The annual SGA and class elections are history, and there are going to be some changes made. In the SGA, there will be a new president, vice president, secretary, assistant secretary, treasurer, assistant treasurer, and six new senators. There will also be a new student trustee.

The new president is Deborah Sammons, who beat Dan Darcy by a 394-246 margin. Asked how it felt to be the new president, she replied, "It's a lot of responsibility. Everyone is turning to thoughts of planning, decision-making, and the possibilities of the position. I'm excited." Sammons is currently finishing out a term as an SGA trustee, and the results speak for themselves. She had a lot of experience in the job, and she won the vote.

The new SGA president will run for the position, only two, vice president, and the results speak for themselves. She had a lot of experience in the job, and she won the vote.

Four members walk out

By Ed Ward and Sharon Ciglioti

Budget hearings began at 4:25 pm on Tuesday, April 21, 1987 at Chairman F. Scott Longo called the General Assembly to order. President Deluca began the meeting with his executive report, wherein he advised the Assembly that he had received a letter from the State's attorney, advising him to move the hearing from 4:25 pm to 6:25 pm. Referring to his note of Motion #411, he stated that the SGA was not able to sponsor any political activity, due to the regulatory issues with the State's attorney.

The meeting then recessed at 6:25 pm, following a call for order by President Deluca. The meeting resumed at 6:25 pm, following a call for order by President Deluca. The meeting then recessed at 6:25 pm, following a call for order by President Deluca.

Veto overridden; Beaton wins write-in candidacy

By Ed Ward

This Tuesday, President Deluca's veto on General Assembly motion #410 concerning the infamous "Dunfey's over" was overridden by an 11-4-1 vote. On Wednesday, John J. Beaton, one of the more responsible, was elected SGA president.

With the passage of this motion, Beaton, Denis Lemieux, and Harold Berry shall be removed from holding an SGA appointed position or from appearing on an SGA ballot. Beaton did not appear on the SGA spring election ballot but did run a successful write-in campaign for the office of SGA treasurer. Beaton will be sworn in this week from this Tuesday's ratification of the General Assembly meeting along with all of the other new SGA members and class officers.

A new career and a new Toyota. Who could ask for anything more!
Proposed calendar unfair to students

The 1987-88 academic calendar is not yet out. There is no word yet as to when the new calendar will be available, or when it will be finalized. However, for those who have been through the various college committees here at BSC, this proposition was discussed at a meeting of the Senate on September 2-3 before Labor Day. It would also have us in school until two days before Labor Day and includes, once again, only one week for spring break. The calendar passed through the Academic Policies Committee with only a few minor changes. That is not surprising, since only three students were on that committee (as opposed to five faculty members and at least five other students), and of those three, only one bothered to attend the meeting at which the calendar was discussed. The next step before the calendar is completely out of our hands is an All-College Committee meeting on April 28. Again we have only a few students, and once again only one bothered to make him heard. This calendar affects the students more than anyone else at the college, so it is up to us to let the administration and faculty know how we feel. The following people make up the All-College Committee:

Charles Angel
Prof. Evelyn Pezzulli
Prof. S. Whitman
Prof. Harold Silverman
Prof. Francis Dunfey
Prof. Patrick Henry
Prof. Patrick McTavish
Prof. Peggy Hayes

Let these people know how you feel about the proposed calendar. Remember, they are our voices in this matter. If they are to represent us, they must know what we think about it.

Some proposals not kept

DeSilva was not in error on vetoes

I am writing this letter in reply to Brent F. Rossi’s letter entitled “Absolute power corrupts absolutely” which appeared in last week’s Comment. If I were you, I would have cried foul. Rossi, in my opinion, is an absolute embarrassment to the SGA. As SGA President, Rossi has not kept his promises.

First, Rossi’s letter is in error. The office of the President of the SGA is very important and must be held with a great deal of responsibility. Rossi wrote, “Since it was not kept, Mr. President, you should have known better.” This is not true. Rossi has been in office for only one semester and he has little knowledge of the procedures of the SGA. Rossi and I have disagreed on many issues, but I have always tried to work with him and be reasonable.

Second, Rossi has never held office before, so he has little knowledge of how a college government operates. Rossi wrote, “If the student body, the administration, or the faculty disapprove of an action by these senators, I feel they are our voices in this matter. If they are to represent us, they must know what we think about it.” Rossi is absolutely right.

