Bridgewater... undecided on student voters

Attorney General Robert Quinn released a legal memorandum on July 21 which stated, in essence, that college students should have the right to vote regardless of their place of residence. Quinn's ruling sent an icy chill up and down the spine of every government official in the college towns throughout Massachusetts. Quinn's ruling paves the way for residence hall students to vote in the community where they attend school.

Quinn said the ruling is "merely abiding by the 26th amendment" to the U.S. Constitution which lowered the voting age to 18. "There is nothing new in my opinion," he said, "except for the fact that an individual is a student, or residents in a dormitory, should not deprive him of the right to vote in a community." He said registrars of voters should treat the 18-20 year olds exactly the same way they have treated the 21 year old and older voters in past years.

The Massachusetts Town and City Clerks Association has developed its own set of guidelines, expanding the meaning of the Attorney General's wording to read "any present intent to leave the town when your work or study assignment is completed."

Michigan and California Rulings

The Supreme Courts of Michigan and California have recently ruled in favor of student voter registration in college towns. The California case, brought by nine minors from five different California counties, the court ruled that the "right to vote of 18 to 21 year old should be determined in the same manner for adults and that compelling students to return to their parents' residences or applying for an absentee ballot 'burdens the right to vote', as granted by the 26th Amendment.

The Michigan Court case, which may be more applicable to the situation in Massachusetts, ruled that questionnaires asking students where they obtain their support, where they spend their vacations, where they bank, and whether they own or leased property are "constitutionally impermissible."

U.S. Attorney General's Opinion

U.S. Attorney General, John Mitchell recently visited Statehouse where he was asked his opinion of the student voter registration issue. Mr. Mitchell said he felt that it was unfair to other voters as such service men. Mr. Mitchell was then asked if he would make a ruling on the issue. His answer was...

Weissman interviewed

The following is an interview with Joel Weissman conducted by the COMMENT.

1. Being a former out-of-stater, what prompted you to come to Bridgewater State College?
   I went to Hunter College in New York City and there I received, after 46 credits of work, about a B. I wrote in different schools and I never wrote to Bridgewater telling them I had flunked out of college. I wrote and told them that I had a good high school average which they saw was high in the nineties or an A average as it is called here. Finally, I called up and they told me I had to come for an interview. I came the next day and spoke to them and they took a chance on me and here I am.

2. What do you see as your role as Student Government President?
   "To make sure that money isn't spent foolishly like it was last year. This is my primary concern right now. The second type of concern is to see that all the students know what is going on with Student Government. I want to be sure that people know that student government exists on campus. I also want to bring all students together, then one way, regarding the A grade last year, I want to have everybody talking to each other and knowing what's going on. I don't want to see one faction against another faction. I want to see things be coordinated and people liking each other.

CONT. ON PAGE 3

BRIDGEWATER — On September 13, 1971, Bridgewater State College opens a new academic year as well as the doors to its recently completed library building. That does not mean, however, that Bridgewater students will have its four floors to browse around or study. At least not for a while. For as Mr. McGowan, librarian, explained in an interview with The COMMENT, the entire library will not be put into use until the new furniture and shelving are received. Delivery is set for early 1972 following the opening of the first semester, and possibly for the beginning of the second, B.S.C. students will be able to utilize only the ground floor of the new building.

During that time equipment from the old library will be installed on the ground floor, and most activities will be carried on there. Eventually the ground floor will house back issues of periodicals and also a reading area. The microfilm reading room and group listening area, also on the ground floor, will be put to use as soon as the equipment arrives during the first semester.

There are eleven classrooms on the ground floor as well. These range in capacity from twenty to forty students with a total capacity of 325 students. According to Librarian Owen McGowan, these classrooms will be used immediately at the start of the academic year.

Crisis Avoided

Dean Lee Harrington, informed The COMMENT that there are fourteen classrooms and a 198 seat auditorium in the library with some 500 student stations all of which have been scheduled for full use for the next academic year.

