Students voice need for changes in dining halls

**By Howard Christopher**

The Comment commonly receives a poll of people who use the dining facilities. When asked to rate the quality of the food served in the dining halls this past semester, 15% responded no, 17% answered good, 32% answered satisfactory, 24% eat commented that a smaller meal ticket should be extended. Also, some part-time instructors, members of the American Federation of State, County, and Municipal Employees (MFSCA) or its parent group, the Massachusetts Teachers Association (MSCA), are concerned about their status as part-timers. Chairman (and MSCA President) Bill Murphy explained, "We ... really need to stand idly by as awareness of the problem is not enough."

The part-time faculty at BSC must part-timers may plan to extend their union status, and possibly run for membership in the works.

**By Paul Satloff**

The part-time faculty at BSC must part-timers may plan to extend their union status, and possibly run for membership in the works. With the hiring/wage freezes of the last two years, "looking somewhere else" has become a necessity for part-timers. The hiring/wage freezes of the last two years, "looking somewhere else" has become a necessity for part-timers. The hiring/wage freezes of the last two years, "looking somewhere else" has become a necessity for part-timers.

**Keynote Speaker for “A World of Difference” relates discriminatory incidents**

By Pen Buchanan

Virginia Mae Grosvenor stepped quickly to the podium to deliver her keynote address. Her message was loud and clear: "Our world is partitioned by race, gender, and status. It is to be expected that these are not going to be erased or eliminated."

The noted author was the keynote speaker at the “World of Difference” conference held on April 6. The conference is one of two in the nation to promote awareness and examine the intersection of race, gender, and status. This event also included various workshops on topics such as dialogue, inclusivity, and power dynamics.

**Auto safety survey compares BSC to nation**

By Jane Detweiler

The auto safety survey compared BSC to the nation. "Our students are more likely to use seatbelts and wear helmets," said one BSC student. "I think this is because we have more safety education on campus." The survey also showed that BSC students are more likely to get checked for drunk driving and drug testing.

**Part-time faculty face losses**

*Cont. from p. 1*  feeling of commitment*?* on the part of the instructors. They raised the same involvement, the same availability to students, the same attitude toward the students. Part-time instructors who have been a part-time instructors,
NOW IT'S POSSIBLE TO BUY OR LEASE A NEW TOYOTA WITH NO DOWN PAYMENT.

Graduates: If you've received a verifiable job offer, we want to get you and your new career off to a great start—with a brand-new Toyota.

Toyota Motor Credit Corporation and your participating Toyota dealer are now making it possible to get the credit you deserve with two "quick approval" financing programs.

If you qualify, you can buy or lease a new Toyota and generally no down payment—or security deposit will be required.* What's more, we can even process your loan within 24 hours.** See your participating Toyota dealer for program specifics.

To apply, you'll need a current driver's license and proof of employment or job offer.*** You may find it helpful to bring along any bank or credit card numbers.

Once you're approved, you can take your choice of the most exciting line of new cars and trucks Toyota has ever offered, including the all-new Corolla FX16 GT-S Liftback.

So come on down to your participating Toyota dealer today. Fill out an application, and then buy or lease your new Toyota. Purchase or lease arrangements must be completed by June 30, 1987.

A new career and a new Toyota. Who could ask for anything more?

LEASE EXAMPLE: 1987 Standard Bed Truck, model 8200, based on manufacturer's suggested retail price. 48 monthly payments of $131.77, totaling $6324.96; End-of-lease purchase option is $2336.49; no further end-of-lease expense for abnormal wear and tear and excess mileage.

*No down payment required on eligible models, provided the amount financed is not more than the Toyota manufacturer's suggested retail price.

**Loan approvals M-F, 8:30 a.m. to 5 p.m.

***Proof of insurability required and no negative credit history. Employment to begin within 120 days of loan approval date.

Amounts may vary according to location; actual dealer price may vary.

SGA Notebook

By Ed Ward

The meeting began at 6:30 pm on April 4, 1987, with President DeWitt presiding. President DeWitt introduced the president of the Student Government Association, who explained the organization's role and responsibilities. He also introduced the faculty advisor, who discussed the importance of student leadership and engagement. The meeting ended with a discussion of upcoming events and activities.

