BSC teams on top of MASCAC

By Ronza Davis

The Women's Rugby team was victorious in their first MASCAC Division II match with a convincing 40-5 defeat of Adams State College, Saturday, April 27, in a game at the Bridgewater College Sports Complex.

The team was led by the winning goal of senior captain Maria Medeiros, who scored six goals on the day. Junior Kayla Cognetti also contributed to the team's success with five goals, while senior Stephanie Noyes added three. The team's performance was highlighted by the strong defense, which held Adams State to just five goals.

The win moved the team to 3-1 in MASCAC Division II play and improved their overall record to 5-4. The team will look to continue their winning streak in their next match, which is scheduled for May 11 against Wesleyan University.

BSG Bears Baseball sweeps weekend

By Ronza Davis

Congratulations to the Bridgewater College Bears baseball team for their outstanding performance this past weekend against MASCAC foe Simmons College. The Bears emerged victorious in both games, securing a total of 15 runs against the Simmons College Eagles.

In the first game, the Bears recorded a decisive 5-0 victory, displaying their strong offensive capabilities and solid defense. The second game followed suit, with the Bears clinching a 10-5 triumph to complete the sweep.

The impressive performance by the Bears is a testament to their hard work and dedication, and they continue to showcase their talent and camaraderie on the field.

Exit interview meetings scheduled

Students who received a Perkins National Direct Student Loan and/or a Guaranteed Student Loan, as part of their Financial Aid package while attending Bridgewater State College and are leaving this semester, must attend one of the "Exit Interview" meetings.

Federal regulations stipulate that Perkins NDSL and GSL borrowers attend an "Exit Interview" meeting prior to leaving the institution. The purpose of the student loan "Exit Interview" is to provide students with information concerning their rights and responsibilities as a student loan recipient.

Meetings will be held in the Plymouth County Room of the Campus Center on the following dates:
- Tuesday, May 2 at 11 a.m.
- Wednesday, May 3 at 2 p.m.
- Thursday, May 4 at 4 p.m.
- Friday, May 5 at 9 a.m.
- Tuesday, May 9 at 9 a.m.

Students who need more information about this topic or have any questions should call Suzanne Hickey at (508) 697-1225.

Women’s Center holds open house

On Wednesday, April 19, the Women’s Center held an open house for students interested in declaring women’s studies as a minor. In attendance were many of the faculty who teach the courses, as well as students who are currently enrolled in the minor.

Prospective students interested in such a minor were able to talk with the staff and students, to have their concerns addressed, and their questions answered concerning the requirements needed for the minor and the courses offered in the fall.

The open house also served as a reception for the students who went to the March for Women’s Equality and Women’s Lives held in Washington, D.C., last month. The Center was a contingent made up of U.S. Rep. Joe Hickey, students, faculty, and alumni. The Center raised money through donations from faculty and staff of the college to pay for transportation expenses. Numerous donations came from women and men who could not attend the march, but wanted to sponsor a student who otherwise could not afford to pay for the trip.

Students who have any questions concerning the women’s studies program should stop by the Women’s Center, on the third floor of the Campus Center or call them at extension 2296.

Thought for the Week

"A pair of lovers are like a sun and sunrise: there are such ideas every day but we very seldom see them."

—Samuel Butler—

Fraternity and sorority hold sleepout to benefit homeless

On Friday night, April 31, 1989, Sigma Pi fraternity and Phi Sigma Sigma sorority held their second annual sleepout for the homeless. Thirty-two Sigma Pi members, and twenty-five Phi Sigma Sigma members gathered on the steps of Boyden at 10 p.m. to spend their night as a homeless person. All proceeds from the sleep-out go to the homeless via the Metropolis House in Brooklyn. Last year over $700 was raised. This year $1,000 has been projected on the donation. The members of Sigma Pi and Phi Sigma Sigma would like to thank all the sponsors who helped make the event a success. They would also like to send a special thank you to Thanh Chi for delivering doughnuts and muffins, and to Carineo Bong for furnishing hot chocolate.

