Swastikas Flourish at U. of F.

Gainesville, FL. (UPI)—A race swastika scrawled on a dormitory and two other swastikas found on fraternity offices at the University of Florida. Last week swastikas appeared on at least ten campus locations, with many more reported. In just one building. More seriously, the anti-Semitism has not been isolated on fraternities, according to Robert Meier, the Florida Spectator's editor. Meier said the students'反应 has been mixed. Some have expressed concern, while others have dismissed the swastikas as a form of vandalism.

The SGA Election Snafu

SGA President Bill Mullen states that he is not responsible for the situation, which occurred last week. Mullen claims that the SGA has no power to resolve the conflict and that it is an internal matter. However, many students and faculty members are concerned about the implications of the situation and are calling for action.

Dean Deep Answers Trespassers

Dean Deep, the dean of admissions, has spoken about the trespassers on the campus. He emphasized the importance of respecting private property and the need for proper procedures to be followed. Deep also mentioned the potential consequences for violating the SGA Constitution clause in the SGA Constitution.

The Fight Against Rape p.3

President Bill Mullen

President Adrien Bothin, a State Senator for the 10th District, was on hand to speak about the fight against rape. He emphasized the importance of education and awareness in preventing sexual assault.

The comment of the university president regarding the SGA Constitution clause is important. It shows the university's commitment to upholding its policies and procedures. However, the potential consequences for violating the SGA Constitution clause need to be carefully considered. The university should ensure that its policies are fair and transparent to all students, and that the consequences for violating them are appropriately handled. Overall, the university's response to the SGA Constitution clause is commendable.

Dear Editor,

In answer to a recent letter that appeared in the editorial column, I would like to say that the Boston Globe, which is a publication of The New York Times, is not in the business of publishing student-run newspapers. Dear Editor,

I am writing to express my concern about the recent rise in sexual assaults on campus. As a student here, I have seen firsthand the impact that these incidents have on our community. While there have been efforts to increase awareness and provide support, there is still more that can be done. I urge the administration to take immediate action to ensure the safety of all students.

A lone swastika scrawled on a dormitory wall proliferated and has generated a major concern about anti-Semitism at the University of Florida. Last week swastikas cropped up at at least ten campus locations with more than 30 reported in just one building. More seriously, the anti-Semitism went beyond vandalism to a death threat against university President Robert Marston. Ann Marston, the president's wife, said a late-night caller identifying himself as a member of the Florida-wide Hitler Organization told her, “I'm going to kill you.”

Some swastikas have been accompanied by graffiti saying “Kill Marston” and “Exterminate Marston.” The swastikas and threats have been signed by the “Sons of Hitler.”

Similar vandalism and threats by the Sons of Hitler were reported in 1979 at the University of South Florida in Tampa. As USF there were threats of bodily harm and in one instance a professor’s office was broken into and burglarized.

University of Florida police are investigating the troubles here, but they are dismissing the threats and swastikas as “a childish prank.”

“I don’t think there is any hate involved,” says UF police investigator Jerry Schier. “It’s just a bunch of kids trying to get a rise out of everyone.”

If so, they have succeeded. A representative of the B’nai B’rith Anti-Defamation League toured the campus last week questioning administrators about the incidents. The ADL investigator explained his organization looks into cases of extremism and anti-Semitism.

President Bill Mullin states that in the 17 years he has been on campus, there has been no anti-Semitism and no hate crimes.