---

Quality of dining hall food

Between 40 and 45 employees, including summer help, will be hired to work for the duration of the academic year. Some of them have already been hired, while others are still being recruited. This is the largest number of workers hired in recent years, which will help to ensure the quality of dining hall services.

---

Part-time faculty face losses

The number of part-time faculty members has declined over the past few years due to budget constraints and changes in the academic calendar. This has resulted in a decrease in the quality of instruction and student satisfaction. The administration is working on a plan to address this issue and improve the situation.
**Viewpoint**

**AIDS: THE CHOICE IS YOURS**

How fearful are we? The fear of AIDS is spreading throughout the land, and with good reason. AIDS is one of the most feared diseases facing college students today. Its danger stems not only from its physical effects on the people it affects, but also from the fear of it.

By Joseph W. Dragen, Jr.

Spring is in the air. Clothes are being shed, the trees are bare, and the ground is frozen. A Winter Olympics is on our minds. But wait! The warning signal is out. "You failed our three, ok, we're sorry, no credits." The positive signal that an "F" can indicate a drifting intellectual process as well as zero understanding of the student, not one of us, something comparable. Using "F" as a letter denoting failure does not make the student the most important, most meaningful or the least important. If anything, think of some words associated with an "F." Flunk, Fail, Flop, Pop, Faulty, Faible, Fag in the same light that "D" means "done." Does such a letter indicate the student completely lacked the knowledge of what could be his last chance? It did not fail, it only "enrolled." Could this be the sort of news that one is to hear, "Mr. Dragen, we were seriously erroneous on this test, won't you?" Tell me what you think about "Mr. Dragen, you flunked." There is nothing like this. It is a blow to the student and an emotionally draining experience. It is the same to the student and college life that there be high and low acceptance of both, and the ability to understand the students from both, are major elements in the maturation process.

Teachers, administrators, and educators have no right to designate a system that rewards performance on such a scale as the Bachelor's Degree, by making failure of such an undertaking a merely erroneous adventure.

By Jerry LaBelle

Our people where they can seek help and our students so that they would study. At such frequency factors, some brothers and pledge of no letters is not the official endorsement of a System. Any person who fails to review their Quarterly or Semester Warnings is not a true Brother. Additionally, food and soft drinks are always available to us. The fraternity does not have a strict dress code or a rule of no fraternities. This is the key to success in that you are attracting, but also the lives of everyone you have sexual contact with.

Sigma Chi Campigns for Alcohol Awareness

We can not teach them how to run their personal lives. We only urge each of you to be aware of alcohol this year. My major is Business Management. They library's hours in our presence have been extended to meet the students' needs and conveniently serve the students fully and properly. The library should be opened at least from 6:00 a.m. to 2:00 p.m. Monday through Thursday and 6:00 to midnight on Saturday. If a man is not smart enough to accept an "F" and carry on with great determination than before, then he does not deserve a Bachelor's Degree. And before you say that he knows he failed, no, the purpose is to show that he knows he F'ed up, no D. O'Malley from an 1 to three of those right-wing, liberal ideals that offer the student an ease of mind, while sucking him at the same time. Proponents of this position sound like they want to challenge the legislature and rewrite of a system. Not a single "E" as a letter denoting failure does not make the student the most important, most meaningful or the least important. If anything, think of some words associated with an "F." Flunk, Fail, Flop, Pop, Faulty, Faible, Fag in the same light that "D" means "done." Does such a letter indicate the student completely lacked the knowledge of what could be his last chance? It did not fail, it only "enrolled." Could this be the sort of news that one is to hear, "Mr. Dragen, we were seriously erroneous on this test, won't you?" AIDS: THE CHOICE IS YOURS

How fearful are we?

The fear of AIDS is spreading throughout the land, and with good reason. AIDS is one of the deadliest problems facing college students today. Its danger stems not only from its physical effects on the people it afflicts, but also from the fear it inspires. Nowhere is this fear more prevalent than on college campuses.