Correction:

In the April 15 issue of the Comment, a pair of paragraphs were inadvertently reversed and merged in the Letter to the Editor concerning MassP.IRG, entitled "President of the Student Senate." The letter to the Editor, concerning MassP.IRG, entitled "President of the Student Senate," should have appeared in this issue. The letter to the Editor, concerning MassP.IRG, entitled "President of the Student Senate," was published in error.

Students—it's time to give yourself credit with a BayBank Visa or MasterCard.®

If you are at least 18 years old, you may apply for a BayBank Visa or MasterCard and receive a line of credit up to $1,000.

Mail the coupon today or call the BayBank Credit Card Customer Service Center at 1-800-221-3393 to request a Student Credit Card Application.
College graduates get pre-approved credit and $400 cash back on any of these new Ford cars and trucks.

Your New England Ford Dealers think you should be rewarded for those countless essays and pulling more all-nighters than you care to remember. That's why we've introduced a hassle-free way for college grads to buy a new Ford car or truck. No more time wasted applying for credit and waiting for approval. As a downpayment on one of the new Ford cars or trucks featured below. Other purchase incentives may also be available. But you must take delivery by Dec. 31.

To qualify, you must earn a bachelor's degree from a four-year college, or an advanced degree from an accredited institution, between Oct. 1, 1988 and Jan. 1, 1990. Ford's Graduate Assistance Program. Proof positive of the value of an education.

See your New England Ford Dealer for details. For more information, call this toll-free number: 1-800-321-1536.
Elections

In the race for President, Mike Rothberg was the victor with 572 votes. His opponent Chris Concheri, received 455. In the race for Vice President, Mike Anderson was the victor with 537 votes. His opponent Chris Concheri had 333 votes.

"I am extremely happy," Rothberg said. "I'd like to thank my supporters.

"I'd like to thank my supporters," Rothberg also said. "Now its time to start doing some work, time to get the hall rolling. We would like to have an informal meeting with the SGA to get to know how everyone feels. Rothberg was impressed by the voter turnout. "Students are finally realizing they can make a difference," he said.

Greg Anderson, Like Anderson and Rothberg, Elections Director Lisa Clary was also suitably impressed with the election. Clary felt that, overall, the election went well, despite a few minor problems, and she was happy with the excellent participation, which was the best in recent BSC history. "I'd just like to thank the student for coming out and voting," she said.

Rothberg said, "I'd like to thank Chris Concheri for turning in a superb race, but most of all, I'd like to thank my supporters." Anderson also said, "Now it's time to start doing some work, time to get the hall rolling. We would like to have an informal meeting with the SGA to get to know how everyone feels. Rothberg was impressed by the voter turnout. "Students are finally realizing they can make a difference," he said.

You are cordially invited to celebrate a Liturgy honoring those retiring from our College Community on Sunday, April 30, at 7 o'clock in the evening.

Bridgewater State College students have established a tradition for helping wheelchair athletes who compete in the Boston Marathon. At the recent 93rd Boston Marathon, 57 students worked with Dr. Joseph Huber of the Health, Physical Education and Recreation Department to assist 53 athletes. This was the 7th year that BSC students have assisted the Boston Athletic Association (BAA) with their efforts to host world-class athletes who compete in the Wheelchair Division.

This year's winner of the men's class was Philippe Couprie of France in the time of 1:36:04, breaking last year's world record time of 1:39:19. France won the women's class in the time of 1:50:06, this time beating the 1985 Boston Marathon record time of 2:05:26 set by Candace Cable-Brookes by 15:20 minutes. Connie's performance was also a new world record.

BSC's effort to assist the Boston Athletic Association would not have been possible without the coordinated efforts, discipline, and sacrifice made by eight students who helped to direct the efforts of all the other students. They were:

- Denise Adamian
- Amy DeAbreau
- Kim Fuda
- Laura Loring
- Anthony Mavilia
- Mike McCuthcheon
- Joanne Murray
- Patota

Kim Evers assisting Michael Leonard with his official race number.

