Ekman chosen by Trustees to be tenth President

By Ed Ward

The Board of Trustees chose Dr. Richard Ekman to be the tenth President of Bridgewater State College at their Monday night meeting. (See Classifieds section for brief biographical sketch of Ekman.)

Ekman is currently serving as Director of Research Programs in the Office of the President at Washington University, in St. Louis, Missouri.

Ekman expressed his gratitude to the Trustees for giving him this opportunity. He said that he is deeply honored to be chosen to serve as President of Bridgewater State College.

Ekman also thanked the search committee for their hard work and dedication. He said that he is looking forward to working with the faculty, staff, and students of Bridgewater State College.

Ekman's appointment becomes effective immediately, pending approval by the Board of Regents (of Higher Education) of the Commonwealth of Massachusetts.

Ekman will succeed President Marcia Medeiros, who has announced her intention to retire at the end of the academic year.

Medeiros has served as President of Bridgewater State College since 2007, and has been a leader in higher education throughout her career.

Ekman's background includes extensive experience in higher education administration, and he has a strong commitment to student success and social justice.

Ekman's appointment is expected to be formally announced later this week.

Rape in the 1980s: A Fear for men as well as women

By Bryan Hayes

Although women are more likely to be the victims of a rape assault that are men, there has been an increase in the number of cases of rape. Unfortunately, for these victims, most of these assaults are never reported.

The four categories of rape are: 

- Consensual

- Force

- Intimidation

- Rape

The definition of rape is determined in written definition by the Massachusetts General Court. In 1986, these views were completed. The courses here are taught in English.

There are, also, four universities which teach courses in French. They are Universite Laval, Universite du Montreale, ‘Concordia University, Universite de Sherbrooke. These four are also in Quebec.

One exchange is in Europe, at the Oldenburg University, in West Germany. The courses here are taught in German.

There is, also, the Shanti Teachers University, in Moscow. Crossover stated that the exchanges may be one or two semesters in duration, depending on the exchange.

Crossover also stated that the deadline for applications to be submitted is February 17, 1989. The application deadline for the Office of International Student Affairs, in Boyd Hall, across from the Office of Student Services.

Thank you, come again

Well I'm come here. Bryan Hayes will be the new Editor-in-Chief when The Comment starts up again, up against President Johnson this January 26. But to the point and not at all correct. I'll miss his job. It was a lot of fun and the staff was pretty cool (interesting). He was a bit of the The Comment's more recent Editors-in-Chief. In Spring, Brennan Ross (one issue, but solid, right Scott), Bill Bilodeau (now), and I don't even class him anymore. They were professional and they did great; I'm a hack. I joined the newspaper because I thought it was fun and for no other motive, and I became Editor only by a strange quirk of fate which, I think, will get us back in the end. It was a challenge.

Well, enough about The Comment. Let's take a look at what happened this semester.

Congratulations to SA for winning the singles-heads of the year award. Congratulations to Dave Weitz. Good job, Dave, but one note to the small. It would seem that many of the congressmen don't trust you anymore. President Johnson ran into a similar problem over the evil menace of MassPIRG. Why? The Administration managed to take them off by the 25th of May, but from then on, they became Editor only of 2 issues (so far). The new Editor-in-Chief, Brent Rossi (one issue, but solid, right Scot?), Bill Bilodeau (now), and I don't even class him anymore. They were professional and they did great; I'm a hack. I joined the newspaper because I thought it was fun and for no other motive, and I became Editor only by a strange quirk of fate which, I think, will get us back in the end. It was a challenge.

The Comment

We all know enough about the cultural challenges we face. They are as much a part of our everyday lives as the morning coffee or the commute home. The Western world, with its emphasis on individual expression and personal freedom, is at odds with the Eastern world, which places a greater value on community, harmony, and conformity. This contrast is evident in our art, architecture, and literature. While the Western world tends to favor realism and abstraction, the Eastern world prefers naturalism and symbolism. This dichotomy is also reflected in our education systems, where the Western world emphasizes critical thinking and problem-solving, while the Eastern world places a greater value on rote memorization and背诵。Despite these differences, we must find a way to bridge the gap and learn from each other.

Scrooged: 'Yule love it!'

By John Buea

Carol, probably the closest he will do to a serious role, was portrayed by Bill Murray, a ruthless, overbearing, and successful television producer, who is " touched" by Dickens while setting up a live, satellite-connected, intercontinental production of Scrooge.

