Courts To Be Renovated

By Edward D. Huntress

A plan to convert the tennis courts between the Student Union and Scott Hall into an Olympic-size basketball court is now under consideration by the Student Government Association. A special committee, Ad Hoc, has been set up to investigate the possibilities.

The proposed Olympic-size basketball court would be equipped with new steel fencing, resilient outdoor playing surface, and lighting. Construction could start as early as next spring with the court opening for use approximately one month later.

Total cost for the project is estimated at $30,000, due mainly to the high cost of steel and renovating.

According to Paul Dobson, President of the S.G.A., “Things are looking good for possible funding.” Two thirds of the money is to come from the S.G.A. fund. Because of the unexpected increase in enrollment, an extra $20,000 was collected for the S.G.A. fund. As Paul Dobson has stressed, the S.G.A. is to get the money needed for this project.

This proposal would be voted upon at the November 1st S.G.A. meeting. “This offer of $20,000 was never even anticipated as funds,” Dobson said. “When the S.G.A. budget was being decided, the surplus money was not considered. Consequently, the money needed for the new court won’t be taken away from the budgets of any student organization.

Additional funding of at least $1,000 has been offered by Dr. Braun, Chairman of the Physical Education department. Bo Ruggerio, Athletic Director, will send a proposal to the Education department. Dick Verno, Student Union Director, will be sending a proposal to the Trustees for the Nickel since $500 and some of the new equipment. Dick Verno, Student Union Director, will be sending a proposal to the Trustees for the Nickel since $500 and some of the new equipment for the S.G.A. fund to be voted on.

The proposal will probably be voted on at the S.G.A. meeting sometime in this month. Meetings are held every Tuesday at 6:00 p.m.

Masspirg Hotline Opens

By Bonnie Bowden

Are you one of the many who have been frustrated by a “telephone” car, only to find out it’s a “scrum”? Have you ever been discriminated against because of your “age”? Are you a young student who has been harassed by your landlord? Well, you have certain rights and now there is someone to help you understand your rights as a consumer.

Starting November 6th, the BSC chapter of MASSPIRG will open their consumer hotline and small claims court assistance service.

The hotline is established to answer student’s questions on their consumer rights and also on the small claims court system. Staffed by PIWG volunteers, the hotline’s primary importance is to inform you of your rights and to prevent you from being harassed by your landlord, or any other consumer rights and don’t know where to turn next.

A few technical difficulties have delayed the hotline’s opening but now MASSPIRG’s chairman Steve Malo says “We’re all set to go.” Malo expressed the hotline will be for the BSC campus community only, for further assistance, expand to the Southeastern Mass. area slated for the end of the year.

The volunteers, after weeks of preparation and brushing up on consumer laws and the small claims court system, are eagerly awaiting opening day. Dabi, Curtin, “hotline volunteer, said, “We feel we can legitimately help answer a lot of questions many students have always felt helpless about.”

The hotline hours will be Monday through Friday, 10:00-3:00 p.m. and the number is 607/253. Anyone wishing to join the hotline will join by contacting the PIWG office, located near the Rockwell in the Student Union.

In this age of high inflation and the unstable economy, it’s foolish not to know your money’s worth or be unfairly discriminated against, especially when help is as close as your telephone.
The Editorial Response...

Rebutter page

Dear Editor,

I read your editorial regarding the recent controversy surrounding Operation Buck-A-Tuck and was disappointed to see a lack of objectivity and fairness in your writing. I believe that your comments were biased and unfair, and I feel that you failed to adequately address the arguments presented by me in my previous letter.

I would like to remind you that Operation Buck-A-Tuck was a service-oriented event designed to provide comfort and support to the residents of our dormitory. It was not intended to create discomfort or embarrassment for anyone involved. I believe that your portrayal of the event as a form of sexual harassment is not only inaccurate but also harmful to the reputation of our campus.

Furthermore, I would like to point out that your statement that "every girl has the right to refuse a backrub" is not true. While there is no requirement that a girl must accept a backrub, it is important to note that sometimes girls may feel that a backrub is a thoughtful and caring gesture. It is not fair to generalize and assume that all girls will reject a backrub.

I would like to conclude by asserting that I believe that Operation Buck-A-Tuck was a positive and beneficial event for our dormitory. I urge you to reconsider your editorial and to recognize the good intentions behind the event.

Sincerely,

[Your Name]
The Editorial Response...

