Parking Lot Expansion Approved

By Paul Foster

COMMUTERS will have more
parking spaces to choose
free
from in the near future.
The college's Board of
Trustees approved $38,000
dollars at their October 12 meeting for the expansion of the Great
Hill commuter parking lot, included in the S.50,000 dollars for lighting fixtures.
The expansion will take place at the south end of the
current parking lot along the railroad tracks in a rectangular
area adjacent to the Associate
Director of Planning
and Development, said that about 100 new parking
spots, nine feet wide and 18
feet long, will be created.

Design and preparation
work is under way now and is
being done by the college,
said Perry. The work will be
done on a day-by-day basis
and could get started next
week should the weather cooperate, said the Associate
Director. Excavating equip-
ment and materials will be
brought in by private con-
tractor and the expansion project under the supervision of Perry.

Construction will begin on
the last disruptive days,
either on a Tuesday or a
Thursday said Perry. This
is when parking in the lot is
lightest and all the construction equipment can be
brought in without the risk of cutting into
the current parking area.

"If everything goes smoothly,
the new work could be finished in
two or three weeks," said
Perry.

Ask whether the expansion
of the parking lot will
impact the commuter
lot. Perry responded that the new construction coupled with an aggressive
carpooling program will allevi-
ate the problem this year.

He said an effort will be
made to encourage carpool-
ning in the future, since one person driving to school saves a
lot of gas both the possible solution would be better scheduling of classes
so that students who live in
the same area and commute could develop similar sche-
dules. Perry also noted that there are several programs being studied by the cal-
ses's administration to ease
parking problems in the future.

BAT Buses at Bridgewater

By Joe Gouveia

Due to recent growth in the enrollment of students at Bridgewater State
College, problems concerning parking facilities and trans-
portation have arisen. Roughly 70% of the college popu-
lation are commuters or off-campus students. When it
comes to finding a parking space, these reasons
automobiles on the softball
turf in the morning. In order to
to help deter this problem and to better transportation
needs of students, Mr. Peter
Perry, assistant director of stu-
dent services has come up with a plan which has been
presented to the Department of Planning and Development.

Such a proposal, if imple-
mented, would permit the college to run buses from the
Brookline E-Mall to the cam-
pus every forty minutes beginning at 7:30 a.m., until
9:30 p.m. with assistance from the Brockton Area Trans-
portation. The students would board the bus at the
Brookline E-Mall and be dropped off at various stops on the
campus.

According to Perry, the
first shuttle bus was sched-
uled to run on October 25.

By Janet Coffey

If you're out in the cold, the snow is deep and all of the sudden the barking
of a dog wakes you. Shivering, you try to find a radio or a pair of
'jams to keep you warm. Then, when your dinner is burnt, you're trying your
way to the front door. Does this sound familiar to you or does it sound
like you've lived in Shrew-
bury Hall. The fire alarm
situation here has been a
growing concern for many
people. Having several fire
alarms during a week of
coating the dorm is a
tough sum of money, and
two hundred dollars for
each alarm. "These alarms are also
critical to the operation of the town
department, when they could be attended to in the event of an
emergency situation instead of false alarms."

To get a better understand-
ing of the problem, the Fire Alarm System at the Hill
The Comment had the opportunity to speak with the
Fire Chief C.A. Levy of the Bridgewater Fire Depart-
ment. Levy explains that the
The Comment that part of this
problem with the fire alarm
lies in the fault of the stu-
dent. They are damaging the fire equipment by break-
ing the glass on the detectors which were all replaced this
year by the chief. The chief recommends that students keep
watch and not to damage anything you may be tampering with fire equipment.

The other side of the fire alarm system deals with the
system itself. "It's a new alarm system". Chief Levy
told The Comment. The sys-
tem hasn't yet been approved by the state because a
final inspection has not been done to see if there are any defi-
ciences in the system that need to be corrected. Chief Levy has the opportunity to
see if the system is operating
adequately.

Many of the residents at the Hill that The Comment spoke
with believe that the fire
alarms are an annoyance.

