**Women's swim team continues success**

By Joseph Nowicki

The last two weeks were busy for the men's and women's swim teams, as both new waves down their dual-meet seasons. The men visited Holy Cross on February 1, where they were defeated 151-91. Both teams cruised to USM Invitational on the following weekend, where the men were defeated 113-75, while the women prevailed 135 to 58.

Junior Steve Cohen wowed the crowd with a personal best 25.45 for the 50 butterfly and a personal best 1:59.66 for the 200 freestyle in Worcester Polytechnic, and the women's team went on to take 9 of the 10 individual events, and four relays.

Next up for the men's team is Endicott College on February 8, at 3 p.m. in Endicott's pool. The women will travel the same day to Middletown, Conn., to take on the Hiram College Bears. The meet starts at 2 p.m.

Red Sox disappoint

By Tim Magee

Tampa Bay Lightning, four runs in seven, many fans felt out of sorts from disappointment last Sunday.

Well, the Red Sox management, especially Lou Gorman, was provided an encore Sunday for the first and possibly worst of the off-season mistakes, allowing the Tampa Bay Drays to be signed by the San Diego Padres.

It was not just the loss that was the main culprit for Red Sox fans. They also lost their personal confidence in their winning team from last season to any other team. There has been a particular problem with the name, it seems, last season, the name, was Harlowe Kimball, a first baseman from the Cincinnati Reds for the Sox starting right-handers Jeff Fred and Wally Alston, too, were bogged down in the rain. That was no help for any other player.

He was the second player to aid state investigators, who had been arrested for theft, and the other was named Robert Murphy. Both men have pleaded not guilty to charges that they defrauded the state of $800,000.

Both men have pleaded not guilty to charges that they defrauded the state of $800,000.

The case against them is said to be over, and the other has been arrested on similar charges.

The two other sentences from the Superior Court, and possibly the Board of Trustees.

"My SGA, has been appointed to the Board of Trustees," said lawyer Thomas Brooks, the former director of Public Relations at Bridgewater State College.

"You've heard the talk around town, but there needs to be confirmation or denial on what people have said," Brooks said.

"We've been reverted back to the Foundation recently regained control of the SGA. This action was taken during the Tuesday night meeting on February 14, after he was approached by approximately seven students who wanted to take legal action against the board for not giving them the funds to run efficiently, Indelicato will said. He was asked if he could confirm or deny what people have said, but it was a "wait and see attitude."

"I'm here being here is a great embarrassment to the students," Brooks said. "They were able to take legal action against the board after he was approached by approximately seven students who wanted to take legal action against the board for not giving them the funds to run efficiently, Indelicato will said. He was asked if he could confirm or deny what people have said, but it was a "wait and see attitude."

Circle K is a community service organization for Bridgewater

Circle K International, sponsored by Kiwanis International, is a service organization that serves the college community as well as the surrounding area. CKI fosters leadership and professional development, and it serves the college community as a fun service organization that is sponsored by Kiwanis International, as well as other chapters have done include fund raising for Muscular Dystrophy, and some other projects that other chapters have also included:

- Scholarship opportunities
- Career contacts
- Leadership and professional development
- Community service

Corrections:

On page 18 of the "Arts and Entertainment" section, in the February 9 edition of The Comment, there were two photographs that were accidentally switched. The Comedy of Errors photo should have run on page 18. The photo of the punk band "Split Second" should have run on page 21. We apologize for the inconvenience and the error.

Spring break is less than three weeks away

Make plans to prevent any sunburn damage

With spring break less than three weeks away, many college students are finalizing plans to head to the warm and sunny tropical areas. Florida, the Bahamas, Bermuda, and a variety of other sun-spots. Many college students, however, are too busy having fun, and do not realize that the sun's rays can be damaging to their bodies.

After only one day of fun in the sun, a painful sunburn can occur, possibly ruining the remainder of their trip. More importantly, it could ruin their skin.

Do not let such a problem happen this year. It makes sense to use a moderately conservative approach to tanning, combined with a little caution in the tanning procedure, they will leave themselves of a healthy, golden brown suntan, instead of a red, raw, itchy, peel.

Florida is closer to the sun than many of the northern states, to which Bridgewater State College students are accustomed. The sun's ultraviolet rays are five to ten times as intense as they are in Massachusetts. This means that people can tan four times faster or burn four times faster, depending on the skin's sensitivity to sun.

Local skin specialists, dermatologists, and suntan lotion manufacturers recommend following some guidelines on sunburn prevention. They suggest that no matter where students are coming from on their spring break, every person prepared to combat the possibility of sunburn. This means using tanning lotions, oils, and sprays.