Alpha Epsilon gets the house

Alpha Epstein, the fraternity president on probation of Greek Council, has been placed on double security with Dean Minor today in a meeting with the members of Alpha. Jones told them today, "Fat, drink and stupid was no way to go to college." Then ordered the fraternity to take security to its most highly built President House. (Yes the house that keep back problems) They can be carefully observed and the College can be quick to act on any wrong doing. One Friday and the brothers will be housed from campus for good.

This will sort of be a house warming for the brothers, it was on that same piece of land that former fraternity had house which was burned down twice. Alpha attempts to be the "good girls" on campus. Saturday they promise their second annual pig roast. The roast will be at the house and the back of a BSC Lid.

Jones warns students that: "Involving with Alpha brothers could bring your reputation lame on life. Go on your own discretion."

No brothers were available for comment.

T.V. talk show hosts come to BSC

Downey, Donahue, and Rivera set to give lectures

If you are looking for some interesting lectures to attend the College has for you. The Board of Trustees Committee has come with a great selection of speakers.

The three scheduled guest will definitely add to the scholastic atmosphere knows well here at BSC. The series of lectures begins with Marilyn Downey Jr., one of the "Mornin Downey Jr. Shows," Geraldine Rivera of "Good Morning America," and Phil Donahue of "Donahue." The right, the "T.V. Talkshow talk show hosts are coming, so you fix your plans from now on and buy your tickets to see them live.

First, for a liberal dose of conservativeness knows well here in the big mouth himself, Morton Downey Jr. Downey will, of course, address the aspects of issues that are reason for a discussion situation. So, for students who are interested in learning facts and good reasoning from a great source of knowledge. Donahue will also talk about the importance of knowing both sides of a story.

The two guests who we are going to be present will be Downey and Rivera. Anyone whose views differ from Downey's have been known to," be very accurate know when to "zip it." Talk can be, as often, or rather, taught, as any other good talk show host.

The next guest speaker to appear will be Geraldine "the broken nose" Rivera, the self-made talk-show host whose talk will center around what real journalism is all about. Future journalists and reporters take notice because Rivers will show you the path to a "sensational" success going on.

You can learn first hand how to become a successful career. He will talk about his experiences from those Cisco, informative shows such as "Good Morning America," to more impressive ones like "Good Morning America." What he also does in the show is that he will also be a part of the show. It will be of great help to the students. "The show that is to come will be in the back of the house.

The reason behind this is that the heart of Rosenberg is planned with all the cast colleges so that people will be completely during break. In a place to wake up for the Deluiskis screw up to the college students are gonna pay.

Now, everyone are home during winter break and you have some time to kill by your travel agent and cancel your plans for spring break. Like, it's going to be spring break in Bridgewater tabs. The bright side the Campus Programming Committee is planning a spring break dance.

Food Service Alterations

The Morrison's-Custom Food service announced on Wednesday that they will not raise the cost that students pay to eat the food on campus. Instead, they will limit the number of meals students eat.

Dave Zier, the Director of Food Services, stated that, "I cannot help what this company is doing. It's not my fault, don't blame me.

The service states that they will have people checking to see that students are limited to seven meals per week. "It's the only way we can make money," said an official from Morrison's.

Representatives from the Catholic Center and Don-Asiatics say they are struggling with this new plan, "for every American can afford to lose at least five to 10 meals a week. This plan will be initiated immediately.

A television set in Scott Hall got sweet revenge this week when it threw a rugby player/student out of a window in his death.

The television set, which is in custody at Campus Police, told they have nothing left to do, except guard television, will be set out for observation.

When members of the Office of Housing and Residential Assistants entered the room, the television was flashing a Toyota commercial, exclaiming, "oh, what a feeling."

The motives for the television was revenge. Several months earlier, another television was thrown out of the same room to the death.

Heat in Building is Reduced

During the months of October, the heat in the Maxwell Library and the Boyd Hall was set at a temperature which was one half. In order to compensate for this energy and money loss, the heat will be turned off for the rest of the year.

"The students should have enjoyed it whilst it lasted," said a member of the building management. "They will be getting from Bernal Park to an America one of the buildings.

Student Government Association, Vice President David Wills, said that the Board of Directors did not have the authority to reduce the heat. "It's the only way we can save money." He said.

Police answer switchboard

An exciting event has occurred on the campus of Babson College. Over this past weekend, the police who run the switchboard services on the weekends answered mail phone lines for the first time. Yes, Campus Police did it again.

