President Indelicato visits Great Britain

By Bill Ward and Chris Perra

President Indelicato visited Crewe-Alsager College of Higher Education in Crewe, England on Tuesday, October 6 as part of his week long visit to Great Britain that began last Friday, October 2.

At Trinity College, Dr. Indelicato was introduced by William Kendall of the Department of Art and Jonathan Metrano is currently managing the College hosts Geographical meeting.

The grass gets no pity after a long day of school.

By Bryan Hayes

The Food Committee is continuing to work with Professional Student Food Service (PSFS) to better serve the student population. This past Tuesday's meeting resulted in several points of change.

First is that in the dining halls at Tillinghast and Shea-Durgin, eggs will be made available. A variety, including steamed, will be prepared depending on what and how the students want. Orange juice will be eliminated.

President Indelicato, who has links with towns in England/New England, began his lecture in Crewe, England on Tuesday, October 6.

Red and White Dinner highlights Homcoming weekend events

By Royce Hayes

To help kickoff Homecoming, the "Red and White" dinner was held from 6:00 to 8:00 p.m. on Friday, October 16, in the Executive. Over 100 attendees filled the Executive to attend the dinner and enjoy the food provided by the students.

Following the dinner, the president's "red" and "white" dinner will be held at City Hall. Everyone is welcome to attend.

Other events
Thursday, October 15
Dr. Court described Somerset United States.

Friday, October 16
The Homecoming Parade begins at 8:30 a.m. and the festivities begin at 8:00 a.m.

Saturday, October 17
Homecoming Kickoff Party The Denham Family Alumni Homecoming Dinner is at 6:00 to 12:00 midnight.

SQA Congress: What a mess

By John R. Burns III

In response to the fact that our cancellation of the Sunday meeting did not stop our annual congress, I am not surprised. After all, the Student Government has had a history of issues with the Student Government Board, causing problems in the past.

The meetings held on September 29 and October 1 by the Congress failed to improve the current situation. The Student Government Board was unable to address any of the problems that came to light during the meetings.

If the Congress wishes to improve its image in the eyes of the students, it must address the issues that students want and what ties are on the ballot. The Congress must work to change the current situation.

As a member of the Congress, I have been working to make sure that the students have their voices heard. The Congress must address the issues that students want and what ties are on the ballot. The Congress must work to change the current situation.

To the Editor:

S GC Congress: What a mess

By Edward I. Seidel

In response to the theme that our calendar life and campus life centered around "Getting ready for the next day." I would like to propose an alternative approach to the Congress. Our calendar is currently overloaded with activities, travel, and meetings. I believe we can improve our campus life by focusing on the "here and now." Let us consider the following: 1) Athletics: The Congress should endorse a policy of "admitting all" to all events. 2) Social Life: The Congress should consider a policy of "admitting all" to all social events. 3) Academics: The Congress should consider a policy of "admitting all" to all academic events. I believe these policies will improve our campus life and make it a more enjoyable experience for all students.

State Department offers challenge

By William R. Delaney

The State Department is currently offering a number of opportunities to students who are interested in pursuing careers in foreign service. These opportunities include internships, fellowships, and scholarships. Internships provide hands-on experience in various aspects of foreign policy, including diplomacy, development, and economic affairs. Fellowships and scholarships support advanced study in relevant fields. Interested students should contact the State Department directly for more information.

Indelicate on admissions policy

By Gerald R. Dabney, Editor

The recent admissions policy changes at Michigan State University have raised concerns among students and parents. The policy, which requires incoming students to have a minimum SAT score of 1200, has been criticized for disproportionately affecting minority students. The university administration has defended the policy, arguing that it is necessary to maintain academic standards. However, many students and parents believe that the policy is unfair and discriminatory. The issue is currently under review by the Michigan Department of Education.

Peer counseling available at the freshman center
By Paula Satinoff
Here at Bridgewater State College, there are many services available to help students participate more in and get more out of their college experience. Of special interest to freshmen is the Freshmen Center and the Peer Advising Assistance Program, which is currently headed by Mr. Thomas Walsh.