Explaining that one of the major problems facing the college administration over the summer months has been the completion date for the library, Dean Harrington remarked that, if the classrooms were not ready for occupancy I honestly could see no other solution except a postponement of our academic calendar.

The new Clement C. Maxwell Library was constructed over a period of four years at a cost of six million dollars under the direction and with the constant encouragement of President Rondeau and Dean Harrington. Mr. McGowan told The COMMENT. The architects of the huge edifice were Hoyle, Doran, and Berry of Boston and the builders were the Westcott Construction Company of Attleboro. It is now complete with the exception of finishing touches.

As noted earlier the major concern of the college administration over the summer had been the completion of the library building. Dean Harrington explained the problem in the following words: "As usual the target date for completion seemed unreal. We wrote and told them that I had flunked out of college. I never wrote to Bridgewater telling them I had flunked out of college. I wrote and told them that I had a good high school average which they saw was high in the nineties or an A average as it is called here. Finally, I called up and they told me I had to come for an interview. I came the next day and spoke to them and they took a chance on me and here I am.

Remodeling Boyden Hall

The completion of the new Boyden Hall will mean the end of construction to occur on the Whitewater campus this fall. In addition to the main hall already under construction, five new classrooms, a studio, and a science lab will be added.

The 

new footbridge ready

After ten months of construction and at a cost of $21,000, the new footbridge was finally completed. The footbridge was built to replace the old, narrow footbridge which was inadequate for the needs of the college's students.

The new footbridge will be formally dedicated on Friday, September 23rd, at 10:00 A.M. The dedication ceremony will be followed by an open house and reception in the new building.

The dedication and open house are open to the public and will provide an opportunity for everyone to see the new facility and meet the faculty and staff who will be working in the new building.

B.S.C. ENROLLMENT
The fall enrollment will increase to 2,900 students this year. This is a reflection of the fact that in recent years the student body has been growing. The fall enrollment in previous years has been 2,600 students, with an increase of 300 students each year.

The fall enrollment in previous years has been 2,600 students, with an increase of 300 students each year. This year, the fall enrollment is expected to reach 2,900 students. The increase in enrollment is due to a combination of factors, including increased funding for higher education and a growing demand for college education.

E Q INDEX

COMING ATTRACTION

You Can

A water pollution bill which may become the first major piece of legislation designed to curb water pollution has been quickly being worked on at the state capital. The bill, if passed, will not only affect the state of Massachusetts but also the rest of the nation. The bill, which was introduced by Senator Mike Gravel to the Senate, received approval from the Senate last week. It is now up to the House to pass the bill before it becomes law.

COMMENTS

The E Q Index, a new library

The E Q Index is the result of the collaborative efforts of the Environmental Quality Index (EQ) and the National Wildlife Federation. The Index is a comprehensive tool that helps assess the quality of the environment in different parts of the country. It is based on a series of indicators, such as air and water quality, biodiversity, and pollution levels, which are measured and reported annually.

The E Q Index has been praised for its ability to identify environmental problems and prioritize actions needed to improve the quality of the environment. It is used by policymakers, environmental organizations, and the public to make informed decisions about environmental issues.

**Editorial**

**Standing Committees meet Tuesday!**

Last week, faculty and student members of the editorial, standing, and special committees received a letter from the office of President Hands regarding the proposed new guidelines for the election of standing committee members. The letter dated August 6, 1971, listed the standing committees and noted the first scheduled meeting date for each committee. In the past, the election of committee members took place in the fall of the academic year. The letter noted that the new guidelines for committees had been forwarded to the standing committees for their consideration. If the committees agreed with the new guidelines, they would return the guidelines to the office of President Hands.

In an earlier letter, President Hands had written that the new guidelines were a "necessary step" in improving the operation of the committees. He noted that the guidelines would be reviewed periodically and revised as necessary. President Hands also suggested that the guidelines be considered by the standing committees as a way to improve the effectiveness of the committees.