The Viewpoint

Proposed calendar unfair to students

The 1987-88 academic calendar is not yet out. There is some indication that the final copy may be available by the end of the school year on September 2-the week before Labor Day. Some promises not kept

DeSilva was not in error on votes

By Christine Howard

Do you recall when Dilip DeSilva, new SGA President, asked that you vote for him and the rest of his team for SGA? You did, he asked that you vote for him and his slate of candidates. And you did, didn't you? He also vowed to clean up the administration. Has he? First, Dilip has worked against almost all the experienced SGA candidates. Listed in alphabetical order are the names of many SGA members, hundreds of whom have been eliminated from many selections. One student, in my opinion, is a select few. (In my opinion, of course, because that is my opinion of his clique, because they agree with his own.) Dilip may have had problems in getting votes from the members of Student Government. He failed. Wendy O. Williams and the Plasmatics

Mr. Plasmatics at the Living Room in Providence on Thursday, April 11.

The Plasmatics have been popular ever since the mid- seventies, when Wendy O. Williams, a punk performer, began appearing on the New York scene. With his band, the Plasmatics have become one of the most popular punk bands in the country.

The band's first album, "Ollie, Nuncio," and the single of the same name, "Ollie," have been received with great favor by both the fans and the critics. The band's sound is a cross between hard rock, punk, and heavy metal.

Ollie, Nuncio" has been a hit with both critics and fans. The band's sound is a cross between hard rock, punk, and heavy metal.

The secret to success - two views
By Marc Grider
This week I'm going to look at The Secret of My Success and that new Matthew Broderick, no time to fail, movie. The plot was predictable and the action stereotyped through their parts. Matthew J. Fox did just what he was told to do. His scenes with Helen Slater had all the passion of a rock star. The plot went along but the acting was bad. The music from the movie was really good and the movie was generally well done.

The choripan was great! He combed on his hair and left New York City in the morning. He was going to be in the movie at 7 a.m. in the morning. RAPE: Steps to take if you've been a victim

Conclusion of a Comment Special Series

By Diane Lenz(lott)

The statistics of the occurrence of rape are alarming. Apparently one in every four women, or one in every five men who are sexually violated, is a victim of this violent crime. Rape may cause severe damage both physically and emotionally. This article will deal with the aftermath of rape.

Anyone could be the victim of rape at any time in their lifetime. Do you know how you would react if you were a victim? There is no way to "prepare" oneself to be a rape victim. The crime is one to be positively prevented against. For your own protection, they are procedures you should follow if you are attacked.

The most important step, get out of any immediate danger. Get to a safe place and call the police, a friend, a counselor or some sexual assault counselor in your area. In Brooklyn, Area 368-T.A.L.E. You must then make a critical decision, whether or not to report the incidence to the police. If you decide to report the crime you must seize the rape kit, wash, bathe, douche, or enemas and your fingerprint. Often it is the victim's first reaction. Probably an attempt to cleanse themselves of the filth and humiliation, they have just endured. This also destroys valuable evidence. You must then go to a hospital for a physical exam. This is your mandatory treatment to help any internal injuries. The exam is also valuable evidence, in case of open in the victim.

Many hospitals that treat rape victims will routinely notify the hospital. If the hospital does not, it is your responsibility to do so. This is the next step. When reporting the rape to the police, it is important to remember to go as you are. Once again, do not straighten your appearance. You may also want to bring a friend for moral support. You also have the right to ask to speak to a female officer if you feel you will feel more comfortable. At this point, you may or may not file charges but the police will have record of the incident. If the police do not decide to report the incident to the police, you should still go to the hospital for a medical exam. This is an important step to ensure treatment of any injuries sustained.

Mentally speaking, as a rape victim you may have many concerns. If you are concerned about sexually transmittable diseases, it is important to inform the hospital of any STDS you have beenполнение before the exam. You should return to the hospital one week after the attack for a follow-up test, six weeks later for a followup test. Ask the hospital about other STDS exams. Pregnancy may be another concern for the rape victim. Many hospitals offer rape victims the "morning after" pill, which is a five day regime of estrogen. If pregnant, this may cause a spontaneous abortion.

You may also want to avoid intercourse for a short period. This method is less traumatic then the "morning after" pill. If you decided not to report the crime to the police it would be a good idea to write down everything you can remember about the attack as soon as possible. You may want to use this evidence later on.

The most important thing is that you can do for your child is to let them know you are their mother. It's a specialty clinic and not just a group of people. If you have any questions, you can contact the group at the Psychology Department main office. What are you going to do if you don't feel you can go? But if any action isn't drawn in, you may be seriously lacking in the keen perceptual powers of observation expected of a good psychologist. And having

Do you love photography but find that the stage images of conventional photographs are becoming boring and stagnant? Why not try something new?