The Freshmen Center was begun in 1976. Professor Ann Coursley helps run the program, in addition to serving as many different positions of the Department of Health, Physical Education, and Recreation. She explained that the Center's purpose is to reach

"I was afraid, that if I

were to stay in a
camp like this,

I'd be afraid, that I

might not get

anywhere.

Furthermore,

the cadets were

wearing very

short pants, so

I said to myself

'I'm going to have
to wear pants'

in this weather.

It's primary

function is to

provide students

with a unique

opportunity. This

allows them to

learn leadership

skills, which they

can use in any
career. The ROTC

program also

provides valuable

leadership experience.

Some students take

advantage of the

program, while others

may participate more

in social aspects of

campus life. The

Peer Advising Assistance Program

is another valuable resource for

freshmen. It offers a specialized learning

program in a small group setting. It explores learning styles, career

advising, and other important topics. The program is open to all freshmen,

and those interested are encouraged to sign up.

Peer counselling available at the freshman center

By Paul .

Peer counselling continues to flourish on campus. Freshmen have access to the services of peer advisors, who are available at registration time, to help them with any academic or personal problems they may be having. The peer advisors are trained volunteers who have completed a minimum of 30 hours of training in peer counselling. They are available to help students with a variety of issues, including academic difficulties, personal problems, or just to talk about their experiences on campus.

Some of the contributions PA's can make to freshmen are meeting them at registration time, assisting them in making schedules and giving advice on getting around campus efficiently (e.g., not scheduling two classes back-to-back that are at separate ends of the campus, such as one in Boyden and the next in Burrill.).

Linda Tavares, one of the PA's, gave her perspective of the benefits of the PAAP. "We're on the same level as freshmen; they're more apt to talk to us than to an advisor. We're here for them." She explained that the concerns of freshmen who come to PA's fall into two categories: academically, they want to know about teachers, schedules and what courses to take; and socially, they ask about fraternities, clubs and the like. "Basically," she said, "we're someone to talk to, a sounding board for questions about college life. Freshmen should come up often and use the resources here. I myself would have benefited greatly as a freshman if I'd known about the program here..." The seven students acting as PA's this semester are: Patricia Grieco, Suzanne Lavoie, Moria McNamara, B. B. Rettleman, Susan Sullivan, Linda Tavares, and Natercia "Tess" Teves.

Jello Biafra: "Would YOU go to a lecture? I wouldn't!"
By Max Speed

"Happy Hour is now enforced by law. Curfews are set at seven p.m. You can't rob or demand a lot of things from your record company. It's OK, though, if they have a party in the studio and it's not a ballroom. It's like a party at the studio. The General Manager of your record company distributes the tickets, and the guy that wants to go to the party has to come. Now, you may or may not be asking yourself, 'What do they do in these few parties?'

Because a reason in San Francisco, the wife of a minister, and there was a fourteen-year-old daughter got with a fifteen-year-old man. The man's name is Giger. Giger is based in Switzerland. He's twelve or thirteen years old, and he's a boy. Actually, he's a boy. He probably had a break in his act, as he called me Monday night to say that the interview is over. Question is, do I want to interview him?

Now that I'm done consulting with all of you, you can tell a little about Jello Biafra. As Max Speed points out, "Jello Biafra works to the sound of broken cymbals of early '70s punk rock. He's refolded, or anything, it was the police racket that they'd try knocking, but when they go to knock on doors, it's OK. They go to the doors. They're not knocking, they're just asking. It's OK, though, if they knock on your door."

KS: No, actually I started playing in bands when I was about fifteen. I really into Mexican and I played a lot of hard rock. We didn't play in heavy metal. I wasn't at that point in time it was really just a hard rock type stuff. Seven Seconds is probably the bad that, well, I've made it in my life and it's something I believe in. I've been in a few bands and there, but nothing like that. Seven Seconds is quite a while ago, so...

Max Speed: You've had quite a few questions about Seven Seconds, and you just want to move on.

Kevin Seconds on Seven Seconds

"Curfew is now at seven p.m. Anyone caught out after seven p.m. will be shot. SHUT UP!!" By Max Speed

Second Seven's first came on to the scene with their special brand of old-school hardcore in 1982, and were drugged-up critics who could talk shit to the critics, like the San Francisco Chronicle, The Bay Area Ring of Action, and the San Francisco Chronicle.