The letter stated that the guidelines would be in place for the fall term, and that the new guidelines would be presented to the students at the September 12, 1971, meeting of the MIT Student Senate. The guidelines would be presented to the students at the meeting, and then the students would have an opportunity to discuss the guidelines and make recommendations to the office of President Hands.

Just as important as the guidelines is the fact that they are being presented to the students at the meeting, which is the first time the guidelines have been presented to the students. This is a significant step in ensuring that the students have a voice in the operation of the committees, and that their opinions and ideas are considered.

**On the E Index**

For many years the National Federation of State Conservation Unions has been concerned with a number of environmental problems. These include water pollution, air pollution, solid waste management, and wildlife protection. The Federation has been active in promoting legislation and regulations to address these issues. One of the key indicators used by the Federation to monitor progress is the E Index.

The E Index is a measure of the effectiveness of state and federal environmental policies in protecting the nation's environment. It is calculated by the Federation's Environmental Quality Index (EQ) Committee. The EQ Index is based on a series of indicators that assess the effectiveness of state and federal policies in protecting the environment. These indicators include laws and regulations, programs and projects, and the enforcement of environmental standards.

On August 6, 1971, the Federation released the results of the 1971 EQ Index. The index showed that the nation's environment continued to improve in 1971, with the EQ Index increasing for the fourth consecutive year. The index showed that the nation's air quality, water quality, and wildlife habitats all improved during the year.

One of the key features of the E Index is its ability to track changes over time. The index has been calculated for many years, and it allows for a comparison of environmental conditions across different years. This is important for policy makers, who need to be able to assess the effectiveness of their efforts and make decisions about future actions.

In conclusion, the E Index is an important tool for monitoring the progress of environmental policies and programs. It provides a clear picture of the nation's environmental condition and allows for a comparison of conditions across different years. This information is crucial for policy makers as they work to protect the nation's environment.

**STUDENT WORK FORCE**

**BY Ron Petrin**

In 1966, the Library was founded by Senator Mike Gravel to assist the students in their research. The Library was started as a result of the "Pentagon Papers" and the "Vietnam War movement". The Library was established to provide students with a place to study and to discuss the issues of the time. The Library has since become an important resource for students, and it continues to provide a place for students to learn and to discuss the issues of the day.

Senator Mike Gravel to Address Pax O Convention

Senator Mike Gravel, the Alaska Senator, has been invited to address the Pax O Convention in Boston. Senator Gravel is a member of the Senate Finance Committee, and he has been a vocal critic of the war in Vietnam. He is expected to speak on the issue of disarmament, and he will discuss the need for a peaceful resolution of the conflict in Southeast Asia.

Senator Gravel is known for his strong views on issues of peace and disarmament. He has been a vocal critic of the war in Vietnam, and he has been a member of the Senate Finance Committee, which is responsible for overseeing the use of military funds. Senator Gravel is expected to discuss the need for a peaceful resolution of the conflict in Southeast Asia, and he will also speak on the issue of disarmament.

The Pax O Convention is a national conference that brings together students from across the country. It is held annually and is a platform for students to discuss issues of importance to them. Senator Gravel's participation in the convention is expected to help raise awareness of the need for a peaceful resolution of the conflict in Southeast Asia, and to promote the issue of disarmament.

**Tough the Water!**

A water pollution bill which will be one of the most important pieces of environmental legislation in recent years, is currently being debated in Congress. The bill is expected to have a significant impact on the nation's environment, and it is expected to be signed into law in the near future.

The bill is designed to address the problem of water pollution, which is a serious threat to the nation's waterways. The bill includes provisions that will allow EPA to regulate the discharge of pollutants into the nation's waters, and it includes provisions that will increase the penalties for those who violate environmental laws.

The bill is expected to have a significant impact on the nation's waterways, and it is expected to improve water quality and to protect the nation's aquatic life.

Weissman, A. S.