In reading any journalist’s work on a regular base, a decision must be made by the editor-in-chief or the entire editorial board as to what the focus of the weekly will be. This situation was clear when my Editorial Response was turned in to the editor last Thursday. Ms. Scroggs’ commentary and my Rebuttal page 4 are one of the situations that most illustrate the concern of the women’s willingness to assume the role of ‘mother’ and ‘sister’.

Beyond that, however, she has an additional individual limitations which, if looked at as a pattern, tend to a reality studded with mistakes and silly assumptions. Although they assume that Ms. Scroggs’ letter responding to ‘Buck-A-Tuck’ is lacking in that specification.

By Daniel R. Fishman

As a 1979 masters graduate of BSC I have been a regular reader of The Comment for the past four years and I cannot help but notice the lack of political correctness that is reflected in the various issues of the paper. I have read your paper to a fault and it is obvious that there is no news or sports story. It’s almost as if the paper had reported the story in a completely different way. I believe that this is reflected in the way that Ms. Scroggs’ letter was presented.

Then there’s the humor that is presented and I must say that this is the most serious issue of all. The Comment needs to take an active role in the future and hold our journalism to a higher standard.

Dear Editor,

I am writing to express my concern for the editorial content of The Comment. As a reader of the paper, I have noticed a recent trend of censorship and lack of representation of minority voices. This is particularly concerning given the importance of free speech and the role of a student newspaper in promoting diverse perspectives.

I urge you to consider the impact of your editorial decisions on the preservation of a healthy and inclusive campus community. As students, we are entitled to assume the role of ‘mother’ and ‘sister’.

Sincerely,

[Signature]

Rebuttal page 4

Dear Ms. Scroggs,

I would like to respond to the series of comments on the subject of ‘Buck-A-Tuck’. I believe that these women’s willingness to assume the role of ‘mother’ and ‘sister’ is a form of sexism.

As a 1979 masters graduate of BSC I have been a regular reader of The Comment for the past four years and I cannot help but notice the lack of political correctness that is reflected in the various issues of the paper. I have read your paper to a fault and it is obvious that there is no news or sports story. It’s almost as if the paper had reported the story in a completely different way. I believe that this is reflected in the way that Ms. Scroggs’ letter was presented.

Then there’s the humor that is presented and I must say that this is the most serious issue of all. The Comment needs to take an active role in the future and hold our journalism to a higher standard.

The names of the Helpful Tuxedos were included in the ad at the request of the president of the organization. The org was not aware of the famous quote "the man who planted trees," so it is not out of question that the "man" who planted these trees was the state. The state is the only one that could have the word the woman was looking for.

As far as the use of the English language goes, it was not thinking in terms of "the state," but rather the English language is constantly changing. The English language was not aware of the new rules. When I changed the spelling of "Ms. FiskDr] it mattered to the ad at the request of the president of the English language. The state was aware of the new rules, but it was not aware of the rules of the English language. When I changed the spelling of "Ms. FiskDr] it was the ad at the request of the president of the English language. The state was not aware of the rules of the English language.

Bach (from page 1)

I was happy to see that the state was not aware of the rules of the English language. When I changed the spelling of "Ms. FiskDr] it was the ad at the request of the president of the English language. The state was not aware of the rules of the English language.

Bach (from page 1)

So you can see, the point is, the state was not aware of the rules of the English language. When I changed the spelling of "Ms. FiskDr] it was the ad at the request of the president of the English language. The state was not aware of the rules of the English language.

The Twilight Zone

By Mark Pimentel

You're sitting in your dimly lit room on a Friday evening. The local television station is running reruns of The Twilight Zone. You're in the middle of an episode titled "The Thirty-Nine Steps." It's a tense scene where the protagonist is trying to get through a crowd of people to reach his destination. You're immersed in the story, watching as the protagonist's situation becomes more and more difficult. You can almost feel the tension in your gut as you watch the episode unfold.

At 10:00 p.m. Your television is hooked up to a 300-watt lamp, and you're watching The Twilight Zone. Black and white, it's a different world. The sound of the old-fashioned television is like a lullaby. You're transported back to another era, experiencing the stories as they were originally meant to be told.

The show is running long, and you're becoming restless. You've been watching for over an hour, and you're missing your favorite character, Mr. Ben. You're hoping that he'll make an appearance soon. You're curious about what will happen next. You're lost in the story, and you're feeling a sense of nostalgia that you haven't felt in a long time.

At 10:30 p.m., the episode ends. The characters pack up their things, and they're off to their next adventure. You're left with a sense of satisfaction, knowing that you've experienced something truly special. You turn off the television, feeling a little bit empty. You know you'll be dreaming about The Twilight Zone tonight.