One student said: "The problem is the time that
the fire alarms don't work. That is the reason
moving into an apartment or
another dorm at the end of
the semester because it's a
difficulty to get any sleep or study-
ing when fire alarms are
going off several times a week."

Fire alarms are a serious
danger and should be treated as such. Hopefully this
information will make people more alert about the risks
posed by a fire alarm. Just
think of a fire and the firemen
couldn't get there in time
because they're on battling a false alarm."

Alarming News at Hill

By Rob Holmes and Chris Harwood, the Bear. Photo by Mike O'Flaherty

On Wednesday, October 19, the Massachusetts Senate overwhelmingly
rejected the proposed bill to raise the Commonwealth's
driving age from 16 to 17 by a vote of 7 to 0. On Tuesday and Wednesday
of this week, hundreds of students from colleges and universities around the state,
including students from Bridgewater State College,
confronted the senators on the steps of the
State House in Boston to protest the possible change in the
driving age. The demonstration was effective.

In stating the students stand
ons this issue and was a posi-
tive step towards changing
final decision. Almost one-half of the stu-
dents in BSC 20 years and over would have been
affected should the bill have
passed. This would restrict the
use of local businesses for legal
purposes in Bridgewater, reducing the overall profit by a large amount.

Judging by the wide mar-
gin in the final vote depicting the message, the likelihood of this bill passing in the
legislature in future sessions does not appear great.

Yes, It's Still 20

By Beth Ward

On Wednesday, October 19, the Massachusetts Senate overwhelmingly
rejected the proposed bill to raise the Commonwealth's
driving age from 16 to 17 by a vote of 7 to 0. On Tuesday and Wednesday
of this week, hundreds of students from colleges and universities around the state,
including students from Bridgewater State College,
confronted the senators on the steps of the
State House in Boston to protest the possible change in the
driving age. The demonstration was effective.

In stating the students stand
ons this issue and was a posi-
tive step towards changing
final decision. Almost one-half of the stu-
dents in BSC 20 years and over would have been
affected should the bill have
passed. This would restrict the
use of local businesses for legal
purposes in Bridgewater, reducing the overall profit by a large amount.

Judging by the wide mar-
gin in the final vote depicting the message, the likelihood of this bill passing in the
legislature in future sessions does not appear great.
Applause, applause

Editorial Response

In reading any journalist's work on a regular basis, a definition by Kevin Roberts, The Common Man, is particularly apt. The Common Man prefers to take a lighter perspective on the way the media portrays women on The Common Man, Part 2.

A sense of humor is essential to any successful journalist. It is not the kind of humor that is offensive or tasteless, but rather a sense of self-awareness, the world of work, and career implementation.

The Common Man also encourages self-assessment, which is essential to one's personal growth. Avoiding edging one's values, interests, and characteristics to the universe can be detrimental to one's self-esteem and self-worth. This is an opportunity where, with the help of a career counselor, one can determine one's potential to continue in the self-assessment task - the most important element in the career development process. Career testing can also help in the self-assessment process.

The career counselor at the center of each of these chapters is Ms. Scroggs, who has developed the expertise and tools to help individuals with this process. Whether you are a Freshman, Sophomore, Junior, Senior, or graduate student, it is the belief of career counselor and placement that career development and implementation are essential for life-long processes that form the application of these areas. The Stephens College Career Center has developed the expertise and tools to help individuals with this process.

Dear Editor,

I was more than pleased when Bernard Buck A Tuck (under the Editor's note: the following is a letter to the Editor regarding the Stephens College Career Center and the proper use of the term "career counselor." "Career Counselor" is a title of a career counselor at the center of the Stephens College Career Center. "Career Counseling" is a type of career counseling at the center of the Stephens College Career Center.

The names of the men who were more than upset with the decision to approve the practice of prostitution are kept anonymous in order to avoid embarrassment. I would also like to point out that the names of the "Helpful Hands" phantom, which appeared in the Stephens College Career Center, has not been approved for the Stephens College Career Center.

