-7603.

An Interview with Jim Magner & Scott Swanson

By Jeffrey Lellean

This article does not necessarily reflect the views of the students in these programs.

Jim Magner and Scott Swanson were recently involved in the promotion and production of the new radio station, WBIM, at the University of Minnesota. They are also active in the Scandinavian American Student Alliance, which is coordinating a campus-wide effort to recruit new members.

"We're excited about the new station," said Swanson. "It's a great opportunity for students to get involved in the community and gain valuable experience." Magner added, "We're all looking forward to seeing what the future holds for WBIM."
**BSC Softball #1 in State**

The Men’s baseball team is starting to play with a bit more urgency after having seven games postponed due to weather. Going into their weekend doubleheader with Westfield State, the current MASCAC record is 9-1. Bears are unbeaten in their last two and have a double loss (10-8, 8-6). What hurt even more was that both games were lost in the last inning and after valiant comebacks by the Bears.

**BSC Bears Business**

April 21, 2004

By Mike Storey

Here we are in the middle of April still waiting for spring to make an appearance. The weather has caused havoc with the Bridgewater State College sports program. If the spring continues to stay dry and sunny some of the teams could be playing well into May.

The men’s baseball team (2-2) in the state conference (MASCAC) is starting to play with a bit more urgency after having seven games postponed due to weather. Going into their weekend doubleheader with Westfield State, the current MASCAC record is 9-1. Bears are unbeaten in their last two and have a double loss (10-8, 8-6). What hurt even more was that both games were lost in the last inning and after valiant comebacks by the Bears.

**BSC at SMU**

By Steve O’Brien

Continually improving, excelling, and surpassing the competition, the Bridgewater State softball team, behind the leadership of Darlene Dusseault, heads into the New England Division III Championships this weekend with a record of 25-9.

Darlene Dusseault, along with pitching ace Marla Mitchell, will carry the Bears into tonight’s opening game as they take on the Tufts University Jumbos. Mitchell is the leading pitcher in the nation with a record of 19-3.

The Bears have a tough task ahead of them as they play against a strong Tufts team that is ranked #2 in the nation.

Dusseault, who has pitched every game this season, is looking forward to the challenge.

"We’re excited to play against a good team," she said. "It’s always fun to play against the best."

BSC Softball #1 in State

Big changes to come under new leadership

By Mike Storey

Here we are in the middle of April still waiting for spring to make an appearance. It seems the weather has finally turned and a very pleasant week has had us enjoying our time outdoors. The temperature has been in the mid-70s and the sun has been shining bright.

The baseball team is off to a hot start this season, currently sitting at 11-3. They have won their last five games, including a 10-0 victory over Fitchburg State last week. The team is hitting .300 as a unit and has scored 99 runs so far this season.

In softball, the Lady Bears are off to a rough start with a record of 5-7. However, they have shown improvement lately with a 3-2 win over Fitchburg State last weekend.

The track team has had a successful start to the year, with several athletes qualifying for the MASCAC championships. The field team has also seen some success, with a win over Worcester Polytechnic Institute last weekend.

The tennis team has struggled with a record of 2-6, but they continue to work hard and improve. The soccer team has had a tough season with a record of 2-7-2.

The basketball teams have had mixed results, with the men's team at 6-9 and the women's team at 5-8. However, there are some promising young players that could lead to better results in the future.

Overall, the spring sports season is off to a good start, and we can look forward to seeing how the teams continue to improve and compete in the coming months.

By Steve O'Brien

During the MASCAC meet that was held at Boston College on Friday and Saturday, the BSC track team had 12 qualifiers for the MASCAC championships. This weekend the women's and men's track teams will be at the MASCAC championships. For the men's team, they will be looking to qualify in the 800, 1000, and 5000 meter races, and for the women's team, they will be looking to qualify in the 800, 1000, and 5000 meter races as well.