On the first, second, and third day, they suggest using a non-sunsaving lotion with a Sun Protection Factor of 15 or higher, covering all exposed skin. This way the skin will not become damaged.

The fourth day recommendation is for a SPF which contains a protector's skin cells, or the color of the best tan.

For students with fair skin, an SPF of 15 will work. Other skin types include an SPF 10 for fair skin, an SPF 8 for a lighter skin, and olive-colored skin should be protected with an SPF 6 or 9.

Sunbathers lay on the beach in celebration of spring break. Experts, however, advise that students take preventative measures to protect the skin from sun damage.

SPF on the face. A SPF 12 or SPF 15 will be sufficient. This will allow the sun to burn the skin. This also avoids burning skin on the head.

Another useful suntanning tip is to have a good shade. Make sure to be in the shade, and if you must be exposed, use a variety of sun block or sunscreen to protect the skin from sunburns.

Always keep a hat nearby. For those people who have dark skin, an SPF 8 will be best in promoting the skin. The suggestion for dry skin is to continue using the same sunscreen which was used the previous day. As the skin increases, drop the SPF level, to the skin will be protected, without burning or peeling.

Spring break is less than three weeks away.

Make plans to prevent any sunburn damage.

For those people who have dark skin, an SPF 12 will be best in protecting the skin. The suggestion for day five is to continue using the same tanning lotion which was used the previous day. At this time, the tan increases, drop the SPF level, so that the tan will be maintained, without burning or peeling. Always keep a habit in mind.

SPF on the face. A SPF 12 or SPF 15 will be sufficient. This will allow the sun to tan the skin. This also avoids wrinkling later. Another useful suntanning tool is zinc paste. This paste is available in a rainbow of colors, and offers a variety of fun alternatives to white lotions or break, when the sun becomes too intense.

Sunbathers lay on the beach in celebration of spring break. Experts, however ask that students take preventative measures to protect the skin from sun damage. The sun's ultra-violet rays are increased four times faster or burn four times faster, depending on the skin's sensitivity to sun.

Local skin specialists, tanning agents, and suntan lotions manufacturers recommend following some guidelines on suntanning safety. They suggest that no matter where students are coming from on their spring break, the cover prepared to combat the possibility of burn. This means using tanning lotions, oils, and creams.

On the first, second, and third day, they suggest using sunless tanning lotions, or lotions in a cool place. They will allow the sun to tan the skin, but not over do the sun. Take a break from the tanning process, and tighten the skin area being tanned. They can also be rinsed to reduce irritation to sunburn.

**Compensation Agreement Reached**

Union Carbide Corp. decided to pay $470 million in compensation for the more than 1000 people who diedtragically in the Bhopal gas disaster in 1984. The gas disaster was history's worst industrial disaster. The gas leaking from the Union Carbide plant killed at least 1500 people and injured about 10000. The Indian government estimated that the accident could have killed as many as 20000 people. The settlement, Union Carbide's stock price soared in the New York Stock Exchange.

The $470 million is to be paid by Union Carbide due to a settlement of all claims, "just and fair"

**Iranian "Justice" Carried Out**

Intelligence Minister Mohammad Rey-Shahri has announced a "heavy verdict" was handed down against British businessman Roger Cooper who has been imprisoned on spying charges for more than three years. Also, seventy, three of them were women, convicted of drug smuggling. They went to the gallows Tuesday in the largest daily execution toll since Iran began a fierce anti-narcotics campaign early last month.

**Compensation Agreement Reached**

The Bush administration bid to take a direct role in regulating the use of classified material at Oliver North's trial. The judge in the Iran-contra trial rejected the bid, leaving the secrecy question's final action to the Supreme Court. Judge Gerhard Gesell did not accept the proposal aimed at averting a direct trial at risk.

The proposal allowing lawyers from the government to stop the case at any time with objections over classified data would have put North's trial at risk.

**LOCAL**

**Anti-Drug Program Installed**

DARE has come to East Bridgewater. The 3-week anti-drug program was initiated by the town's police department and approved by the school committee. DARE stands for Drug Abuse Resistance Education. Police Chief John Silva said that even though he was interested in the program before, it was not until the contract, and the funds for the training were accessible.

**Mall to Break Ground Soon**

The Bridgewater Conservation Commission has given its approval to the building of a mall located on Rt. 104. The project would include a mall with four large department stores, 150 small stores, a hotel, an office, and a research and development park. Theodore Tye has said that the mall will not "break ground" until the year 1990.