The show was created by Rod Serling, who was a master at blending science fiction and horror. He was also known for his ability to write compelling scripts. The show ran from 1959 to 1964, and it was one of the most influential TV shows of its time. It has been praised for its depth and its ability to explore complex themes.

The show was a hit, and it helped to establish the genre of science fiction as a serious art form. It continues to be celebrated today, and it's a favorite among collectors and fans of classic TV shows.

You're feeling a little wistful as you look back over the years and think about the stories you've watched on The Twilight Zone. You're grateful for the opportunity to have experienced something so timeless and so compelling.
**And Justice For All?**

**By Ronald M. Hodge, Esq.**

Drunk driving continues to be a hot issue in the media, in the courts, and in the legislature, where just recently a bill to impose a $250 fine for a first offense and $500 for a second offense on anyone convicted for drunk driving who, after being arrested, refuses to take the test is being considered. A person arrested for drunk driving who refuses to take the test is later found to be under the influence of intoxicating liquor.

However, it must be pointed out that paragraph (1)(e) of Section 263, Chapter 55, which reads as follows:

A person held in custody of a police station or other place of detention who is operating a motor vehicle with a blood alcohol content over the legal limit, is not entitled to refuse admission to a breathalyzer test while in custody.

Since the breathalyzer test is being used to ascertain other motor vehicle violations, such as operating under the influence of intoxicating liquor, it exists for refusing to take the test is not admissible as evidence of the determination of the accused's guilt or innocence. If the accused was under the influence of intoxicating liquor, the results of the test referred to by the police officer would be inadmissible as evidence of the determination of the accused's guilt or innocence.

263, Section 5A. The BMV administration was holding a two-day seminar for all licensed drivers in the area to discuss the dangers of alcohol on the roadways. At the seminar, one of the main topics discussed was the importance of taking the breathalyzer test.

The seminar was attended by 100 drivers who were encouraged to take the test to prevent them from driving under the influence of alcohol. The drivers were divided into groups of 10, and each group was assigned a volunteer who helped them fill out the paper and take the test.

After completing the test, the drivers were given a certificate of completion and a pen to sign their name. They were then asked to fill out a survey that asked about their experience with the test.

test would be admissible as evidence in the determination of the accused's guilt or innocence.

**Attention Minority Students**

**By Rachel Cooper**

The trip to the Brockton Administration was sponsored by the Afro American Club and was attended by over 50 students. The trip included a visit to the Brockton Police Station, where students were able to see the Breathalyzer testing machine in action.

The trip was organized to help students understand the process of taking the Breathalyzer test and to raise awareness about the importance of not driving under the influence of alcohol.

The trip also included a visit to the Brockton Board of Education, where students were able to meet with school officials and learn about the role of the Board in the education system.

The trip was a success, and students were grateful for the opportunity to learn more about the process of taking the Breathalyzer test.

**VOLUNTEER CONSERVATION POSITIONS**

**THE STUDENT CONSERVATION ASSOCIATION**

The Student Conservation Association is now accepting applications for the upcoming 1983-84 School Year.

Applications are being accepted for jobs in the fields of conservation, forestry, and other related fields. Applicants must be between the ages of 16 and 20 years old and must be available to work for the entire school year.

In closing, I want to express my appreciation to all those who supported the program and to those who volunteered their time and efforts to make it a success.

By Cyndy Rabin and Martha Mathieu

Are you interested in working in the area of wildlife, environmental conservation, or any other field related to the environment? If so, you may be interested in applying for a position with the Student Conservation Association (SCA). The SCA provides opportunities for young people to gain hands-on experience in various conservation-related fields and to make a positive impact on the environment.

The SCA offers a variety of positions, including those in the fields of forestry, wilderness, and conservation. Positions are available in both paid and volunteer capacities, and applicants are encouraged to apply for positions in their area of interest.

To apply for a position with the SCA, you must submit an application form and a resume. The application form can be downloaded from the SCA website or obtained by calling the SCA office.

The SCA offers a range of benefits to its members, including training opportunities, job placement assistance, and leadership development. Members also have the opportunity to work with other like-minded individuals and to make a difference in their communities.

The SCA is committed to providing opportunities for young people to gain valuable skills and experience in conservation-related fields. If you are interested in serving your community and making a positive impact on the environment, consider applying for a position with the SCA today.
By Donald M. Hodge, East

Drinking chicken to be hot in the media, in the courts of the legislature, where just a recently a bill to close the bars until 2:15 is expected to be HB 219. Most opponents say that the majority of those favoring the drunk drivers will be locked in with the parents as he or she or she will elect to see a breathalyzer test administered by the police. This is an individual whose rights a person or whose rights an individual has regarding to the police, the consequences of drinking and driving while operating to use it, and the significance of the test.