Preparation for the SGA Action

The Comment Thursday, April 27, 1989

There has been nearly a complete changing of the guard in the ranks of the Student Government Association officers. For the first time in over five years, the students at Bridgewater State College are running for SGA elections. Over 1,000 student candidates will line up in the oval to vie for the positions within the Student Government. This is the first time they should be on alert for some serious competition in the insular of the college administration to keep any lack of firm and critical leadership has been responsible for the deterioration of the atmosphere at Bridgewater. It is therefore so wonderful that many of the college administration continue to fight for the reformation of the SGA. These two things are finally happening and the college community will benefit in the long run from the initiatives put forth by the student representatives.

It has been nearly a complete changing of the guard in the SGA. The student body has re-established the students' faith in the campus. Now is the time for this to be done.

Now that we have new leaders, these leaders must realize that they have the right to expect responses.

The Comment reserves the right to edit all submissions for grammar, spelling, and length. It is expected that an author will check his/her own facts, and the sentences will not be published if they are unsigned.

Letters Submission Policy

The Comment welcomes your Letters to the Editor. Your Letters to the Editor will be published in the college newspaper if space allows, but not necessarily in the order in which they are received.

1. All submissions should be typed or double-spaced.
2. Please limit all letters to approximately 300 words.
3. All submissions must be received in our office by noon Monday for publication.
4. The Comment reserves the right to edit all submissions for grammar, spelling, and length. It is expected that an author will check his/her own facts, and the Comment cannot be held responsible for errors within letters.
5. All letters must include a signature and a phone number for verification. Signed letters will be held one week, and discarded. They will not be published unless they are signed.

Pearce sets the record straight before leaving

To the Editor:

Because I have been personally ma-naged, I guess that not only my name or my record, but the student body has been given the wrong impression about me to justify their lies.

Ellen Venckus, who has not run for the presidency in the last four years, is a student that is to be respected by the college community. She has been quoted as saying that her record has been tampered with.

I believe that in the end all students will realize that the SGA is not an institution for the students. It is a place for the students to speak their minds and to put forth their ideas.

The SGA has been under fire for many years, and it is time for it to be reformed.

I would like to thank you for the opportunity that you have given me to express my thoughts on this subject.

Sincerely,

Patrick Pearce

Sick and tired of the ‘drive’

To the Editor:

As the saying goes, ‘I'm just as bad as you are, I'm not going to take any more.’ I am sick and tired of this college and this community being taken for granted. Who do you think you are?

I have worked on the Comment for over six years. It’s all work, news editor, managing editor, and a part-time on the other side of the fence. I want to see something different. It is time for a change.

I have been working on the Comment for over six years. It’s all work, news editor, managing editor, and a part-time on the other side of the fence. I want to see something different. It is time for a change.

The College is a non-profit organization that is supported by the students of the college. The college is a non-profit organization that is supported by the students of the college. The college is a non-profit organization that is supported by the students of the college. The college is a non-profit organization that is supported by the students of the college.

Look at it this way... it could be worse

To the Editor:

College employee responds to charges of nepotism

To the Editor (and Marcia Modena):

Having read your letter “In The Editor” which appeared in the April 13 issue of The Comment, I am writing to offer my perspective on the content of your letter.

I am not on your payroll by any means, but I am also concerned about the implications of the distinction between the two types of employees. The college’s policy regarding nepotism is thoroughly in place.

My response to your letter is to report the facts, as they are perceived to be, and to express my concern that the policy regarding nepotism is not being followed.

Sincerely,

Marcia Modena
**Letter to the Editor**

**To the Editor:**

There has been a steady increase in the number of students participating in SGA elections. Over 1,000 student candidates have run in the past five years, increasing the diversity and representation of the student body at the Board of Trustees. This broad participation reflects the importance of student voice in the governance of the college.

With this in mind, I propose that we adopt a new format for the SGA elections. Instead of a traditional runoff, we could implement a ranked-choice voting system. This system would allow students to rank their top choices, ensuring that even if their first preference is eliminated, they still have a path to victory. Moreover, it would encourage a more inclusive and collaborative campaign culture, where candidates focus on what unites them rather than what divides them.

I believe this change would be beneficial for the college community and encourage a more democratic and inclusive process. I look forward to hearing your thoughts on this proposal.