A fresh, vibrant, and amazing approach to photography has been explained by David Hockney. His photography is different, as he is known for his unique style and perspective. Hockney has gone beyond the limits of photography and has incorporated elements of painting and drawing into his work.

Among Hockney's most famous works is his series of portraits of Marlene Dietrich. In this series, the artist captures the essence of the actress, creating a haunting and evocative image. The portraits are not just photographs, but rather a combination of painting and photography, creating a new medium of artistic expression.

Hockney's use of color is also distinctive. He often uses bright, bold colors to create a sense of movement and vitality in his work. His use of light and shadow is also masterful, creating a sense of depth and space in his images.

Hockney's process is unique. He starts with a photograph, but then goes on to paint over the image, creating a new work of art. This process allows him to explore different perspectives and ideas, and to create new meanings from his original photograph.

Hockney's work is not just visually stunning, but also thought-provoking. His images often challenge our perceptions and encourage us to see the world in a new way. His work is a testament to the power of photography, and to the endless possibilities that exist within this medium.

Psychologically Yours

By Dr. Richard T. Colman

The most important thing you can do for your child is to love them. It's as simple as that. Children need to know they are loved and cherished. As we know, it's a delicate balance. Too much love can smother a child, while too little can lead to feelings of isolation and loneliness.

It's important to understand that each child is unique, and what works for one may not work for another. It's important to listen to your child and try to understand their perspective. It's also important to set boundaries and limits, while still being flexible and understanding.

In conclusion, the most important thing you can do for your child is to love them. It's a delicate balance, and it's important to understand that each child is unique. By being a good parent, you can help your child feel loved and valued, and set them on the path to a happy and successful future.

Recently Drs. Javier L. Escobar and Marvin Karnofsky of the University of Arizona were paid to write a paper. One of the researchers in the group of five men who met the criteria of all male sex workers, was able to write the paper. Among other goals, the paper was designed to study the effects of female sexual attraction on the male rat. In order to achieve this, the researchers applied a mild electrical stimulus to the male rat's penis. After 24 hours, they switched on a more powerful electrical stimulus to the male rat's penis. The resultant irritation caused the male rat to become alert. At that moment, the decision to be made was to use the technique on the male rat's penis. After 2 hours, the experimenters noted that the male rat was more alert than before the electrical stimulus was applied. After 3 hours, the male rat exhibited a clear sexual response. At that moment, the decision was made to proceed with the experiment. The results of the experiment were published in the journal of the American Psychological Association.

SGA election brings new faces to office

Longo, student trustee; Sammons, president

By Bill Blidhous

The annual SGA and class elections are history, and there are going to be some changes made. In the SGA, there will be a new president, vice president, attorney general, executive secretary, treasurer, assistant treasurer, and six new senators for 1987-88.

There will also be a new student trustee.

The new SGA president is Deborah Sammons, who bested Dan Durcy by a 394-268 margin. Sammons is currently finishing out a term as an SGA senator. Asked how it felt to be the new president, she replied, "Thrilled. I plan on being hard, and I'm sure the campaigns and results for the SGA are going to be better than anything you've got to look to. That's the way."

New student trustee is Tom Brown. He defined fellow senator Linda Walken, 32-243. Other winners are Richard Donahue, attorney general; Peggy Hayes, executive secretary; Sharon Cipriani, assistant treasurer. All three must have an Exit Interview in Room 231.

Former President John Boston went on a legs campaign for treasurer of the people within the position, only two, Benson and Suzanne Sullivan were qualified to hold that position. According to the SGA constitu­ tion, a person must first serve as assistant treasurer before being eligible to run for treasurer. Benson served in the assistant's post in the fall of 1984, while Sullivan is the current assistant treasurer.

Benson won the right to hold the office when the SGA voted over a veto by President Philip Deluca. The vote canceled the senator's overturning of a Student Court ruling that Benson was and current Treasurer Mary Murphy could not run for the position of office.

The BSC Board of Trustees will meet soon to name new Student Trustee F. Scott Longo redesigning and improving, and the board has been looking for working with the older student members of the SGA. It would also like to offer some more definitions to the job of Student Trustees. I don't think that we have specific areas of interest, and we have been fully explored.

In the SGA Assembly, all new members are welcome.

F. Scott Longo and Deborah Sammons smile over the elected, along with several SGA officers and non-degree students.
