Basic Assumptions

Students in re-scheduled classes will be able to participate in discussions and will be able to attend special presentations on teacher education and teaching. The discussions begin in February and will have a major influence on the decisions made by the SGA. In March, the re-scheduled classes are to be held at special sessions on teacher education and teaching. The discussions will be open to students, and the sessions are to be held on March 27 and 28, as well as on April 4 and 5.

Discussions of the basic assumptions, which include the teacher education program of the College, have been under way since October. A kick-off meeting was held in the Student Union Auditorium. The discussions are to be open to all faculty members in the College, and the sessions are to be held in the Student Union Auditorium.

The re-scheduling of education classes is an attempt to re-open the re-scheduled classes to student teachers, and the discussions are to be held in the Student Union Auditorium.
The Students Have Spoken.

Sort Of......

The result of the voting on renaming the residence hall for THF was 77-14 in favor. This is not the overwhelming majority that would shape the student conscience in their representatives, nor is it even half.

The initial vote was 77-14; however, this amount in itself did not shape the student conscience for THF. The official vote was 10 days after the initial vote. It is important to note that the voting was delayed due to the lack of quorum. This delay further weakened the influence of the initial vote.

The voting process was flawed due to the lack of quorum. The initial vote was made without the proper representation of students, and the official vote was made without the proper representation of the student body. This lack of representation has not been addressed.

There were several possible reasons for the lack of voting. One could be the lack of interest. The issue may not have been of sufficient importance to warrant the time and effort. It is also possible that the students were not well-informed about the issue, or they may have been dissatisfied with the options available.

Further, there was no mechanism in place to ensure that the voting was fair and accurate. It is possible that the voting was conducted in a manner that favored the majority opinion. This lack of transparency and accountability is concerning.

The voting process was also flawed due to the lack of communication. There was no clear and effective communication about the issue, and the students were not given the opportunity to express their opinions. This lack of communication has not been addressed.

Further, there was a lack of enforcement of the voting procedures. The students were not monitored during the voting process, and there was no mechanism in place to ensure that the voting was fair and accurate. This lack of enforcement has not been addressed.

The Students Have Spoken.
Disadvantaged Students

Bridgewater State College had its first System-Wide Conference on Disadvantaged Student Programs in the Massachusetts Commissioner of Education on March 25, 1980. As mandated in the Agenda For Education, the Massachusetts Commissioner of Education had attended any type of meeting or discussion with the state's education leaders to those who have traditionally been left behind in the educational system. This conference was held as a form of a forum where everyone the opportunity to discuss the problem and present efforts in this area and project some plans for the future. The conference was organized by the Massachusetts Commissioner of Education, the Director of the Massachusetts State College System, and the Massachusetts Commissioner of Education.

The conference had been set up to bring together the Massachusetts Commissioner of Education, the Board of Directors, Council of Presidents, and other Faculty and staff of the Massachusetts State College System.

During the conference, the discussion was "Breaking Out of the Disadvantaged Student" and the agreed-upon topics were:

- Prepared by: Professor Williams.
- Readings: "Race in the United States" by Charles T. Wall.
- A Social Sciences Program for Disadvantaged Students.
- The Role of the College in the Education of Disadvantaged Students.
- The Need for Change in the Curriculum.
- The Impact of the Crisis on the College and the Community.
- The Importance of the Involvement of the Community.
- The Need for a More Inclusive Curriculum.
- The Need for a More Supportive Environment.
- The Need for a More Inclusive Curriculum.

Some problems still exist in the education of disadvantaged students. The most critical problem is that many colleges and universities do not have programs specifically designed for disadvantaged students. In my opinion, this is a serious problem. The college should continue to support the development of new programs which will provide the education and training necessary for the disadvantaged students to succeed.

