KELLIER TO HEAD SCA
Junior Denny Kelliher is the new SCA president for 1966-1967. He and three other executive board officers were chosen Tuesday, May 2 by an all-campus election.

Callie Eason defeated Brent Barbour for the vice-president's post. For assistant treasurer Aileen Rollins beat the other two candidates. Brenda Dolan, secretary, ran unopposed, as did Kelliher.

Lindy Bergin's, this year's SCA president, said after the election that she was “very pleased with the job.” She said President Denny will do an excellent job. It is unfortunate that an unopposed election right to vote, the election committee Chairman Dave French described the election as “one of the best student elections, as ‘less than spectacular.’

Outgoing SCA executive board members are Tom Hall, vice-president, Peggy Dooley, secretary, Bob Costello, treasurer, and Bob Crompton, assistant treasurer, who will automatically become vice-presidents this coming year.

The Student Government also elects three class elections who held this week. Senior members of the election committee which conducts all campus elections are Chairman Dave French, Barbara Flanigan, Cheryl Prestridge, and Ann Serafini. The election committee will continue to meet regularly through the summer months.

SBC ANNEXES NINTH HOUR
Bridgewater students will have to set their alarm clocks a little earlier next year. Dr. V. James Dietsche, Director of Campus Activities, has announced that in order to get needed classroom space, BSC will go on a nine hour, effective September 1, 1966.

Classes will start at 8:00 a.m. and be held on the seven hour with the last class starting 4:00 p.m. There will be no definite lunch hour.

PROFESSOR FURLONG ELECTED PRESIDENT
Dr. Iris E. Furlong was elected President of the Professional Association of Geology Teachers, New England Section at the annual meeting held at Bridgewater April 22 and 23.

Members of the Earth Science Department served as hosts at the meeting which included the election of officers and the reading of reports from states.

Dr. Emanuel Mait, chairman of the Earth Science Department opened the Friday program with a welcome address. Former president of the association, Dr. Paul M. Brown, Jr., of the University of Maine followed with a speech on: “The Definition of the Neoglacial in the Yukon Territory, Canada.”

Other officers elected to the association were Dr. Vincent De Luca of Rhode Island, vice-president, and Dr. Marshall W. Smith College, secretary-treasurer.

SULLOVIN LECTURES ON SANDS POINT
Larry Sullivon, senior math major, presented a slide lecture on Sands Point, a school for intellectually superior children. Mr. Sullivon is the first BSC student to train outside of the state.

The school was founded in 1969 and includes grades one through twelve with plans for adding a thirteenth and fourteenth grade. Mr. Sullivon pointed out that students are put in classes according to their ability, and all classes which vary widely in skill and age. Classes in the school are designed to be flexible and easy to change. The classes are small and homogenous, leaving themselves to a family atmosphere.

Mr. Sullivon discussed some of the popular misconceptions about gifted children that they are physically different and accelerated. Supported by slides and the opinions of the teachers at Sands Point, he proved that they are exactly the same as and better educated than average child. He believes, however, that gifted children are more than just an average child.

The purposes and functions of Sands Point impress Mr. Sullivon, and he will teach there next year.

WANTED—ONE BOMB BLOODHOUND
"Listen, there is a bomb planted in your school, and it is set to go off at 3 o'clock. You better believe it," But whether she believed him out, the relief switchboard operator, Miss Missy Corobey, reported the bomb threat which resulted in the evacuation of all screen rooms, as well as the pres by the back of the audience at the front of the stage.

Members of the police and fire departments searched the buildings. Nothing was found. It was a hoax.

According to President Adrien Rondileau, it is a state law that all buildings must be searched whenever a threat is made, and if the hoiser is caught, the penalty could be up to twenty years in jail plus a fine.

It was a beautiful spring afternoon for no classes—all students swarmed over town chatting their "valuable" and sure search guardianship of the parking lots near campus, where they were either scared of the bomb or anxious to leave before the hoiser changed his mind.

SPRING CONCERT IS APPLAUSED
By James Johnston
Miss Dorothy Perry and the Choral Clubs have enacted another triumph with their spring concert program in the presence of Rhode Island, vice-president, and Richard Jensen. Richard Briggs gave a sensitive rendition of "The Pirate's Dream." Richard Jensen's superb voice is now to the campus audience. He showed fantastic quality and control as he sang "Cherub Hill."".

The Women's Glee Club also staged itself in a fine manner, songs which included moving selections of Donor's Delight, "freshman's" Canto, "magnumopus." The chorus and the audience respond with fantastic quality and control.

