Bridgewater Junior
Saves Life of Friend

by Michael Beaudet

Joseph Cifello is a police officer for the town of Rockland. He is in his junior year at BSC. Last Oct., Bli. Cifello was involved in a home invasion where the victim had been dragged to the basement and was attacked by his dog. The police officer, who had been on the scene for almost an hour, was finally able to subdue the man and free the victim.

In the process, the suspect was taken into custody and the police officer was able to secure the area. The suspect was later charged with assault and battery.

Letters to the Editor

Dear Editor,

In response to the Editor's letter on the spotty appearance on campus of humorous and/or controversial material, I would like to voice my opinion.

I do not believe that the humor in this letter is in any way inappropriate. As a student here, I feel that we need to express our ideas and opinions freely, and that includes the humorous ones. Just because something is humorous doesn't mean that it is inappropriate.

Sincerely,

[Signature]

Dear Editor,

I am writing in response to the article in the Oct. 29 Comment. I agree with the author's viewpoint, but I feel that the humor in the piece is also important.

I think that humor is an important tool for expressing ideas and opinions. It can help to make a point more effectively and can also make a discussion more enjoyable.

Sincerely,

[Signature]

Perspectives on Politics

Dear Joe,

I realize that you are very busy, but I would like to ask you a question about your recent editorial.

In your article, you mentioned the idea of a student government. I would like to know more about your thoughts on this topic.

Sincerely,

[Signature]
**Letters to the Editor**

**To the College Community,**

Unfortunately, the Homosexuality Miniweek sponsored by Alpha Epsilon Phi and the Class of ’85 was not a success.

The reasons, I believe, lie in the lack of true understanding of the homosexual community. We may have failed to understand that in order to be effective and meaningful, an event of this nature must be directed by someone who is knowledgeable and committed to the community.

As the social justice coordinator of AEPHI, I had the opportunity to meet and talk with many local and national activists. It was clear to me that we were not able to accurately represent the community to the college community.

In order to improve our next event, I would like to suggest the following:

1. **Collaborate with Local Activists:** Invite local activists to speak on campus and discuss their experiences and perspectives.
2. **Educate the Community:** Offer workshops and information sessions on the history and current issues of the LGBTQ+ community.
3. **Inclusive Language:** Use inclusive language and terminology in all communications and materials.

I believe that with a more intentional approach, we can create a more effective and meaningful event for the college community.

Sincerely,

[Signature]

Dear Editor,

In response to the Editorial on the importance of campus involvement, I believe that the administration and student organizations are not representative of the current student body.

We are often portrayed as a group that is not interested in or knowledgeable about social justice issues. However, the reality is that many of us are actively engaged in these issues and are eager to have our voices heard.

I would like to suggest the following:

1. **Increase Student Representation:** Add more student voices to the administration and decision-making processes.
2. **Regularly Survey Students:** Conduct regular surveys to gather student feedback on current issues and initiatives.
3. **Provide Resources:** Provide resources and support for student organizations focused on social justice.

I believe that by taking these steps, we can create a more inclusive and representative campus environment.

Sincerely,

[Signature]

**What’s Wrong?**

By Sharon Stacey

Have you ever been to a dance where only a handful of people show up? It’s a common occurrence, and it’s often a disaster. So, when you attend a dance that has a very low turnout, do you really think that the people who did show up actually had a good time? I doubt it. But, let’s assume that they did. What’s wrong with this picture?

1. **Low Attendance:** When only a few people attend a dance, it’s usually because they were not interested in the event, or they didn’t know about it, or they felt that it was too mainstream. Whatever the reason, the fact remains that the dance was not well-received.
2. **Lack of Participation:** If there are only a few people at a dance, it’s often because they were not interested in dancing, or they didn’t know how to dance, or they felt that it was too competitive. Whatever the reason, the fact remains that the dance was not well-received.
3. **Mismanagement:** If there are only a few people at a dance, it’s often because the organizers were not well-organized, or they didn’t know how to manage the event, or they felt that it was too difficult. Whatever the reason, the fact remains that the dance was not well-received.

In conclusion, low attendance at a dance is usually a sign of disinterest, lack of participation, or mismanagement. If you are planning to attend a dance, make sure that you are interested, prepared, and involved. Otherwise, you may not have a good time.

Sincerely,

[Signature]
If you are graduating this semester, the Career Planning Office is offering a series of workshops to help you navigate the job search. These workshops will cover topics such as resume writing, the job search process, and the importance of networking. The office will be open from Mon.-Fri. and will be held at the Boston Career Planning Office. The workshops are free and open to all members of our class.

Let's all get involved with our business and make it the best run class of Chemistry Clubs.

The Comment

If you are profit-minded, go to the scheduled events and bring a proposal to the floor. As a Congressman, Mr. to the UN, people certainly wouldn't refuse help or ideas; in fact, they need them. Involvement of this source is rewarding; you could also use your connections to help build our financial base with support from all our members.

Andrew Young as an East Asian leader is now a prime example of someone who has used his position to bring about change. He has been influential in the UN and has worked to make the organization more transparent and accountable.

Chairman Mullen made the same point later in their careers they often express the wish that they had more theoretical work in education. The speaker said that their educational decisions were influenced by the theories they read in college, and that they later regretted not having had more hands-on experience.

In his Executive Report, President Mullen announced a push to revise the program for certification of individuals involved in education. This decision was made in response to the growing demand for qualified professionals in the field of education.

