Equestrians have Good Start

By Bert Leland.

March 14th and 16th were the dates on which the first two shows of the Equestrian Team Show Season were held, with B.S.C.E. Equestrian Two teams competing in both events.

The first show, hosted by American Intermont College in the quaint Waxter Stables in South Hadley, Mass., drew a field of nine teams in most division.

There was a line-up against eight other competitors at Brown University, Smith College, and U.Mass. Many of the teams competing in this U.S.A.

The shows were held in the same stable and indoor riding arena that the B.S.C.E. team does not have access to. There is also the added competition of Willards College, Paul College, and L.C.C. If all of these factors didn't weigh enough, these three teams could only be beat by the lack of number of members, poor facilities, and bad riding weather.

In both towns May Ann Giampapa received 8th and 9th place finishes, respectively, at Smith College and the UMass Center.

At the American Intermont Show, the Equestrian Team's Bridgwater selectmen. Director has recently had meetings with various administrators and yet.

After the legal drinking age goes up after the legal drinking age goes up to 21 years of age on April 15th, several students attended to discuss proposed.

This included an exploratory one and no definite policies have been discussed as of yet.

The college is required to enforce these rules. Dr. Harlow, Director has recently had meetings with S.U. Directors throughout the system. Vice President Deas has also been in discussion with the presidents of S.U. Services throughout the system. Administrators are looking into ways to make drinking on campus more socially acceptable, including a meeting with Bridgewater selectors.

Drinking Policies Discussed

A Massachusetts State Driver's License for a Person Over 21 Years of Age Identification, in addition to S.U. directions, is required for access to any event at B.S.C. operating area. This is not a state law, claimed Dr. Veno. There is a possibility of creating an order of what we will look for on the street. The state law is not out of the question and not serving alcohol would be to enforce a house by law in Bridgewater.

Another suggestion for special events in B.S.C. buildings was proposed. They might be allowing alcohol to be served after 12:00 or 1:00 a.m. in a separate room for those buying and older. However, it would not be allowed to exceed the time limit.

"If people share the new policies, they might not want to have the new policies," Dr. Veno added.

After the articles on special events at B.S.C. and on the "Kiss a frog" motto of the Alumni Association Telethon 79 is currently in progress. The Alumni Association President Dean Martha Perry's main goal this year was to increase student involvement and to involve the uninvolved.

"Kiss a frog" is the motto of the Alumni Association.

Not a case of black and white

The students of S.C. are being asked to change the name of The Student because of the "offensive" name. The students at B.C. are reading the same issue of the Comment and asking why we are demanding such a name change. I am a senior, I have spent the past four years in this building, I have laughed, cried, been happy, been glad, sometimes disappointed, but most of all, I never ever read an issue, teachers, chords, lectures and even personal in our Comment. But, we want the name of our school changed. Our whole building (well, I think it is only the male half) and also the women half of the building think the name of the school is offensive. Why should they be the only ones to have such a name? I have never had a problem with the name of the school, but I do think that there is a need to change it. The purpose of our Comment is to keep the students informed about the school and the people involved in it. We do not want to be left behind anymore. This is the only reason why we want the name of the school changed.

I am not saying that the name of the school is going to change, but I think that there is a need to change it. The purpose of our Comment is to keep the students informed about the school and the people involved in it. We do not want to be left behind anymore. This is the only reason why we want the name of the school changed.

For the "offensive" name to continue is a bad idea, it is not fair to those students who have never had a problem with the name. In addition, the name of the school should be changed because it is not fair to those students who have never had a problem with the name. In addition, the name of the school should be changed because it is not fair to those students who have never had a problem with the name. In addition, the name of the school should be changed because it is not fair to those students who have never had a problem with the name.
LETTERS TO THE EDITOR

Not a case of black and white

If the students of B.U.C. see the chance to yield to feelings of guilt or sympathy for students of B.U.C. on the part of the faculty, the students at B.U.C. have the best of it. This is all a clever setup by the students of B.U.C. who should have learned by now that emotion and sympathy are tools which they can use at any time to get what they want. They may even be able to use this sympathy if they can get it at all. It is not unusual for students to get their way when they are unhappy with their circumstances. They may even be able to get their way if they can get it at all.

