ATHLETIC CONFERENCE AT FRAMINGHAM

At the conference of the Athletic Association of Massachusetts Normal Schools held December 1 and 2, 1928, at Framingham Normal School, the following statements were made by Mr. Thomas P. Reed, chairman of the association for 1929:

"My occupation has veered me through many adventures and many experiences around the world in ships. I have been on my shipboard since I was two years old, when my mother sent me to sea. I have seen many wonders, and I have met many interesting characters."

Mr. Reed also spoke of the importance of education and the need for students to continue their studies beyond high school.

JAUNTING AROUND THE WORLD IN SHIPS

"I wonderland" has veered me through many adventures and many experiences around the world in ships. I have been on my shipboard since I was two years old, when my mother sent me to sea. I have seen many wonders, and I have met many interesting characters.

Mr. Reed also spoke of the importance of education and the need for students to continue their studies beyond high school.

HOW NORMAL STUDENTS EARN MONEY

Although we often hear of students earning money, we seldom hear of the process by which they earn it. At Bridgewater Normal School, the students have taken many different jobs to earn money. Some have worked in factories, some have worked on farms, and some have worked in stores.

Mr. William F. Dowdell of the History Department spoke of the process by which students earn money: "Although we often hear of students earning money, we seldom hear of the process by which they earn it. At Bridgewater Normal School, the students have taken many different jobs to earn money. Some have worked in factories, some have worked on farms, and some have worked in stores.

Mr. Dowdell also spoke of the importance of education and the need for students to continue their studies beyond high school.

INTERVIEWS WITH OUR NEW TEACHERS

Miss Cowdell

"The most thrilling thing about being a teacher at Bridgewater Normal School," said Miss Cowdell, "is the opportunity to work with young people. I have been a teacher for over ten years, and I have found that the most rewarding aspect of teaching is seeing the growth and development of my students."

Miss Cowdell also spoke of the importance of education and the need for students to continue their studies beyond high school.

EDITORIALS

To make life more interesting all over the earth, the so-called world, if it is not burned up by the sun, always wears a coat of red, or even a coat of snow. The world is a colorful place, and it is in color that much of our interest lies.

CROSING FROM THE BED

"Sixth Form" was a popular play at the World Theatre last week. It is a comical little farce by John Galsworthy which has a happy ending.

"The Dead " is a rather good play by John Galsworthy. It has a happy ending.

were regularly served by their host. Then enjoyed a play, "The Pit Boss," at a prominent college.

A social basket ball game played by the delegates resulted in the Normal winning an easy victory over the delegates eligible for honors, after which the final banquet was held.

The next conference, also a very pleasant one, will take place at Fitchburg in November, 1929.

A humorous dialogue turned toward the topic of the spoils system, and the future took the form of a joint song, which was favorably received.

that he also met the first selrite. As he is interested in Ancient Music, he has spent much time in researches on the topic of "pitch" in the various harmonies. As he is interested in Ancient Music, and as I have crossed and recrossed these two soloists, the program will probably consist of four groups of songs.