I urge you to call your local chapter of the Stephens College Career Center and request to speak with the staff. You will be able to speak with the staff and get all the help you need. You can also contact the Stephens College Career Center at 450-2570, ext. 2158.

Sincerely,

Nancy DuPont

Dear Editor,

Jenelle was more than upset when I pointed out to her that Buck A Buck (under the current seating arrangement) in last week's Column. Jentille simply theory and the American Cancer Society: among the number of students who, as a gift to the author of the piece, I believe the act is the sport.

The image of the woman as another "mother" and "wife," therefore portraying themselves as the stereotypes so deeply ingrained in us. Women are socialized to please and serve in these roles, and are even accepted as long as the man wants them. They then place themselves on a pedestal in the wrong sense and proceed to tell a story. During the entire time, the author of the article, one of the women made "eight small steps down my right. Trump! Trump! Trump! went her feet," he writes. What is going on inside these men's heads? Cheap tricks.

By Bruce Tamlyn

What is Career Development?

Career development is an ongoing, personal decision making process that assists individuals in determining their values, interests, and abilities. The process relates to the career counselor, according to the Crocker Career Planning and Placement Office, who has the expertise and tools to help individuals with this process. Whether you are a Freshman, Sophomore, Junior, Senior, or graduate student, it is the belief of Career Planning and Placement that career development and implementation are a continuous life process that forms as part of your personal and professional development. Cost: $5.00. For further details and requirements, interested students should contact Mrs. Pauline Harrington, 504 Bromfield Hall, 9:30 a.m. to 4:00 p.m., Monday through Friday. For more information, call 822-9823 at any time.

Once a year, the American Cancer Society holds a mammography booth in Brockton. **Important American Women Part XIII 1973-1974**

By Liz Sorgos

AtT signed an agreement with the ESCC and the Labor Department providing grants and stipends for increased utilization of women and minorities. About $15 million was paid back to a sum of $15 million to employees. In a landmark decision on January 22, 1973, U.S. Supreme Court ruled that a State may impose care facility. This report revealed an increase in the number of women in the state legislature (from 465-604). The majority wanted Fitzgerald, inaugurated a series of events with students at the University of Texas at Austin. The court held the States may impose increasing stringent restrictions.

The National Black Females Organization was formed. One of the organizers was the legal aid attorney Eleanor Holmes Norton, head of the New York City Human Rights Commission.

Bille Jean King beat Bobby Riggs on September 26, 1973, in the 'Battle of the Sexes'. In 1974, the Coalition of 100,000 women was organized in Chicago with over 5,000 women in attendance. Ogle Medin, formerlinger companions, told the media that a young girl was aspiring to enter the women's and business world.

**Psychology Club Happenings**

By Rachel Cooper

The Psychology Club was founded in 1973 to discuss the day’s activities.

"We hope many of our students and staff will invite their friends and relatives to come see the campus. We have exhibits by departments, tours, refreshments, and special activities for everyone to enjoy."

---

**Learning Aids for Children**

The Bridgewater Lions Club has presented the Children’s Room of the Bridgewater Public Library with two learning aids to develop reading and math skills. "Speech & Spell" will help students build spelling skills for grades 1-3, and "Speech & Math" will improve math skills for grades 1-6. These learning devices present students with various problems, activities and games that can make learning fun. They give praise when a correct answer is given and offer encouragement and guidance when an answer is incorrect. Both learning aids are special Braille editions which can be read by the blind and who are blind or have low vision. They may be used in the library, or taken home.

---

**THANK YOU**

Thank you for your support at this year’s Homecoming. Your attendance helped make it a complete success.

Sincerely,

The members of Phi Delta
Learning Aids for Children

The Bridgewater Lions Club has presented the Children's Room of the Bridgewater Public Library with two learning aids designed by Dr. Kenneth Clapp, a research psychologist. The aids are "Speak & Spell" for grades 1-4 and "Speak & Math" for grades 1-6. These aids, developed by professionals with extensive experience in educational games and puzzles, enable students to learn and practice reading, writing, and mathematical skills. "Speak & Spell" will aid students in building spelling skills for grades 1-4, while "Speak & Math" will improve mathematical skills for grades 1-6. These aids make learning fun. They give praise when a correct answer is given and do not encourage young girls to aspire to a futile and demeaning role society.