As for the "busy" male holding down the water treatment job and being laid off 40 plus kids a month, this is an occupation that the last three issues of The Comment have been. "Why are we spending money on a project that is not currently in use?" is the main theme of the last three issues and bound for the next issue. The last time the last issue was bound, the last time, there was not so much as a hint that the Comment would do anything of the kind.

Drinking Legislation Justified

Drinking legislation is a controversial topic. The debate is often fueled by emotions and opinions. Some argue that drinking legislation is unnecessary and ineffective, while others believe it is a necessary measure to address the issue of alcohol abuse and its effects on society. The following article provides a perspective on the issue of drinking legislation.

Food Service Response II

Food Service has been working to improve their response times to customer complaints. They have implemented several changes in their service processes to address delays and improve satisfaction.

Thank You

Thank you to all who contributed to this week's successful event. Your efforts were greatly appreciated.

BSC Security

Despite recent challenges, the BSC security staff remains committed to ensuring the safety and security of all campus members. They are working tirelessly to address the issues and continue providing a safe environment.

Since 1795 We've Welcomed Our Guests Best with a Tradition of Good Food.

Visitors to Cuevoro have always been greeted in a special way. They're met at the gates and invited inside to experience the unique taste of Cuevoro.

The Cuevoro Gold Standard since 1795.

PASD POLITICAL ADVERTISEMENT
**Food Service Response I**

I am writing this letter to express my sincere apologies and concern regarding the recent events at the campus dining facilities. As a student at Bridgewater State College, I understand the importance of a pleasant and safe environment for all members of the campus community.

During the past few weeks, I have witnessed a significant increase in the number of incidents involving student behavior that has resulted in the need for safety measures to be taken. These incidents have included acts of vandalism, verbal abuse, and physical harassment. As a student, it is disheartening to see such behavior occurring on your campus.

I would like to offer my heartfelt apologies to those who have been affected by these incidents. I understand that these actions are unacceptable and that they have caused significant discomfort and distress to the individuals involved.

As a member of the student body, I believe it is crucial that we work together to create a safe and supportive environment for all students. I urge all members of the campus community to embrace a culture of respect and understanding, and to support one another in times of need.

Thank you for your time and consideration.

Sincerely,

[Signature]
The Clinic...
Where "Everyone" Benefits

Applications are now available for positions as clinicians and assistant clinicians for the 1979 fall semester of the Children's Physical Development Clinic. Positions are open for current Freshmen, Sophomores, Junior students in:

- Physical Education
- Secondary Education
- Health Education
- Social Work
- Special Education
- Psychology
- Early Childhood Educ.
- Sociology
- Elementary Education

Applications can be obtained from Dr. Huber in Room 103 or in the main office of the Health and Physical Education Department in Kelly Gymnasium. The Clinic program, the only one of its kind in New England and in operation since 1974, is devoted to the psycho-motor (play/sport) and social improvement of special needs children ranging in age from 18 months through 20 years. A child's program may consist of the following areas:

- Early Intervention
- Physical Fitness
- Perceptuo-motor Development
- Fundamental Motor Skills and Patterns
- Skills in Aquatics, Dance Individual and Group Games and Sports

Clinicians work on a one-to-one basis with a special needs child for eight Saturday mornings in carefully planned activities in both the gymnasium and pool. The experience is beneficial not only to the child, but also provides unlimited satisfaction for the clinician. In addition to this gratifying feeling, the clinician receives valuable training which aids in the development of professional skills and knowledge that will assist individuals in acquiring jobs in their related fields.

The deadline for application is May 11th.

Don't pass up this opportunity to help yourself while helping others!

Thinking Ahead?
Fall Semester 1979
Children's Physical Development Clinic

Simple, paired coordination games and activities, which are often observed in intervention programs, are often the start for more complex movements.

Simple motor coordination games and activities, which are often observed in Intervention Program, are also the basis for more complex movements.

With the development of games learns many children will gain the control of their bodies that will be the foundation for throwing, catching and moving skills.

Manual manipulation is often used by clinicians to assist students with their development of fundamental motor skills.

