**BSC Welcomes New Academic Dean**

Dr. Anderson, newly appointed Academic Dean, comes to us with an impressive background. He received his B.A. and M.A. degrees from Trinity College (Hartford, Connecticut) and a Ph. D. in English from the University of Chicago. He has been associated with the University of Northern Iowa for more than twenty years, attaining the rank of Professor of English and serving as a wide range of administrative positions, including Associate Dean of Instruction, Associate Dean of Undergraduate Studies.

Dr. Anderson is a former Fulbright Fellow (Netherlands), Guggenheim Fellow, author of numerous articles and three books. His areas of specialization in American Literature include a widely recognized scholarly ascompact and as succinct as has, as a recent project, a multi-volumed work entitled "The Collected Letters of Edwin Arlington Robinson," to be published by Harvard University Press.

In a recent interview with the new Academic Dean, Dr. Anderson remarked on the similarity of historical backrounds between Bridgewater and his former school. Although both schools began as Normal Schools, U.N.I. has experienced BSC's growth. The differences noted by Dr. Anderson are mostly the result of these changes. He felt that although some course offerings are more restrictive, we have found it necessary to maintain a balance between them and college community feeling.

In the college, Dean Anderson often finds himself in sessions, providing a more balanced attitude. However, he also does not consider himself a moderate. He does label a negative implication for him.

As far as the future plans are concerned, Dr. Anderson intends to continue to his writing and research on Edwin Arlington Robinson and may consider writing a book on this subject in a couple of years.

Dean Anderson's expressed difficulty is offering many impressions of biases and conditions at Bridgewater, since he has only been on campus for two days. However, he does hope to continue Dean Harrigan's "Open Door" policy as far as students are concerned, and is looking forward to a successful year.

Mr. Veno

New Ass't Director For S.U.

When asked how he views his work for the opening year, Mr. Veno declared his desire to make his major area, "the counseling and supervising of student employees in the Union, and two, working in conjunction with Mr. Messer, with the Program Committee and attached sub-committees. One additional personal goal Mr. Veno identified was "to make students" feel as if he is "very happy" to be here. Promoting the Student Union "just beautiful," he expressed enthusiasm and optimism over the potential of the physical plant, as well as over the "at the open, relaxed atmosphere he has encountered."

Mr. Veno, welcomed to Bridgewater.

**National Teachers Exams Announced**

College seniors preparing to teach school may take the National Teacher Examinations on any of the four different test dates announced today by Educational Testing Service, a nonprofit educational organization which prepares and administers this testing program.

New dates for the testing of prospective teachers are: November 11, 1972 and January 27, April 2, and July 6, 1973. The tests will be given at nearly 600 locations throughout the United States.

Results of the National Teacher Examinations are used by many large school districts as one of several factors in the selection of new teachers and by several states for certification or licensing of teachers. Some colleges also require all seniors preparing to teach to take the exam.

The school systems and state departments of education which use the examination results are: Iowa State Teachers Association, for 3 years of service. Following this, he went on to receive his Master's Degree in Counseling and Personalized Services, also at the University of New Hampshire. While employed in this graduate studies, Mr. Veno served as Assistant Director in his Student Union. During this association, he was very closely involved in the planning and programming stages for double the size of the U.N.H. union.

Mr. Veno, who has recently moved to Bridgewater with his wife Pat, is "very happy" to be here. Promoting the Student Union "just beautiful," he expressed enthusiasm and optimism over the potential of the physical plant, as well as over the "at the open, relaxed atmosphere he has encountered."

W.R.A.
SUMMER
CHANGES
IN S.U.

Over the summer, several important changes have been made in the Student Union.

For one thing, we now have our own radio station (WBFM), which officially begins today. The station will be monitored and programmed primarily by students, as it will need plenty of help. If you would be interested in getting involved in this program, please call the Director's Office in the S.U. and see either Mr. Maney or Mr. Veno.

The closed circuit television station is also expected to go into its final stages of preparation. No definite date has been given for its opening because of the variability of the factors involved. However, as soon as it appears, we will be on the air.

The progress of the Rathskellar has been one of the chief concerns of many students as returning to school. The COMMENT spoke with Mr. Maney on the subject and discovered that the Rathskellar is very near to completion. The main hindrance is acquiring the license. However, Mr. Maney is "optimistic about working out the details. With or without the license, it will be ready for operation by September 15, and we will be adding college-type entertainment.