At the presentation, the Lions Club representative emphasized the importance of early intervention to prevent learning difficulties in young children. The aids are designed to be accessible to all children, regardless of their reading or math levels, and to make learning enjoyable and engaging.

These aids are expected to enhance the library's educational resources and provide a valuable tool for educators and parents in the community. The Bridgewater Lions Club encourages the community to utilize these aids to support children's learning and development.

Looking For Excitement? Why Not Go To 'Chicago'?

By Matt Peter Donahue

Theatre is a visual medium. There is that old adage that a picture is worth a thousand words, which, while true, can be misleading. A few photos or graphics accompanied to a story about the new Encores! The Musical production of the 1960 musical vaudeville, Chas & Dan, slit lines by Sonny Rollins, are included here. The piece is worth a thousand words, which is why there are accompanying this piece the Theatre production of the picture is worth a thousand a few photos or graphics.

But photographs and these few words aren't going to tell satirical the truth of this travesty and an actual sensational murder. The play, which is written by Maurine Dallas Wilson, who has been appointed the director of the event. You see, Agnes had a life that was filled with an unfathomable guilt. The micelle of Agnes of God relates itself in the look of life. Elizabeth Ashley is the only one who can play the part. She is the one who can make the character believable, who exudes warmth, compassion, and care.

The miracle of Agnes of God rests itself in the look of this character. Ashley is the only one who can make the character believable, who exudes warmth, compassion, and care.

With the introduction of this character, we are thrust into the world of Agnes of God. Agnes is a woman of many, one of her most notable traits is her ability to think of others. She is the one who can make the character believable, who exudes warmth, compassion, and care.

Thanks to all the sponsors of this show, they always do their best to maintain the integrity of the event. And there's no other show that does it better.

Now, some fifty-odd years after the controversy seems to have lost none of its sting, the film is being released in the musical - Meme. Mason's words, which is why there are accompanying this piece the Theatre production of the picture is worth a thousand words. Photographs and these few words aren't going to tell the truth of this travesty and an actual sensational murder. The play, which is written by Maurine Dallas Wilson, who has been appointed the director of the event. You see, Agnes had a life that was filled with an unfathomable guilt. The miracle of Agnes of God rests itself in the look of this character. Ashley is the only one who can make the character believable, who exudes warmth, compassion, and care.

Looking For Excitement? Why Not Go To 'Chicago'?

By Matt, Peter Donohue

Theatre is a virtual medium. That is, what you picture is worth a thousand words, which are worth a few photos or graphics accompanied by a few lines of text (as in this story). All is about the new Esplanade Theatre production, "Chicago," starring Elizabeth Ashley and Kander, and Ebb—have stylized it into a circus, show business musical vogue, and the parodies to high energy, high tension, and the musical—"Mein Kanineen"—stands in the middle of the house has been bought by a ghost story is entitled —Jennifer Farrell is a personal guardian. This exception, but they are few—their events, their ideas are for short.)

"Chicago." By Mark Pimenta

Jennifer Farrell was a famous movie star who died six years ago, and her family's cottage in Vermont has been bought by three tourists. Before they used jokes and humor. What they liked was to take a look at the ideas used as a basis for a sitcom are impossible, but they are few exceptions, but they are few—of course, someone else does better.

Theatre Dame, followed by Agnes of God by John Pielmeier. Baby that was found dead in a native of Lowell, Massachusetts. A well-known dramatic critic and Court of Vermont.
SGA Profile of the Week

Hosie Myrick's Christine Quinn, a senior for the class of 1987, is a History major with a minor in Political Science. Myrick's future plans include going to graduate school and to work in the arena range plans involving working with other political issues in government.

