College Takes Action On Path

By Gilbert Blau

The student government had been facing for some time the problem of more adequate paths on campus. In the spring, a group of students, led by student senator Peter Varon, began making plans for a paved path through the Quad 8. The path was to be called the "Path of the Student." It was a project that began with the idea of providing a safer and more pleasant path for students to follow between classes.

The project was not without its challenges. The students had to overcome various obstacles, such as obtaining funding and dealing with resistance from the administration. However, they persevered and were able to complete the project, which was formally dedicated on September 17.

The dedication ceremony was attended by several members of the college community, including the president, who spoke about the importance of such initiatives in enhancing the campus environment. The students expressed their gratitude for the support they received, and the administration praised their hard work and dedication.

The path has since become a popular destination for students, who enjoy the added safety and convenience it provides. It has also become a symbol of the student government's commitment to improving their campus experience.
Storming the Barricades: A Crusading Student Squares Off Against the SGA

By Tom O'Neill

February 18. According to Jack O’Neill, 27, a psychology major and a commuter, “The SGA does not represent the student body.”

When I spoke with O’Neill some weeks ago, he was collecting signatures on his nominating papers for the SGA presidency. O’Neill is currently the SGA Secretary and has been attending the SGA meetings for the past year. He also helped to organize a recent Student Senate meeting and has attended other SGA meetings.

O’Neill believes that the SGA does not represent the student body. “The SGA does not represent the student body,” he said. “I’m a commuter, and I’ve been coming to the SGA meetings for the past year. I have attended other SGA meetings. I’m a psychology major, and I’ve been attending the SGA meetings for the past year. I have attended other SGA meetings. I believe that the SGA does not represent the student body.”

O’Neill is a commuter student, and he believes that the SGA does not represent the student body. “I’m a commuter, and I’ve been coming to the SGA meetings for the past year. I have attended other SGA meetings. I believe that the SGA does not represent the student body.”

Storming the Barricades: A Crucading Student Squares Off Against the SGA

By Cerina Haines

The Student Federation argues that the Student Union Building should be returned to student control in order to prevent the SGA from running unopposed.

**Dogs of War**

*Timey/Tremendous*

By Barry Hannah

Film, as a document of current events usually only gains several months behind contemporary issues. The process involved in gathering information, setting a screenplay, and producing a movie in the Hilltop region, of course, cannot keep pace with the number of significant events that occur. Yet, to place, a puppet president is briefed by the current events, stores. As long as they occur, Mike is pacing. It is not a question of the Reagan's actions or policies that the Carter administration is hijacking the film. The man is pacing. It is not a question of where to place, but rather a question of who is pacing. Mike is pacing.

**Heidi**

The Children's Theatre at BSC will be presenting a musical version of *Heidi* on March 31 April 3 and 4. The play, brought to the United States by Muriel Chalmers, is an adaptation of the famous novel by Johanna Spyri that tells the story of a mountain child who is brought to live with her Uncle Fritz and his invalid grandmother in a village at the base of the Alps. Heidi is a joyful and innocent girl who captivates all who meet her. The play is sure to delight audiences of all ages with its charming story and unforgettable characters. Don't miss your chance to experience this beloved tale!**
Dogs of War

Timely /Tremendous

By Ben Harris

Film, as a document of current events usually stems several months behind contemporary issues. The processes involved in gathering information, writing a screenplay, and producing a movie in the Hollywood system are arduous and slow. By the time Dogs of War is in theatres, it is likely that the relevance of the subject is lost. One of the major wins of El Salvador corresponds with the release of the film, and the manipulation of the Third World War is an irony.

Dogs of War maps a provocative presence for its subject: the government of a Third World country is under fire. An American mining company to gain mining rights is willing to lose a troop of mercenaries to overthrow the government. The movie is not about the place, a puppist president is backed by the cia. However, the harry in the film is the leader of the mercenaries, not the president of El Salvador. The movie's point, however, is that the dominance of the outside character, James Shannon, as he uncovers the truth of the American influence on the Third World War. Shannon displays the extreme capacity of the responsible.
Follow the Yellow Brick Road to Oz

THE BUTTON MAN

Solar Energy Subject of Talk

Last Wednesday night, February 18th, a lecture on passive Solar Energy was delivered by Prof. Paul Blackford to a sizeable audience in the Conant Science Building lecture hall at 7:30 pm. It was the first in a series of three Earth Science and Geography Dept. sponsored lectures, the oldest lecture series at BSU.

Prof. Blackford teaches meteorology and cartography here on campus. He spoke both of his personal study of energy conservation methods adapted in his home and the construction of a solar greenhouse he is building in his backyard. His data further demonstrated various practical measures to adjust toward saving heat and money in heating a home. This lecture was the first in a series of talks

The second lecture entitled "Environmental Impact Studies at a Nuclear Power Plant" will be presented by Dr. F. Mogolesko, Manager of Environmental Sciences at the Boston Edison Company on Thursday, March 26th. Holding true to the standard set by last Wednesday's lecture, it ought to be both interesting and informative.

The Resident's budget could have some serious consequences for college students nationwide and right here on this campus. In terms of financial aid, this budget is very important. This budget affects many students living on campus, their room and board, and the overall college experience.

The Resident's budget is a combination of faculty salaries, operational costs, and other expenses. These expenses are distributed among the different departments and programs within the college. The budget is a crucial document for the college because it outlines the financial resources available for the coming academic year.

The Resident's budget includes a variety of funding sources, such as state appropriations, tuition and fees, and other revenues. These funds are then allocated to different departments and programs based on their needs and priorities.

The budget process begins with the development of departmental budgets, which are then reviewed and approved by the appropriate administrative bodies, such as the faculty senate and the administration.

Once the budget is approved, it is finalized and presented to the college community for review. This process helps ensure that the budget is fair and equitable and meets the needs of the college community.

The Resident's budget is a critical document that helps the college prioritize its funding and allocate resources effectively. It is important for students, faculty, and staff to understand the budget's details and implications so they can make informed decisions and take action as needed.

The Resident's budget is reviewed and updated annually, and it is subject to change based on various factors, such as changes in revenue projections, unexpected expenses, and other external factors.

The Resident's budget is a complex and important document that affects many aspects of the college's operations. It is essential for everyone involved in the college community to understand the budget's details and implications so they can work together to ensure the college's financial success and the well-being of its students.

Commentary

How should we respond to the issues that arise in our daily lives? We must approach these issues with a critical and thoughtful perspective.

As we navigate through life, we encounter various challenges and obstacles. It is crucial to develop a mindset that enables us to analyze situations objectively and react appropriately.

Incorporating critical thinking into our daily lives helps us make informed decisions, solve problems more effectively, and communicate more clearly.

Critical thinking involves questioning assumptions, evaluating evidence, and considering alternative viewpoints. By doing so, we can avoid making hasty decisions and instead make choices that align with our values and goals.

Incorporating critical thinking into our daily lives requires conscious effort and practice. We can start by questioning our beliefs and assumptions, seeking additional information, and analyzing different perspectives.

By cultivating critical thinking, we can enhance our ability to make informed decisions, solve problems, and communicate effectively. This mindset is crucial in various aspects of our lives, including personal development, academic pursuits, and professional careers.

The pursuit of knowledge and the development of critical thinking skills are essential for personal growth and success in today's fast-paced world.
