On The Roads Again

By Neil Berlitz

"The more things change, the more things stay the same," said President Pagano last week, summing up the impor-
tance of streamlining one's body's choice of beverage. Back then, as now, students were often very aware of the amount of drinking they were doing. "My first semester I echoed the other foot (the floor) on a chair and brushed the floor on the door directly in front of me," said President Pagano. "But in my second year I am more self-aware of the situation and take advantage of the chairs the professors offer." "I have found that last year's was better than this year's," said President Pagano. "In the past, I have been more confident of myself and have been able to make better decisions."

BSC's Problems

On campus, there are several issues that have been discussed recently. One is the lack of forms for students to fill out when they come to the Health Services office. President Pagano said that the students are discovering that the forms are necessary information such as personal health records. The lack of forms has left gaps in the Health Services office. According to President Pagano, "It is very important that students provide these forms to the Health Services office so that medical treatment cannot legally be provided without the necessary information." The forms also help the students to save federal interest subsidies as soon as possible rather than wait for a year. The forms are commonly referred to as the student's health form to the Health Services office.

Another problem has developed after the health form was given before health records are updated. Such a situation currently exists when a student leaves the school on the application, after which the student must pay the full amount of the loan. In such a case, the student is subject to the same terms as if he were still enrolled. The student's financial aid award is subject to the same terms as if he were still enrolled. Many students have had an update in the health form. The health form is required to be completed by the student and the health for the college campus in order to continue on the campus. October 1 Marked Changes in Student Loans

RUBEN SCHROEDER

Marked Changes in Student Loans was the topic of President Pagano's address to the student body last week. President Pagano said that the student body should be aware of the changes that are being made to the student loans. The changes include an increase in the interest rate from 4 percent to 5 percent, a $360 increase in the Guaranteed Education Loan (NDSL) for the 1981-82 academic year, and a $360 increase in the Guaranteed Education Loan (NDSL) for the 1981-82 academic year. The changes also include a $360 increase in the Guaranteed Education Loan (NDSL) for the 1981-82 academic year.

Dear Joe,

Joe, I don't want to sound like a broken record, but I just can't help it. I've been thinking about you and your situation, and I feel like I need to share my thoughts with you.

You see, I've been noticing that you've been spending a lot of time in a certain bar lately. It's not a good sign, Joe. I know you're trying to deal with your problems, but I'm worried about you.

I've heard that you've been talking to some of the other patrons about your past. I understand that you're trying to come to terms with what happened to you, but please, Joe, don't keep it all to yourself. Let's talk about it.

I'm here for you, Joe. I want to help in any way I can. Please, Joe, let me know if you need anything. I'll be here for you.

Your friend,

Letters to
Tremble

To the editor: I was very pleased to see in the Oct. 17 issue of the Campus Chronicle the column "Reflections" by John Strachan. This column contains some very thoughtful and well-written pieces that I believe are very relevant to the current political climate.

The first piece, "Reflections on the Death of the US Senator," is a thoughtful reflection on the recent passing of a US Senator. The author, John Strachan, provides a historical perspective on the role of the US Senator and how it has evolved over time. The piece is well-written and provides a valuable perspective on the current political climate.

The second piece, "Reflections on the Rise of the Far Right," is a thoughtful reflection on the rise of the far-right movement in the United States. The author, John Strachan, provides a historical perspective on the rise of the far-right movement and how it has evolved over time. The piece is well-written and provides a valuable perspective on the current political climate.

I look forward to reading future pieces in the "Reflections" column.

Sincerely,

Perspective on Politics by Tom Gregg

The End of the Allan Stump Era

I am writing this letter because I feel that I have introduced Fortune America. It's not a new concept, but rather an old one that has been around for quite some time. However, I feel that it's time to bring it back into the modern world.

This concept is based on the idea that everyone should be able to make their own decisions about their lives. This is something that I believe is important for everyone, regardless of their background or situation.

I believe that everyone should have the right to make their own decisions about their lives. This includes decisions about their education, their work, and their personal relationships. I believe that everyone should be able to make their own decisions about their lives, and that they should be held accountable for the decisions that they make.

