Apartheid activist tells her own story

Members of the Bridge-Water State College community gathered in the Campus Center Ballroom on Tuesday night to hear Donald Woods, a black African, discuss his life after Mandela's release.

Woods, who died in a South African jail in 1987, was one of the first black people to carry passbooks as the basis for the anti-apartheid struggle.

He was later permitted to return to South Africa illegally in 1976, before being captured. He was then held in the Johannesburg prison of Victor Verster and later in the Pollsmoor prison of Cape Town.

In 1977 he was reported to be in South Africa illegally, still trying to reveal the true cause of Biko's death. Donald Woods is a white South African who was the editor of the South African newspaper The Daily Dispatch.

He was allowed to write a book before he was killed. The book, titled "You're dealing with fairly crazy people who, if they are not rich enough, will send them to prison for a few months," was never published.

On October 12, 1987, Donald Woods was killed in the Johannesburg prison of Victor Verster. The cause of his death was later attributed to AIDS.

Woods' son, Steve, stated that his father had been denied a fair trial and was tortured.

The Student Government Association voted to allocate $5,000 to the Student Daily Center on campus day care.

The proposal submitted by the SGA's Committee on Student Affairs states that the allocation is to be used for the center's operations and maintenance, as well as for the center's staff costs.

The center currently serves 30 children and 20 parents, and the allocation will allow the center to expand its services and accommodate more children.

The center, located in the Campus Center at Bridge-Water State College, offers drop-in care for students and faculty, as well as a full-time day care program for students and their families.

The center's director, Betty Desrosiers, said that the allocation will allow the center to increase its hours of operation and provide more services to the community.

Said Desrosiers, "The center is a vital resource for students and faculty, and with this allocation we can provide even more support and care for those in need."
Hall dedicated as part of Black History Month

As one of the culminating events of Black History Month at Bridgewater State College, a Hall of Black Achievement was opened in the Heritage Room on the fourth floor of the Library.

The plaque was unveiled on the occasion of a special presentation by Elizabeth Whitmore of the Department of Black Studies.

The Hall of Black Achievement will be a permanent feature of the campus, providing a place to commemorate the contributions of African Americans to the University and the nation.

The dedication ceremony was attended by students, faculty, and staff, who came together to celebrate the achievements of black Americans.

The Hall will feature exhibits and displays highlighting the achievements of black Americans in a variety of fields, including science, politics, and the arts.

The dedication ceremony was a fitting tribute to the contributions of African Americans to the University and the nation, and it serves as a reminder of the importance of diversity and inclusion in higher education.

SGA elections in an uproar

SGA elections were marred by controversy this week, as candidates faced off in a heated campaign for student government positions.

The campaign was marked by allegations of misrepresentation, misinformation, and personal attacks, as candidates sought to gain the support of students.

However, despite the challenges, many students remained engaged and passionate about the issues that matter to them.

The election results were announced on Wednesday, with the winners taking their seats in the SGA Council.

Daycare gets $5K

The Bridgewater State College Foundation has awarded a $5,000 grant to the Department of Early Childhood Education to support the expansion of the daycare center.

The grant will be used to purchase new equipment and improve the facilities, allowing the center to serve more children and families.

The center currently serves 30 children and their families, and the grant will enable the center to increase its capacity to 50 children.

The grant was made possible by the generosity of the Bridgewater State College Foundation, which supports the University's mission of excellence in education and research.

American Civil War Museum

The American Civil War Museum is a new museum that opened in 2018 to commemorate the 150th anniversary of the end of the Civil War.

The museum features exhibits and displays that explore the causes, course, and consequences of the Civil War, as well as the lives of the soldiers and civilians who lived through the war.

The museum is located in Richmond, Virginia, and it is open to the public year-round.

The museum is a joint project of the National Park Service and the Virginia Department of Conservation and Recreation, and it is supported by a grant from the National Endowment for the Humanities.
SCHWEIGER NOT AN ANNOUNCER

"There are a lot of song and dance weathers on television. I'm not one of them," states WESC-TV, Channel 4 news meteorologist Bruce Schweigern Wednesday night in the science building lecture hall.

Schweigern was at the campus as part of the Earth Science and Geography Department's Earth Science Career Night held in the Siler Building.

"It snowing a lot but it's not as bad as advertised. It's not as heavy as it looks. It takes hours of preparation," he said. "The day after the storm, the roads were clear, and the weather was pleasant.