SCIENCE CHALLENGE

FREDERICK R. ROYCE

Editor & Publisher

By Joseph W. Dragon, Jr.

Spring is in the air. Clothes are being shed, the nights are open, and the Quarterlies or Semester Warnings are in our mailboxes. Warm! The warning slip says you failed to pay your W&C, KO, or K. No in; the positive sense that an "F" can indicate a drifting intellectual course as well as suborned or evil. Utilizing "F" as a letter denoting failure is a wise and safety precaution for a failing grade has gone too far. It lets people into the classroom, thinks of some words associated with an "F": P, F, Flop, Flop, Flop, Fauly, Farewell. That dominant form of failure is often viewed as the simplest, most schematic, most obvious way of justifying information. Without a doubt, I'm a bucking bandwagon; perhaps I'm even a trip to the eternity.

The institution of the policy of "F" for failure would be interpreted as one of those right-liberal ideas which are the policy of the students, without taking the opposite side, the ancient and derives from the outside in. To give a full-fledged student a failing grade is to court what I believe to be the last of my common sense. That it is growing, true, not only because of the growing needs of what was impossible to educate me as a high-powered student, is itself a reason for not improving the potential of the student. And if you're not teacher, administrator, or teacher, have the right to express in supercilious, it's a head. Evidently, a student on an "F" is a clear-cut evidence of avoiding the pain that is sure. In short, if a student is not wrong enough to accept an "F" and carry on with even greater determination and also believe that before, then he does not deserve graduation. And you are not ready to accept an "F".

To those proponents of the "F" for failure who would tell me to read your mind. The bottom line of failure, the song on the soundtrack, "Richard Hung Himself" is not a group of average and variable, almost standard badges. We try to be better than our class. "Ragman the Hung Hung Himself" are not worth the price of the album. The album is good, because the other six songs barely are. I'm not worried.

Don't get me wrong. We have a few cuts. We have a little bit of stuff." From the first album, a 17-minute song of Run-DMC. The song is a disas-

Sigma Chi Campaigns for Alcohol Awareness

To The Editor:

The Sigma Chi Fraternity has begun an active campaign to combat alcoholism. One of our efforts began with the Sigma Chis myself, and I believe that this is a very important community. Students should be made aware of the dangers associated with alcoholism. Public support is needed in the fight against alcoholism.

Sports Public Advice Sought from BSC Protestors

To The Editor:

I found it appealing to read about the student protest in the April 5, 1987 edition of The Comment. I am a junior. My major is psychology, and I plan to be a part of the Bridgewater College community. I have been to a few protests that I feel could have been more successful. I believe that the protest could have been more successful if the students had been more organized. It is important to have a clear plan of action before a protest takes place. I would like to see more public awareness campaigns in the future.

Barbara Bluhm, an art teacher in the Silver Lake Public Schools, presented a lecture on the current exhibit in the Anderson Gallery on March 26. On display since March 23 in the Anderson Gallery is an exhibit entitled Vodu: Images and Objects and extends to April 10. This exhibit consists of voodoo pieces, largely from Haiti, which emphasizes both religious and artistic features.

Ensemble Theatre prepares for spring show

By Dr. Richard Wary

The Ensemble Theatre is now being rehearsed for its spring production, Moliere's hilarious satire, The Imaginary Invalid. The production will be performed April 11 through 21 in the Rozanski Campus Center Auditorium. The Ensemble Theatre production features a cast of eight doctors who prescribed drugs and cures for certain ailments. The Ensemble Theatre production features a cast of eight and is in complete with musical score of the seventeenth century French theater. Tickets will be on sale beginning April 15. For further information, contact the Ensemble Theatre office in the Rozanski Campus Center.

More information call (617) 698-5239.

The Imaginary Invalid

The Imaginary Invalid is the last of Moliere's plays which will be presented in the spring production of Mountain Weller's adaptation of the classic Moliere play "Les Liaisons Dangereuses" by Dr. Stephen Levine, professor of Theatre Arts, will play at the Campus Center Auditorium. For tickets information and reservations call Roger Clough at (617) 698-6264 or Bob Emery at (617) 698-6474.

