Philosophy of Kent Not to Seek Explanation for Art

"It is far too important for a person to be happy than for him to be modern." —William Rockwell Kent, artist and world traveler, who is to be presented by the Lecture Fund Committee to the college on March 30 in the Horace Mann Auditorium.

As a sailor, adventurer, and lecturer Kent can speak with such frankness because he has a versatility which includes work in oil, engraving, etching, and illustrations.

"Do not try to find an explanation for works of art," says Mr. Kent, "Most of them haven't any."

Mr. Kent received his A.B. degree from Columbia University in 1903 and his M. A. degree in 1907. He has spent the past 35 years as an artist, lecturer, and writer. His travels have taken him to every part of the world. He has been a correspondent of the War Department and the Red Cross, and has written many books which have been translated into several foreign languages.

Campus Comment Looks For Hidden Talent Through Contest

Do you want to win a year's subscription to the "Reader's Digest"? Four chances are provided in the Campus Comment art contest. One of these chances is available to everyone who enters the contest and is open to all students of Bridgewater State Teachers College.

Any student may enter as many works as he wishes. Entries may be in any material for which there are no limitations. Shortest Stories Contest, limited to 500 words, essays of 500 words, and two Blockprint designs in a set which are to be submitted are included in the competition.

All entries shall be typed on 8-1/2 by 11 inch paper with your name and school on the envelope. Pass in the envelope with your name or the number of the contest to the committee. April 27, 1937 is the deadline for sending all materials. The winners will be chosen by competitive selection, and prizes will be awarded to the winners.

STUDENT COUNCIL EFFECTS

CHANGE IN ELECTION RULES

PRIMARIES TO BE HELD

The Student Council has recently decided on several important changes in the rules for election of officers for Student Council Association.

For the officers of president, first vice-president, and second vice-president, there will be both primary and regular elections; the purpose of the primary election being to prevent elimination of the best candidates and to have them available for election. Five nominees will be elected at the primaries. Each student will vote for three. Those three nominees receiving the highest number of votes will be the candidates for the offices of president, first vice-president, and second vice-president. At the primary election, each student will vote for the one he thinks best; the candidate receiving the largest number of votes will become president, second highest becoming first vice-president, and third highest becoming second vice-president.

In the regular elections, the students shall vote for the candidates for the remaining offices, the secretary, and one of the three for assistant secretary. The candidates for assistant secretary shall be chosen for their knowledge of the student body; for the remaining offices, the assistant treasurer automatically becoming treasurer.

A much needed innovation will be put into effect this year, as ballots will be distributed with an explanation to all students who are practicing teaching off campus.

SURPRISE PARTY HELD FOR S. C. A. PRESIDENT

A surprise birthday dance party in honor of Katherine Donahue was given by twenty-three seniors in the Woodland Rice Hitchcock's fourth floor living cognizance because it was pleasing flowers, green, yellow, blue, and green with brass accessories. In the form of a flower-bowl in which were yellow narcissus, and hold- ers for green and yellow candles which had a dim, festive light.

After dinner speeches were made by Albert Bindenbender and Louis Becker who presented Miss Donahue with a crown of flowers which was immediately named "Woodies" by popular acclamation. Having finshed the banquet which consisted of fruit, cup hambrochers with utensils, potato chips, coffee and cake, the girls gathered in the recreation room where they danced. Several specialty dances and skits were given of which "March of the Hours" (conceived by Harriet Rob- erson), Thelma Hech, and Phyllis Roberts.

EARLE SPICER, BARITONE, TO BE GUEST ARTIST AT ORCHESTRA CONCERT

Noteworthy has been the rapid rise to fame of the baritone, Earle Spicer, who will be soloist at the Orchestra Concert in the Horace Mann Auditorium on March 30.

Mr. Spicer, who was assistant manager of the Columbia Records, has retained the services of the world's most noted singer and has been chosen as the soloist for the orchestra concert this year.

The evening ended with a formal dinner at the home of Miss Donahue, and the baloney for dancing. Mr. Spicer was presented with a bouquet of flowers by the orchestra, and a dinner was given him by the students who were present.

The committee in charge of the concert was made up of Louie Eldridge, Thelma Hech, Mabel Brown, Phyllis Colby, Edna Blosser, Alice Blanchard, and Phyllis Roberts.

Much Progress Shown Through Many Changes

Campus Comment is celebrating a very important anniversary, for this is the tenth year of its existence. It is the first publication of the school, and it has been printed in a newspaper with a rating of B.

Miss Alice Taylor was the first editor of Campus Comment, which was a quarter, bi-monthly, and was printed by the Printing Department under the supervision of Mr. John J. Kelly. The paper was then limited to four columns, editions rather that continuous, and it was printed by the students of the school.

Campus Comment is now a weekly newspaper, with a rating of A, and it is printed by the students of the school. It has been printed in a newspaper with a rating of A, and it is printed by the students of the school.

New features of the paper were initiated in the fourth year, 1933-34, under the editorship of Caroline Robinson, and afterwards of Charlotte Murray, who was the editor of the paper. Through the medium of the forum, the students were given a chance to express their opinions.

The complete and full development of the newspaper was a result of the students' efforts, and the newspaper has developed into a well-known and respected publication.

SUCCESS STORY
When a former Bridgewater student reaches the top in the educational field, we
who are hopefully starting at the bottom may feel some encouragement, and also
justifiable pride in our college. Boston's new experiment inestadents of schools, Arthur
Jellicoe, of the early educational training at the Bridgewater Normal School,
graduating in 1900.