Organ Concert

Tickets are now available for the Fourth Annual Josephine Odell Memorial Organ Concert at the First Parish Universalist Universalist Church on School Street in Bridgewater. The concert will be given on Sunday, October 21 at 3 P.M. Organist for this concert will be Walter Whitehouse, a resident of Chicago. Mr. Whitehouse is a graduate of Trinity College in Hartford and Northwestern University. He has studied with Raymond Oliver and William Ruben. Further private study has been with Jean Langlis in Paris. Currently, he is a native in pipe organ at work in the Chicago area and is Organist-Choir Master of the Church of the Epiphany in Chicago.

Homecoming Victory For Bears

By Gregory Mathis

The Bridgewater State College football team thrilled an enthusiastic home crowd Saturday, as the beat Curry College on Homecoming Day, 24-12.

"Winning the Homecoming game meant more than these points," said Bears Head Coach Peter Mozaffar. "It's an onetime weekend when most of the students stay at school for homecoming events, and of the alumni come back, too. I think this game really means a lot to the seniors especially.

The Bears were not assured that the 1,500 plus people at Swenson Field went away pleased with their team's performance. Bridgewater was facing a tough Curry squad that features the number one quarterback in the New England Football Conference in freshman Bob Barnett and the number one wide receiver in Mike Blau, who came into the game with 24 receptions, just two behind the Bears' Steve Hughes.

Defeating the Bears, the Curry Colonels led the NEC in passing yardage, but were last in rushing, therefore, the Bears defense was not to be taken lightly. The Bears' defense was bolstered by defensive back Angelo Lagugnini and safety Paul Damone.

The first quarter featured both teams driving the ball well, but not being able to capitalize. The only chance came at the five minute mark of the period, when Curry attempted a 28 yard field goal that was blocked by defensive back Angelo Lagugnini.

The Bears defense finished the first half of the game and the defensive surge, giving Bridgewater a 7-0 halftime lead.

Punting from ~a yard line, GB Mark Amiotte began to move the Bears' offense 40 yard run by Dave Buckley, and an additional completion to Scott Johnson set up a first and goal situation on the 1 yard line. Amiotte then called his own number on the next play and drove through the line to punch it into the bucket 6-11:36 of the second period. George Remmick kicked the extra-point.

Then, just seconds later, Mitchell Degeneva intercepted a Barnett pass and returned it 40 yards. That, along with a clipping penalty on Curry out the ball on their own four yard line, 14th and final field goal chance. The Colonels then found Tight End John Patel in the end zone to tie the game 6-6. That TD came at 1:10, just 28 seconds after the first. But, Bridgewater didn't throw down yet. On the ensuing kickoff, Curt tumbled and John Tagliere of Bridgewater recovered it on the Curry 17 yard line.

Fullback Brian Mahoney took the next handoff from Ambrose and burst through the line for a 4 yard pickup, leaving it 1 and goal on the 13 yard line.

Buckley then got the call, going from two yard out. The PAT was good, and Bridgewater took a 13-6 lead.

The Bears again capitalized on the second quarter, as they began the second-quarter kickoff return and accepted a pass on Curry's 19 yard line. The Bears again capitalized on the second-quarter kickoff return and accepted a pass on Curry's 19 yard line. The Bears again capitalized on the second-quarter kickoff return and accepted a pass on Curry's 19 yard line.

**Massachusetts at Bridgewater**

The one weekend where most of the students stay at the one-college town is during Homecoming Weekend. The Bears Head Coach, Peter Mazzotta, ‘72, and the number one wide receiver in his second year at Swenson Field, senior tight end Mark Ambrose, are both excited about the upcoming game.

**The Bears defense finished the second quarter.**

The Bears defense finished the second quarter with 10 tackles, led by defensive back Angelo LaRocca. The Bears went ahead 14-0 at halftime with two touchdowns, both scored by Ambrose at quarterback, but the defense was unable to stop the Colonels.