Sincerely,

[Student Name]

**Letters & Columns**

**Pearce sets the record straight before leaving**

As Pearce is about to step down as the president of MassPIRG, he has compiled a list of things he did or didn't do during his tenure. Here are some highlights:

- **Did you sign any petitions yourself?**
  - No.

- **Did you receive any money from the college?**
  - No.

- **Did you ever seek to influence the decisions of others?**
  - Yes, through public advocacy.

- **Did you ever vote on a matter where you had a financial stake?**
  - No.

- **Did you ever benefit from insider information?**
  - Yes, as a result of my position as a member of the Board of Trustees.

- **Did you ever use your position to further your personal interests?**
  - Yes, by promoting policies that align with the mission of MassPIRG.

**College employee responds to charges of nepotism**

A college employee has responded to the charges of nepotism. They state that they were hired based on merit and that the nepotism claims are unfounded.

**Sick and tired of the ‘drivel’**

**To the Editor:**

I find it disgusting that the college newspaper is constantly filled with opinion pieces. This is a waste of space and resources, and it detracts from the quality of the news articles. The papers should focus on providing objective and informative content, not catering to personal biases and opinions.

Sincerely,

[Student Name]

---

**Ciganov justifies stance during Murphy’s speaking**

**To the Editor:**

I must clarify that my comments regarding Professor Murphy’s course were made in the context of a broader discussion about the importance of student voice in academic decision-making. I believe that students should be involved in the process of setting course requirements and evaluating faculty.

I want to reiterate that my aim was to encourage a dialogue about the role of the college in supporting student learning and to challenge the assumption that faculty members are the sole arbiters of knowledge.

Sincerely,

[Student Name]

"The AIDS Task Force, a committee of both students and faculty, sponsored a lecture Tuesday evening in the Hamilton-Tobey Room of the Campus Center. The lecture featured three speakers, none of whom has AIDS.

"The purpose of the task force is to educate all students, faculty, and staff about AIDS," said Ellen Marcus, director of Health Services.

"Randy Yates, Health Care counselor, began the meeting by talking about the disease in its various forms and symptoms. The first is the disease of the brain, the second is the disease of the immune system, and the third is the disease of the body, which is the most researched disease to face humankind."

"The transmission of the virus is between two bodies through four means: sexual behavior, mother to baby, blood transfusions, and exposure to infected blood."

"The ways that HIV (the virus) is transmitted, is through bodily fluids. The highest concentrated fluid is semen, but in blood, semen, and saliva. HIV is not transmitted when there is no fluid contact."

"Wanda Wright spoke of the fear that everyone has. She gave an example of the statistics, which were in favor of people knowing someone with AIDS. She expressed that information accessibility and education are the keys to prevention.

"Because of the transmission of AIDS, people are concerned about their behavior in the past, present, and future. Careful behavior has had an impact on the spread of AIDS."

"The spread of the disease is not easy to control. In the last five years AIDS has spread from 60 cases to 11,000 new cases."

"There are six types of racial groups that are more at risk. PWIDs, intravenous drug users, and noncommercial sex workers are at higher risk."

What do you think of the new registration system compared to the old?

Campus Conversation

With Deb Willis

Thursday, April 27, 1989

What do you think of the new registration system compared to the old? If you are a builder, built it. If you are an investor, invest in it. If you are a staff member, staff it. Many people have different ideas about the new registration system.

Maxwell shows ropes of business

By Catlin Andrews Commons staff

The AIDS Task Force, a committee of both students and faculty, sponsored last Tuesday evening at the Hingham-Duxbury Room of the Campus Center. The lecture featured three speakers, one of whom was AIDS.

Randy Yates, Public Health coordinator, began the meeting by talking about the disease and its involvement with this epidemic, the first is the disease of science and the second is the disease of society. At the moment, we are not as strict in the way we express that information access is not through the breast milk. Contracting a disease is like a chain reaction. The first is the disease of science and the second is the disease of society. Anyone involved with this epidemic is at a higher risk when they discover they both have HIV+. They live as anyone else.

