Faculty Gets Money-No More Strike

By Rich Luscher

One in five American adults is illiterate, and truly only a small percentage of those who can read have been able to achieve the literacy level that Kozol suggests is necessary for an informed citizenry.

According to the National Adult Literacy Survey conducted by the National Center for Education Statistics, in 1992, 45% of adults over the age of 16 were unable to read or write proficiently, and 65% are at least functionally illiterate. Therefore, it is likely that the number of illiterate people in the United States today is much higher than it was 20 years ago.

Kozol notes that the level of reading in America today is largely a result of the lack of attention schools give to reading instruction. In his view, schools are more interested in producing students who can pass tests than in helping them develop the skills they need to be successful in life.

Kozol suggests that parents, teachers, and community leaders need to work together to improve literacy levels in America. He believes that literacy is essential for creating a more just and equal society, and that everyone should have access to the tools they need to succeed in life.

The WATERS WILL RISE

PHILIP CONN

I've been wondering why the fountain behind the Student Union no longer spouts streams of glimmering, glistening, cooled-down water. It's a mystery to me, and I'm sure it's a mystery to you, the reader. But let me tell you, the fountain has had its share of major repair jobs done as a plumbing system. The area behind the Student Union is a place where water pressure is minimal because the fountain is sitting on a rise. But it's also a place where water must be sustained to keep the fountain running properly. And for some reason, the water pressure of the fountain is not enough to keep it running. So if you're wondering why the fountain doesn't work, you now know why.

I think it's time for the Board of Governors to have a meeting about this issue. They should consider hiring someone to take care of the fountain and make sure it works properly. I think it's also time for the Student Union to have a meeting about this issue. They should consider making changes to the fountain and making sure it works properly. And if you're wondering why the fountain doesn't work, you now know why.

I think it's time for the Board of Governors to have a meeting about this issue. They should consider hiring someone to take care of the fountain and make sure it works properly. I think it's also time for the Student Union to have a meeting about this issue. They should consider making changes to the fountain and making sure it works properly. And if you're wondering why the fountain doesn't work, you now know why.

The Waters Will Rise
THE WATERS WILL RISE

by Philips C.

If you're wondering why the frontier behind the Student Union no longer sports streams of glugging, slugging colas, and strolling, look no further than the waters that will rise to a new level on Wednesday at 3:00 p.m.

The Local Government Committee will present a meeting for all foreign language majors and minors, and for all students interested in foreign language and its opportunities available in the language field. Foreign language faculty will offer their suggestions and ideas. Refreshments will be served. The meeting will close at 4:30 p.m. All are welcome to attend.

SLUMBER INGS

Now is the time to really get to work on summer job hunting if you haven't already been doing it. Many major corporations located in the camping and recreation areas, and these positions can use skills of background including Art, Special Science, Science (all fields), Business Administration, or other special skills.

During April, the Career Development Office will be available to answer any questions about the seminar which is being presented by the Foreign Language Majors and Minors. You may find it necessary to secure your Declaration of Major Form from the office of the Registrar. It's a lot easier than you think. As you'll discover in the next issue of Poli-Sci Club, University of the United States, the exciting new EXP.

Letter the to Editor

Dear Editor,

I don't think you should be so concerned with the word "waste" in the sentence "This is no "waste" Comment" nor should any of those who have written in these columns. The trash is, after all, just trash, and perhaps a waste of time to nitpick over the words. If you were to suggest a change in the wording, you might say something like "This is a "waste" of effort." I don't think you should be so concerned with the word "waste" in the sentence "This is no "waste" Comment."

Sincerely,

Larry Roland

The Free Beer!!

by Casey

And with the turn of the season, the rumble of the fourth term is heard. One might think that third term is over with, with all the repairs of bottles. But, do, the repairs are neither heard nor seen. When the third term is at its peak, the Board of Directors and the students are both active in the business of drinking.

With the coming of the fourth term, the Board of Directors and the students are both active in the business of drinking.

Bridgewater Goes To VIA U.N.

We hear that Philip Cox, an Associate Justice on the Student Court, plans to file a complaint against the government, saying that his body has been operating. It would be to the Court's fancy if Cox were to bring a complaint against the government, but in the meantime, he is planning on joining the fray; they may do a survey of the student body on the subject.

The idea for the book originated with the university's recent move to the new campus. The new campus, with its modern facilities and extensive resources, has provided a platform for the students to explore their interests and passions. The decision to focus on the book was made after a meeting with Professor Alana Hart, who urged the students to consider the opportunities that the new campus presents.

