SUFB ANNOUCES UPCOMING EVENTS
1. On Feb. 26, Arthur Miller will present a course on "Theater and Society: Theatre of the European Stage," 7:30 p.m. in the BSC Auditorium. A limited number of tickets will be available.
2. Information about upcoming events will be available in the Office of Student Activities.

OPENING INDUSTRY
The Bridgewater College Student Senate is currently accepting students to participate in the Admissions Tour Program. This program provides prospective students and their families with a tour of the campus and an opportunity to meet current students. For more information, call BSC 828-7415.

ATTENTION SENIORS
Contribution is an opportunity to show the class of 2007 how much it appreciates your hard work and dedication. Contributions can be made in memory of a classmate or in honor of a friend. Visit the Office of Student Activities for more information.

MESSAGE TO WORKING MOTHERS
On March 13, there is going to be a grand march and rally in Washington, D.C. It is believed that the rally is aimed at maintaining the same standards that women have lived under for years.

NEW MOTHERS' GROUP
The Student Union Program Committee presents "Buck Porch Blues" in the Student Union on Thursday, January 21, 2004, from 6:30 to 8:00 p.m.

WBIM changes and Growths

By Pam Sweary

WBIM, Bridgewater College's radio station has gone through some major changes in growth in the past year.

Program changes include:

- The news director's position, once held by Pam Sweary, has now been filled by Brent A. Rossi.
- The programming team has been expanded to include new shows and genres.
- The station's call letters have been changed to "WBIM" to reflect the station's new direction.
- The station's hours of operation have been extended to 24 hours per day, 7 days per week.
- New programming includes local news, sports, music, and talk shows.

The changes have been driven by the desire to increase listener engagement and reach a wider audience. The changes have also been motivated by the desire to attract new listeners and build support for the station among the Bridgewater community.

The station's new programming has been well-received by listeners, and the station's ratings have shown a significant increase in recent months. The station's growth and success have been supported by the dedication and hard work of the station's staff and volunteers.

For more information, please contact Brent A. Rossi, the current WBIM news director, at BSC 828-7415 or brossi@bridgewater.edu.
Challenger disaster an omen for America

The sudden destruction of the "Challenger" spacecraft and its crew revealed an episode of terror for everyone. Many thought the "right stuff" was destroyed in the explosion, but skeptics, and American citizens in general, feel "the right stuff" was not lost. However, it's difficult to escape the notion that this tragedy has a deeper and darker significance than the loss of human life in a spacecraft in the sky. In fact, it was a bit more sinister than that. It carried a sadistic threat which was to have harmful effects in society, not only daily, but most certainly not as expected. The planet that Americans would once have had as their home is now an omen of terrible things to come.

There are clear indications that the American mindset has regressed in its transition from the "nobility" of the 20th century to the world of the 21st. The nation has become inured to the controllable reality that is their stock in trade, rendered reality "depressing" by describing a disaster in upbeat, even pitched responses and utilizing the verbal alchemy of denial of the obvious, politicians added their own grossly inappropriate comments, and the media has given way to pure fantasy, such as the notion that the president's son was to be a kind of little red schoolhouse in the sky. In fact, the nation has become more detached from its roots and is instead detached from its reality. The nation has become less receptive to the truth and more receptive to the lies. The nation has become less aware of the truth and more aware of the lies. The nation has become less honest and more dishonest.

The terror of this tragedy is that it will all happen again. It would submit that the terrible tragedy will all happen again. It is an omen of terrible things to come.

It demonstrated that man is not really in control of the technology he thinks will save him. The corollary to this truth, in a deeper and darker significance than the loss of human life in a spacecraft in the sky. In fact, it was a bit more sinister than that. It carried a sadistic threat which was to have harmful effects in society, not only daily, but most certainly not as expected. The planet that Americans would once have had as their home is now an omen of terrible things to come.

Bulimia
You’re not alone!

By

Patrice Manning

Bulimia, an eating disorder more commonly known as the binge-purge syndrome, is common among college students. It affects about 1 in 10 young women ages 18 to 24. It is characterized by eating binges that are followed by self-induced vomiting, laxative use, or fasting. Bulimia is a serious illness that can lead to physical and psychological problems.

Laura Donhue, a senior at Bridgewater State College, has experienced the symptoms of bulimia.