Earlier in the year, Campus Police Chief Fortunato “Tardy” Grana stated that there were numerous phone lines which they must take calls on first, before answering the one which the switchboard is on. Somehow, the weekend switchboard was answered.

The student who called the switchboard, who opted to be anonymous, noted that he, along with numerous others, was matched up with other offices on campus, was amazed by their service. “They actually answered they were capable of transferring calls to other buildings. I forget why I was calling when they said it would be impossible to place the call.”

Grana stated that there was no more confusion concerning the switchboard, “We, the Campus Police, would be happy to help you with that.”

They also mentioned that the students of the campus were right, Campus Police did not even know the responsibilities of answering the phones, as well as assisting with various questions that do not agree with their own.

“We realize that we are not necessarily trained in that aspect, but we are accepting of the other side of an argument,” one member of the phone staff explained.

He also stated that all members of the force have been instructed how to answer the phones, as well as speak on it. They will also work on their major problem: being responsive to student’s needs.

“It does a phone call will make them happier, then it will be the least we can do,” said Officer Connaghan. “Also, do you go our salutes.”

The Campus Police would not say who they would salute to try and answer the phones as long as they were capable of answering such a request. But, they were confident in their ability to do so.

**Student apathy at all time high for concert**

Last Saturday night the Campus Center Program Committee sponsored Springsteen and the E Street Band in the Campus Center Ballroom. The concert was exciting and dynamic, except for the only people who were there. Members of the Program Committee. Someone, it is felt, that it was their own personal show, however, it would have been better to share the experience with friends.

Steve Almos, the chairman of the committee, himself disagreed with the show. He said that the students who purchased tickets do not understand that the money they spent becomes gratifying art. No one bothered to ask what the spirit of the concert was. There were flyers, posters, and banners available and posted all over the campus. Did anyone notice that Bruce Springsteen was going to be the big musical band this semester. Fortunately, due to the success in the RSC in the college, the college has invited Michael Jackson to play at the ballrooms. Almos is hoping that more people attend their concerts that those who showed up for Springsteen.

Almos also raised another issue being the leader of the Program Committee has ideas to progress events for the college students. He said why should we bother to spend the students money when they don’t even choose to go to the concerts. But, Almos will let those people who did not attend the concert get his turn.

Michael Jackson should bring it a big crowd.

Springsteen seemed shocked to perform in front of a small crowd. The whole venue is summarized because of playing in New York with the nickname,

Man of the Year

This year the Boards of the NCAA, ECAC, and a collection of college athletic directors looked over all Division 1, 2 & 3 school athletes. Their objective was to find the best all-around athlete in the nation.

The boards met frequently for long periods of time looking for prospective candidates. Extensive scouting went into the program. By November, they were able to narrow the list to ten, until last night they announced the top three athletes in the nation.

Martin Lans was chosen unanimously by the joint boards. Lans is an all-around athlete in every sport such as football, basketball and spring soccer. In football, he averages 80 rushing yards a game, and kicks over 70 yards away for the same point. He is also a leader in basketball as well, where he scores roughly 42 points a game. Also, Lans has broken 18 goals back towards from slams and dance. In spring soccer, he is also a top scorer as well, averaging five to seven goals each half in a game.

"However, Lans is more than just an athlete" said the special committee. Lans, they said, carries a 4.0 in all of his classes. He is currently a Chemistry/Biology/Pre-med triple major with a concentration in Linguistics and Biochemistry. Lans is president of his class, an active member of three clubs and is now looking for something new and exciting to do.

Lans is known to attract a crowd, he is witty, funny, charming, intellectual and surround by boards of women. Though Mr. Lans wouldn't comment on his girlfriend's true name, he did say her nickname was "Mango Head."

Lans was happy for the choice number one in the nation, but says he really didn't expect to win the tough competition. He feels that the decision was the right one, and that he will be able to attend the banquet next week.

Vice President White saved by one vote

By Bryan Hope

The Student Government Association recently voted to sustain the "not guilty" verdict in the impeachment trial against SGA Vice President David White. The trial was held in the Council Chambers on Thursday, December 8.

The verdict of not guilty, which was conducted by secret ballot, was won by vote of 3 to 2. In order to convict a two-thirds majority, or 6 votes, was needed.

The trial began with Attorney General Craig Hall, and then White, making their opening arguments. Hall stated that he had listened to the testimony of the witnesses and felt that White had committed perjury. White said that he had been asked by the President of the United States to receive his trophy next week.
