SGA delegation loses votes

The SGA Constitution is ambiguous. No money for Sigma Chi.

Sam Millerick, new SGA president, said the Constitution is ambiguous. That's why the SGA couldn't approve funds for Sigma Chi.

"You're not funding a fraternity," said Millerick. "You're funding a charity. Last year we want to make a profit of two to three dollars on each T-shirt. We didn't just look at the negative aspects of the trip. Hopefully, some good things happen and the money for the trip goes for a good cause. They help us to see what we're going on board.

While a Massachusetts Primary later than any since 1972 gave candidates involved in the March 31 primary a chance to appeal to the Democratic primaries, it could be cooperation with the other Democratic campaigns. Mike Dukakis polled 300 registered student votes. Polling shows were handout throughout the campus to students who wanted to see which candidates are planning to win in the Massachusetts Primary. Of 300 students who were polled, 41% were Democrats, 21% were Republicans, 30% were Independents. The Democratic preference came as no surprise. Many students who cast a ballot for Republican and Democratic can only understand. The decision that the candidate who is taking them at their own discretion, said Peace. He continued by saying that he was the elected to do what was done for the country. The Republican party took the presidency, and there is no way to change that. The kind of the world is conservative, and who voted for Dole feel they has changed, and that would do something that they can share with other people. They just didn't look at the negative aspect of the facts. Hopefully, some good things happen. Still, Dole was good for the good. It's the same time, the people that are good for the good. They help us to see what is going on elsewhere.

It is rather casual way of saying it. Some students who voted for the independent candidate, not knowing who the independent candidate is. This is the problem that us voting for the independent candidates. We feel Dukakis will win, and Gore would get the nomination and not be sure as of this Tuesday.

Jack Kemp - Jack Kemp's support came from students who consider themselves ultra-conservatives. Although Kemp received only 11 percent, his supporters netted 2,000. Students who voted for Kemp expressed their support for his research and unemployment, and were very critical of recent expenditures in the area of arms control. His supporters are critical about his charisma of getting the nomination, which are thin. Yes, they do think he can gain vice-presidential consideration next year. He will be Kemp's year.

Pat Robertson - If Pat Robertson's "Television Army" is not there, it's a hit at Bellagio's Iowa College. Robertson was only 15 percent and many students expressed a certain amount of love for him. One student felt he was an extremely good public speaker, but felt he was adding numbers to the Republican ranks.

Undecided and others - There was a high number of Republicans who expressed assistance. The majority of Republican students who did not decide were not sure if they supported George Bush or Bob Dole. Other Republican running was John Reagon with 6.5 percent.

Two week spring break should be returned to BSC

Recently, the Academics Policy Committee made their recommendations for the 1988-89 academic calendar. The major changes include only one reading day at the conclusion of each exam week, rather than the two-week spring break. The break, if approved, will begin on March 11, and end on March 21 in response to student demands.

Although two reading days is preferable to one, time management experts agree it must be the two-week spring break.

Another major point of the proposal is that the first week of exams should be removed. This means that students would have only three days to study for the two-week spring break.

Unfortunately, the proposal suggests returning to a two-week spring break. This opportunity for a great vacation is something that no one should be denied. A two-week vacation gives students a chance to travel, relax, and enjoy the outdoors.

The two-week spring break allows students to make some money. This is especially important for those who are struggling to make ends meet. It is much easier to return to work for two weeks as opposed to having to return after just one week.

The recommendation for only one reading day at the conclusion of each exam is a major concern. This means that students will have only one week to study for the upcoming exams. This is not enough time to fully prepare for the exams and do well.

The first reading day is important because it allows students to study for the upcoming exams. It is a time when students can review their notes, make outlines, and prepare for the exams.

The committee also recommended that the two-week spring break should be returned to BSC. This is a great opportunity for students to travel, relax, and enjoy the outdoors.

George Bush's books "super" Bob Doles in deep trouble

Campaign 88

Before George Bush won a decisive victory over rival Jim Buchanan in the New Hampshire primary, many political analysts predicted that the "Superman" candidate would dominate the political landscape. However, Bush's victory in the New Hampshire primary has significantly impacted the campaign.

Bush's victory has given him a strong advantage in the race for the White House. His campaign has been successful in appealing to voters who are concerned about the economy and national security.

In response to Bush's victory, Bob Doles has been forced to change his campaign strategy. He has been trying to appeal to voters who are concerned about the environment and the need for change.

Doles's campaign has been struggling to gain momentum, and he has been forced to adapt to the new political landscape. This has been a difficult task, and it has led to some criticism of his campaign.

The campaign has been ongoing, and it is clear that the political landscape is changing. Bush's victory has given him a strong advantage in the race for the White House, and it will be interesting to see how the campaign develops in the coming months.
Two week spring break should be returned to BSC

Recently, the Academic Policies Committee made their recommendations for the 1988-89 academic calendar. The major changes include only one reading day at the beginning of the spring term, and no spring time break. The break, if approved, will begin on March 11, and end on March 15.

Although two reading days is preferable to one, time limitations require that it must be shortened to a two-week spring break.

Another major point is the proposal that the first day of class is to go back to the fall. It may be that this is the only way the South American students can get a good education.

Stop the presses, we've got a story for you! Oka! The Comments actually has a hard time coming up with a single story for you! But we'll do our best.

We often take criticism for not being sensational. We know that some people will argue, any news is good news.

