EXCHANGE PROGRAMS IN CHINA AND GERMANY. The deadline for faculty and student applications to be considered for the exchange programs at Shih University of China and the University of Germany (Berlin) has been extended to February 26, 1987.

In what seemed like an unusually high voter turnout for a midterm election, the Student Government Association (S.G.A.) continued its primeval for the Presidential and Vice-Presidential seats recently vacated by John J. Mucci (94) and E. E. McEwen (93), as evidenced in the campaign literature. Both candidates have been working hard in the past weeks, and their efforts have paid off. What seems to be the most important issue for these two candidates is the future of the S.G.A. and the campus in general.

In an interview with The Comment, the two candidates, Dan Darcy and Paul Carr, discussed their visions for the S.G.A. and the campus.

Darcy, who is running as the incumbent candidate, believes that the S.G.A. needs to be more involved in the campus community and to work closely with the faculty and administration. He also stresses the importance of communication and the need for the S.G.A. to be more transparent in its decision-making process.

Carr, on the other hand, is running as a first-time candidate and is focused on the need for the S.G.A. to be more accountable to the students. He believes that the S.G.A. should be more involved in the decision-making process and that it should be more responsive to the needs of the students.

In conclusion, both candidates agree that the S.G.A. needs to be more involved in the campus community and to work closely with the faculty and administration. They both believe that the S.G.A. should be more accountable to the students and that it should be more transparent in its decision-making process.

How do you feel about the new alcohol policy?

By John J. Beaton

Although I agree that there is a problem with drug and alcohol abuse on our campus, I think that the new sanctions, which are closely modeled after the current system, will have little impact on the situation. I believe that the new sanctions, which are to be enforced by the police, will be a more negative impact than a positive one. Formal counseling will only result in further disagreement with the police. I would like to see a more educational system in which the program is adopted prior to positive measures.

Dan Darcy
Psi Pi Theta

The sanctions appear to be more of a disappointment than no sanctions at all. The program should be reinstated on the freshman floor so that the problem won’t arise in college later.

Henry Beckweed Student Body Staff

When I voted yes, I did so to increase the awareness of the new policy. I believe it is just as important to keep the policy as it is to change it. The new policy will not result in a decrease in drug and alcohol abuse.

Carey Tvetleh

I think that the new alcohol policy is a good one. I believe that the police will be able to enforce the policy effectively. I think that the new policy will be more effective than the current policy.

Ed Nicodelli Senior Student Court

I feel that the new alcohol policy is a good one. I believe that the police will be able to enforce the policy effectively. I think that the new policy will be more effective than the current policy.

I think it’s great that the administration is trying to help the students, but I think the administration has more of a say in what we do than the students.

How do you feel about the new alcohol policy?

By John J. Beattie

EDITOR'S NOTE: In last week's Comment, we mentioned a story on new alcohol policies that will soon be implemented at the University of Massachusetts. A copy of this story was sent to the University's Students for a Better Understanding of the News (SBU), which is the student-run newspaper at the University of Massachusetts. We received several letters from students in response to this story, and we have included them below.

Mary Consolo
Senior, Business

I think it's great that the administration is trying to help the students, but I think the administration is making more of a show than actually helping those students.

Ed Novelletti
Junior, Student Court

I feel that the new alcohol policy is going to be a good one, but I'm worried that too many students will bePic.

Dan Darcy
President, Psi Phi Delta

I think the sanctions at the college level are inappropriate. It is a great solution, and it is necessary. It is a good policy, although it may not be a problem without alcohol.

Emily McDonald
Program Committee

I feel that the new alcohol policy will be a great one, but it will also cost money to make it happen.

Carolyn Trenut

I agree that there is a problem with drug and alcohol abuse on our campus, but I think the new sanctions will only result in further disagreements with the administration. I would like to see more educational programs that address this issue.

If there is a problem with drug and alcohol abuse on our campus, the administration needs to address it. The new sanctions are a step in the right direction, although they may not be enough.