The Friends of Bridgewater State College
Starting on foot on the afternoon, on a sunny, warm day, the event drew approximately 1000 people from the college and surrounding community, according to Winter Deedy, 120-100 to the event.

Musical entertainment was provided by a variety of talented people, for the Friends. Piano provided the harmonica sounds of a four piece band and services as, delicious lunch meals, pictures taken by the Bridgewater Bear, and monitoring individual health status.

Other parts of the festival included: vendors selling all types of merchandise for kids and adults; Fraternity and Sorority Rides for kids; and, everyone's favorite event—The Dunk Tanks. The Dunk Tanks alone took in over $1000 for the Friends as everyone came to take their chance and try to sink the officer or administrator in the vat of cold water quite a few times.

"dunkers" of the day was Breege Donen, who felt the chill of the water for the first time.

The Festival's coordinators, the Campus Union, near the Rathskeller, and the Campus groups, such as the Student Conservation Association, will help to keep on the events for more in the future. Judging from the people who attended the Festival, that's what will happen.

By Christopher Harwood

On Saturday, October 8th, the Bridgewater State College held their annual Fall Festival. Starting at ten in the morning and running until that afternoon, on a sunny, warm day, the event attracted approximately 1000 people from the college and surrounding community, according to Winter Deedy, 120-100 to the event.

Musical entertainment was provided by a variety of talented people, for the Friends. Piano provided the harmonica sounds of a four piece band and services as, delicious lunch meals, pictures taken by the Bridgewater Bear, and monitoring individual health status.

The Dunk Tanks alone took in over $1000 for the Friends as everyone came to take their chance and try to sink the officer or administrator in the vat of cold water quite a few times.

"dunkers" of the day was Breege Donen, who felt the chill of the water for the first time.

The Festival's coordinators, the Campus Union, near the Rathskeller, and the Campus groups, such as the Student Conservation Association, will help to keep on the events for more in the future. Judging from the people who attended the Festival, that's what will happen.

By Rachel Cooper

The trip to the Brookline Administration was arranged by the Student Government, and was a great opportunity for the students to learn about the city of Brookline.

The students were met by a member of the Brookline Police Department, who gave them a tour of the police station and explained the different roles that police officers play.

The students were then taken to the City Hall, where they were shown around by the City Manager and learned about the different departments that make up the city.

The trip concluded with a visit to the Brookline Public Library, where the students were able to explore the different resources available to them.

Overall, the trip was a great opportunity for the students to learn more about the city of Brookline and the different roles that it plays in the lives of its residents.
talent, and they are definitely a posi-
tive addition to the team," says
The Lady Bears were 3-3-3 in their
first 9 games and 5 out of 9 series
for the Lady Bears, but their im-
portant effort was no match for
the Vikings for the season as they
lost 5-15, 15-4, 15-3, 15-12, and
15-6. The entire team is
The Bears could take
this into the regular
season schedule.

Field Hockey Wins ECAC

Wildcats are still
playing well in the
ECAC and are tied
for second place
in the conference.

Bears Business

By Deb Santenosis

After a long season, the
Bridgewater State women's
volleyball team came home on
Monday night after a
match with Salem State Col-
lege holding the season's first
appearance in the Massachusetts State
Collegiate Conference (MSC)
for women's volleyball. The Bears
improved their overall record to
better than .500 as they cruised to a
3-0 win over the Vikings.

The Bears' first game had been
delayed due to a power outage
in the building, but they were
able to get the game started on
Monday night.

The Bears were the play of libero
Melinda Soucy, who seemed
to be everywhere at once,
with her powerful serving. The
day before the game, she served
three points in a row to ice the win.

The Lady Bears will take on
Salem State again on
Thursday night at
19:00 in the
Mascot Arena. They will be
trying to extend their winning
streak to six games.

The Lady Bears have
played well in the
ECAC and are tied
for second place
in the conference.

Bears (from page 10)

The women's field hockey team
finished their season with a
very solid 13-4-3 record. The
girls had an impressive run of
success last season, winning 15 of
19 games. This year, they
managed to hold on to
their winning streak and
made it to the ECAC Tournament.

The Bears are currently
13-2-2 overall and 8-1-2 in the
Massachusetts State Conference
which places them third in the
division.

The Lady Bears have
at least one win in
their first nine games.

