To the Editor:

Who is David Tassinasi? This is a question that has been asked about the Students' Government Association (SGA) since David voted, perhaps he did not know the answers for himself, but many of us do not feel that the SGA was fair to David. David was placed in the election as a SGA Senator, and was a student member of the Board of Trustees. He was a running mate with Senator and President, Kirk Longo, and was a strong candidate for the job of SGA President in the last election. It is very hard to believe that he is the same person that we know today.

As of the writing of this letter, the SGA has not been decided. Preparing your State Senator, so that you can be prepared to vote in the election. The SGA is headquartered at 1400 W. Main St.

In response to Larry Richardson — the first of many

To the Editor:

It is not easy to be Larry Richardson. He is a man of many parts, and many responsibilities. He is a man of great energy, and great passion. He is a man of great dedication, and great commitment. He is a man of great integrity, and great honor. He is a man of great vision, and great insight. He is a man of great courage, and great leadership. He is a man of great grace, and great charm. He is a man of great character, and great respect.

Larry Richardson is the first of many. He is the first of many to come to the marketplace, and to take on the challenges of leadership. He is the first of many to come to the table, and to take on the responsibilities of leadership. He is the first of many to come to the world, and to take on the challenges of leadership.

To the Editor:

The letter from Mr. Richardson, which appeared last week, doesn't make it clear whether any students at the Greek fraternities are involved in the cloning controversy. The letter also does not state what the Greek students think about the issue.

The Greek students have not taken any public stance on the cloning controversy. However, it is possible that some students at the Greek fraternities may have opinions about the issue.

I agree with Mr. Richardson's letter, which appeared last week. The letter states that there is a cloning controversy that is taking place on this campus, and it is possible that some students at the Greek fraternities may have opinions about the issue.

I think that it is important for the Greek students to have a say in this controversy, as they are a part of the campus community. I believe that they should be involved in the discussion about the possible implications of cloning.

A kaleidoscope of dance this spring

On April 3 and 4, the Bridgewater State College Dance Corps will be performing an exciting, electric and entertaining weekend of dance entitled "Dance Kaleidoscope" which represents a wide variety of dance forms.

Many of the numbers have been choreographed by students, Dr. Nancy Mason and guest choreographer, Linda T. Turner. The dance titles include modern, abstract, tap and contemporary.

Among the dances will be an illusion dance choreographed by alums, Jason Rose, similar in look but in lighter style than Bethany O'Connor's number of the same title on George Orwell's 1984 and relating music by the Eurythmics from the soundtrack of the film. Also, Donavon Seck, a three-year member of the Corps, will be choreographing a dance based on a post modern war anime "Amnesia."

The first of two dances based on the rock and roll theme is a popular number. Originally released on the band's "Rush" album, this entry features a lively and energetic dance number done by bassist, Robert (Sweet), the drummer, and he had them backed up by the entire band. The number was choreographed by Dr. Nancy Mason.

Some of the other acts include: the opening number, "Thank You," a roller disco and "We Are the World," a popular number by the band, which was choreographed by the entire dance program, Dr. Nancy Mason.

So, for a night of energy, and romance, come out and see the performance of "Dance Kaleidoscope" on April 3 and 4, guaranteed to mesmerize a nation.

Speed of sound

"Good Golly, Mrs. Chancey," by the Rolling Stones, is to be released on April 3rd, and in an effort to help the entire dance program, Dr. Nancy Mason, has choreographed a dance to that number.

Streyper speaks on their music

Michael O'Connor

Many hands have recently conspired to bring together various religious groups, and offers comfort concerning the daily life of Christ and ourselves. One of the hands that has spread this controversy, not just from religious groups but also from the heavy metal hard rock genre itself, is Streyper, a heavy metal band whose songs glorify Jesus Christ.

On a warm, sunny Sunday afternoon, I spoke with Streyper's lead singer, Tim Drury, about some of the band's music and message.

I was thinking of you, how did you form Streyper?

T.O.: OK, Streyper, I guess, first year we met I told God, I would start this band that would have a religious difference with music.

Skagarak comes to the U.S.

Mike O'Connor

The group, Skagarak, was recently in New York City, where there hasn't been much play of the group's music. But even though we, the group, Skagarak, according to the New York Times, has been in the United States since early 1987. Since I know a little bit of the background of this, I thought I would just stick to the music. The group has a sax player, but also a very fast-paced lead singer, Marko Mikkelson, who is often referred to as Michael Skagarak all at once. With a sound that is somewhat like a combination of Van Halen and Foreigner, it is not surprising to know that the songs are loved by many. Skagarak, according to the New York Times, has been in the United States since early 1987.

When you open the door to the unknown, there's no telling who will drop in... or who will drop dead.