The weather was unusual, cloudy and misty. The sun went down at five and it was still overcast. The sky was filled with dark clouds, and the wind was blowing strong.

A related problem that he pointed out is the amount of snowfall which is to say too much. The state budget is too tight, in the view of the governor. They are getting ready to change their minds.

BRIDGEWATER AT OXFORD PLAN SOON UNDERWAY

Bridgewater State College, in cooperation with St. Hilda's College, Oxford, will be sponsoring a special summer program for the students who wish to study in England.

The program, which is under the direction of Professor Charles Nickerson and William Smith of the History Department, will enroll only the students who have attended BSC for a minimum of one year. The program will begin in June, and the application deadline is March 15.

Nickerson stated that "this program is specifically for students. The English approach to literature is different from the American standards. They have a real problem in communicating with each other."

The Bridgewater-at-Oxford Program will be open to any students, and will include all levels of students. The program will provide a variety of courses and options.

Students who are interested in applying must have completed at least one year of college and must have a minimum GPA of 3.0.

Senator Ted Kennedy, dubious senior leader of the liberal doubleshouters, strikes again.

The Right Idea
By Jeff Tuttle
Special To The Comment

Our esteemed senior senator from Massachusetts headed Bridgewater State to speak at the Student Body of SGA. His speech was well received by the students, and he was given a standing ovation.

But the day after the speech, the student body decided to declare Kennedy's speech a fraud.

Kennedy's speech was delivered on the last day of the semester, and the student body, under the leadership of President Michael Brown, decided to call a special meeting to discuss the matter.

The student body felt that Kennedy's speech was not in line with the ideals of the student body, and they decided to declare it a fraud.

The student body's decision was made public the day after Kennedy's speech, and it caused a stir on campus.

The student body's decision was not without controversy, however.

Some students felt that the student body's decision was an overreaction, and they felt that Kennedy's speech was a valuable contribution to the campus.

Others felt that the student body's decision was justified, and they felt that Kennedy's speech was not in line with the ideals of the student body.

The student body's decision is currently under review by the university administration.

The student body's decision to declare Kennedy's speech a fraud is a clear example of the use of the democratic process to bring about change.

The student body's decision was made after careful consideration of the issues at hand, and it was based on the principles of justice and fairness.

The student body's decision is a testament to the power of the democratic process, and it is a reminder that we must always be vigilant in our efforts to protect the democratic process.

The student body's decision is a clear example of the importance of democracy, and it is a reminder that we must always be mindful of the dangers that threaten democracy.

The student body's decision is a clear example of the importance of education, and it is a reminder that we must always be committed to the cause of education.

The student body's decision is a clear example of the importance of leadership, and it is a reminder that we must always be committed to the cause of leadership.

Celebrate Black History Month

By John Ryan  Comment staff

Every February, an event of great importance graces the Bridgewater campus: Black History Month. For many years, Black History Month has come and gone, but few grasp the true meaning of this event. Black History Month is not just for the black race alone. For it is here to increase our awareness of ourselves as human beings.

The lectures on campus are the main drive of Black History Month. They surround the issues of being responsible, being professional, opportunities for minorities in businesses, and even problems in South Africa. Many of the lectures center around trying to motivate blacks on campus into tackling the kind of jobs they want. These lectures talk about different kinds of jobs thatstro-top black people are not expected to get. The backgrounds of these fields are also explored to show people how to get into these workplaces and what they are really like. The lecturers use videotapes and personal experiences to demonstrate the audience about the material they are explaining. The lecturers who use their own personal experiences give the demonstration the most power, because it shows that the example can actually happen.

One thing the lectures need are more people in attendance. At the last lecture, the hall was less than half full. All the members of the Afro-American Society, Vice President Jackie Holmes. One of the big surprises was that several high ranking Bridgewater officials all showed up, including Acting President Dillman. It shows that the example can actually happen.

Off-campus dwellers:
know your rights!

Bloom County is not an exception to the rule that a lease is a legal document. When you sign it your rights are bound to its terms. Student Services recommends that tenants check the following details before signing the lease:

•Are the repairs man to come and fix it? At 12 a.m., when it was 32 degrees outside you ran out of hot water. Do you have a contract that both the apartment owner and the tenant are bound to the terms of the lease.

•Is the security deposit required? If not, what constitutes a security deposit? Are pets allowed? Does the apartment owner charge a security deposit for the repair man to come and fix it? If it isn't a part of the lease, should you ask if it or she has a permit.