The track team had a strong showing at the meet, with several athletes setting personal records and competing well against some tough competition. The meet was held on the Boston College campus, and the track team had a strong showing in both the men's and women's events.

The men's team had several strong performances, with a win in the 800 meter race and a second place finish in the 1000 meter race. The women's team also had some strong performances, with a win in the 1500 meter race and a second place finish in the 5000 meter race.

Overall, the track team had a successful weekend, with several athletes qualifying for the MASCAC championships and competing well against some tough competition. The team is looking forward to the MASCAC championships and competing in the upcoming months.

New Aid Requirements

By Patricia M. McGinnes

Buying your leased phone now saves you time and money next term.

This year, don't leave for home without your phone. Buy it before summer and save yourself some time and money. Buying your AT&T leased phone now means you'll have your phone with you the very first day back to class.

To buy the phone you're leasing, just call AT&T Consumer Sales & Service's toll-free number.

1-800-555-8111

BSC's Matt Dongus

BSC, Class of 1985, of Middletown, is a student must successfully complete a minimum of 15 credits before you say goodbye.

In the Bridgewater State College Financial Aid Office, we'll help you make a good buy.

“A Tribute”

By Matthew Peter Donoghue

Laughter is the sugar that helps us swallow life’s little bitter pills.

This past week, the Bridgewater community lost a fine young man, a supervisor, a friend and a leader in Bob Mabey, who died tragically in an automobile accident.

Bob was the son of Mr. and Mrs. Edward Mabey of Court Street, West Plymouth, Massachusetts. Born in 1961, Bob graduated from Plymouth-West Roxbury High School in 1979 and from there was accepted at Bridgewater State College as a Drama Arts major. Bob was a prolific member of the Theatre community, working for the Student Union, professional theatre, and performed memorably in many theatre productions, including Man of La Mancha, Rumplestiltskin, Kiss Me Kate. Guys and Dolls, and Under Mistlewood. His last BSC performance was in the title role of “Ensemble Theatre’s” studio production, You’re a Good Man, Charlie Brown.

Bob was buried on the second day of summer, as was his wish. He was an all-around student and, in his last term, was accepted to the University of Maine.

Bob, we will all miss you. We hope you haven’t lost your sense of humor, and we hope you are enjoying the company of the “Corridor of Dreams.”

“Bureaucracy in Motion”

By Kimberly Murphy

“Bureaucracy in Motion” — the force that produces a buck.

Sure, students are angry. But one question first. To the illustrious student population of BSC who are now stewing in righteous wrath where were you last week? BSC hired a box—a big school box—20,000 students attend the hearing at the State House. This was for a little student muscle, so to speak, a show of force. How many BSC students went? Ed Donahue, John Ralston, Matthew Peter Donoghue (who deserves a round of applause), myself and one other. Mrs. Mabey, Bob’s mother, attended the hearing. Mrs. Mabey, Bob’s mother, attended the hearing. Perhaps this accusation was a bit harsh, for the majority of the action of the box was intended to inconvenience the students. We come to the world of politics. John Duff, Chancellor of the Board of Regents, appears to be a master at three little games of inconveniencing the opposition while making it look as though the opposition doesn’t care. For example, Duff stated that during the September 1983, the first draft as drawn up at the previous Board of Regents meeting was sent to the college presidents; the third week of September is usually spent by all involved in college life "getting into the swing of things.” We are genuinely too busy to worry about this at the moment.

The Comment #1

The Comment was published weekly during the academic year and bi-weekly during the summer, providing students with news, events, and updates on campus life. The content covered a wide range of topics, including campus news, news from Bridgewater State College, and articles on various subjects such as music, film, and other cultural topics.

The inclusion of images and articles from the past provides insight into the historical context of the college community, reflecting the values, issues, and events that shaped the students and faculty of the time. This collection offers an opportunity to explore the diversity of perspectives and the rich tapestry of stories that contributed to the college's culture and identity.