**Field Hockey Wins ECAC**

**By Gregory Mathis**

With only one game remaining in the regular season, the 1983 Bridgewater State women's field hockey team, which is 5-6-0 this season, will have the opportunity to win in the Division III playoffs. The deficit may have been increased over the weekend with an impressive 10-0 victory over Framingham State for the ECAC Division III title.

**Follow The Wrestling Bears**

**By Jack Johnson**

The Bridgewater "Wrestling Bears" are not ranked in number and growing in every other school. If they are in the process of being formed and a wrestling season seems possible.

The returning veterans include Captain Greg Wilson (Massachusetts Division III champ-1983), Tom Devlin (3rd place New England-1983), Roger Johnson (3rd-1983) and several state high school places winners.

In the past, the wrestling team has been small in number and thus not very effective in New England competition. The Bears can be a very solid team.

**X-Country Update**

**By Douglas Benson**

The men's New England Championships were cancelled because of snow. The women's teams competed at Holy Cross last Sunday. The New England Country Championships and the New England Division III cross-country title are still in the works.

The Bears are currently 13-1-0 and 9-2-0 in the Massachusetts State Conference.

**Bears (from page 10)**

The women's field hockey team ended their season with a very solid (13-4-3) record. The great feat of the year was over this past weekend when they defeated Worcester Poly-technic Institute (2-1) in the First annual ECAC Tournament championship game. These ladies at the end of the year have thoroughly impressed us. The weather was not as good as we would like; however, fullback Brian Shoel (from Brockton) has been aan impressive goal-scorer throughout the season. The Bears have won 3-2-0 and the like.

**V-ball Goes Undefeated, Wins Conference**

**By Deb Santhes**

After a long season, the Bridgewater State women's volleyball team came home on Monday night after a match with Salem State College, having completed an exciting first place in the Mass. College Athletic Conference (MAC) for women's volleyball. The Bears have finished as the top team in the conference by virtue of a 13-2 record. Salem State, which had 3-1 in MAC going into the match, took it all in a game of 5-3 out of 5 sets for the Lady Bears. But their momentum was no match for the Lady Bears. It only took 5 sets for the Lady Bears.

The Bears played the way of backscraper Debrai D'Antoni, who picked off two Bobcats and one in the final set, and 60-47 in the middle set to capture the MAC title.

The great feat of the year was over this past weekend when they defeated Worcester Polytechnic Institute (2-1) in the First annual ECAC Tournament championship game. These ladies at the end of the year have thoroughly impressed us. The weather was not as good as we would like; however, fullback Brian Shoel (from Brockton) has been an impressive goal-scorer throughout the season. The Bears have won 3-2-0 and the like.

COURTS TO BE RENOVATED

By Edward D. Huntress

A plan to convert the tennis courts between the Student Union and Scott Hall into an Olympic size basketball court is now under consideration by the Student Government Association. A special committee, Ad Hoc, has been set up to investigate the possibilities. The proposal Olympic size basketball court was designed with new steel fencing, resilient outdoor playing surface, and lighting. Construction could start even as early as next spring with the court opening for use about one month later.

The cost for the project is estimated at $30,000, due mainly to the high cost of steel and refraining. According to Paul Dobson, President of the S.G.A., "Things are looking good for possible funding." Two thirds of the money is to come from the S.G.A. Due to the unexpected increase in enrollment, an extra $20,000 was collected for the S.G.A. fund. As Paul Dobson informed the S.G.A. meeting on November 1st, "This other $20,000 was never even anticipated. It's the surplus budget that was deducted, the surplus money was not considered. Consequently, the money needed for the new court won't be taken away from the budgets of any student organization. Additional funding of at least $1,000 has been offered by Dr. Braun, Chairman of the Physical Education department. Bo Ruggerio, Athletic Director, will be sending a proposal in as early as this month. There are errors to obtain additional funding.

The proposal will probably be voted on at the S.G.A. meeting sometime this month. Meetings are held every Tuesday at 6:00 p.m.

Masspirig Hotline Opens

By Bonnie Bowden

Are you one of the many who have been frustrated by a 'bargain' car, only to find out it's a cashier? Have you been discriminated against because of your race? Are you being harassed by your landlord? Well, you have certain rights and now there's someone to help you understand your rights as a consumer. Starting November 3rd, the BBB chapter of MASSP on will open their consumer Hotline and small claims court advising service.

The hotline is established to answer student's questions on consumer rights and also on the small claims court system. Stafed by PRG volunteers, the hotline's primary mission is to help students who are harassed by their landlord.

The volunteers, after weeks of preparation and brushing up on consumer laws and the small claims court system, are eagerly awaiting opening day. Dali Curran, hotline volunteer, said, "We feel we can legiti-