The Pi Chi National Honor Society in Psychology had a meeting in its annual 1987 Membership Dinner at Bridgewater State College starting February 18th, according to Dr. Richard T. Colgan, Chairperson, and Professor. Membership in Psi Chi, founded in 1920 for the purpose of encouraging, stimulating, and maintaining excellence in scholarship and adding stress to the science of Psychology, is usually held for life. The Psychology Department at Bridgewater State College is the national, regional, national, and local force in the field of Psychology.

At the November 16th meeting of the Psi Chi honor society members, including faculty and students, were formally installed into Psi Chi as new members. Among those installed were Professor Elizabeth Banks, director of local Psi Chi Chapter, and Charles Waters, a psychology student.

As far as the constitution is concerned, they are currently the only active chapter of the national Psi Chi Honor Society. The Psi Chi Honor Society is the national honor society for those who have achieved high academic standards in the field of Psychology.

The college's new drug testing program, which began in the fall of 1986, is part of a national trend to address the issue of drug abuse on college campuses. The program is designed to identify students who use drugs, and to take appropriate action if they are found to be using drugs.

Some students have expressed concerns about the program, arguing that it is too intrusive and that it violates their civil rights. Others have welcomed the program, saying that it is necessary to address the problem of drug abuse on college campuses.

In conclusion, the new drug testing program is a positive step towards addressing the issue of drug abuse on college campuses. It is important to balance the need for a drug-free environment with the need to protect students' civil rights.

The Metamorphosis of a College Student

By John J. Beattie

The Metamorphosis of a College Student is a book by Franz Kafka, first published in 1915. The book tells the story of Gregor Samsa, a young man who wakes up one morning to find that he has been transformed into a giant insect.

Gregor Samsa's transformation is a symbol of the changes that take place as a college student makes the transition from a child to an adult. This transition can be difficult, as college students must learn to be independent, make their own decisions, and take responsibility for their actions.

The Metamorphosis of a College Student is a book that can be read as a guide for those who are going through this transition. It reminds us that change is a natural part of life, and that we must learn to embrace it in order to grow and become our best selves.

The Comment

To the Editor:

In response to your Editorial from last week's issue of The Comment, I would like to offer a different perspective. I believe that Mr. Rossi's comments were not a reflection of the majority opinion on campus. As Mr. Rossi himself stated, his comments were a personal opinion and not a reflection of the university's policies or values.

While it is true that Mr. Rossi has expressed concerns about the drug testing program, it is important to remember that he is not representing the interests of all students. Many students, including myself, support the drug testing program, as it is an important step towards creating a safe and healthy environment on campus.

I would like to see more open and honest conversations about these issues, rather than the kind of rhetoric that Mr. Rossi was using. It is important to address these concerns in a constructive and respectful manner, so that we can work towards a solution that benefits everyone.

Bridgewater State Blues

By Mary O'Neill

What causes those Bridgewater State Blues that most students get when they are about to start classes? For this reporter, one cause might be the realization that there are ten inches lunch bunch. Another major cause appears to be the energy that comes in the last afternoon, and makes finals好似 you've got 106, weight attached. Those days are tough to get away from duties of studying. But stays are other things which make college such a challenge.

One thing that gives you all those benefits? It's difficult to say. For many students, it seems to be a soup oper of their lives and abnormal pressure. For others, it's exhausting to control the emotions and discard the blues.

The latter then, will dwell on the written, the problems. And most likely much their goals. That's fine. It is set in your mind that you will not stop reading here...just if, I have three solutions to solve three more blues:

1. Brownie, a genius of agonish lunch times, low GPA, and endless weather.
2. A way to get away from that endless weather.
3. A way to get away from duties of studying.

But it's the second that GPA, and the third that GPA, which seems to be the problem.

The Comment concerning the lack of support or interest among the students for the theater. Well today, I would like to give my personal opinion on comment, and say that I do not agree with the way the theater is being handled.

I feel that the entire editorial was uncalled for. If anything it was only designed to build up GTA up to a point where all the students would see how much we are enjoying ourselves.

Time to forgive and forget

The need we want in this world is more understanding, not more anger. Anger only causes more problems. Anger can be very harmful to other human beings and causes problems for our society. I do not believe that we should be looking at anger.