**SGA appoints Mullen as legal counsel to fight fee**

The Bridgewater Arts Review wants your POETRY and SHORT STORIES to submit: bring your entries to the Comment office before March 10, 1989. (Be sure to include a title, and your name and address)

**The Comment Thursday, February 16, 1989**

**The Comment Thursday, February 16, 1989**
SGA appoints Mullen as legal counsel to fight fee challenge.

Mullen, a lawyer from Quincy, spoke to the Congress, citing three main reasons why he feels the students should be represented. Mullen disagrees with the "manner in which it was done," "why were not all of the students charged the $125 or the $62.50," and "why-what purpose will this serve." In a discussion on the subject of how long a time-frame students have been given to pay their bill, Mullen stated that it is similar "to receiving a MasterCard bill in the middle of the billing period, saying that you must come up with 20% of the bill. That's not fair." Mullen said that students are expected to come up with $125 within 16 or so days. "That is not enough time," he said.

The second point Mullen addressed was why were only 5,100 of the total students assessed. "It does not have a broad-based spread." Mullen also questioned why full-time students were charged $125, and part-time students $62.50. Another point, which Mullen mentioned on this subject, is why are only half of the school's students being assessed. He did not understand why the night students who attend BSC were not being fined similarly. Joseph Chicarelli, Vice President of Administration and Finance, stated that the night students are a "self-supporting institution of sorts." The night school is a separate operation, and runs off of a separate budget; "Teachers from the night classes are funded," said Chicarelli, "from monies received by night school tuitions." He said this is important and valid points, but why only the day school students also thought that there were simple answers to these points.

The final reason Mullen stated "We will have to see where this leads," said Millerick. An announcement has been made by the administration that the night students are a "self-supporting institution of sorts." The night school is a separate operation, and runs off of a separate budget; "Teachers from the night classes are funded," said Chicarelli, "from monies received by night school tuitions." He said this is important and valid points, but why only the day school students also thought that there were simple answers to these points.

More warnings about the threat of the AIDS virus

We have all heard the warnings about AIDS, yet people still deny that it exists. They fail to realize that the February issue of U. National College has reported that a study of 200 volunteers showed that 3 out of 1,000 college students test positive for the AIDS virus.

As responsible college students and future educators, we must all take steps to combat this disease. AIDS doesn't discriminate.

Until a cure can stop this growing disease, we must all unite to be informed and to learn how to protect ourselves.

As college students, dening AIDS can be an important part of our social responsibility. We must educate ourselves and others to help prevent the spread of AIDS.

We at The Comment are not trying to promote sex but merely to help our readers understand the knowledge and responsibility that is the only weapon against AIDS.

The Comment is a student supported and operated weekly newspaper serving the academic community of Bridgewater State College. Editorial Policy is determined by the Editorial Board.

To the Editor:

I found another letter with a bill enclosed for $125. This is the fourth letter I have received from the Business Manager, requesting the $125 additional fee. I have enclosed a letter addressed to Mr. Russell, explaining why I believe the $125 fee is unnecessary.

I have been in contact with my state representative, representative Michael Sullivan, and have been assured that the $125 fee is placed on everyone and that it is not a protest.

I would like to encourage people to write letters to the Business Manager, explaining why they feel the $125 fee is unnecessary and inappropriate.

Thank you for your time and consideration.

Sincerely,

Mary H. Williams

"Pay with protest" is offered as an alternate possibility

Since the decision was made asking students to pay the $125 additional fee, I've spoken with many students who are being torn between paying or not paying. They believe in and support the SGA's decision, but don't want to do something that would jeopardize their education. Each student has to decide for themselves what they choose to do.

One reason for those who decide to pay with protest is to get a copy of your payment and protest letter, and give them to your SGA officers. "Any student is entitled to know when their protest is being heard," said Gervis. Students can use this copy to argue their case in other situations.

Personal beliefs and upcoming community events also play a role in this decision. But just immerse your beliefs and let the students speak for those who have no voice at all, instead of speaking for the students who have a voice.

Whether or not to have an abortion is an important decision, but it's important to consider what the consequences of that decision are. How do you feel about what a woman should do when she finds out that she has an abortion? Do you agree with the decision? Do you have a voice?

Rally participants needed to show more respect

Many students were trying to listen to Dr. Rondinelli, but others were getting impatient with him any way.

Some students who had spent 26 years as president didn't tend to the way get him his book, we're not on the right side, we don't have to show him that.