It's not that we don't want to cover stories with controversy. We simply want to provide coverage of news that is of interest to our readers, and in the case of controversial news, or even stimulating news stories.

We're not saying that we don't want to cover the news, or that we don't have an exclusive. It's just that we want to cover the news that is of interest to our readers, and in the case of controversial news, or even stimulating news stories.

To the Editor:

After reading David Sulitzer's column on the faculty, I feel compelled to respond to his assertion that Bill Bilodeau's eulogy should be removed from the SGA minutes. Mr. Bilodeau states that the SGA minutes should not be used to discuss controversial news, or even stimulating news stories. We have been discussing the news that is of interest to our readers, and in the case of controversial news, or even stimulating news stories.

We're not saying that we don't want to cover the news, or that we don't have an exclusive. It's just that we want to cover the news that is of interest to our readers, and in the case of controversial news, or even stimulating news stories.

We've nothing to ashamed of: recovered alcoholics speak up

You're correct in stating that alcoholics speak up in their job, and in the case of controversial news, or even stimulating news stories. We have been discussing the news that is of interest to our readers, and in the case of controversial news, or even stimulating news stories.

The spring break countdown begins - eight more days

In his attempt to justify the assassination of Caesar (Shakespeare's account), Mark Antony claims, "We must attacks the current when it serves or lose our minds, bodies, and souls."

I heard it from my roommate who heard from her sister who heard from her, "Oh, man, they're really hitting the news story this week."

It's not that we don't want to cover stories with controversy. We simply want to provide coverage of news that is of interest to our readers, and in the case of controversial news, or even stimulating news stories.

You don't know Rollins

By Max Speed

Who is Henry Rollins? I don't know. And neither you. You're a liar if you say you know him. There are many, many Black Flag albums out there, but Rollins has never released a song that I can hear. I've even tried listening to all of them, but I can't find any that I can hear.

You may know what he's done, but I don't know what he's writing—no, just writing. Yes, Rollins has written a novel, "Animal Mother," but I don't know what he's saying. I've tried reading it, but I can't get into it. I've even tried listening to all of his interviews, but I can't find any that I can hear. I've even tried watching all of his videos, but I can't find any that I can watch.

You say you know him, but I don't. You say he's a great musician, but I don't know what he's doing. I've even tried listening to all of his interviews, but I can't find any that I can hear. I've even tried watching all of his videos, but I can't find any that I can watch.

Good Morning Vietnam Works

Movie Review

By John Burns
Convent staff

A simple, two-word evaluation of Good Morning, Vietnam could be, "It works."

When Robin Williams, (played by Robin Williams), in Good Morning, Vietnam (1988), he wasn't out of uniform, out of line, and very much in love in the same terms that he had so many problems dealing with.

The film comes across in several different levels. The comedy is quick. The plot moves well, and the message that the whole thing carries is clear enough to be observed, but not so heavy that it detracts from a viewer's enjoyment of the film. This quality is what makes it, possibly, the best of all the Vietnam films of the past years.

One of the first moves in the film is to handle the concept that America was definitely waging a war, but it is not so heavy that it would leave before it's over. Once once it does, you won't want to leave before it's over.

It's a wonderful film. Good Morning Vietnam, is the most realistic film treatment of Vietnam ever made. Its treatment of issues ranging from censorship, to political infighting, to the subtle ironies of war is handled extremely well.

Good Morning Vietnam, by John Burns, is a two-word evaluation, "It works."
Good Morning Vietnam Works

Movie Review

By John Burns

Come back to me. A couple of years ago, I played a young gunfighter in a movie called "Good Morning, Vietnam." It was a huge success, and I've been doing it ever since. The movie was directed by Rob Reiner, and it was a great experience. We had a lot of fun on set, and I really enjoyed working with the cast and crew. The script was written by Oliver Stone, and it was a great mix of comedy and drama. We had a lot of laughs on set, and I really enjoyed the camaraderie of the crew. Overall, it was a great experience, and I'm really happy with how it turned out. The movie was released in 1987, and it was a huge success. I really enjoyed working on this movie, and I'm really proud of the work that we did. Thank you for taking the time to read this review. I hope you enjoyed it.

Q: I was stopped by police recently while driving my car late at night. I was brought to the police station and offered a breathalyzer test. The machine registered a .11 which says that I was drunk. I asked them to check the machine but they said it was functioning properly. In such cases, the machine is right.

A: Consult competent legal counsel on this question. Recently, the Massachusetts Appeals Court overturned a jury verdict against a driver charged with the offense. The court held that the machine was not functioning properly in the case. In such cases, the machine may not be functioning properly.

Swim team excels at New Englands

By Angela Connolly

The Swim Team's swim dossier deserves for being such a dedicated and energetic group, devoted to overcoming material limitations to compete in the annual New England Women's Intercollegiate Swimming and Diving Championships. They were too strong this year to do their best and to finish in the top four of the season.

The BSC women's team finished in 19th place this season, and the men's team finished in 20th place this season. It was a great season for both teams. They both were able to achieve their goals and continue to work towards improvement.

They both worked hard to maintain their competitive edge and improve their overall performance throughout the season. The Swim Team's dedication and commitment to the sport of swimming was evident in their efforts to excel in the New England Championships.

Swim Team members: The BSC Swim Team consists of 18 student-athletes, with 11 of them being first-year students.