Because of the inspiration and encouragement received from an exceptionally
teacher, Mr. J. A. G. Leach, Lechmere, the student chose teaching as a career. In this example of the potential influence of a teacher over the group, we look out our reasons for continuing the
learning profession. It illustrates, at any rate, the fact that one short year's
association with a good teacher may change the entire pattern of a child's
life.

Lechmere, particularly gratifying to us to see a Bridgewater graduate become the
responsible head of a large school system, however, success in the teaching pro-
ession is not necessarily measured in terms of large salaries and executive offices.
In this spirit scenes as Streets of Paris, Vienese just as vital as being a good teacller.

Therein lies the weakness for which an entire class is blamed.

interest in the group, the many hours she worked for its deVelopment.

CAMPUS COMMENT

Dear Editor:
The Student Council has concerned itself
with the problem of giving more guidance to
the students in their studies. Many students have requested
that this council be helped in their program by giving
them more guidance. The Student Council has decided to
hold meetings at which students may come and discuss
their problems. The meetings will be held at the
library on Wednesday evenings at 7:30.

The student body is urged to attend these meetings so that they may get
more guidance in their studies.

Sincerely yours,

The Student Council

Hamlet—As You Like It

Those who were not fortunate enough to see both productions of Hamlet
in Boston this season, can at least participate in the controversy arising from their
totally different performances, have perhaps wondered what the difference
between them was. The following is an attempt to explain the difference between
these productions, which, it is believed, is so great that the students would
not also the students mold the college?

... Hamlet has written poetry in high
interest in the group, the many hours she worked for its deVelopment.

Many other students are working daily for you—in classes, divisions, clubs, on
committees, and on the newspaper. Why not have them work with you as well as
or your?

PUSHKIN, THE RUSSIAN SHAKESPEARE

America has recently heard much discussion of the Russian poet and writer,
Alexander Pushkin. New biographies, lectures, memorial concerts and operas are
but a part of America's tribute to the great Russian who died February 10, 1837.

At the age of 36, Samuel Hanford Cross, professor of Russian Literature at Harvard,
inscribed in his lectures on Pushkin, said, "He is one of the greatest poets on the European
continent, with the possible exception of Goethe. Pushkin is regarded by Russians
in the English speaking world to read some of the greatest of Russian Literature.

TIME MARCHES ON

As time marches on and springlike weather arrives to the uneasiness of the scheme of nature, we are faced with a rather serious problem. Hereafter, the weather of March and April is likely to be cold and wet, but the weather of May and June is likely to be hot and dry. This is the case, and we are faced with a rather serious problem.

Imagine if you can a perennial spring. Crops would grow constantly, forever. The earth would always be green, and the sky would always be blue. Life would be abundant, and the world would be a better place.

The song of the month would be, “Do you want to walk with me?” and the activity would be “picking the poo”. Picking poo would result in the gathering of many different types of animals, such as birds, insects, and mammals. This activity would be enjoyed by all ages, and it would be a great way to learn about the natural world.

The month of May would be known as the month of the New World. In this month, all the fruits and vegetables of the New World would be available, and the air would be filled with the sweet scent of the flowers of the New World.

Opera

Music lovers should be staying themselves in opera houses, for here is a chance to enjoy the music of the world. Boston should have a season of grand opera this year. Boston should have a season of grand opera this year. Boston should have a season of grand opera this year.

Library

Every evening, February 10, many of the club members met together at the library. They discussed the works of various authors, and the atmosphere was one of intellectual stimulation.

On the following Sunday, the National Art Conference will be held. The conference will be attended by all the art lovers of the country.

Hobby Club

The Hobby Club, sometimes in March, will exhibit work done by the members during the club periods and leisure passing. The display will include collections, stamps, sports, pottery, black print, tailoring, foreign correspondence, etc.

On Saturday, February 10, the members of the Art Club will hold a meeting. The meeting will be conducted in French, and the members will discuss the current art trends.

Newman Club

Several members of the Newman Club held a retreat at the Sacred Heart Convent. Among them were: Mrs. Whittamore, Mrs. Wright, Mrs. Murphy, Mrs. Donovan, and Miss Mary Donahue. The retreat was held at the Sacred Heart Convent for the purpose of providing a place of retreat for the members of the Newman Club.

Science Club

For the members of the Science Club, the month of February was rewarding. The club met at the laboratory of the new science building, and the members discussed the latest advances in science.

The meeting was conducted in French, as is the meeting on the subject, inventions, in different countries in the world. The members of the Science Club are well known for their contributions to the field of science.

**Intramural champs**

With the close of the basketball season, we may look upon the achievements of Mr. Mee, who aimed well on top with a 21:1 average. His team won eight and lost only one, representing for the third successive year that Bridgewater showed exactly as many points as his opponents, 423 each. Because the quality of intra-mural basketball records might not do justice to the quality of a group whose value in team-play ability, there will be omitted.

The best scoring among the forgoing Men's Basketball, run by Men's Club, managed by A. A. and Mrs's Club, will be the athletic awards, letters and waterfront, gold soccer and baseball championships to serotonin members of these teams and allow basketballs to win of the Intramural Tournament. Congratulations to Captain-elect Mills Cummings of the Mac Basketball team. This has started every game but two since his freshman year and has been the outstanding defensive man on any of the three Red and White defense, dribbled almost from mid-field, but even though the ball switched cleavage, the innings ranged that he was still in position the following scene, and when the final whistle blew—therefore, Bridgewater 35, Fitchburg 34.