Local Events

The annual Spring Ball will take place Friday, May 2 at the Boston Park Plaza Hotel in the Imperial Room on Main Street. The entertainment will be provided by the band, Morning Light, and DJ. Paul Bonni. Also $11 dinner for four and one state will be held. Tickets are on sale in front of the Bookstore. For room reservations call 800 - 426 - 2022.

Auto safety poll taken

Answers of local respondents differ from national findings

By John R. Burns, III

In last week's issue of The Comment, we reported on the nationwide poll conducted by Northeastern University regarding people's opinions of the national safety laws in their own states. The respondents were all freshmen who conducted the survey. The results showed that the respondents generally felt that the procedures used to detect and punish drunk drivers were not overdone and, if anything, could be strengthened. The survey also asked giving drivers (for mandatory studio saw, such as this which was measured) in Massachusetts last November. The only area that the respondents to Northeastern's survey turned up a "yes" were the Northeastern undergraduates who reported on the positive experience of driving in Massachusetts last November. The responses to the question "do you approve of the mandatory installation of airbags in automobiles?" at cost of $500 to $1,000.

In order to study how the procedures of local and nationwide results show the Bridgewater Blood Alcohol Level Drunk Drivers? In this case, the Northeastern survey turned up a "yes" more than 60%. The responses to the question "do you approve of the mandatory installation of airbags in automobiles?" at cost of $500 to $1,000.

In this section, the Northeastern survey turned up a "yes" were the Northeastern undergraduates who reported on the positive experience of driving in Massachusetts last November. The responses to the question "do you approve of the mandatory installation of airbags in automobiles?" at cost of $500 to $1,000.

Auto safety poll taken

Answers of local respondents differ from national findings

By John R. Bern, III

In last week's issue of The Comment, we reported on the nationwide poll conducted by Northeastern University regarding people's opinions of the current safety laws in their own states. The responses turned in by the three pollsters who conducted the survey showed that the respondents generally believed that the present laws are too lax and many would vote to end them and much stricter laws that would be over nine. Anything could be arranged.

The survey also showed giving upper for mandatory seatbelts laws, such as the one which was proposed in Massachusetts last November. The only vote indicated that respondents to Northeastern's survey did not show a strong enough percentage for the Massachusetts law to affect significantly the sales of automobiles at any total of $500 or $1,000.

In order to try this opinion the respondents to the Big Three College newspapers conducted against 6th, 9th, and 20th, the national survey found 150,000 in favor. BSC survey results were 26% in favor, 48% against, and 16% showing no answer.

-Question 1- Roadblocks used to detect drunk driving. As was stated, 68% favored this on the national level, in comparison to 70% locally. 21% of our respondents were against the position and 7% showed no answer.

-Question 2- Installation of breath-testing devices in buses of transit. In this case 45% of those surveyed approved of the aids, with 37% opposing, and a small 12% undecided or no answering.

-Question 3- The permanent suspension of license for offenses involving is it a fatal accident. The only figure available to us on this question in the Northeastern survey was, "A strong majority," and the reader can decide for herself/himself as to whether this is more or less than 65% of our respondents, who gave the green light to this idea. However, only 22% of those objected to this idea, so it favors come out with a 2 to 1 ratio.

-Question 4- Effectiveness of the Massachusetts mandatory law. As the subject was changed from drunk driving to seatbelts, the people who responded to our survey suddenly began to change their opinions with the strongest to the original end. In fact, 90% currently have changed their original position. 76% of these polled felt that this law was at least somewhat effective in BSC respondents, though, when the numbers were broken down, 85% of those in favor and 80% of those opposed to the law in the Massachusetts study. 90% of the respondents in the Northeastern study.

-Question 5- The national survey found 150,000 in favor. BSC survey results were 26% in favor, 48% against, and 16% showing no answer.

-Psychologically Yours-

By Dr. Richard T. Colgan

If you want your children to follow your footsteps, be careful what you place your feet.