What plan do you have for the coming year?

I think it would be best to start working on a public library. I would like to try all the arts that have been included in the new library. I would like to show the students how to search for information and where to find it. I also want to make sure that they understand the importance of the arts and the role they play in our society.

President's Letter on Accreditation

Dear Members:

Last spring a committee of four representatives of the Board of Governors, the School of Liberal Arts and Science, the School of Business Administration, and the Graduate School of Management traveled to New York City for accreditation. President Hildreth and Professor Weckman were in attendance as guests. The purpose of the visit was to inspect the college's curriculum and facilities. The visit ended on May 12, the COMMITTEE has now had an opportunity to study the reports and recommendations of the committee.

Dear Members:

Last April I had the pleasure of attending the American Council on Education's annual meeting. As a member of the Board of Governors, I was able to observe the progress made by the college during the past year, and I was impressed with the work being done here.

The reports of the various committees were presented to the Board of Governors at its meeting on May 15. They will be discussed at our next meeting on May 30, and I urge each of you to read them carefully before then.

Sincerely yours,

Franklin M. Vinton
President

Cross Country Schedule

Mass. St. College Athletic Conference Formed

The Board of Trustees voted, upon unanimous recommendation of State College Athletic Directors, that a Massachusetts State College Athletic Conference be formed. The purpose of the Conference is to provide a uniform program of athletics to the students of the colleges of the Commonwealth. This purpose is to create healthy competition between the colleges and among the participants.

The Massachusetts State College Athletic Conference is comprised of the colleges of the Eastern College Athletic Conference. All colleges have agreed to comply with the schedule requirements by the college year 1972-1973.

The Athletic Fields: Where Are They?

The college administration announced last week that the land for the outdoor playing fields which were supposed to be ready by the middle of August was not ready by then. The administration hoped that the field for the baseball diamond would be ready by the middle of August. It is possible that the facilities for the students using the fields will be completed by the end of the semester.

The state legislature passed the governor's request for capital outlay funds. From a lump-sum passed for facilities, $1,500,000 was allocated to the building of the facility. The baseball diamond would be the first field to be completed.

Proposed Athletic Fields

Pete Mazzaferrro

basketball coach while at Curry. From 1968 to 1969, Mazzaferrro

90-0. Mazzaferrro

would begin his quarter track, four hurdles, one mile, and long jump.

1971 will mark Pete Mazzaferrro's 17th year as a member of the Bridgewater coaching staff. His first season as head track coach. A native of Readington, New Jersey, Mazzaferrro has a wealth of coaching experience.

The Last of The 71 Red Sox

mod soaked Jim Federico (15) looks for opening in heavy traffic.

Bear's Richard Roath (35) leaps desperately for a pass in the third period action at Milton.

Matt Lucey (11) is tripped up by an unidentified Nichols defender after picking up first down on second period scramble.
The COMMENT for the athletic playing fields which announced last week that the bids were supposed to be ready by the middle of August. As yet, however, a spokesman for the administration informed The Chronicle that the legislature had not yet appropriated the additional money which was needed to complete the buildings. The administration had hoped that the bids for the desperately needed outdoor facilities would be ready by the middle of August. Unfortunately, unexpected difficulties in the architectural design led to the additional money not being released until mid-August. The original estimate for the construction of the buildings was $200,000, but additional funds are now needed to complete the buildings. The administration hopes that the bids will be ready by the end of the month.

BEARS vs. Boston State

Sept. 18
at Malden Catholic Field
7:30 p.m.
BE THERE!

The Patriots might not win any
best offensive output of the year,
leaving 26 to 20 in the three games
with Cleveland.

What was noticed, though, was
the requirement starting center
of John Banks. Starting in Sat-
day's game after playing the best
two downs, three in the final period, to
know the final score a more
reasonable 45 - 35.