Some children are in need of practice with specific sport skills which will impact on their participation in physical education classes.
Ensemble Theatre:

Dreams Will Come

The inimitable Shakespearean comedy, A Midsummer Night's Dream is a night of nonstop laughter and will be presented by the Ensemble Theatre and the William Morris Centre until May 8th in the Student Union Auditorium.

This classic in the direction of Dr. Stephen Luntz is a celebration of the English Los Angeles Philharmonic, a Musical Light Show!

Dr. Stephen Luntz has also directed the Center's A Midsummer Night's Dream. It features Barry Gray, Gary Tita (Tita won't have a steady one even now), Barry Blackman, and Paul Thompson on drums (all alumni of the Center).

The play has been shown in the Center's Community Theatre and is under the direction of Dr. Stephen Luntz.

The cast of Midsummer Night's Dream includes: Colin Biplac, Trey Billings, Pete Nielson, David Lindsey, John Richman as the Members; Denis Leary as the Members; Moe. Leary is the Director of the Center, and Mark Anthony as the Members. The play is under the direction of Dr. Stephen Luntz and is presented by the Center.

The Present Day on Tour.

Keep your eyes open for WBUM's latest pin-Jackie Rasmussen and Bob Barthes. They bring you the 40's and 50's and you can be sure you'll have a good time and see the best shows around.

Rock at 25 1/2:

January 1979

by The In

January started off with a bang. Many concerts, important record releases, and the announcement of the New York Art Gallery. We're looking forward to seeing what's in store for us in the next few months.

The Bell Telephone Post Office

The month was plunged into the world of rock and roll by the announcement of the New York Art Gallery. Many concerts were held in the month, and many more are planned for the future.

The Lover

Is at BSC

The Boston Arts Group is bringing David Porter's The Lover to the Student Union Auditorium on April 6th. The show was directed by Richard Loro, and the cast includes: Barry Gray, Gary Tita (Tita won't have a steady one even now), Barry Blackman, and Paul Thompson on drums (all alumni of the Center).

The Lover, presented by the Student Union Board of Governors and the Student Union Program Committee, is open to all members of the Bridgewater State College community. The performance will take place at 8 p.m. in the Student Union Auditorium. It is sponsored by the Student Union Program Committee.

The Arts AIRPLAY

by D. B. Vivian

Saturday's Rock at 9:00 p.m.

Every Saturday night you and your "air" will find a new rock session that will have you rockin' and rollin'.

The last episode, "The Great American Rock Band," was a hit with our listeners. We had wonderful reviews from our listeners and we're excited to present this week's episode.

"The Lover" at BSC

The Boston Arts Group is proud to present "The Lover," a play by David Ives. The play will be held at the Student Union Auditorium on April 8, 9, and 10.

The play follows a man named Henry, who is trying to deal with the loss of his wife. He meets a new woman, and they fall in love. However, their relationship is complicated by Henry's past and the events that led to his wife's death.

The cast includes David Ives,_Settings, and Lighting Design: David Ives. The show will be directed by Mark H. Weissman.

Tickets are available at the Student Union Box Office or by calling 580-7597.

Roxy Music Is Back

The venerable Roxy Music, a band known for their unique sound and style, is back with a new album. The album, "Roxy Music," will be released on April 8th.

The album features a mix of new material and classic Roxy Music hits. The band is currently touring to promote the album, and fans can expect a show that is not to be missed.

Check out Roxy Music's new album and upcoming tour dates for a show near you.

The Fever Is Spreading

The fever is spreading across the country, with cases increasing in certain areas. The CDC is urging people to take precautions to prevent the spread of the illness.

The calendar includes events from April 6th to 12th, with details such as show times and locations for various events. Check it out for important information and updates.
Commentary:

April 5, 1979

The Comment

Did You Cry??

By

Did anyone read The Comment last week? Did anyone notice especially The Pet Comment or the Mountain Review?

Did Martin's story surprise you? His careful, well-crafted prose was as effective as any used in The Comment. You probably didn't notice: the story was really a study of Bathsheba's character. In contrast, there were several other stories which were less serious business. If you are going to write a story, you must be consistent. Between the head and the text, black and white, you must be clear whether you are studying the fundamentals of mountaineering or you are merely adequate. Therefore, attention to detail, especially in matters of clothing, is vital.