In conclusion, Professor Prof. Backpack explored the following questions regarding the education of disadvantaged students:

- What is the responsibility of the college in the education of disadvantaged students?
- How can the college provide the necessary support and resources to ensure the success of disadvantaged students?
- What are some effective strategies for recruiting and retaining disadvantaged students?
- How can the college foster a culture of inclusion and diversity?
- What are some best practices for supporting the academic and social needs of disadvantaged students?

These questions highlight the importance of a comprehensive approach to the education of disadvantaged students. The college must take a proactive role in identifying and addressing the needs of these students. This will require a commitment to continuous improvement and a willingness to learn from best practices in other colleges and universities.

In my opinion, the education of disadvantaged students is a crucial issue that must be addressed. It is the responsibility of the college to ensure that all students have the opportunity to succeed. This requires a commitment to providing the necessary resources and support to ensure the success of disadvantaged students.

Do you have experience writing for print or have you taken your high school or college paper, literary review or yearbook?

We need people with writing experience or those who like to get some, as well as those interested in graphic arts and production techniques.

Please drop by our office or call Mike Vieira, Editor. The Comment, Section 22, 74, or the Extension 23 at 11:00 Ext. 260, 304.
The Godfather Visits Interlops United

by George F. Palmer Jr.

And it came to pass, in the Kingdom of Kansas, on the day the Royal Chef, Bill Miller, called on the prince President to request him to consider an offer of employment. As it happens, the President happened to be present, and so the encounter occurred.

The President, a towering figure in the world of gastronomy, was delighted to hear of the offer. "Oh yes," he said, "we are always looking for talented chefs. And I understand you have a..." he paused, "unique approach to cooking."

"Yes," Bill replied, "I believe in using only the freshest, finest ingredients."

"That's wonderful," the President exclaimed. "I think it's exactly what we need."

"But there's one problem," Bill said. "I don't have any experience..."

"No problem," the President assured him. "We'll provide all the training you need."

"But," Bill said, "I don't know if I can give up my current position..."

"Of course," the President said. "We'll find a way to make it work."

"Thank you," Bill said, "I'll think it over and get back to you."
Mineral Embargo?

National Wildlife Federation

The first comprehensive study of the implications of the embargo on minerals and metals has been made by the National Wildlife Federation. The study, which is based on interviews with over 100 experts in the field of mineral economics, finds that the embargo on minerals and metals is likely to have serious consequences for the United States.

Contraceptives

Planned Parenthood

The annual report of Planned Parenthood Federation of America shows that more women than ever before are using contraceptives. The report also shows that the use of contraceptives is increasing among all age groups, and that the use of oral contraceptives is growing rapidly.

Tax Refunds

In the spring of 1962, the federal government began to refund taxes withheld from employees' wages. This move was made to encourage the use of tax refunds as a way of saving money. The refunds are available to employees who have paid more than they owe in taxes and wish to receive a refund. The refunds are used to purchase goods and services, which helps to stimulate the economy.

Nader To Visit Mass

Consumer advocate Ralph Nader will visit Massachusetts. He will be on a mission to promote consumer rights and to encourage people to become more involved in their own affairs. Nader's visit will include stops at universities and colleges throughout the state, as well as in major cities such as Boston and Cambridge.

Friday Night Boogie

By S. V. Arora

The education program at the Fullerton High School is indeed, relatively unique. The students are encouraged to participate in the educational process by participating in various activities, such as the Friday Night Boogie. This event is held every Friday night and is a popular among students.

The boogie is a social event where students can relax and have fun. The atmosphere is lively and the music is energetic, with DJ's playing a variety of genres to cater to different tastes. The event is open to all students, and it provides an opportunity for socializing and making new friends.

The boogie is also an excellent opportunity for students to showcase their talents. There are often talent shows, dance performances, and other creative displays. This event is an important part of the school's culture and helps to build a sense of community among the students.

The Friday Night Boogie is a testament to the school's commitment to providing a well-rounded education that goes beyond the classroom. It is an event that students look forward to each week, and it plays a significant role in their overall experience at Fullerton High School.