The 1972-73 academic year promises to be another exciting season for the S.U. Drama Club. The coming year includes some firsts for the Bridgewater stage, and the club hopes that all students will have the opportunity to share in the upcoming events.

The season opens with the great Shakespearean tragedy MACBETH, to be performed October 28, 29, and 30. This drama presents a challenge to the students, since it is to be performed in repertory at Bridgewater. The Drama Club hopes to bring in or stage all the power and excitement of this classic drama.

The American family is the theme of the club's next production, and here a new novelty will be tried in performances. The show will consist of three one-act plays, each dealing in some way with the American family. The production is "something I will tell you Tuesday.

Promising Season
for Drama Club

BRINGING IT ALL BACK HOME AND THE HAPPY JOURNEY. Each of the plays has family life as its theme, and each gives a different view of that topic.

The plays are performed November 3, 4, and 5. The performances will be free to students and open to the general public. The students will be on hand to make it a success for the Drama Club. The cost of the show is expected to be $100.

But that's not all the club has planned for this year. On December 18, 19, and 20, the club will sponsor the the annual Drama Club's "America, America" Presentation.

"America, America" Presented

The set was complete. There were dying babies, hundreds of oranges in colorful national costumes, the German flag in 6 stars, the Greek flag with 20 stars, the British flag with 19 stars, and the American flag with 50 stars. The union of these elements was the background for the performance of "America, America" presented by the Drama Club.

BSC Students Commended

Editor's Note—The excerpts presented were written by Beacon High School students and published in the school newspaper.

TEMPLETON—Five-year-old Danny Foy remembers coming over her head, her eyes attempting to see the water dog paddling, but that's all.

Danny, the only son of Mr. and Mrs. John and Helen Foy of 45 Atlantic Ave., Worcestershire, didn't know what it was to drown. He never heard the word before, his mother said.

But Thursday, while swimming here Danny almost drowned.

Danny the full name is Daniel E. Foy was at Otter River State Park near Templeton at a meeting of a day camp group of about 80 children from the Friendly House of Worcester, Inc. Campers ages 5, 6, 7, were also there.

Danny was in the forest, a Saturday morning and before he knew it the water was over his head. He struggled but finally went under. Pulled From Water

Danny, the camp's director, saw the boy and pulled him from the water. Lifeguard David J. Bearegard recalled.

Danny, the camp's senior program director, saw the boy and pulled him to safety. Lifeguard Daniel J. Bearegard, 22, of Mill Park Street, Gardner, went into full gear, he said, for about two minutes.

"He was all blue when he was pulled," Bearegard reported. "He wasn't breathing. In about two minutes he was breathing right.

This was his first experience, said Foy knew he was very scared. "

"She was about 60 yards from where I was standing," said Foy. He was at swimming resuscitations, he said. "I wish we had more of those now, " he said.

Mrs. Foy said the boy was "all right.

"I don't feel like a hero. I just went to the water and pulled him from the water," said Foy. Mrs. Foy called the police who arrived on the scene.

Danny isn't sure what caused the incident. "All I know is that I'm happy," he said.

Danny is now accepting applications for paying jobs in the BSC Intramural Program. Positions are open for Student Intramural Director and Head Referee for Flag Football. Applications are due by November 15.

FOR BEARS EVER

Stoughton - Mel Crotty of Bridgewater, a lifeguard at Jaime Pond in Stoughton, is credited with saving a young Stoughton woman who almost drowned July 26.

Because of a Stoughton woman who was feared dead, the boy was pulled to safety.

"I'm in favor of the people going to the lake," said Foy, "but I never heard the word before, " he said.

Danny was in the forest, a Saturday morning and before he knew it the water was over his head. He struggled but finally went under. Pulled From Water

Danny, the camp's director, saw the boy and pulled him from the water. Lifeguard David J. Bearegard recalled.

Miss Diane T. Delisi, the camp's senior program director, saw the boy and pulled him to safety. Lifeguard Daniel J. Bearegard, 22, of Mill Park Street, Gardner, went into full gear, he said, for about two minutes.

"He was all blue when he was pulled," Bearegard reported. "He wasn't breathing. In about two minutes he was breathing right.