By Randy Yates

AIDS is the disease of the 21st century. The first is the disease of science and the second is the disease of society. AIDS is not a disease of science. It is an outbreak of the 21st century.

“Just for the health of it”

Here comes the sun

Tanning advice for sun worshippers

As the days of April go flying by, the sun’s rays begin to get stronger and stronger. For most of us, this is a welcomed sight and welcomed feeling. However, we fail to realize that constant exposure to the sun or even one blistering sunburn can facilitate the onset of a serious health problem: skin cancer.

The incidence of skin cancer has increased dramatically in recent decades. Whether this is a result of America’s addiction to tanning or our weakening ozone layer, the fact is more than 500,000 cases of skin cancer are diagnosed annually.

Dermatologists now believe that any substantial exposure to the sun sets in motion a cumulative and largely irreversible process of damage which may eventually lead to cancer. This damage is similar to adding up all those weekends of “over extended” sun exposure.

This cumulative process gives way to the two most common cancers: basal cell carcinomas and squamous cell carcinomas. Luckily, these are almost 100% curable, if detected and treated early. The third type of cancer associated with skin damage is malignant melanoma.

It is estimated that approximately 6,000 American’s die each year from this deadly form of skin cancer. In all three cases, the unquestionable cause is the sun’s ultraviolet radiation, particularly UV-B, which is very effective for tanning.

UV-B, which is very effective for tanning, reaches the earth’s surface in varying amounts of energy based on geographic location, time of day, and season. Its penetration depth into the skin depends on skin color and age. People with fair skin have the highest risk of developing skin cancer. Darker-skinned people have a lower risk.

UV-B is the cause of sunburn and premature aging of the skin. It penetrates the skin down to the dermis layer and can cause mutations in skin cells. However, UV-B is not absorbed by the skin and is therefore not a cause of cancer.

UV-A, on the other hand, penetrates the skin more deeply and is responsible for causing long-term effects such as premature aging of the skin, wrinkles, and skin cancer.

The best protection is moderation. So be smart, be safe, and buy sunscreen! At a minimum, use a sunscreen with an SPF of 15 for the first four days of exposure. After day five, a sunscreen with an SPF of 30 to match one’s skin tone is advised. That is SPF-15 for fair skin, SPF-10 for medium skin tone, SPF-6 for olive skin, and SPF-4 for dark skin.

UV-A, which is mainly responsible for the formation of wrinkles and aging of the skin, is also present in sunlight. It penetrates the skin more deeply than UV-B and can cause mutations in skin cells. However, UV-A is not absorbed by the skin and is therefore not a cause of cancer.

UV-C, which is the most powerful of the three types of ultraviolet radiation, is not absorbed by the skin and is therefore not a cause of cancer. However, it is absorbed by the Earth’s ozone layer and is therefore not a threat to human health.

The best protection is moderation. So be smart, be safe, and buy sunscreen! At a minimum, use a sunscreen with an SPF of 15 for the first four days of exposure. Here comes the sun
Tanning advice for sun worshippers

As the days of April go by, the sun's rays begin to get stronger and longer. For most of us, this is a welcomed sight and welcomed feeling. However, we fail to realize that constant exposure to the sun or even one blistering summer day can be the cause of a serious health problem: skin cancer.

The incidence of skin cancer has increased dramatically in recent decades. Whether this is a result of America's addition to tanning or our weakening ozone layer, the fact is more than 500,000 cases of skin cancer are diagnosed annually.

Demographers now believe that any substantial exposure to the sun sets in motion a cumulative and largely irreversible process of damage which may eventually lead to cancer. This damage is similar to adding up all those weekends of "too extended" exposure. This cumulative process gives way to the two main categories of skin cancer: basal cell and squamous cell carcinomas. Luckily, these are almost 100% curable if detected and treated early. The third type of cancer associated with skin disease is melanoma, which develops more rapidly, but more slowly than the other two. It is estimated that approximately 6,000 American's yearly, and this number is steadily rising. Evidence suggests that excessive sunbathing, especially before the age of 18, leads to skin cancer.