The book is titled Ectasy, which features a vampire who goes on a quest to find the meaning of life. The character is a product of Ted Nugent's fascination with the vampire genre and his desire to explore the themes of love, power, and freedom.

The book is still in the pre-production stage and is expected to be published soon. The students are excited about the opportunity to bring their ideas to life and hope that the book will spark interest in the genre and encourage others to explore the world of fantasy and fiction.

We're looking forward to seeing the book in print and supporting our fellow students on their creative journey.
Whispers

We hear that Pluff Cox, an Associate Professor on the Student Council, plans to challenge the Board of Student Agencies (BSA) on the inclusion of a feature column in the next issue of The Comment. The column, to be called "Comment," will feature commentary on campus events, student life, and other issues important to the student body.

Dr. Dave Burns, author of the new column, said that he hopes the column will provide a platform for students to express their thoughts and opinions on a wide range of topics. He also stressed the importance of encouraging open dialogue and Debate on campus.

The column will feature contributions from students, faculty, and staff, and will cover a variety of topics, from academic issues to campus events and activities. Dr. Burns encouraged students to submit their own writing and ideas for consideration.

The column will be published in the upcoming issue of The Comment, and will run biweekly. The first column will be released on March 1, 2023, with subsequent columns appearing every two weeks.

-Requested by Robert Bull

The suggested name for the column was "Comment," but this suggestion was rejected by the BSA in favor of "Plan Your Future." The new column will be called "Plan Your Future," and will focus on helping students plan and prepare for their future, both academically and professionally.

Dr. Burns said that the column will feature articles on a wide range of topics, from studying abroad to resume building and interview tips. He also stressed the importance of discussing the challenges that students face, as well as the opportunities that are available to them.

The column will be released in the upcoming issue of The Comment, and will run every two weeks. The first column will be released on March 1, 2023, with subsequent columns appearing every two weeks.
**New England Poets’ Conference**

The New England Poets’ Conference, established by the New England Poets Conference, Inc., was founded in 1971. The conference, held at Seacoast Community College in Hampton, New Hampshire, is the oldest poetry conference in the United States. It attracts poets and writers from all over the world.

The event is open to poets of all ages, from beginners to established writers. It features workshops, readings, and lectures by some of the country’s leading poets.

The conference also includes a poetry contest, where poets can submit their work for consideration. The winners are announced at the end of the conference, and the poems are published in a special edition of the conference’s newsletter.

The New England Poets’ Conference is a great opportunity for poets to network, learn from accomplished writers, and share their work with others.

**BSC Lacrosse A Brand New Team**

It promises to develop Bridgewater's lacrosse team into a powerhouse.

*By Mark Miller*

Last year, Bridgewater State College (BSC) added another sport to its roster. For those who may not have heard, BSC lacrosse is a new school sport that has been receiving a lot of attention recently. The team was formed in response to the growing interest in lacrosse and the desire to offer a new sport for students to participate in. The first season of the team was filled with challenges and successes, and the team has already made a significant impact on the school community.

The team consisted of players from various backgrounds and experiences, bringing a diverse set of skills and perspectives to the sport. The team was led by Head Coach, Coach David Hill, who has a strong background in the sport and a passion for teaching and coaching. Under his guidance, the team worked hard to develop their skills and form a strong team dynamic.

Despite the challenges faced in the early stages of the season, the team continued to improve and grow throughout the year. They played a series of exhibition games and participated in several tournaments, gaining valuable experience and learning from their opponents. The team's performance on the field showed improvement, and their spirit and dedication were evident to all.

The addition of lacrosse to the BSC athletics program has been well-received by both students and faculty. The sport has brought a new level of excitement and energy to the school, and the team has gained a dedicated group of fans and supporters. The future looks promising for BSC lacrosse, with the potential to attract even more players and become a major force in college lacrosse.

The team's success and the growth of the sport at BSC demonstrate the value of offering a diverse range of athletic opportunities to students. It provides a platform for students to explore and pursue their interests, build teamwork skills, and stay physically active. Through the sport, students can develop valuable life skills and experiences that will benefit them throughout their lives.

The addition of lacrosse to BSC athletics is a testament to the school's commitment to providing a comprehensive and inclusive educational experience. It is a testament to the value of the co-curricular activities and the positive impact they can have on the personal and athletic development of its students.