President Rondinelli said, as he walked out, that he was the President of the college and was there to serve the people. It is important that the College listens to the student's voices, especially when it comes to their future.

To the Alumnae Association:

We would like to thank the Alumnae Association for making the use of their computers in a time of need possible. Under the leadership of President Rondinelli and the support of the student body, we were able to publish this issue.

When we approached the Alumnae Association, they were willing to make the use of their terminals, they were more than willing to help.

A note of appreciation and thanks:

We would like to thank the Alumnae Association for their generous support in using their computers in a time of need. Their willingness to assist us was instrumental in getting this issue published.
More warnings about the threat of the AIDS virus

We have all heard the warnings about AIDS, yet people still deny that it is real or plausible. In the February issue of U. National College Magazine, Ronda D. Bong, a nurse and health educator, reported that AIDS is real, that the virus is spreading, and that every 1,000 college students test positive for the AIDS virus.

As responsible college students and future educators, we must understand this alarming statistic, that AIDS is rapidly spreading in our society.

There are still many questions left unanswered about AIDS. It is known that it is spread by having sex with someone infected with the virus or by sharing needles and syringes with an infected person. AIDS cannot be transmitted through casual contact, such as touching or sharing a swimming pool, or by eating.

People must take care in choosing their activities, sexual or otherwise, and be aware of the risks involved. AIDS does not discriminate.

Until a cure can stop this decimating disease we must accept all facts and be exhorted with the facts.

As college students, being aware of the spread of AIDS can be an important part of our social responsibility. However, we cannot let it affect our social lives. We must not go on dates, invite friends over, etc. until we become infamous. If you know someone who is infected, you should be able to talk to them about the sensitive subject of AIDS.

Pay with protest is offered as an alternate possibility

The only way to know if you are safe is by having an AIDS blood test. However, don’t donate blood. You can’t pass it on. Needles are destroyed when they are used again. Don’t give your body blood supplies needed for the AIDS antibody.

There is another AIDS hotline available to educate people.

Look for more information on 1-800-342-AIDS.

The nightmare has become a reality

Student workers who other impending fees are in store for the college

I had a weird dream last night. I found a letter addressed to me from the BSC Bookstore. Enclosed was a bill for $125 for text books. I woke up in the middle of the night in January when I purchased my books. I was billed incorrectly and due to mispricing. It also stated that my books would be reordered and I could not read the text.

I then found another letter with a bill enclosed for $125. This bill was from the BSC Commissary Calumet. It informed that since they did not have the required quantity of the needed books, they were billing us for this amount. I had $10 extra left in my wallet. I was forced to pay for the books which I would have thought was already paid. "Hemp," said and opened another cabinet, and yet another, back enclosed with a bill for $125 and a letter of excuse.

I proceeded to mail over in my order how I would pay for such a bill. After subtracting my $10 allowance, I was left with an extra $10! If I used this extra $10 (as I should), I would have been forced to pay the bill. "Hemp," said and opened another cabinet, and yet another, back enclosed with a bill for $125 and a letter of excuse.

I thought of different ways I could pay this bill. I thought of different ways I could pay this bill. I thought of different ways I could pay this bill.

Pay with protest is offered as an alternate possibility

To the Editor:

Since the decision was made asking students to pay the $125 additional fee, I’ve spoken with many students who are being more than willing to pay for their education. They believe in and support the SGA’s decision, but don’t want to do something that would jeopardize their education production.

Each person has to decide for himself what course of action to take. For some, non-payment is the answer. For others, the protest payment is the answer. I believe, in these ways, the students are being more than willing to pay for their education. I offer this suggestion on my own as a concerned student as a campus and not related to my involvement with S.C.R.E.

Danny Cigovac, Director CAREER Planning and Placement

Pay with protest is offered as an alternate possibility

## Hands-on learning of art history in France

### By Dr. Robert Dunn

**Professor of Art**

Praised July 2 to the 32, an art history study tour of France will be led by Dr. Robert Dunn of the Art Department, Bridgewater State College. A successful tour, with the same itinerary, took place in 1987. Its aim is to appeal to art history students and art lovers alike. The tour will continue to the same stopovers of artists. More than 100 artists, from the times of William the Conqueror, the beautiful queen of Fontainebleau, and the city of Orleans known for its Gothic monuments.

Along the way, there will be a stop at the Louvre, the French capital of the arts and culture. Visitors can see the famous paintings such as the Mona Lisa and the Venus de Milo. The Louvre is one of the largest and most important museums in the world. It houses a vast collection of paintings, sculptures, and artifacts from different periods in history.