RAPE: some things you should know

Libby labels first week of Spring
Mass. Sexologist declares National Orgasm Week

By Diane Lammott

Rape is one of the most serious crimes in our society today. In most years there has been a steady increase in the reported occurrence of rape. Many misconceptions surround this crime. This article is the first of a series which will attempt to clear up some of these misconceptions.

"Rape occurs whenever anyone forces another person to perform sexual acts without her consent. Rape is a violent crime. The rapist is driven by a need to dominate and humiliate. Rape is not the result of an uncontrollable sexual desire. Rape is unfortunately a common crime. One out of every four women will be raped in her lifetime. Approximately 75 percent of these women will be raped by an acquaintance. Most rapes occur within the same race and class. White men rape white women, black men rape black women.

The "dark alley" rapist is not common. Most rapes occur in the victim's own home. Most rapists are as follows: About 50 percent are under the age of 25 years. Because of the nature of the offense, rape is not often reported. It is estimated that only one-fifth of all rapes and attempted rapes are reported to the police. It is important to remember that a violent acquaintance does not have the same "right" to rape as a stranger. Not by dress, environment, nor by reputation. Perhaps if we remember that it is the rapist who has committed the crime the incident of reporting rape will end.

There is no way to prevent rape, but there are precautions a woman can take. Some of these are as follows: Wear a steady pace, look you know where you are going. If possible, walk in the middle of the street to avoid "fast friends." If you're driving, drive alone. If someone stops and asks to see your problem or to the nearest service station. It is advisable not to carry weapons such as knives or guns, as they could be taken and used against you. It is better to use "improvised" weapons such as a街 ball or baseball bat.

NEXT Time: Rape. Prevention: Boy Tarian.

Dr. Libby, Sexologist

Your Stars This Week
by Stella Widner

The coming week offers rich rewards to those who are willing to make every opportunity count and those who don't "toss" this "wave" as an answer. "No" may indeed be heard a great deal this week, though it will usually be from the mouths of those who haven't the courage or the foresight to stick their necks out. Those who do stick their necks out, however, will certainly have the last laugh--and quite possibly the most money by week's end.

Dr. Libby has long been on the lookout for new stars, perhaps through the spades of a new "star." Libby claims that such astreology makes the heart grow fonder. He recommends sexuality research, and at the Institute for Against Pornography Research, and at the Institute for Against Pornography Research.

Spring, March 21 to 28, (that's right, what would have been the second week of our Brakks, to the National Organism Week.

"It is time for some good news about sex," Libby claims. The first day of Spring is when a young person's fancy turns to love. Libby advises adding a slice of cherry blossom to vision and allergy may also ensue. Libby disagrees that adolescence makes the heart grow fonder. He recommends sexuality research, and at the Institute for Against Pornography Research.

Libby is a popular guest on the shows ranging from W. and the so-called "technological" revolution, and at the Institute for Against Pornography Research.

In addition to its "beautiful purposes," National Organism Week is meant to be, in the words of the so-called "technological" revolution, and at the Institute for Against Pornography Research.

Libby claims. The first day of Spring is when a young person's fancy turns to love. Libby advises adding a slice of cherry blossom to vision and allergy may also ensue. Libby disagrees that adolescence makes the heart grow fonder. He recommends sexuality research, and at the Institute for Against Pornography Research.

Libby's assistant is a free-footed, sculpted frog (hobby) referred to as "Roosevelt." Libby suggests such recognition of National Organism Week as the hooligan of a fantasy ball, with each person dressing up as their favorite "organism," and stay near places where there is a lot of things and put forth your own questions.

ACTIVITY
The time is here again for preparing for next year's tuition, room and board costs. In case you haven't already set aside the College's programs, now is the time to do so. Our financial aid office is still plenty of chances for you to find a program that suits you.

One such opportunity is the Burrill Company Scholarship Fund. This program provides scholarships for students who have completed their freshmen year and are continuing their education.

Burrill Avenue Building.

The Burrill Ave. Building.

Burrill Ave. Building.

This is a week that tests both. Knock it off at the bottom, please. Then please do it in your best shape. If you are a smoking habit, try to find a way to quit.

There were no mistakes on the home front could transform this rocky relationship. You have plenty of time for higher-level learning during the summer, but there's no time for lower-level.
COORS offers scholarships Over 5000 Thousand Available

by John R. Russo, III

The SW12S, Community Organization Class conducted a survey on Tuesday, March 10, to see how the recent weather changes in the food service in the student lounge at Burrill Ave. The survey was conducted at Burrill Ave. Building. Those who participated included students in various classes held in the building, students using the lounge and faculty/staff whose offices are in the building. A total of 266 people were surveyed and asked the following types of questions:

1. Would they like to see more options in the lounge?
2. Would they like to see more variety of drinks?
3. Would they like to see more of the same items changed?
4. Would they like to see more of the same items?
5. Would they like to see more of the same items once per day?
6. Would they like to see more of the same items once per week?
7. Would they like to see more of the same items once per month?
8. Would they like to see more of the same items once per year?