Every February, a month of greater importance graces the Bridgewater campus: Black History Month. For many years, Black History Month has come and gone, but few grasp the true meaning of this event. Black History Month is not just for the black race alone. Far from it. It is here to increase all people's awareness.

They surround the issues of being responsible, helping each other, creating possibilities for minorities in business, and even problems in South Africa. Many of the lectures center around trying to mirror blacks on campus into tackling the kind of job they want. These lectures talk about different kinds of jobs that inner-city black people are expected to get.

The background of these fields is also explored to show people how to get into these work and what they are really like. William Yard, a student at large and a prominent member of the Afro-American Society had this to say, "I think that the lectures are beneficial to students who are really concerned about their careers. The speakers also created guidelines for the students who are still undecided about which field they would like to enter.

"The Afro-American Society has been around for a number of years. But this year the members are really trying to get things done. We are a small but dedicated club. The president and vice president are real go-getters."

Off-campus dwellers: know your rights!

For the repair man to come and fix it. At 12 a.m., when it was 10 degrees outside you are out of oil and the landlord's phone was disconnected. What in the world, may I say to your landlord? He told you that you had damaged the apartment so badly you wouldn't be receiving your security deposit back.

Things like this only happen in the tunnels of slums in the inner city, right? Wrong, things like this can, and have happened in Bridgewater. How to avoid being taken advantage of by your apartment owner? Know your rights.

According to the Bridgewater State College Office of Student Services 22% of all Bridgewater students live off campus in the Bridgewater, Brockton, and Malden area. Most students live within three to eight blocks of the campus.

The first factor you should consider when looking for an apartment is the way-by-law concerning rentals. The town of Bridgewater's by-laws require homeowners to obtain a special permit before renting to four or more tenants who are not members of the same family.

If the apartment owner intends to rent more than three people, you should ask if he or she has a permit.

Selection Chair David Coppa said that tenants should talk to their apartment owners about getting a permit. If this fails then they should contact the Police or the Board of Health.

"The lease"

It is important to remember that a lease is a legal document. Once you sign it the apartment owner is bound to it in terms. Student Services recommends that tenants check the following details before signing the lease:

-How long does the lease last?
-What is the rent?
-How is the rent paid?
-What is the due date?
-Is an additional deposit required?
-Is a security deposit required? How much?
-Who is responsible for the apartments repair?
-Is any aid available? Any additional requirements?
-Can pets be allowed?
-Can the tenants responsible for their own repairs or do all the roommate contribute to the rent for the apartment?

William Patus, the SGA attorney, said that tenants should also find out how the lease is terminated, and whether a written notice is required.

Patus also said that both the apartment owner and the tenant are bound to the terms of the lease unless there is a breach of the contract. On the tenant's part this can include failure to pay the rent, breach of contract for the apartment owner includes failure to keep up the premises and make repairs.

He said, "If the tenant has a duty to make one place the house is not habitable and just barely habitable, it has to be left. And your day is in the care of the place."

Patus said that some of the health and safety requirements for habitability are current on the windows, good vision through the doors, pipes that are not leaky, androzen that freeze.

Student Services also lists some other regulations:

-Each apartment is required to have two exits, and exterior doors must be secured with locks.
-Each apartment is required to have two exits, and exterior doors must be secured with locks.
-Each apartment must have a garbage can.
-A space for garbage must be provided by the owner, in a door or in an outside structure.
-Window coverings must be provided by owner, in a door or in an outside structure.
-Each apartment must supply and keep in working order facilities for heating hot water.

-A space for garbage must be provided by the owner, in a door or in an outside structure.
-Window coverings must be provided by owner, in a door or in an outside structure.
-Each apartment must supply and keep in working order facilities for heating hot water.

According to Patus, the apartment owner cannot charge you for normal wear and tear on the apartment. He or she also must provide you with an itemized list of the damages for which you are being charged. Your security deposit must be returned to you within 30 days of the time you move out. Also, the owner must keep the security deposits in a separate interest bearing account for the duration of the rental.

"Extermination"

According to Patus, the apartment owner may not refuse to meet the obligations outlined in the rental agreement. The apartment owner cannot enter the apartment without informing you because you are not insured against the owner. He provides free legal advice to students Tuesdays and Thursdays from 2:30-4:30 in their offices in Town Hall. They can also be reached at 697-3700.