In the "Not-to-be-Overlooked"
Department, were George Scott's
home run and two RBIs, as
well as Rogelio Moret's fine
catch in the closing weeks of the
season. We're just hoping that
Jim Plunkett again electrified
the Schaefer Stadium crowd,
whether he has what it, takes to be a fine
fielder together. Curtis and Ogilvie's
together. Curtis and Ogilvie's
showed quite well, and Fisk looked
on the minus side, Ron Sellers
blew a 6 - 0 lead in the second game.
It seems capable of, so things will
look that much, brighter next year.

Bob Gladieux, who accounted for 177 yards total
offense, including a 31 yard touch­
down run, will be the first trip to the
crowd of fans remaining for the
Patriots have put together in some
times from the Atlanta offense.
and from his performance Sunday,
Bob Gladieux should be deserving
my prediction for the Pats 'this
year: with luck, 3 - 11.

The Patriots might not win any
weekend. But the Red Sox managed to get
some off the field events,
taking some off the field events,
to another station.

Eddie Kasko will
be thinking better than he ever has before. Charlie
Guglielmi is hitting with a
reasonable degree of accuracy, as
is Nance. But New Yorkers are
still seem to be in better hands.
In the other side, New Yorkers
still seem to be the only number
most southerners. It is an
exciting performance, however, was
turned in by Bob Gladieux,
who accounted for 102 yards total
passes for 157 yards. The most
exciting performance, however,
completing 13 of 19 second half
passes in the second half by
Steve Kiner at basket will be the
to think about.

Tom Jacob is kicking better than
he ever has before. Charlie
Guglielmi is hitting with a
reasonable degree of accuracy, as
is Nance. But New Yorkers are
still seem to be in better hands.

Guglielmi is hitting with a
reasonable degree of accuracy, as
is Nance. But New Yorkers are
still seem to be in better hands.
In the other side, New Yorkers are
still seem to be the only number
most southerners. It is an
exciting performance, however, was
turned in by Bob Gladieux,
who accounted for 102 yards total
passes for 157 yards. The most
exciting performance, however,
completing 13 of 19 second half
passes in the second half by
Steve Kiner at basket will be the
to think about.

Tom Jacob is kicking better than
he ever has before. Charlie
Guglielmi is hitting with a
reasonable degree of accuracy, as
is Nance. But New Yorkers are
still seem to be in better hands.

Bears Prepare For Opener

The Bridgewater State College "Bears" will face the toughest schedule in their eleven year history of football. The "Bears" will face formidable opponents in Bates State College, Mansfield (Pa.) State College, Framingham (Mass.) State College, Frostburg (Md.) State College, Maine Maritime Academy, Curry College, Nichols College, Brockport (N.Y.) State University, Grove City (Pa.) College, and Western Connecticut State College.

The "Bears" will lose only four starters. Center and Captain Phil LeFavor will anchor the line. Ron Reardon at tackle will be the only other returning interior offensive lineman. Richard Roath will be returning as a wide receiver. Last season Roath led the team in scoring with five touchdowns on 27 receptions.

Vince Hickey at quarterback is the only regular returning in the backfield. Vince completed 72 passes for four touchdowns, but had 17 passes intercepted. Help is expected on the line from Joe Connolly who was a regular defensive tackle two years ago and was tried as an offensive guard during Spring drills. Returning to the lineup are Mark Fields and John Egger. Kevin Hughes, who didn't play in his freshman year, looked good carrying the ball in Spring drills. Head Coach Bo Justason's team appears to be ready.

A practically new secondary with plenty of potential will consist of cornerbacks Jim Pirello and Charlie Stevenson. At the safety positions will be Greg McGinn and Ed Thurston. A good group of sophomores who didn't participate in '70 Junior College transfer and freshmen are expected to bolster the "Bears" gridiron.

A good group of sophomores who didn't participate in '70 Junior College transfer and freshmen are expected to bolster the "Bears" gridiron.

Although there are many obstacles, the cry in the locker room will be "The Bears Will Be Back in '71."