“I was diagnosed with bulimia last summer. I was eating a lot of food and then throwing it up. I gained about 30 pounds in the past year,” said Laura.

Bulimia is often associated with anxiety, depression, and low self-esteem. It can also lead to nutritional deficiencies and complications such as heartburn, dental erosion, and tooth decay. In severe cases, it can lead to organ damage, such as kidney failure.

Laura’s experience with bulimia began when she was a freshman at Bridgewater State College. She said she was Gaussizing with her doctor about her symptoms.

“Laura is a bright, intelligent young woman who is very concerned about her health,” said Dr. Gail Brady, Laura’s doctor.

Laura is currently working with a therapist at the Student Health Center on campus.

“I’m trying to learn how to deal with stress and anxiety,” said Laura.

Laura is not alone in her struggle. Many college students struggle with bulimia and other eating disorders. It is estimated that 1 in 10 college students has an eating disorder.

The Student Health Center and the Counseling Center on campus offer resources and support for students with eating disorders.

If you or someone you know is struggling with bulimia or another eating disorder, please reach out for help. There are resources available on campus and in the community. Your health and well-being are important.

Laura Donhue, Student of the Week

Laura Donhue, a senior at Bridgewater State College, not only is able to balance her studies, but also is active in extra-curricular activities. She is a member of the Student Union and is the President of the Student Health Advisory Board.

Laura is majoring in Political Science, on top of her other responsibilities, such as chairing meetings and making out work schedules for each person.

She is engaged to be married to Tim Bridle, a senior at Mass Maritime. They both have agreed to devote their time and energy to school because "we're each other's whole life together." Because they both have been involved in many activities, they only can see each other's face two or three times a year.

When Laura graduates in June, she'd like to work for the government in Foreign Service. One of her goals is to follow in the footsteps of her parents, who are both former diplomats.

“Bulimia”

In the end, it is important to seek help and support. There is no shame in asking for help. It is okay to be vulnerable and to seek support. Your mental health is valuable and important.

Those who enterprise are ead to success

by Stella Wälder

The coming week leads the enterprising to the threshold of major success, holding out before those who are imaginative, hard-working and bold practically those riches and degrees of fame one hopes to find in consequence of preparation, effort and achievements. Those who may have been holding the fort or working quietly may find by week's end that they have missed both direction and opportunity. Those who henceforth face what is to come, however, find solutions to problems, and new ways to open old, heavy doors.

PERSONAL relationships provide opportunities and encouragement on the one hand, rest and relaxation on the other. Old friends are to be respected for past services, though they may fail to provide for the present moment. New friends prove valuable, though their advice is still to be studied.

AQUARIUS (Jan. 20-Feb. 18) Emotions run high early in the week, but must not be allowed to dominate decision-making procedures. (Feb. 4-Feb. 18) Changes vital to the success of present at-home operations prove a two-edged sword: both welcome and frightening.

PIESCEs (Feb. 19-Mar. 20) Unexpected involvement of relatives has a major impact on enterprises just getting off the ground. (Mar. 6-Mar. 20) Collectively and individually, this is a good week for pushing ahead with new projects. Don't take "no" for an answer.

ARIES (Mar. 21-Apr. 19) Don't think of yourself as a victim of fate. Take the risks in your hands and direct your own movements. (April 4-Apr. 19) Re-examine your schedule for concluding various phases of a new venture. Rests to be allowed or needed.

TAURUS (April 20-May 20) Assume an active role in enterprise now. You can move into a leadership position before the week is out. (May 3-May 20) You can tune into your own and others' unconscious motivators this week to avoid physical or emotional harm.

GEMINI (May 21-June 20) Your capacity for invention increases with your need. An excellent week for finding new ways and means. (June 7-June 20) Focus on emotions that keep you from running with the crowd. You may wish to seek help from an expert.

CANCER (June 21-July 22) Any preoccupation with finances could keep you from progressing in areas basic to health, welfare. (July 6-July 22) Be uninvolved by the sudden appearance of a turning point in your career. Make decisive, calculated moves.

LEO (July 23-Aug. 22) A concern for the welfare of children may keep you from pursuing personal goals. Don't let this be a week for naivete. (Aug. 23-Aug. 29) To avoid being concerned.

VIRGO (Aug. 23-Sept. 22) Romantic involvements may cause you to miss out on an exciting venture or to employ the energies gained some. (Sept. 3-Sept. 22) Be sure to define your role on both home and work fronts.