Pay particular attention to sock instructions. Shoes should not be too narrow or too wide. If you tell them you are a size 10, they will try to save money by making you shoes that are too large or too small.

A secure footing is of utmost importance. Without it, you're asking for trouble. Point of order: while mountaineering is pursued for fun, it is never the less serious business. If you are going to down the mountains, rather than vice versa, you must be consistent with your standards. Between the head and the text, between the black and white, you must be clear whether you are studying the fundamentals of mountaineering or you are merely adequate. Therefore, attention to detail, especially in matters of clothing, is vital. Always protect the head according to seasonal fluctuations. In winter, a warm hat is mandatory. The head, after all, is like the chimney of the body: Avoid cerebral heat loss: it diminishes your physical abilities. In summertime, a sun visor or a billed cap will guarantee crucial visibility among the craggy peaks.

Pay particular attention to sock instructions. Shoes should be comfortable and flexible, allowing for open movement, specifically in the vicinity of the arms. A free and responsive arm is a mountaineer's best friend. Certain accessories, of course, complement and complete the regulation garb. Expedition flags to mark your territory in public places, connecting ropes for those who prefer the security of mountaineering in tandem and backpacks filled with beer nuts, mugs, bottle openers and other paraphernalia. Beyond these standards, wardrobe styles range from the rustic to the refined and well they might, for mountaineers are a rugged and individual lot, joined only by a common taste for excellence.

Dartt just reach for a beer.

BUSCH

Mountaineering "5."

You, a faithful follower of this space, have been a mountaineer for some time now. You've studied the fundamentals, selected your gear and experimented with methodology. In short, you are nobody's fool. Nonetheless, you also know a little knowledge is a dangerous thing: so you want to learn more. Smart thinking.

First, you must realize that once the basics of mountaineering are mastered, it is only nuance which distinguishes the true artists from the merely adequate. Therefore, attention to detail, especially in matters of clothing, is vital. Always protect the head according to seasonal fluctuations. In winter, a warm hat is mandatory. The head, after all, is like the chimney of the body: Avoid cerebral heat loss: it diminishes your physical abilities. In summertime, a sun visor or a billed cap will guarantee crucial visibility among the craggy peaks.

Pay particular attention to sock instructions. Shoes should not be too narrow or too wide. If you tell them you are a size 10, they will try to save money by making you shoes that are too large or too small.

**Baseball Drops Two**

The Bridgewater State baseball Bears dropped both of their weekend games to Stonehill College, 6-4 and 7-1, at Tom LePage Field on Saturday morning. The Bears were upset by the Skyhawks who collected 21 hits in the two games to the Bears' 14. The Bears are now 1-2 for the season and 1-2 in the NECC conference.

**BSC Tennis Shows Optimism**

The BSC Varsity tennis team is very optimistic about the coming season as they seek to improve on their Fall record of 7-12. Coach Dr. John Finn has added several new players to his team for the spring season. Although the team has won only four matches in the last two seasons, they are optimistic about the upcoming season.

**College of St. Francis**

The Bears hit the road for a twin bill this week beginning on Wednesday afternoon at Roger Williams University. The club will face Curry College and have their home opener Thursday, April 12, against Lowell. Their home opener is expected to be a contest of two teams looking to improve on their early season performances.

**College of St. Francis**

The Bears travel to Milton on Saturday to face Nichols College and then head their way Thursday, April 12, against Lowell. The Bears are hoping that the student body will support them by attending the next game.

**Help Wanted**

On our website, we are looking for qualified candidates to fill several positions at our university. We are seeking individuals with strong academic backgrounds and a passion for education. The positions include faculty members, administrative staff, and support personnel. We are committed to providing a diverse and inclusive environment for all members of our community.

**Air Quality Questioned**

Professor Jack Brown, Chair of the Science Department, and a physics professor at the university, has raised concerns about the quality of air on campus. He believes that the poor ventilation in the buildings is contributing to the issue, and has suggested that the university should consider installing more air quality monitoring equipment and ensuring that all buildings are properly ventilated.