You can see how many times it is a result of the same thing. It is not a result of something that we should be looking at.

My point is that every student who has not been a student before should sit and study at the table where the students are sitting. They are studying for the most part. They should be doing it for the school, not just the fun.

When the second solution is realized and put into practice, we can only change our reality. What we call “reality” is just as real as any other reality because it is a result of our existence. With this practice the energy of the second solution is increased.

"What's in a name?"
By Patricia Howard

What's in a name?

The Comment regarding the lack of support or interest expressed by theatregoers for the Fifth Avenue production of "The Gin Game" is disturbing to me. There is a lack of student involvement in the drama department, and it is evident that the students are not interested in taking part in a professional production. As a former student at the Academy, I can say that there is a general lack of interest among the students in the drama department. This lack of interest can be attributed to the fact that the students are not given the opportunity to participate in the production. The students are not given the opportunity to learn new skills or to develop their acting abilities. In addition, the students are not given the opportunity to experience the excitement of performing in front of an audience. As a result, the students are not motivated to participate in the drama department. Therefore, I believe that the drama department should be reformatted to include more opportunities for the students to participate in the production. This would help to increase the interest in the drama department and would encourage the students to become more involved.}

#### $70G Available in Scholarships

During the spring of this year and College-Honors Committes and at the Annual Meeting of the Alumni Association $70,000 will be awarded to undergraduate students—the result of the largest scholarship endowment ever assembled in the history of the College. In addition a number of awards will recognize individual accomplishments in a variety of academic fields and through involvement in campus and community leadership activities. Information on each of the scholarship and award programs is outlined in detail in the 1988-1989 Student Handbook on pages 54-7 through 54-7. While a number of programs involve nomination and selection by members of the Faculty and Administrators, others require direct application by the student candidate. Students who meet the award criteria are urged to obtain application materials at the Office of Student Services (Boyse Hall), the Financial Aid Office (Tilligagh Hall), or the Career Information Center.

Obtain a copy of the "Scholarship Capsules" which highlights specific award criteria. Of special interest are the Alumni Scholarship Program, the President's Scholarship Program (soon to be announced), and the Sho Scopus Program (soon to be announced). In addition, the Dr. Edmund Haughey Memorial Scholarship, the Susan, Laskoff Scholarship, the Lincoln Trust Company Scholarship, and the Harvey Wener Memorial Scholarship have broad criteria.

### Application Deadline:

**Friday, May 3, 1986**

Special category awards recognize academic excellence in a variety of fields including Education, Management Science, the Humanities, and Media. Students who will be entering graduate level study in September should review criteria for the Chilla and Sho scholarships. Other than average students who have transferred from Moneo, individuals of Portuguese heritage, or Burntville high schools, and students who have graduated from Bridgewater may qualify for one of the specially designated Alumni Scholarships. The following steps are suggested to award applicants:

1. Immediately respond to a copy of your college transcript at the Office of the Registrar (Throles Hall), which will be processed as soon as possible. If you will be applying for more than one scholarship, you may make additional applications of the transcript to be sent to the various selection committees.

2. Application forms should be appended and completed according to the directions.

3. It is recommended that you make an appointment with members of the Faculty or Administration from whom you will request letters of recommendation to review specific scholarship criteria.

A column otherwise noted on the scholarship application, the deadline for the submission of all application materials is Friday, May 3, 1986. It is your responsibility to make certain that the appropriate materials have been submitted and that your application is complete.

If you have questions please contact the Office of Student Services (Boyse Hall).

Since the average American holds nine jobs in his or her lifetime, almost everyone will face the challenge of looking for a job at least a few times over. The Job Hunter’s Diary tells you everything you need to know about the job search in a direct and concise manner. It covers every aspect of the job search including: preparing your qualifications, interviewing, working with employment agencies, and preparing resumes, writing job applications, and answering job search questions. The book also contains a 3-month calendar and resource guide to pinpoint your strengths and weaknesses and the worklife profiles that provide the vehicle for an organized and intelligent search. The job seeker’s guide also contains a self-evaluation chart and provides the benefit of a self-assessment guide to keep the job seeker’s diary. The Diary is the job seeker’s companion company for the duration of the search.