In all three cases, the unpreventable cause is the sun's ultraviolet radiation, particularly UV-A and UV-B, which is very destructive. The skin is also the more dangerous ultraviolet wavelength, and it is more common at midday, between the house of 11 a.m. and 2 p.m. Therefore, dermatologists recommend minimal exposure during these hours.

However, since minimal exposure during these hours is usually impossible for most people, some scientists have turned to research on the deeper, darker sun. Dermatologists also recommend that all sunburners use a sunscreen with a sun protection factor (SPF) of at least 15 for the first four days of exposure. From day five on, a sunscreen with an SPF to match one's skin tone is advised. This is SPF-15 for fair skin, SPF-10 for medium skin tone, SPF-50 for olive skin, and SPF-4 for dark skin would be appropriate protection. Also, it should be applied frequently, especially after vigorous exercise or sunbathing. Remember, the best protection is moderation. So be smart, be safe, and have fun!

Although, spending six dollars on an evening performance may be too much for those having already seen the commercial.

The casting was fantastic. The actors, particularly John Cusack and Love Sky, made the movie believable as far as their romance was concerned. Unfortunately, the movie tried to accomplish more than still a story of a high school romance.

To see John Cusack make the ticket price believable, Lloyd De- ter, played by Cusack, could not become every girl’s dream date to bring home for an evening with the folks. His nervous babbling in romances, it was not a smooth transition. Fortunately, the twist involves Mr. Court, Diane’s overprotective father who is under investigation by the IRS. There is no foreshadowing of any criminal activity that would cause Mr. Court to be under investiga-

The romance was so typical and charming. Any father would be proud to have a more complicated teen-aged daughter.

Diane’s overprotective father who is under investigation by the IRS.

Some tricks they'll never learn.

If animals were responsible for their own birth control, there might not be a need to kill 13.5 million unwanted dogs and cats each year. That's the cost of not having your pet spayed or neutered. Even bringing a litter of puppies or kittens to an animal shelter is no guarantee they'll find a home before room has to be made for more. Having your pet spayed or neutered is the only way to reduce the sid number of ownerless dogs and cats destroyed this year. And it will also increase your pet's chances of living a longer and healthier life. That responsibility is yours alone.

You'll never stop your pets from acting naturally. But if you love them, you'll have them fixed. Talk to your veterinarian. Or contact the MSPCA for a free information packet on birth control for your pet.

Announcements

Raffle Winner

The winner of the Men's Lacrosse Club Raffle was Lorraine Potuin. The Raffle was held on Saturday, April 15, 1989 at the Annual Senior Banquet.

Retirement Reception and Liturgy

All members of the Bridgewater State College community are cordially invited to attend a reception and liturgy in honor of the members of the faculty, staff, and students who are retiring this year. The reception will be held on Sunday, April 30, 1989 from 2 to 4 p.m. in the Heritage Room of the Maxwell Library. In conjunction with the reception, the college's campus ministries, including Fr. Bob Connors, Sr. Jo-ann Veillette, and Dr. Doug Williamson, will celebrate a special liturgy that same evening at the Catholic Center at 7 p.m.

The Christian Fellowship

The final session of the Sunday evening study group of the Christian Fellowship at Bridgewater will be held on May 7, 1989 at 7 p.m. at the Fellowship's house at 29 Shaw Road (across the street from the library). There will be no meeting of the study group on Sunday, April 30, as President Donald Chappell will be participating in the liturgy honoring members of the Bridgewater State College community who are retiring this year. That Harper be guests at 7 p.m. at the Catholic Center.

The study group is open to all members of the Bridgewater State College community - students, faculty, and staff. The group was formed last spring, in response to the unexpected death and ensuing vacuum left by Fr. T. McGowan, director of the Maxwell Library, has recognized that evening is Ann Gannon, Burton Goldman, Kenneth Coakley, Robert Daniel, Judith Deep, Shirley Fiddler, Vincent Hall, Joanne Veillette, Stella Wagner, and Robert Lemos, Rita Ouellette, and the late T. F. McGowan. They have been an inspiration to us all. It is with great sadness we announce the death of our esteemed colleague, Dr. Robert Lemos, on April 23, 1989.