Around The World in Eighty Cliches

By Mike Vann

The opening night of the Fullerton High School's Around the World in Eighty Cliches was an enormous success. The students and faculty members were all excited and ready for the event, which was held in the school's auditorium.

The show began with a series of slides depicting scenes from countries around the world. The students then performed various cultural dances and songs, each representing a different country. The students' performances were well-received, and the audience was captivated by the diverse range of talents on display.

The event concluded with a grand finale that brought all the countries together in a beautiful display of unity. The students performed a choreographed dance routine that incorporated elements from all the cultures represented in the show. The audience was left in awe as they realized the power of cultural exchange and the beauty of diversity.

The Around the World in Eighty Cliches event was a resounding success, and it set the stage for an exciting year of cultural exploration and celebration. The students and faculty are already looking forward to next year's show, and they are eager to see how they can continue to bring the world closer together through the arts.
This Week

Locally, the WRA will hold an Arts and Crafts workshop presentation in the cafeteria tonight. Sunday will find AMY WINEHOUSE at 10:30 p.m. Thursday at 8 p.m. and Friday at 8 p.m. Carlos Montoya will appear in this week's concert featured in our Fine Arts Series.

The Comment

Carlos Montoya

Carlos Montoya will appear in concert this Saturday, March 21st, at 8 p.m. in the Frank G. Logan auditorium. Montoya is a world-renowned Spanish guitarist. He is known for his virtuosity and technical skill, and his performances often leave audiences in awe.

Montoya was born in Madrid, Spain, in 1930, and began playing the guitar at the age of five. He studied at the Conservatorio de Música in Madrid and at the Juilliard School of Music in New York. He has performed in concert halls and festivals around the world, and has recorded numerous albums on both classical and jazz guitar.

His most famous work is probably the album "Spanish Guitar" (1958), which features his version of the piece "Bulleta". He has collaborated with many other musicians, including Pablo Casals and Vladimir Horowitz.

Montoya continues to tour and perform today, and his influence on the guitar world is still felt. He is considered one of the greatest guitarists of all time, and his music will undoubtedly continue to inspire and captivate audiences for years to come.

Art Faculty Exhibition

The Fine Arts Department will be holding an exhibition opening this Friday, March 19th, from 6-8 p.m. The exhibition will feature works by faculty members and students, and will be open to the public until March 21st. The opening reception is free to attend and will include refreshments.

Art classes at our college are known for their creativity and diversity. This exhibit is a great opportunity to see the talent and hard work of our students and faculty, and to support the arts in our community.

On display will be a range of media, including paintings, sculptures, and digital works. You will be able to see the various styles and approaches that our artists are exploring. There will also be a chance to meet some of the artists and to discuss their work with them.

The exhibition is located in the Fine Arts Building, room 201. We hope to see you there to enjoy this great event!

Lecture

Center Lecture of the Earth Sciences and Geography Dept. and the Earth Sciences and Geography Club presents William Richardson, a planner of the U.S. Bureau of Reclamation. The topic will be "RiparianLand Use," the lecture will be in Room 250 on March 26th at 3:30 pm. The public is invited.

VERSE CHOIR

On Tuesday April 2, at 11:00 am, the Verse Choir will hold a reception in the college center. A spring recital will be held at 2:00 pm. The public is invited.

TENNIS TEAM

Team Match Meeting: Senior Squad reports to Dr. Addams office at 11:00 am on March 3rd. Attendance is required.

VETERANS PROTEST

Project Aplique the same which U.S. veterans have shown to their planned demonstration in Washington, D.C., on March 19. The purpose of this demonstration is to show their dissatisfaction with the Vietnam Administration's treatment of Veterans and lack of sympathy with their rights. The second purpose is to inform people who normally think that present GI Bill education benefits were ooced in the Kerritizics received by World War II Veterans. This is in response to a poll that shows the Vietnam veterans are treated with less respect than those who served in World War II.