The tour will also include a visit to the Eiffel Tower, a symbol of Paris and France. The tower was built for the 1889 World's Fair and has become an iconic landmark. Visitors can climb to the top for a stunning view of the city.

### By Caitlin Andrews

**Commentary**

The Chateau of Chambord will be one of the highlights of the trip. Located in the Loire Valley, Chambord is one of the finest examples of French Renaissance architecture. The castle was built for King Francis I and is known for its grandiose size and intricate design. The tour will include a visit to the castle's many rooms, including the hunting room, the great hall, and the apartments of the royal court.

The tour will also include a visit to the beautiful town of Giverny, where Claude Monet lived and painted. The town is famous for its many gardens and the Monet Museum, which houses a collection of the artist's works.

Jazz dance class

For those who want to dance

By Ronda Davis
Comment staff

Did you go see the performance by the Boston Ballet and think to yourself, "I wish I could dance?" If you did, or even just enjoy dancing, here is your opportunity to learn. Bridgewater State College is offering the class for the third year.

The class is offered Tuesday and Thursday nights from 8:30-9:30 in the Kelly gym.

Thuy Cook, who has been teaching dancing and movement courses for 15 years, has been instructing dance classes for five years and has worked for numerous establishments. One of the more well-known is the Junior Miss Pageant. She will be teaching a variety of styles which vary from jazz to simple ballet, to the beat of modern music. This type of dance builds strength, coordination, and helps improve, club dancing. This is not an aerobics class, but it does offer the exercise benefits similar to the ones that aerobics has.

The class fee is $25 and promises to be fun. All are encouraged to attend.

Summer art history tour offered in France

cont. from p. 9

The group will arrive in Paris the very night before Bastille Day, and remain in the City of Light for a week. During this week, the town will visit such outstanding places as the Louvre (with its recently opened glass pyramid addition by I.M. Pei), the Musee d'Orsay, the Picasso Museum, the Pompidou Center, and the Rodin Museum. The crew will see the city's other well-known sites, such as the Cathedral of Notre Dame, the Eiffel Tower, and Montmartre. Day excursions from Paris will go to the palace and gardens of Versailles and Fontainbleau, and the Gothic cathedral of Chartres, called by Rodin "the Acropolis of France." Participants on the tour may earn up to six credits on the undergraduate or graduate level, or simply enjoy the tour by auditing. The fee of $2087, covers air fares, land transportation, hotels, museum admissions, continental breakfasts, and certain other expenses. Additional tuition fees range from $375 to $525 depending on student status.

Further information, including a daily itinerary, may be obtained by contacting Dr. Robert Dunn, Acting Chairperson of the Art Department, Bridgewater State College, Bridgewater, MA 02325. (508) 697-1359. The deadline for registration is April 10.

Just for the Health of It

Will AIDS kill a romance?

Contributed by
Connie Peterson

Reprinted from The Sophian

He holds her gently in his arms and whispers softly, "Roxanne, there's something I've wanted to talk to you for a long time now, but I've had the courage;..." "Oi, Delbert, ask," Roxanne, do you have a reservoir tip lubricated condom with nonoxynol-9 spermicide with you?"

You probably won't hear this on the next segment of Dallas, but you should. It's going to be difficult to talk about "safer sex" for those of us who are sexually active, but if we are to protect ourselves from the AIDS virus, we must learn. For the vast majority of people, sexual activity is difficult, but this carries an extra burden for college age women and men--many of whom are just beginning to be sexually active.

If you are sexually active, or contemplating sexual activity--be your own best friend; think ahead of time about what you might do in a given situation, or what you might say to your partner about "safer sex." One way to begin is, "It's important to me that we protect ourselves and use a condom."

Condoms and rubber dams (a thin piece of latex recommended for oral-genital contact) don't make sex risk free (only abstinence is risk free) but properly used do make sex a lot safer. For further information on safe sex in the AIDS virus, contact Health Service's Barbara Caldara.

Women’s swim team continues success

By Joseph Wosniowski

The last two weeks were busy for the many small teams, as both won their dual-meet season. The men won’t do well at the meet of champions, where the men were defeated 113 to 57, while the women prevailed 156 to 58. Last Thursday, both teams competed in Worcester Polytech, and the men won 64 to 6. The women won 80 to 44.7. The women won 16 to 0.

The men were even another personal best of 2000, despite losing their other meet to UMass Boston on Saturday, where the men were defeated 113 to 57, while the women were defeated 64 to 6. Both teams improved on the last meet, where both teams lost.