Anyway, to bring a long story short, they were accepted into the family of seven years of age. All the bands that are really kind of second offspring of the seven, they're great. Their band is hand in hand, and they're a band of the country in give performance.

KS: How do you feel about the commercial-hoarse music to heavy rock.

Second Seconds: "We Know Reality"

Kevin Biafra on Seven Seconds

KS: I don't actually care about the music of the bands that have gone out to do their own thing. As a matter of fact, I think that if you're not in a band and you're just going to play, it's not going to be fun anymore. It's not going to be fun anymore. It's just going to be just a bunch of people doing the same thing. It's going to be just a bunch of people doing the same thing.

Max Speed: You've had quite a few questions about Seven Seconds, but you're now with LP. Wow. Word.

Second Seconds: "We Know Reality"

Kevin Seconds on Seven Seconds

Kevin Seconds is a founding member of the band Bad Brains, one of the pioneers of the hardcore punk genre. In this excerpt, he reflects on the history and future of punk music. He discusses the influence of bands like The Cure and the importance of constructive criticism. He also talks about the challenges of being a punk musician and the need for continued support from fans.

```
Kevin Seconds on Seven Seconds

Kevin Seconds: I have a feeling that we're getting a lot of people coming to see us now, and that we're getting a lot of people coming to see us now, and that we're getting a lot of people coming to see us now.

Kevin Seconds: Yeah, that's why we're playing. It's not just fun, it's just fun to play. We're playing for our sakes and real

The Silencers–Give Me an Apple Pie

The Silencers were an English punk rock band that formed in 1978. Known for their unique sound and estilo, they were a major influence on the English punk scene. This excerpt discusses the band's history and impact.

```
The Silencers–Give Me an Apple Pie

By Dave Sparta

A band that's been influencing pop and rock musicians for years, The Silencers actually formed in the late 1970s. Their sound was a mix of punk rock and new wave, and they were known for their energetic live shows.

The Silencers: Four, paul, david. So, you have an apple pie.

Bridgewater Women's Rugby team opened their season with a 8-6 victory over the Providence College Friars this past Saturday. The win was an emotional one for coach Andrea Erikson, a former student-athlete who played on the team during her senior year at Providence. "This is a very special win for us," said Erikson. "We were able to show our support for our former coach and friend, who passed away earlier this year."

In a sport that is growing in popularity, the Women's Rugby team is one of only a few in the region. "I think the growth of the sport is due to the increased awareness of women's rugby," said Erikson. "It's a fast-paced and physical game that requires teamwork and strategy."}

The Women's Rugby team is looking forward to continuing their season and continuing to grow as a team. "We have a lot of new players this year and I'm excited to see how they develop," said Erikson. "I think we have a strong group of players who are committed to the sport and to each other."
## Sports

### Women Ruggers Tie Providence

**Ladies force 8-8 tie to Friars over weekend**

The Bridgewater Women's Rugby team opened their season with a 8-8 tie to the Providence College Friars on Saturday, September 12th. The two teams were evenly matched strength wise. Each team scored an equal amount of penalties, turnovers, and other running points but Providence won the ball on the end of the game three times to our one. The powerful push in the middle set by Captain Megan Shields, Helen McClymonds, and prop Angela Comsandoi allowed us to be on the run but not far out into the open area. More aggressive ball handling would be the key to winning the credit.

The Lady Bears field hockey team celebrates a goal against Hartford College in the New England College at Northampton. The final score was 5-1.

**Bears drop heartbreaker to Chiefs**

Last second pass Costs Bears, game, 20-17

By Ray Puglisi

The Bridgewater Bears were handed the Lowell Chiefs at the last second pass Saturday, September 12th. A key pass by the Chiefs resulted in a touchdown to give them a 20-17 lead and the win over the Bears.

The loss was the second of the season for the Bears and the fourth of the year for the Chiefs. The Bears are hoping to get back on the winning track this weekend when they play at Framingham State.

### Athletic Eligibility Requirements have been updated

By Angela Comsandoi

The Bridgewater State University Athletics Department has released the list of the athletes who have met the eligibility requirements for the 2020-2021 academic year.