Little more than a century ago, Benjamin Franklin was a struggling young physician with a reputation for highly composed studies of the nerves of albatrosses, worms, and brook trout. In addition, he is the first scientific paper on the location of nerves in the fish. By the 60's, Eastern's research has been primarily interested in generating data. This may not sound like much, but think, it's a million.

Franklin's research was on personality. In a study of self-report surveys on the locations of nerves in the fish. By the 60's, Eastern's research has been primarily interested in generating data. This may not sound like much, but think, it's a million.

The coming week proves a fox for movement, entertainment and enjoyment. You may have to make some tough decisions about a problem from past weeks that you've had. Some deep discussions may arise, and you may have to face some difficult choices. The coming week will bring some surprises and unexpected events, so keep an open mind and be ready to adapt.
The Bridgewater State University (BSU) Rugby team is currently in the middle of their season and are hosting the first annual Alumni reunion match. By hosting the first annual Alumni reunion match, the BSU Rugby team proved that once a rugby team can be created, they can continue to get the great players they once had. For openers new to the game it may take a little while, but the players from the past have become great motivators for those that are trying to get into the sport.

The BSU Rugby team hosted the alumni reunion match on Saturday, April 11th, the team was hosting a Rugby Tournament, which included 8 teams from the Northeast and the Northwest. The team was hoping to have a good match with the alumni and to have a fun time.

Richard Baehn, the coach of the BSU Rugby team, said, "We had a great season last year, but this year we are hoping to have an even better season." The team is looking forward to the alumni reunion match and is hoping to have a good turnout.

The alumni reunion match was a great success, with over 50 alumni attending the event. The alumni were able to reconnect with old teammates and have fun playing rugby again.

The BSU Rugby team is looking forward to their upcoming matches and is hoping to continue their winning streak. The team is working hard to get ready for their next match and is looking forward to playing against some of the best teams in the region.

DAVID NEE

The Bridgewater State Rugby Football Club is excited to announce a big addition to their squad. By signing Springfield College RFC 164 on Saturday, April 9, 1987, Springfield will come out on fire, scoring in the first two minutes of the match. This did nothing but awaken the Visigoths on top 16-4, but Bridgewater was in charge. The Visigoths fought back and came to play a closer game in the Springfield end. The score was 16-14, and Springfield was the only winner in this one. The Visigoths played a great game, but a lack of experience was their downfall. The Bridgewater State College Visigoth Scott Visigoth scored a try for the Visigoths on top 16-4, a lead they would not lose.

The Bridgewater State College Visigoth team is making their way to the ECAC championship game. They are playing in their third winning match with the addition of new members to its ranks and during the outings. Diane Burke scored a try for the Bridgewater State College Visigoth team also.

The Bridgewater State College Visigoth team is optimistic about their games. Don't be surprised to see them play in the ECAC championship game. This capped off a 24-6 victory against the Springfield College RFC 164. Springfield was on top 16-4, but Bridgewater was in charge. **Announcements**

**SGA Conducting Spring Elections**

SGA will be conducting spring elections for the 1987-88 year in the month of April. All executives (President, Vice President, Treasurer, Assistant Treasurer, Student Assembly Chair, Student Assembly Representative, and Student Study Club) are elected by the student body. Any student who has taken a minimum of 12 credits at NEPA is eligible to run for any of the executive positions. To get more information and applications, please visit the Office of Student Services, Ext. 127.

**Protestant Campus Ministry**

Protestant Campus Ministry will hold a ticket sale for New England’s basketball game--Friday, April 11th. College ticket prices are $6.00 for adults full price, $3.00 for children; for students, $1.00 full price, free for students. Tickets will cost $3.00 each and will be sold during regular hours at the Student Center, Alumni Hall, and the Post Office. To be assured of attending, students should purchase tickets by April 8th.

**Student Voice**

The Student Voice is a forum for students to express their ideas to the administration. We accept articles, poems, jokes, and any other art forms that you wish to share with other students. Articles must be original and unpublished previously. Any student is allowed to contribute. Articles must be submitted to the Student Voice office in the Student Center or mailed to STE-400, NEPA. Articles can also be submitted to the Student Voice editor, Dave Koscielniak, at the Student Center, STE-400.
