Voter Registration
On Tuesday, October 4 and October 5, a voter registration drive was held to allow Bridgewater students to be able to vote in the November Presidential Election.

According to Paula Ellis, the Student Government Association's (SGA) and MassPIRG, the group of students were able to register a significant percentage of voters.

Landberger Files Complaint

Congressman Curtis Landberger has officially submitted a complaint to the Student Court, concerning the former Student Government Association’s (SGA) Shirin Cignetti.

The complaint, which was turned in earlier this week, states that the SGA has not been following the rules and regulations of the Student Court.

New dorms are right on schedule

President Marcia Medica's hopes were passed on by Students who did not register during this drive, but will vote in the November election.

Schools have complained that the sign in front of the Burrill Avenue Building was too small to be noticed.

The event, which was sponsored by MassPIRG and SGA, was the second year such an event was held.

It is hoped that this event will become an annual practice.

SGA Announces Dates for Elections

Electoral Board Chairperson Bob E. Kneassow has announced dates for the SGA Elections in which candidates will run to determine who will gain leadership and other positions.

The poll will be open from 9 a.m. until 3 p.m. each day.

Mystery Photo Answer

The mystery photo, which appeared in last week’s issue, was a photograph of the sign in front of Pope Residence Hall. The sign was the one which welcomed students to the residence hall.

"Have more dances and concerts."  - Thea Cosmopulas

How safe do you feel?

It's late—after 1:30 a.m. While walking across campus, heading back to the dorm, you notice a group of people walking towards you. How safe do you feel?

Resident hall security is a concern for all residents, but this year the fear of violence has increased. The current staff of security is inexperienced and untrained, leaving students vulnerable. There are reports of vandals destroying property and creating a dangerous environment for students. Residents have had to take matters into their own hands to ensure their safety.

The campus is experiencing a decrease in security, which is concerning for students. Security has decreased, with fewer patrols on campus. This has led to an increase in incidents of vandalism and destruction. Students feel vulnerable and worried about their safety.

The problem is not limited to the dorms. The gym also has had a pair of cracked windows, with someone breaking into the facility. Security measures need to be improved to prevent further incidents.

Wrong, it's not mine, is nothing, misguided way of expecting things. I had no intention of buying a house, I should, or shouldn't the poor people control the switchboard at all. No, I can't connect you because I don't know how to answer that نق. It should. They don't want to talk to anyone. But, security force needs to organize itself to take the initiative.

The campus is facing a serious problem with vandalism. Students need to see these numbers increase, and they need to do their part to prevent further incidents. Security is a shared responsibility, and we all need to work together to keep the campus safe.
To the Editor:

lightly on some very important issues facing Americans as we prepare to elect the President of the United State on November 8.

After watching the presidential debates last night, I became more uncomfortable with some of the President's positions and with his candidate, George Bush. As expected, Bush spent the entire debate trying to avoid the issues. But even more seriously, he has not proven he can be trusted. As the Vice President, Bush has an obvious and unanswerable recent record of infidelity to our fundamental principles. Two years ago, at that time he was a candidate for the same office he now seeks to be,

Starting November first, college students across the nation will have the chance to play the stock market without the worry of going bankrupt, by playing the First Annual AT&T College Investment Challenge. This challenge is based on Wall Street Games, a year-old educational game that actually creates its own stock market. Over 10,000 students have already signed up to play, and Tim DeFilippo, founder of Wall Street Games, expects another 20,000 to sign up by the registration deadline. The deadline is October 21, 1988. The registration fee is $49.95, a relatively small figure compared to the $200,000 in prizes AT&T will be giving away.

When a player signs up, he or she will receive an imaginary brokerage account of $100,000, a copy of Standard and Poor's Stock Guide and as information as the student would need for the first time trader. The games open the day the stock market starts each year, November 1, 1988 and end on February 25, 1989 when the market closes. By buying and selling shares, students will try to build up their stock portfolios. A toll free number has been set up for the modem stockbrokers for making their transactions through the "bricks" of Wall Street Games.

This game is very realistic; it simulates the stock market by using up-to-the-minute information and prices via modem, and alerting users in real time. Each month, students will receive a personal account statement and a list of money standings, so they can see how they are doing compared to other students. Various prizes will be awarded to the top players of each month.

When the game ends, the ten students with the highest stock portfolios will receive $10,000 in cash prizes, $50,000 going to the top player. The top ten winners and their games will be flown to New York City for a special awards dinner, a Broadway play, a tour of the New York Stock Exchange, and AT&T's investment counseling and Network Control Center in New Jersey. The top ten players and their games will be flown to the Bahamas for a week's vacation. The college also benefits from the game; Any school with more than fifty players will receive 50% of the proceeds.

Comedians come to BSC

Club Soda, sponsored by Program Council, will host a fund-raising benefit concert Thursday night at 8:00 p.m. in thejem in the Campus Center Ballroom. The event features three comedians from the Campus Comedy Ballroom on Wednesday evening at 8:30. The show is a sell-out.

Flipping up was C.W. Lewis. He made a joke about his sister-in-law who is a yuppie and the other sister, a hippie. He shared his experiences of growing up with sisters, and learning the codes to fit in with the crowd, and beingainment to his red hair, which was a move for the audience laughing with his discussion on dating and marriage. He monitored how a woman tries to impress a man, on the first date, by ordering as little as possible. For example, the lady would order a casserole. On the second date, the woman would pull her mom out to the sadie for an appetizer. She never won.

The second comedian was Ed Pairawa, who was the Idiot of the Year. He complained about how people are always talking about the war, always in the news and never anything else. He also talked about how he didn't have the courage to ask someone he liked out for a date. He was a move for the audience, and the audience called for more of his stories.

The third comedian was Dan Kittle, who was the Hedgehog of the Year. He talked about his drinking habits, and how he used to be a hard worker, but now he just drinks. He also talked about how he used to be a football player, but now he doesn't play anymore. He was a move for the audience, and the audience called for more of his stories.

Amnesty International: become part of the progress

By Ann Langendfeld and Kevin Richards

Comrades are forming an Amnesty International (AI) chapter here at Bridgewater State College. In their attempts to spread the word, the committee frequently asks the question: what is Amnesty International? and why should I become a member?

AI is a worldwide network of people, who work for the release of prisoners of conscience, political prisoners, and0 political prisoners. The group is made up of people who are tired of seeing the world as a place where people are tortured, killed, and imprisoned.