The national organization for students explaining their educational decisions is the National Association of Secondary School Principals (NASSP). It is a non-profit organization that represents secondary school principals across the country. It is dedicated to the professional development of its members and to the improvement of educational opportunities for all students.
EDITORIAL REPLY

Mass. Ed.  (From pg. 1)

Professor Flanagan told the Committee that several of the most successful teachers are already suffering from burnout, with new standards and regulations having been applied to them. These new standards and regulations have included the following changes:  
- Increased class size: from 20 to 25 students. 
- More frequent testing: every other week instead of once a month. 
- Increased homework: from one assignment per week to two assignments per week. 
- More formal assessments: quarterly instead of semi-annually. 

SGA Calendar

Some interesting events at the October 21st SGA Council meeting include the Academic Affairs Committee's proposal to increase the faculty's workload, and the Student Activities Committee's request for increased funds for the SGA. A new student group, the Horror Film Society, was also approved for the October 25th meeting.

Career Corner Update

Week of November 24 - Career Planning and Placement Office

This week, the Career Planning and Placement Office will be offering a variety of workshops for students. The workshops include:
- Career Exploration Workshop: Monday, November 24, 10 a.m. - 12 p.m.
- Job Interview Techniques: Tuesday, November 25, 2 p.m. - 4 p.m.
- Career Exploration: Wednesday, November 26, 1 p.m. - 3 p.m.

Special Upcoming Events

10/30, 11:30 p.m.: JOE SHOW (one-night only)

Ticket sales will be at the door. All proceeds will go to the Student Union. The proceeds will be used to support local organizations.

OASIS NOTES

The bilingual Oswald meeting is kicking off on November 1st.

The Student Union has made a series of changes to improve student life on campus. The changes include:
- Increased hours for the Student Union building, from 9 a.m. to 9 p.m.
- Expanded hours for the Student Union coffee shop, from 8 a.m. to 8 p.m.
- Increased availability of student activities, including more events and workshops.

Prince Of The City

KISS ME KATE

By Barbara Glazer

"Kiss Me Kate," the Cole Porter musical, tells the story of a Broadway musical producer who is having trouble with his latest production. The producer, Fred Graham, is dating Cambridge scholar Kate Miller. When Kate brings her own book to the production, it becomes clear that the two are perfect for each other, and they decide to work together as a team.

KISS ME KATE

College Bowl

Applications for the College Bowl are now being accepted. The College Bowl is a trivia contest that tests students' knowledge of a variety of topics, including history, science, and current events. The winning team will receive a cash prize of $1,000.

Halloween Screening

The Student Union will be hosting a Halloween screening of the classic horror film, "The Exorcist." The screening will include a special guest appearance by the film's director, William Friedkin.

The Exorcist

Thursday, November 5

Prince of Halloween Party

The Prince of Halloween Party will be held on Saturday, October 31. The party will feature music, food, and a costume contest. The winner of the contest will receive a cash prize of $200.

CHORALE/WOMEN'S GLEE
CHAMBER SINGERS/AMERICANA SINGERS

by Burt Brainard

The match was played at Mount Holyoke last weekend, where the Mount Holyoke women's tennis team was defeated by the Bears. A strong performance by BSC sweats was given to second place finishers in each division. The first place went to graduate student George Nigro-24: 16.

The second place finisher was a third place finisher on Friday, November 6, at 8:00 p.m. in the Student Union Auditorium.

Clinic Guest Speaks About Muscular Dystrophy

by Susan Lauer

The topic was "Muscular Dystrophy." The medical and psychological importance of Muscular Dystrophy was discussed by Dr. William Singer, a neurologist at the New England Medical Center in Boston. Dr. Singer explained that the disease has a genetic basis and that the symptoms can be severe. It is estimated that 1 in 5000 males is affected by the disease and that the symptoms can be severe. The symptoms of Muscular Dystrophy often begin in childhood and can continue into adulthood. The symptoms include muscle weakness, fatigue, and difficulty breathing. The disease is progressive and eventually leads to death.

The disease, however, only makes it possible for the disease to be diagnosed at an early age.

The disease is diagnosed early, usually at about three years of age when the child begins to experience muscle weakness.

The disease, at this stage, is also characterized by a curvature of the back and enlarged calves. MD is a progressive disease.

The disease, however, only makes it possible for the disease to be diagnosed at an early age. The disease is progressive and eventually leads to death.

Joseph Claudio is a police officer for the town of Blandford. He and his wife Ann, one of his hourly hosped workers at the hotel, were on the phone the day they met. After a brief conversation, the papers were signed. He still can make a season out of it. The team girls volleyball does not get the recognition it deserves, so if I can save their lives for something to go on the girls. On Board

**Massachusetts Department of Education Visits BSC**

by Richard Lesley

The Massachusetts Department of Education visited Bridgewater State College last week as part of an effort to evaluate and improve the quality of education at the college. The visit was part of a broader initiative to assess the effectiveness of education programs across the state and to identify areas for improvement. The visit included a review of the curriculum, instructional methods, and student outcomes at Bridgewater State College.

The department's evaluation team conducted a series of in-depth interviews with faculty, staff, and students to gather feedback on the college's educational offerings. They also reviewed course materials, student evaluations, and other relevant data to assess the college's overall effectiveness.

At the end of the visit, the department's representatives met with college administration to discuss their findings and identify areas for improvement. The college will work closely with the department to implement any necessary changes and continue to improve the quality of education at Bridgewater State College.