The Sixth Grade Reader. The items included a copy with titles and contents: "for dimes," and numerical comments and slips of paper.

The planning however, in that the college will complete the air conditioning installation in the fall, President Rondileau said, "No major office space or residence areas will be affected by the heating plans." The planning however, in that the college will complete the air conditioning installation in the fall, President Rondileau said, "No major office space or residence areas will be affected by the heating plans." The planning however, in that the college will complete the air conditioning installation in the fall, President Rondileau said, "No major office space or residence areas will be affected by the heating plans."

NEW FACADES Mark Campus
Architects have promised, according to President Rondileau, that the new dorms on Great Hill will be completed by May 15, 1967. If for any reason the dorms will not be completed by this date, students will be allowed to move into their dorms.

Press releases from President Rondileau: "It is now tentatively scheduled for May 22, 1967." The second topic under this category was the meeting that had occurred at morning among the Faculty Library Committee, President Rondileau and the architects for the new library building.

The library committee has studied the needs and desires for the new building and an architect has been selected to further the preliminary plans. The meeting that morning had discussed such items as additional classroom space until the library space is fully needed for library purposes. The volume of books to be acquired, the general layout, and the need for special rooms. At this meeting it is believed that the library will be placed somewhere near the gymnastics.

It may be a building of a size comparable to the new Student Union Building. Present plans are to have plans for the President of Education Building. Present plans are to have plans for the President of Education Building. Present plans are to have plans for the President of Education Building.

The editors of Liberal Lit have taken all unsold copies from under the Bridgewater newsstand. Now there are over 500 copies of the Lit have been sold. Since there are no planned editorial contests for officers of this off-campus magazine, an editor has been named for further issues.

TUESDAY ANOTHER CONTROVERSY FOR LITERARY LIFE
VOLPE TO SPEAK AT COMMENCEMENT
Governor John A. Volpe is scheduled to speak at Commencement Exercises June 6. Also at this ceremony, the gymnastics will be formal and former Bridgewater State College President Eddy, and the Science Building will be dedicated to former Bridgewater State College President Eddy.

Since there are no planned editorial contests for officers of this off-campus magazine, an editor has been named for further issues.

And the Strangest Thing is the Quiet

Semester break not only brings a change to the outside of the library, but it also brings more than usual. It is uncomfortable enough to be surrounded by a one-eyed owl as one trudges into the library, but to find its favorite chair—the one facing the windows, the comfortable red one with the coffee table foot stool, the one in which he could fall asleep for a few hours without bothering anyone sleeping beside him—finds that one unoccupied, as if it never existed.

It is uncomfortable to be surrounded by a one-eyed owl as one trudges into the library, but to find its favorite chair—the one facing the windows, the comfortable red one with the coffee table foot stool, the one in which he could fall asleep for a few hours without bothering anyone sleeping beside him—finds that one unoccupied, as if it never existed.

But that's what happened in the library spring cleaning. Now all of the shelves were empty, and books that were shelved were laid out in front of the card catalog. It is hard to imagine that this was possible.

The strangest thing is the quiet. Maybe it is uncomfortable enough to be surrounded by a one-eyed owl as one trudges into the library, but to find its favorite chair—the one facing the windows, the comfortable red one with the coffee table foot stool, the one in which he could fall asleep for a few hours without bothering anyone sleeping beside him—finds that one unoccupied, as if it never existed.
SPRINGING OF SPORTS

BY KEVIN J. FARRELL

The BSC track team is off to a slow start this season. Although the squad is well organized, under Manager Carl Vaughan and Coach George Warren, lack of depth has hurt Bridgewater's runners and field man.

BSC lost two track meets so far this season. One to Nichols College and the second to a powerful Fitchburg State College squad. Captain Mike O'Connor, top point getter for the Bears, garnered two first places for BSC at the Nichols meet. O'Connor's victory in the 100 yd. dash and the broad jump.

Paul Fehrl and distance man Bob Burwood have added points to the Bridgewater score in the field events and distance races. Burwood, a sophomore, has run both cross country and track, turning in fine performances, during his four years at BSC. Also placing for the Bears are Dan Smith and Ken Kline.

Field ace Joe Repe, star tackle for the football squad, competed in four events against Fitchburg and was the only winner for BSC. Repe took the shot put with a fine toss.

The track and field team, under the direction of Coach Vaughan, has already predicted a big spring for the Bears. A good showing in the state meet and the NCAA meet has been expected for the team.