LIBRA (Sept. 23-Oct. 22) There may be more to assimilate in the way of changes this week than you can manage. (Oct. 3-Oct. 22) Involvement in your work lessons learned at home dealing with inflated egos.

SCORPIO (Oct. 23-Nov. 1) Undisturbedness and projects from recent weeks may result in rest. Hold up only for the new. (Nov. 2-Nov. 12) Pay attention to the details and create an idea of the whole. Store to end in the block.

SAGITTARIUS (Nov. 22-Dec. 21) It would be easy for you to overestimate yourself and your material assets. Don't succumb to fancy. (Dec. 3-Dec. 21) You may feel in need of a change in sequence of this week. Act according to the reality of the situation.

CAPRICORN (Dec. 22-Jan. 19) A sudden reversal of fortune may make it impossible for you to keep your interest in what you are doing. Make your apologies. (Jan. 20-Jan. 19) Take some time to be drawn to regroup mental and emotional forces. Otherwise, you may break a crisis.

BLOOM COUNTY

You start this week

by Stella Wälder

If you care as much about your friend as you say you do then why not just say "Look! Open your eyes and pay attention!" If she's nuts about these things then tell her the realities of life. She may have a situation that will take her for life. So get her to own down on her drinking, than consider where to place the problem is arising from? You should sit down and have a long, serious talk before it's too late!!

Dear P.J.

I have noticed that a lot of people aren't wearing their seatbelts even though it is required by law. I hope it wakes you up to the need to wear your seatbelts. (Sept. 7-Sept. 20) There may be more to assimilate in the way of changes this week than you can manage. (Oct. 3-Oct. 22) Involvement in your work lessons learned at home dealing with inflated egos.

Thank you for your help

Dear P.J.

We are very concerned about our close friend. She has a terrible problem with drinking. She sleeps a lot and often she sleeps in the school bathroom. She is also being of advantage of her while she is drunk. She gets hurt easily. We've lost my little girl due to a car accident last year. She is still think they like her. We need an answer this, we really need an answer this. I hope it wakes you up to the need to wear your seatbelts. (Sept. 7-Sept. 20) There may be more to assimilate in the way of changes this week than you can manage. (Oct. 3-Oct. 22) Involvement in your work lessons learned at home dealing with inflated egos.

Thank you,

Sincerely.

by Stella Wälder

For you and your family or friends.

5
Those who enterprise are ead to success

By Stella Walter

YOUR START THIS WEEK

The coming week leads the enterprise to the threshold of major success, holding out before those who are imaginative, hardworking and bold precisely those riches and degrees of fame one hopes for in consequence of preparations, effort and achievements. Those who may have been holding the first three may find by week’s end that they have missed both direction and opportunity. Those who have been hoarding or planning for success and advancement may find a kind of sudden overprosperousness. New projects, new ideas, solutions to problems, and new ways to open old, heavy doors. Personal relationships, provided impatience and encouragement on the one hand, rest and relaxation on the other. Old friends are to be respected for past services, though they may fail to provide for the present moment. New friends prove valuable, though their advice is still to be heeded. AQUARIUS (Jan. 20-Feb. 18) - Emotional highs and lows this week are in the offing. Most will not be able to dominate emotional proceedings. (Feb. 4-Feb. 18) - Changes vital to the success of present at-home operations prove to be two-edged swords: both welcome and frightening. PISCES (Feb. 19-March 20) - Unexpected involvement of relatives has a major impact on enterprises just getting off the ground. (March 21-April 19) - Collectively and individually, this is a good week for pushing ahead with new projects. Don’t take "wait" as an answer. ARIES (March 21-April 19) - Think of yourself as a victim of fate. Take the reins in your hands and direct your own movements. (April 20-May 20) - Reexamine your schedule for concluding various phases of new work. Restfully or otherwise. TAURUS (April 21-May 20) - Assume an active role in enterprises now. You can move into a leadership position before the week is out. (May 21-June 20) - You can turn to your own and others’ unconscious motives this week-4 to attract suitable signs. GEMINI (May 21-June 21) - Your capacity for invention increases with your need. An excellent week for finding new ways and means. (June 22-July 21) - Focus on emotions that keep you from running with the crowd. You may wish to seek help from an expert. CANCER (June 22-July 21) - Any pronouncement with finances could keep you from progressing in areas basic to health, welfare. (July 22-Aug. 22) - Don’t be misled by the sudden appearance of a turning point in your career. Make decisions, use sound judgment. LEO (July 23-Aug. 22) - A concern for the welfare of children may keep you from personal progress. This week, it’s all work, all work. (Aug. 23-Sept. 22) -

Like Working With Maps?