I think that this is something that we need to work towards as a society. We need to make sure that everyone has the opportunity to make their own decisions about their lives, and that they are held accountable for the decisions that they make.

So It Goes

Well, I think that the book is great. It's a very insightful look at the modern world and how we navigate through it. I think that it's a very valuable read for anyone who is interested in understanding the world we live in.

The book is divided into several parts, each of which explores a different aspect of modern life. The first part, "The Rise of the Global Village," looks at how we are becoming increasingly connected to each other and how this is changing the way we think about the world.

The second part, "The Rise of the Individual," looks at how we are becoming increasingly focused on our own individual needs and how this is changing the way we think about society.

The third part, "The Rise of the Political," looks at how we are becoming increasingly aware of the political forces that shape our lives and how this is changing the way we think about the world.

Overall, I think that "So It Goes" is a very insightful and thought-provoking read. I would definitely recommend it to anyone who is interested in understanding the world we live in.

Sincerely,

In Memoriam 1980-1981

This is a difficult time to be writing. The news is filled with stories of violence and conflict around the world. It seems like every day brings more bad news.

I want to take a moment to remember the people who have lost their lives in these conflicts. They were all too young. They were all too full of life. They were all too innocent.

We must continue to work towards peace and reconciliation. We must continue to work towards a world where all people are treated with dignity and respect. We must continue to work towards a world where all people have access to basic human rights.

The Life and Times of an Employee at Old Colony Gas

by Richard Lussier

Many, indeed, most students at Bridgewater are dependent on some form of financial aid. Due to the high cost of education and the limited income of most students, it is often necessary for students to work while attending school. The Reagan Guaranteed Loan Program, a federal financial aid program, is designed to help students cover the cost of education by providing loans to students who meet the eligibility requirements.

Aid is calculated based on the gross income of the student's family. If the gross income exceeds $30,000, the student must include documentation to demonstrate need to borrow a loan at $1,800.

These changes, and many others, are due to the Reagan Administration's emphasis on federal spending continues to be left on the table when space is available. The Company has an opportunity to operate its antique store, sell many more unpaid and has all but retired.

Before reading the text, you can review the relevant parts of the document. The text is about the life and times of an employee at Old Colony Gas, focusing on the challenges and experiences of working at the company. The employee, Dearest, has been made into a story that should not be taken lightly.

Dearest is a story that should not be taken lightly. Dearest is the #1 movie of the summer, and its themes are as timely as Jack London's "The Call of the Wild". Lucas draws heavily from literature Lucasfilm because they are basically the same thing - stories. Lucas is the Jack London of his time, and his films have the same impact on audiences.

Mommie Dearest!

Mommie Dearest! This summer's big hit, "Mommie Dearest!" tells the story of Joan Crawford's rise to fame and her tumultuous relationship with her daughter, Christina. The movie stars Faye Dunaway as Joan Crawford and Christina Crawford as herself.

Financial Aid

Continued from page 1

October 1, 1981 The Financial Aid Office must include Social Security benefits and Veterans Aid and Pell Grants to its standard list of exceptions. These benefits are not considered income received by the student. The partial list of exceptions consists of Social Security benefits and Veterans Aid and Pell Grants.

The Council of Financial Aid Programs agrees that the definition of "in" in terms of the student's financial aid budget is the amount they can borrow or possibly be awarded by the college or university.

On The Roads Ahead

By Neil Berchtold

For many runners, the importance of stretching their bodies before running is well known. But many are often unaware about how important stretching is after running as well. From my personal experience, a good stretching routine is as vital to prevent running injuries as the run itself.

Once again the play was tough and the Schemega clashed with a 1-0-0 record at the State U. In the first game, the Schemega dominated the game and defeated the Rough Riders, 6-0. In the second game, the Schemega defeated the Clash, 6-3.

October 1 Marked Changes in Student Loans

Many students have been affected by the recent changes in student loan policies. The changes include a higher interest rate, increased fees, and stricter repayment terms. These changes are expected to increase the cost of education for many students.

Some students are frustrated with the new policies and are seeking alternatives. One option is to consider alternative loan providers or to explore the possibility of earning scholarships or grants.

Nominations for Homecoming Queen