A must for career-minded college students, Giving Work Experience Features an informative briefing of more than 10,000 paid summer opportunities and includes company profiles, addresses and telephone numbers from more than 1,000 companies.

Your Stars This Week

By Berke Breathed

The coming week sees a crowded scene that looks like a high-speed chase in which you've been involved, but not as driver, but as passenger. If you're like most people, you would prefer to be the driver. But the truth is that this is a week in which the course of events is being determined by others and you have no choice but to ride along and hope for the best. The most important aspects of this week are the unexpected changes that will occur, the sudden shifts in direction, and the unexpected circumstances that will arise. The best strategy for this week is to stay flexible, to be ready to adapt to the changes, and to be open to the unforeseen. The stars are aligned in a way that makes it difficult to predict exactly what will happen, but the general trend is towards rapid change and unexpected events. This is a week to be prepared for the unexpected, to be open to new opportunities, and to be willing to adapt to the changes that will occur. The key to success in this week is to stay calm, to stay flexible, and to be ready to adapt to the changes that will occur.

Psychologically Yours

By Dr. Richard T. Coogan, Professor of Psychology

"A college is buildings with four walls---with awesome insiders."--Welcome. As a New Year and 365 days and 850 hours of personal growth, intellectual development, and a multitude of opportunities to enrich your life. The 1987 classes in psychology began with increased enrollments and the introduction of Dr. David Richards as Psychology Department Chairman. Warmest "standing ovation" due to outgoing chair. Dr. Louis Schiffer who steered the department through burgeoning enrollments and B.S.C.'s first Graduate Program in Psychology. The B.S.C. students may now continue to embrace upon a Master's in Clinical/Experimental Therapy or Industrial Personnel at R.C.C., or in conjunction with S.M.I. specializations in Human Service Administration or Clinical/Behavior Analysis. The speaking increase in psychology majors at our nation's colleges and universities from 2.3 percent in 1977 to 3.2 percent in 1985 is an interesting phenomenon especially when one considers that advancement in psychology is ordinarily predicated upon advanced degrees. However, college students tend to be very smart and the love of psychology may be because they charge psychology not only as interesting and beneficial to whatsoever their job goal, but that psychology is emerging as a good occupation for which they can do. Want to know more? Then write for a free copy of "Career in Psychology" published by the American Psychological Association, 1200 17th Street, N.W., Washington, D.C. 20036. It is a shockful of careers in Psychology, education, and training, and required, how to become a psychologist, and the wonderful future and opportunities in psychology. "Keep an eye open!" for applications to join the Psychology Club to be distributed weekly, or if you wish to hold your bread, see Dr. Coogan in the R.S.C. 335 Burrill Academic Bldg.

Tillinghast Menu

Much to the dismay of the entire BSC community the Tilly menu will not be run this week. This is in order to allow the staff to correct any inaccuracies that have been caused by changes in the menu by Food Services. It can be seen in its usual form next week.

Lady Bears beat Clark
Ranked in top 20 Nationally

By: Mike Storey

The Bridgewater State College women's basketball team scored the pregame and topped the latest NCAA Division III poll, with an impressive (25-4) record.

The key to Bridgewater's jump in the rankings was a stellar performance from the guard from Clark University (37-3), who scored a game-high 25 points and 12 rebounds.

The Bears scored the first points of the game, followed by a three-pointer from the right corner. Mike Storey added 21 points, but Bridgewater ended the game with 10 points and 18 rebounds. All-Star guard JoAnn Runge dished out a season high of 12 assists.

Other action during the game included two more victories against the MASCAC conference. As their overall record improved to 11-3 in the MASCAC, the Bears established a new high of 25-4.

The win raised Bridgewater's record to (12-6), which is currently undefeated. The Bears closed out the scoring with a 93-63 score, the highest in the MASCAC conference as they trailed only by seven points in the first half.