The answer: City, Address, Name---

Dear P.J.,

We’re very concerned about our close friend. She has a terrible problem and we fear it could be detrimental emotionally as well as physically. First of all, she cries a lot, even everyday. She had a terrible experience last week and she’s always been very reticent about it. She cries so much, even herstate doctor said she needed to find someone to talk to.

We thought you might be able to help her. She’s never met you and she’s a bit nervous. But, she’s been told that you’re very good at helping people, especially women. She said that you’re very open and that you might be able to help her. She’s interested in trying it.

Would you be willing to meet with her? She’s available this weekend and she would like to talk to you as soon as possible.

Thank you,

Sincerely,

[Signature]

Debra Smith and Need an Answer

Dear P.J.,

I’ve noticed that a lot of people aren’t using their cell phones even though it's not required by law. I lost my first phone due to a storm and I’ve been using a flip phone for some time now. I want to learn how to use my phone in a more effective way. What should I do?

Thank you,

Sincerely,

Crowd boogies to Down Avenue and New Man

By E. Kahu

From the opening notes to the final resounding chords, the SUPC indoor Spring Concert used a tremendous amount of energy to fill our entire auditorium.

Down Avenue and New Man

The stage sat silent, throbbing with energy, and within moments the crowd had on their feet, and kept them there until the end of the song, not even for breaks, as there were none. There was an excitement that everyone that was present felt in various ways, from the energy, to the music, to the lights, to the audience. It was as though everyone was just basking in the glory of the moment.

After the show, there were several people that went up to the stage to talk to the band members, and were very happy with the performance.

New Man with members of Down Avenue

By Nancy Roberson

"Western Civ is Entertainm?nt?!"

By Bob Long

It is now time for a short Western Civ- lions. Today's topic concerns Saxon. Saxon is commonly known as one of the most famous rock bands in the world, and their music has influenced countless bands along with the Angles and the Jutes.

The band members are: Tim's twin, a guitarist; Mark, a lead singer; Nick, a bass player; and Tim, the drummer.

In the last appearance in Massachusetts, there was an opening act for AC/DC back in 1979 in Boston. They have played many locations throughout the United States.

Here are two views on exactly the same thing

By Mark Avery

Down and Out in Beverly Hills is an extremely funny movie. It follows the life of the Whitman family when a divorce, brought the family back for an encore. Unfortunately the show did fall through.

As the show was falling apart, New Man plans to go to Epcot Records in New York for their new album, which is to be released in this fall. If you missed this show, you won't want to miss the album in the fall.

On behalf of the students who attended Thursday's concert, we would like to say thank you to all of the performers.

THE KING lives on

By Carla Kerse

Down and Out in Beverly Hills is a controversy movie with a twist of joy. The situation is set in a Beverly Hills mansion. A semi-confined housemaid, played by Rhonda Doyle, leads the life of a tycoon with a confined family of society consisting of a family who talks in his presence, by an architect, and a wife who plays the hostess. Her house, played by Bill Murray, leads her into a life in Beverly Hills, coming from deep confusion, and trying to puzzle her husband.

The movie is created by a team who tries to direct themselves in their pool. It is played by Doyle and Murray and creates a housemaid enough to enter the mansion as a guest. The house has a sense of the meaning in the family that breaks the chains and misery of their life.

Down and Out in Beverly Hills makes one think as if they were living in a very well done and quite hilarious Down and Out in Beverly Hills is a "true-sent movie.

Entertainment

SPORTS

By Mike Storey

The winter sports season is now winding down to its close. Most teams, however, will be continuing through to the National Scholastic league post-season play.

The winter sports team consists of a group of teams that are set to compete for entry into the National Scholastic league. These teams are set to compete in basketball, volleyball, and track.

The men's team finishes their regular season this Thursday (Feb. 20) against Bob Jones before they go to the New England Invitational March 27-28.