Erickson’s 20 goals lend to team success

Although the Bridgewater State Women’s Lacrosse team sports a 4-6 record, their scoring ability has greatly improved since the beginning of the season. One of the driving forces behind this increase is third-year Andrea Erickson, a junior from Swansea, who has become the leading scorer for the part of the at-tack and its leader. As a co-captain, Andrea Erickson and Kristin Damore stretch out the lacrosse team before a game. (Photo contributed by Mike Storey.)

Women’s Lacrosse takes three of four

Erickson’s 20 goals added to her a total of 39 goals scored this season. (Photo contributed by Mike Storey.)

Bears. After Loomis walked, Rich Grover, Grant hit a two-run single, scoring Marino and Erickson.

The fourth inning did not begin any better for the Framingham State Rams. O'Donnell carried hit a second bases hit of the game with a shot to left. DeNegro reached first on a walk, but out of the Rams’ new pitcher Howard Landry.

In the fifth,煸cham reached base on a error by third baseman Doug O’Rourke. Nason was at bat, which followed DeNegro’s single. Landry was then walked, which loaded the bases. DeNegro scored a run on a throwing error by Saim’s Mag-gie Davis. Nason was safe at batting, and the inning concluded with Grover getting his second hit of the inning, scoring DeNegro. The Bears would add one run in the sixth to the game 15-0.

Bears pitcher Mike Lovett won the distance, giving up no runs and only three hits to his four thirde r-runs and two walks in the game. O’Donnell was the prime batter, going 4-for-4, includ­ ing two double runs and two singles.

The second game, Brian Kelly’s singles, giving up his, and the team’s five runs, so the Rams’ Chris Forni double and scored on Keith McDonald’s single. It would be the only run of the day that the Rams would re­ceive.

Bridgewater began their run producing in the first, with Brian­son singling and scoring second base. O’Sullivan reached first on a walk by Rust’s pitcher Kevin Forni. On a double steal, Brandon was in third, while O’Sullivan took second base. Both runners scored on a single by O’Donnell. Bridgewater got two runs in the sixth due to a DeNegro single in left, scoring Brandon and Grippe. In the right, the Bears got their fifth run, when DeNegro singled, and reached home on a sacrifice fly by Grover and Grant.

With this pair of sweeps, BSC now sits 35-23 in the MAC- CAC Conference, 14-3 overall, and the team moves up a first place tie with North Adams State Col- lege in the MACCAC. Their Bears will play North Adams State in a pair of make-up games on Saturday at Engine Field. This will be the battle of the two teams in the league, and will determine first place standings in the MACCAC. Game time begins at 1 p.m.

Bear hunch second hour run of the season in the fourth inning. The Lady Bears win up after regular season this coming weekend, with a double header against Westfield State at Westfield. Game time begins at 1 p.m.

Kim Cohen-University of Wisconsin-Class of 1990

Visigoths defeat Framingham State

Last Saturday, the Framingham State Women’s Lacrosse played a well executed game, and was able to defeat a strong Framingham team 15-3. Allen was able to net points in two runs in after breaking four still tough ones. But Costa continued the extra points with her excellent batting. The team played outstanding with hard tackles by co-captain Mike O’Grady, Pettiette, Rich Ness and David Curry.

Trend, T. Junior played smart by smuling the ball many times in the field. Other good play taken in by recorded Mariah Conner, Chris Conner and Jeff Sutherland. In the sec­ond half, Zate Zolek helped low the red zone and was a key player to three four points. Shortly after this, Framingham quickly tried to come back and intrigued touch one down in the dry zone for four points. Bridgewater backs swarmed on the swift Framingham team out closing hard and complete scouting.

Led by co-captain Mike Coller, the Bridgewater backs Bill Hart, Paul Cargias, Gary Penn and Dave Carbone worked together like clock. William Manelli played consistently. At the position of score. Near the end of the game, Costa was once again able to astoundingly kick the ball through. The entire crowd finally cried in the end.

On the back, the final score was Bridge’s 2-2, Framing­ham 0. Despite some flashes from the team which included Todd Braungiser, Chris Mazzola, F. Scott Long.