The Lady Bears have now won five of their last six games, and there seems to be no stopping them. Coach Bob Ruggiero puts it this way: "It's always been one of our team goals to be in the top 20 nationally. We're done now and have one shot in moving up even higher over the next few weeks. The Clark game was a big win for us."

The Bridgewater State game was over early in the MASCAC, and the Bears were able to get to a (17-3) finish in the conference.

Men shoot for better profile

By: Mike Storey

The Bridgewater State men's basketball team won their third game of the season, but lost two important MASCAC conference games, as their overall record remains at 15-24, but is now 2-6 in the MASCAC.

The Bears started the week off right as they received Mike Maguire's help in the MASCAC. Mike Storey added 21 points and 10 rebounds while Mike Maguire added 21 points and 8 rebounds.

The Bears took to the road and played against the New England College in the MASCAC. Mike Maguire added 21 points and 8 rebounds while Mike Maguire added 21 points and 8 rebounds.

Swim team win

The BSC men's and women's swim teams finally broke into the win column last Saturday, as they defended the Bears in the MASCAC. The Bears played against the University of Maine, the Bates College Basketball, and the University of Connecticut.

The men's team, the 400-yard medley relay team, ranked first in the MASCAC. The women's team, the 400-yard freestyle relay, ranked third in the MASCAC.

Last Wednesday's meet was a 6-5 victory over Holy Cross, and will host the University of Connecticut Basketball on Friday at 4 p.m.

The men's team ranked fourth in the NCAA, and the women's team ranked fifth in the NCAA.

BACK TO SCHOOL

Bridgewater State College 1986-87
WOMEN'S BASKETBALL

BRIDGEWATER STATE UNIVERSITY
Bridgewater, MA

The BSC women's intramural program is well underway as we catch the old school spirit again. In between academic seasons and spring games, the Kelly Gym is jammed every night from Sunday through Thursday.

In men's basketball the 28- team league is divided into the east and west divisions. Currently sporting undefeated marks and playing their respective divisions are: Bob Ruggiero, Division B Women's Basketball, and John Hill, Division D Women's Basketball.

The annual BSC ski weekend will be held next weekend at the Ski Resort, Ontario, Can. (Feb. 26-28). Last year's 100+ enthusiasm went on its way. There will spread around campus in how great this is. This year is the right year, and it will have 100+ plus kids and the steps.

Those who still need to make their final payments should see Mike Storey (Kelly Gym) or Chris Ruggiero (Bears) for details.

The Bridgewater State College women's basketball team came within two points of the 20th ranking in the latest NCAA Division III poll, with an impressive 19-1 record.

The key to Bridgewater's jump in the rankings was a stellar performance against the defending NCAA champions, the Clark University women's basketball team (37-20), who were ranked 3-23 going into the game. Bridgewater blasted 28-21 in the first half, and continued its winning streak in the second half as they outscored their opponents, 16-16, in the final eight minutes. Francean, Mary Lou, Cardinal, the leading scorers, followed the Lady Bears to victory. Cardinal Cholokos was solid at both ends of the court, scoring 10 points and making 10 rebounds. All-Star Guard JoAnn Runge
dished out a season high of 12 assists.

In other action during the week, the Lady Bears dropped 52-43 to the Masconomet Regional High School team in the tournament stage of the New England Invitational Basketball Tournament at the State Armory in Boston.

In the final game of the week, the Lady Bears played the Westfield State University team in a non-conference game. The final score was 73-55 in favor of the Lady Bears.

Men shoot for better
By Mike Storey
The Bridgewater State College men's basketball team won their third game of the season last Tuesday, as they defeated the Mass. at Boston College 75-12. The men have won their first three games, but lost their fourth game to New Hampshire last weekend.

The Lady Bears will finish their dual meet season with a co-ed meet at Babson College next Tuesday. The meet will feature a strong 1:51.31 clocked by Joanne Anderson, and Chris Mirgon.

Lynn Mulkerrin, Jen Mirgon, Jean Bailey and Anja Van Hagen will all compete in the Breaststroke. Hagens will be swimming a time of 5:34.00.

Ladies meet will be held at 1:30 PM on Monday, February 1st. The meet will be held in the 19th Lane.