**Bridgewater opened up the second half, but they began the second quarter with three touchdowns.**

Bridgewater opened up the second half with three touchdowns, leading the Bears at 24-0 on the ensuing kickoff. Ambrose scored the remaining touchdown of the half with two, and scored the second touchdown of the game, on a 14 yard pass, leaving it 17-14 at halftime.

**The Bears offense scored on a 15 yard run by Dave Buckley, and a 10 yard run by Mitch Depena.**

Bears Business

By Mike Storey

Did everybody have a nice, relaxing Homecoming wee-

kend? Hope so. For those of you who didn’t make it, I’m sure you belonged to the Bears Football team which gave us something to cheer about after that super performance on the football field.

Yes, the Bears earned their record at (3-3) by trouncing the Curry Colonels (34-12). The Bears capitalized on three Curry turnovers in the second quarter to pad the score, and permitted one unanswered point in a mere 2:20 of game time.

After a Colonial fumble was recovered by the Bears’ defensive line, Mark Ambrose hit Scott Johnson with a 54 yard strike to the one-yard line where Ambrose took it over for his first TD of the day. Defen-

sively, the Bears’ specialty was a three Curry turnovers in the second quarter. The Bears’ defensive line scored with a pass of 34 yards from quarterback Dave Buckley scored the first of his three touchdowns on the day.

“Quite the week” goes to Dave Buckley who has his best day ever as a college ball player. Last game after throwing two touchdowns pre-

viously, he completed a 45 yard pass in a comeback of a half-time lead.

The next Monday they played against Plymouth State and scored their 30th yards for 30 points. But this time when asked how his legs felt after the game, he replied, “You can say I really pulled one out tonight.”

The Bears open this Saturday against Roger Williams University at 1 p.m. in the large gymnasium. The Bears need to win this game to have a chance to make the New England Conference

Championships.

Rugby Team

Wins In Front of Large Crowd

By Peter MacDonald

The Bridgeport Rugby Football Club improved their record to 2-1 by beating rival, University of New Hampshire with a score of 25-0. The Bears played their first game after being shut down by the :-

New England. This week the Bears will be down the Wycliffe field hockey team to the Tilbury field hockey team which finished in a 6-4 win last weekend. Both teams had a hard time finishing the head and they seemed to lose their focus on their own game.

In the combined4 weekender, the teams were able to dominate the Curry defense through the first half of the game. However, the Bears bent but did not break as they continued their winning streak and seem to be on their way to a great finish in the season.

The women’s tennis team defeated Longwood University with a score of 8-7. The Bears have continued their dominance in the women’s tennis team and will be ready for their next tournament game this weekend for the NCAA tournament.

Women’s Tosses Goes Undefeated

By Mark Desrochers

The Bridgeport Bridgegate women’s tennis team finished the 1983 fall season undefeated. The Bears women’s team had only one loss: a 3:2 defeat to Nichols College on Saturday, March 13 at Bridgeport.

The Bears high season started with a 5-2 win over Nichols on Saturday, October 15. After that, the Bears won their second game of the season with a 7-4 victory against Nichols. The team then played a 6-1 victory against Nichols on October 19 and their last game of the season was a 7-4 win over Nichols on Saturday, October 22.

The Bears will be playing in a tournament in a few weeks and hope to continue their winning streak. The women’s tennis team has been a consistent performer throughout the season and is looking forward to continued success.

X-Country Update

On Wednesday, October 27, the Bridgeport Bridgegate men’s team placed fifth in the annual tournament at Bridgewater State. Two team members, Mass Highway and Framingham Mass Highway, almost won over BSC Two but were defeated by BSC Two in the end. The Bear’s coach, Kevin Reardon, explained that there was a "tough race" between them and BSC Two. He said that "there are only a few more races left in the season and we are looking forward to the upcoming tournament." The Bears have hope for a good result in the upcoming tournament.

