There have recently been several amendments and proposals relating to the campus economy. The "Circle of Gold," the student-run independent student-run student-run stock, is a potential rift.

Responses on Drinking Age Question

To Robert A. Cote, author of "Drinking Legislation Justified":

Eighty-six percent of the people between the ages of eighteen and nineteen years olds do not drink. That's too bad, especially since these immature souls don't drink. Yet the amount of mistakes during his snort was far too high. I'm going to sit still. I'm going to get stiff.

PHOTOS STOLEN FROM PHOTO CONTEST

Dear Editor:

I am the owner of a dslr camera that I have owned for several years. I have lost the camera at the Student Union while attending a photo contest. The camera is grey, with a lens and a matte box. I am the owner of the camera and I am devastated. I have lost it and not able to replace it. I am hoping that someone will come forward and return it.

Sincerely,
Anonymous

Dear Editor:

Last week, I was contacted by a student who was attempting to take pictures of the campus. He was very pleasant and asked for permission to take pictures. I gave him permission, but when he returned, he was not wearing the camera. I realized that I had lost it.

Sincerely,
David

Commems WBCS Students

by Kim Claussen

I would like to recognize the students who are involved in the WBCS production, Space Parts. Last week I decided to take a look at the show one evening that was put on. I was amazed at the level of professionalism shown by the students involved. I was especially impressed by the set design and lighting, which was well done and added to the overall production quality.

The cast was also impressive, with several talented actors and actresses. One of my attendees, Karen Tobin, was particularly impressive and rising up to the challenge of her role.

I would like to commend the students who are involved in the WBCS production, SPACE Parts. Their hard work and dedication have resulted in a fantastic production that should be proud of.

Mea Mean? (a)

On a personal note, I would like to express my gratitude to the students who are involved in the WBCS production, Space Parts. They are a group of hardworking and talented individuals who are committed to producing high-quality entertainment. I am proud of the work they have done and look forward to seeing more of their work in the future.

Criticizes Smear Campaign

by Kim Schoun

I would like to discuss the recent smear campaign leveled at Gene Manning. The students involved in this rather petty campaign seem to have a conflict of interest in their criticism. Their motives and methods are questionable.

First, they decided to hold a production meeting behind the back of the director, Gene Manning, and the WBIM faculty. This was a clear violation of the Comment policy.

Secondly, they wrote a Letter to the Editor outlining their grievances. They did not abide by the Comment policy, which states that letters must be written in the third person.

Thirdly, they decided to hold the production meeting behind the back of the director, Gene Manning, and the WBIM faculty. This was a clear violation of the Comment policy.

Fourth, they decided to hold the production meeting behind the back of the director, Gene Manning, and the WBIM faculty. This was a clear violation of the Comment policy.

As a result, the students involved in this campaign have lost the support of the majority of the student body. They are seen as petty and self-serving. It is clear that their motives and methods are questionable.

I would like to commend the students who are involved in the WBCS production, Space Parts. They are a group of hardworking and talented individuals who are committed to producing high-quality entertainment. Unfair Ticketing

Hello, I'm Jimbo Bradley, and now reading the fine print is a matter of habit. If you're reading the fine print before the article, you're probably not paying enough attention to the main story.