Where to go for help

According to Patus, the apartment owner cannot refuse to rent to tenants who are members of the same family.

A generally, if a person takes part in a group activity, such as aerobic, and they do not have their physical ailments and risks in the club, it would be necessary to take a ‘boy or’ do directly to the person injured. I may be possible to see any other issues.

It is not enough to follow a list of film on the tax law will affect students regarding filing of income tax. Can you also check your television?

A. Changes in the tax laws, made by the Tax Reform Act of 1986, come into effect the year 1987. This year, working students were able to claim an exemption of income tax. This law may be the main reason why the tax continues to affect them. This law may have a personal exception on federal income tax. Tita. However, many working students will have to fill in a tax return on their own terms for the tax new laws. The new tax laws may also mean that students who make under 5,545.00, become Tax Form 1040EZ taxpayers. For working students, the new tax laws means that much more of their income is taxable than that. In effect, the new tax rates as well.

Friday is a Wonderful day for aerobic instruction.

Peace Corps: The toughest job...

By Christine Howard

Looking for a job that will develop your organizational and leadership skills, be challenging, and teach you more about yourself, as well as another culture? Why not join the Peace Corps?

The Peace Corps has been helping to meet the needs of developing countries since 1961. It does so by deploying a number of volunteers, typically for two years, to work with local communities in fulfilling projects. Peace Corps volunteers are sent to about 125 countries worldwide, where they work with local communities in fulfilling projects.

Volunteers are sent to about 125 countries worldwide, where they work with local communities in fulfilling projects. The Peace Corps is looking for volunteers who are interested in living and working abroad, and willing to make a two-year commitment to a position.

The Peace Corps offers a variety of positions, including agricultural development, education, health, and community development. Volunteers are typically assigned to work in one of these four areas, depending on their skills and interests.

Volunteers work with local communities to develop and implement projects that benefit the community. They may work on projects such as establishing new schools, improving health care, or developing new sources of income for local farmers.

Volunteers receive a monthly stipend, housing, and some medical care while serving in the Peace Corps. They also receive a one-time payment of $2,000 upon completion of their service.

The Peace Corps is looking for volunteers who are interested in making a difference in the world. If you are interested in learning more about the Peace Corps, please visit their website at peacecorps.gov.
Aerobics instructor concerned about possibility of lawsuit

Q. An aerobics instructor class can’t operate as a local health club and only takes a five-minute warm-up or so, the instructor asks us to take our own pulse rate which we do outside the class. The result, an elderly woman had a very high pulse rate after some of the exercises and the instructor experienced her to slow down. About ten minutes later, the other instructor found her to be in hospital. We have learned that many such duty, injury may arise by statute, contract or other means. Without the...

Andrords and DiIena were able to build a lead which also contributed to the Bears' success in their next game. The Bears dominated the game with their first basket which was followed by a Lancer break. The Bears didn't get their next basket until 9:30 minutes left in the first half. At 14:56, SBC put the Lancers at the first half, at 15:00 minutes as they stayed at the lead with 16-4. With SBC's lead at 12-6, the Lancers answered the game. The Beers continued scoring up the points building the lead to 18-10 at the half.

**BAIRS club has the slopes of Canada**

By Paul Courmayeur Comment staff

This past weekend, the BAIRS club took three buses loads of skiers to the mountains of Quebec. The day trip on Saturday, which started at 4:00 a.m. and ended 4:30 p.m. was never enough. It was packed with food and fun excitement.

Saturday at Mont St. Anne the visibility was about 25 to 30 feet, due to fog, a light snowfall and the sun in the morning, and clear in the afternoon. The skiers were split between the slopes, with some of them skiing on the slopes with popular courses of the mountain, while others took a break to make excellent skiing conditions.

The night after skiing all day, the group went out to dinner to be cultured by the city-life in Quebec. Most of the group met at the discotheque, where they danced till the night.

The next morning was different in getting up and checking out of the hotel. After the day was over and everyone had booked the group left back to the USA. One number one, however, had another after effect of skiing. They went back to their hotel fully off, only to be snapped in the neck by a tree branch, fifteen minutes later, same after effect of a crash earlier in the day. The driver proved that he had green papers and gave his report. The taxes were off again.

On the ride home, students talked about how they felt about the group, with heavily cold, with low temperatures. For some, it was too much, so they stayed in the hotel, while others headed back into skiing another day of skiing.