Basic Assumptions

A new teacher certification law which requires candidates to demonstrate a specific number of life experiences will be in effect for 1983-84. Program approval is to replace individual transcript approval. Pre-service, internship, or teacher education programs are necessary to satisfy program approval requirements.

The institutional missions of higher educational institutions are largely determined by the demands of society in which the institution exists. Whether the demand is for an institution with a liberal-arts mission, a professional education, or a trade school will be influenced by societal factors and economic conditions. Such demands may change over time.

1. Owning the company before you're thirty is Class.
2. Scoring with a beautiful chick is Class.
3. Driving a foreign sports car is Class.
4. Pulling an "A" on the final exam is Class.
5. Turning your garage into a recreation room is No Class.
6. Winning a football game, 25-0, without your first string quarterback is Class.
7. (You tell us). Please send your "Class-No Class" suggestions to "The Comment" office. The best "Class- No Class" descriptions will receive a Tuborg T-Shirt and a Tuborg beer mug. Winning ideas will be published in two weeks.
Pres. Rondileau's Statement
To The Trustees

ENDNOTE: Due to the extremely late production deadlines of the last issue, we were forced to cut the size of our issue from thirty-six pages to twenty pages. These were sad times in higher education, but I blame the second and third division of the issues for the changes without the consent of the readers, and am printing these thirty-six words instead. Thank you.

I f Facts and figures. The effects of various academic programs on student success are clear. The University of XYZ has reported a 20% increase in graduation rates since the implementation of the new curriculum. This is a testament to the importance of education in our society.

On the other hand, the budget cuts have had a devastating effect on our faculty. Salaries have been frozen for the past three years, and many professors are considering retirement. This is a serious issue that needs to be addressed.

I hope this information is helpful. If you have any questions, please feel free to contact me.

Yours truly,
[Name]
University of XYZ.
This math... to the Board of Students. We do not wish to bring any problems which we have handled, into the Student Government. Again, the Student Government Association, or SA, has decided to deal only with significant issues. We have brought the problem of student governance to the students themselves, and we feel that the problem has been resolved.

In conclusion, it is our opinion that the SA has handled the problem of student governance in a fair and reasonable manner. We believe that the SA has done its job well, and we hope that the students will continue to support the SA in their efforts to improve the college experience. The SA has demonstrated its ability to handle difficult issues, and we believe that it is capable of dealing with any problem that may arise. We encourage the students to continue to support the SA in its efforts to improve the college experience.

Sincerely,

[Signature]

YEAR OF THE COMEBACK!

By Tom Perry

When you hear the name of Bill Floren or the word Bridgewater, the first thing that comes to mind is baseball. The Bridgewater baseball team has a long history of success, and in recent years, they have been a force to be reckoned with. The 2023 season promises to be another year of dominance for the Bridgewater baseball team.

Infield looks Super Solid pitching could be the best

Jim Hackenson

The Bridgewater baseball team has always been known for its strong infield and pitching. This year, the team has a solid lineup of infielders, and the pitching staff is expected to be one of the best in the league. The team has worked hard in the off-season to improve its performance, and the results are starting to show.

The team's infield is led by the talented Biggins brothers, who have been playing together since they were kids. The Biggins brothers have a strong chemistry on the field and are expected to be a force to be reckoned with.

The pitching staff is led by the talented Tom Perry, who has been working hard to improve his skills and is expected to be one of the top pitchers in the league. The team has also added some new players to its pitching staff, who are expected to make a big impact.

The team's success this season will depend on the performance of its infield and pitching staff. With the talent on hand, the team has the potential to be one of the best in the league.

Sports Cheering: "A Little Extra"

By Bill Floren

The Bridgewater baseball team has always been known for its strong infield and pitching. This year, the team has a solid lineup of infielders, and the pitching staff is expected to be one of the best in the league. The team has worked hard in the off-season to improve its performance, and the results are starting to show.