"No matter how bad they are, Grandma loves to hear the latest jokes.

You sure her popular sense of humor. The ravens in love, called the ravens back. The ravens hae the ravens back. I am a danger to myself.

Erickson’s 20 goals lead to team success

Although the Bridgewater State Women’s Lacrosse team shows a 4-4 record, their scoring and ability has greatly improved since the beginning of the season.

One of the driving forces behind this increase is third-year home Andrea Erickson. Erickson, a junior from Swanton, is leading scorer for the team in the last four games (less than one week). Erickson has scored 20 goals. These goals added to their previous statistics give her a total of 39 goals for the season. Ten of these came in one last game against Bates College. Erickson is also on the championship team leader board both on and off the field.

As a co-captain, Erickson leads the attack in drills, warm-ups, goals, assists, and stick-work. Erickson’s stick-work rivals that of nationally ranked players, as she was seen against teams such as Tufts University and Mount Holyoke College. Her passing and catching skills have become an integral part of the attack and its plans.

Another aspect of her game that cannot be ignored is her sportsmanship. Erickson exemplifies the on-field attitude at all times. Erickson is an excellent player who can step to the front of the team at all times and she will have another extraordinarily season to improve as well as add to the team effort.

Women’s Lacrosse takes three of four

BSC Women’s Lacrosse kept their hopes alive for a playoff berth by winning in three games last weekend.

The first game shut down Pine Manor with a 10-2 win. freshwater Cynthia Costa performed well, scoring in four goals. Costa’s scoring game was strong as well, with dominating ball control from the draw. Andrea Erickson added three goals to the offense. Megan O’Connell and Danielle Webster had a goal each to round out the scoring for Bridgewater.

On Saturday, April 22, Bridgewater played New England College (NEC) and won 16-6. Bridgewater led from the start, 7-0, while taking the game. Andrea Erickson contributed two goals. Danielle Webster was in goal scooping, with four. Kim Tompkins also had two goals for the game.

Cynthia Costa asked the overnight with one goal. Frederick Meg Doherty had her first goal of the season, playing first time (the first player before the goal).

The Lady Bears lost to nationally ranked Smith College, but forced Smith to earn the win. The Bears have faced four nationally ranked teams and lost by margins of 12, 11, 6 and this time only 4 points. The battle against Smith was a tossup for Smith, with Bridgewater holding their own for a 10-6 final. A major factor in this game was Bridgewater’s Gaetana Sallie. Sallie had 11 saves in the game, tying only 10 of 32 shots. She was joined by the rest of the Bridgewater defense in keeping a minimum.

Menzies, a 6th attack was a class action of the game, which had three goals. Andrea Erickson, Danielle Webster and Rosella Davi had a goal each to complete the scoreboard.

On Sunday, April 23, the Lady Bears lost to Colby College 16-10. Erickson had 10 goals and also played on defense. Danielle Webber had three goals and three assists. Webster was key in setting up plays from behind the goal, leading to three of the Bridgewater goals.

Kim Tompkins had two goals and three assists, and the final point of the 16 cut from Cynthia Costa, assisted by Andrea Erickson. Costa was also credited with one assist. The BSC defense again had solid performances. Marla Wall, Mara Cymerman, and Kristin Donovan proved pivotal in enabling the attack to hold the ball.

Bridgewater Women’s Lacrosse will travel to Holy Cross for a 4-p.m. game, winding up regular season play.

BSC teams on top of MASCAC

By Bryon Hayes

Although the weather was cold this weekend, the Bridgewater State College (BSC) Bears baseball team swept a pair of doubleheaders, to remain a top team in the league.

Bridgewater began the second weekend with a 9-0 win over Mt. Holyoke. In the first game, Loagrety started for the Bears, as they took the game over in the fifth inning to provide the team with a comfortable win.

In the first game of the day, the BSC Bears defeated Framingham State Rams, again had a tough time getting runs in, but eventually scored four in the fifth inning.

BSC pitcher Sheehan was the distance for the Bears, giving the seven innings and having three score at two. home on Brandon's single. Loren- excellent pitching and good de-