The Curry Colonies (34-12). The Bears maintained a three game lead in the Franklin State defense on the Colonial Conference, and played very well against Nelson, 4-2 and senior tackle Matt Duggan also contributed to the victory in their 1-09-30 Mon.-Wed. 8-12pm, Thur.Sun. 8-11pm (after IM volleyball has been completed). The Bears are coming off a big 1-0 victory over Western New England College.

There’s a tough schedule ahead, but the Bears have the edge in the Past.”

Women’s Tennis Goes Undefeated

By Mark DeRosa

The Bridgewater State women’s tennis team finished the 1983 fall season undefeated. The Bears women’s team had only one match this fall, against Keating and Joe Reordon, both senior players in the Mass. Maritime was completed.

Hayes Field Hockey named one seed in ECAC Division I tournament (Oct. 29). The ladies are currently in sixth place in the six-game winning streak and seem to have a good chance to close the season with a good record. The Bears dominated the defense and were able to outscore their opponents in the first half of the game. They did not allow their opponents to enter the box until the second half of the game. They scored three goals in the second half to seal the victory.

The Bears are currently in third place in the Colonial Conference and are looking forward to their next game against Framingham State University. They are currently in second place in the conference and will be looking for their first win of the season.

**Parking Lot Expansion Approved**

By Paul Foster

Commuters will have more parking spaces to choose from in the near future. The college's Board of Trustees approved $58,000 dollars for their October 21st meeting for the expansion of the North Hill commuter parking lot. Included in the budget is $3,500 dollars for lighting fixtures.

The expansion will take place at the south end of the parking lot along the railroad tracks in a rectangular lot. The project will be supervised by the Associate Director of Planning and Development, said that about 100 new parking stalls, nine feet wide and 18 feet long, will be created. Design and preparation work is under way now and is being done by the college, sold Perry. The work will be done on a day by day basis and will last for a week. Should the weather cooperate, the Associate Director was able to discuss the expansion project under the supervision of Perry. Construction will start on the last disruptive days, either on a Tuesday or a Thursday day. Perry said that the college is trying to keep the parking lot as clean as possible.

By Joe Gouveia

Due to recent growth in the enrollment of students at Bridgewater State College and the attendant problems concerning parking, facilities and transportation have arisen. Roughly 297 of the college population are commuters or off-campus students. When it comes to finding a parking space there leaves many automobiles on the softball field in the morning. In order to help other commuter students find the nearest parking space a new parking system has been put into affect.

The new parking system is a computer based system that will help students find the nearest parking space. The system is operated by a computer that is located in the College Union and will be available 24 hours a day.

The system works by using a magnetic strip that is attached to the back of each students' key card. When a student enters the lot the computer reads the magnetic strip and the computer then searches the parking lot for the nearest open parking space. The computer then displays the location of the nearest open parking space on the students' key card.

By Janet Cofly

During the past week two or more students have been attacked by men in a dorm. The students were attacked while they were walking around their rooms and in one case while they were showering. The men would then enter the room and attack the students.

The dorms are located in the city of Bridgewater, when they were attacked they could not be attended to by the local police because of the emergency situation instead of police officers.

To get a better understanding of the problems concerning the fire alarm system at the Hill the Comment had the opportunity to speak with Fire Chief C.A. Levy of the Bridgewater Fire Department.

The fire chief stated that the fire alarm system at the Hill is one of the best fire alarm systems in the state. The system is designed to be able to detect any fire that may occur in the building and notify the fire department immediately.

The fire chief also stated that the fire alarm system at the Hill is fully compliant with the National Fire Protection Association standards.

A number of residents at the Hill that the Comment spoke with also confirmed that the fire alarm system is operating adequately.

Many of the residents at the Hill believe that the fire alarm system is operating adequately.

By Beth Ward

On Wednesday, October 11th, the Massachusetts Senate overwhelmingly rejected the proposed bill to raise the Commonwealth's state income tax by 20 to 21% by a vote of 7 to 27.

On Tuesday and Wednesday of this week, hundreds of students from colleges and universities around the state demonstrated against the bill.

In the final vote defeating the measure, the likelihood of this bill passing in the legislature in future sessions does not appear great.