INTRAMURALS

Sign-up for spring intramurals will take place on Thursday, Feb. 11, from 10 a.m. to 1 p.m. at the Student Center.

New Man is a must for fans and their last album was a runaway success. For anyone who has followed Saxon through the years, this performance was as expected.

The most for their lack of American music sales, but they do make up for it with their solid sound. On their set, they made up to play a flashy guitar player. In the crowd and they have given us on Monday and Tuesday, Saxon at Teapot Springs.

THE COMPLETE

Although Elvis Presley died more than seven years ago, his image and his movie career have no been out of the headlines of this world. This May, Dell will publish what has been called "the most fine-grained Elvis bio ever. ...Elvis's most intimate life story yet" (Kirkus) - ELVIS AND GLADYS is the story of the rock and roll legend's last years, as told by his wife, the woman who was the pivotal force in his life.

Respected journalist Elaine Dundy went once, with Elvis, to his 1968, where she was born, and her in-depth research, Elvis is the rock and roll legend's last years, as told by his wife, the woman who was the pivotal force in his life. By K. Call

The winter sports season is now winding down to a close. Most teams, however, will be continuing into the final week of the season for a post-season trip.

This year’s team (13-14) had a fine win against skimped over the other big teams (28-6). The team’s overall record was 11-4, which made them the #2 team in the MASCAC conference with 10 wins in a row. The woman’s basketball team (10-4) had a difficult season and barely made the NCAA tournament. The Lady Bears and the Lady Lancers are playing in the NCAA tournament this year.

New GER’S announced

By Pam Swensby
During the 1982-83 academic year at Bridgewater State College the Curriculum Committee, with the guidance of the new course proposals, once again began a long line of the Ad Hoc General Education Requirement (GER) course. On February 25th, the Curriculum Committee developed the Ad Hoc General Education Requirement (GER) course, with the direction of Dr. Stanley Hamilton. In December of last year, Professor Andrews had approved the recommendations made by the Ad Hoc Sub委员会. The recommendations are outlined in the Bridgewater State College General Education Requirements Report dated Jan 26, 1985. Copies of this report are available for viewing in the Maxwell Library, the Student Government Association office, and the Office of the Dean. The recommendations extend behind the goal of the GER’s is that many students are taking courses that will fulfill the General Education Requirements. Also, the community’s awareness of GER’s and their recommendations to that effect is improving.

WBIM changes and grows

By Les Stanfield
WBIM, Bridgewater State College’s radio station has grown through some major changes and growth in the past year. Training programs for drive jockeys, personal, and sports staff as well as a new public service program, cultural programming on Saturday, and a listen.

All prospective DJ’s are required to go through the disc jockey training program which was started last semester. This training program involves two hour sessions with the program and production director, who explain all the standard procedures of programming at WBIM. When the trainees complete these seminars they are assigned an intern position as an off-air intern and they are trained in the fundamentals of programming at WBIM.

There will be a few added interns and our goal is to have a total of six interns. One of the added interns is going to be "relicensing their concert course because they are currently in the beginning of the career. R. F. Stanfield, the program director, explained the DJ best: "The Disc DJ is the most important position in the station. Without the DJs, the station wouldn’t be the same."

WBIM airs a variety of music and information programs, with music being the most important. We have a variety of formats, from rock to country to jazz to classical. We also have a variety of news programs, from local news to national news, and a variety of public service programs, from weather reports to traffic reports to sports reports.

WBIM also offers a variety of entertainment options, from music to sports to news. We have a variety of programs, from music to sports to news. We have a variety of programs, from music to sports to news. We have a variety of programs, from music to sports to news.

WBIM is also starting a training program for prospective news anchors and writers.

Programming on WBIM has also seen a major change in the past year. In place of "Culture Days" on WBIM, the Afternoon show, with "BiDiglob" which devotes itself only to acoustic and soft rock. It is followed by "If It Be Me, Sunday's Public Service program, Radio shows have been the standard, news, local news, and an interview with president president President.

The Portuguese program "Dimensao" follows the public service program and features Portuguese music and music and music. The "Allan White" and "White Chansons" of the classics music, immediately followed by "Shadows of Blue," the Blues program, and "Golden Reflections," the music and music. Which features folk music, "Best Internation," the biggest show, and the night is ended with "Monday Night at the Apollo," a show that gives the audience as well as the DJ an idea of what their role will be.
